agreeably to the directions of the Board begged to state that he had written to Mr Ritchie Agent to Messrs D. & J. McDonnell, Sewed Muslin Manufacturers, to know if he would give higher or better prices for the work done, laid before the Board his reply and at the same time had to observe that when writing to Mr Ritchie he did not state what the girls outside were able to earn per day, merely said that they complain of not being able to earn what would support them, as to the girls in the Workhouse being cut for bad work it is no such thing, on the contrary always heard the Embroidress express ah[igh]h opinion of the girls and the work done by them, on Her last occasion she received extra payment for the work it being superior to that done outside which shows they were competent to execute a higher class of work.

Suggested that the Board make application to Mr John Power Sewed Muslin Manufacturer Dame St. and procure a fair price from him, so as to ascertain his terms.

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon as follows:—

Mr Ritchie's letter was as follows:—

Dublin 12th Nov. 53.

Sir, I am in receipt of yours of the 11th inst. and in reply beg to say that we shall give the girls in the Union 1st or highest price work provided they are able to execute it in a proper manner.

The following Letters from the Poor Law Commissioners and others were read by the Clerk, and directions given to answer them respectively, to the following effect (or Orders made on them respectively as follows):—

The goods executed in the Workhouse this some time, have been mixed among those executed in Wexford and I have not been able to discriminate between those done at the two places. At the same time if Mr Wallace saw that the girls were competent to execute a higher class of work he should have given it to be done. If however he has been supplying 4th or low priced goods and has had to deduct even upon these for inferior work it does not indicate much proficiency.

With regard to the complaints of deducting a work, you don't say if the work is good that is fined, you must know that if the work is bad deductions must take place

9

as a matter of course, as to the other point alluded to in your letter viz. the length of time taken to complete a piece, I have complaining about this to Mr Wallace for a length of time.

That 1/2 p day only, should be earned in the Workhouse is nothing strange, but that it should be the same way outside, as you allege, is altogether disgraceful. I must utterly deny that a worker with ordinary ability, and using ordinary diligence can make no more than a 1/2 p day. Such a statement is a libel on the trade if it is inferred hence that it is on account of low prices. I assert that it must be on account of the carelessness of the worker to improve, & her laziness to work, that so little is earned.

How is it that 10. and 1/- p day is earned elsewhere at the same description of work and similar prices.

If nature cannot be supported until we advance prices above their present rate, to the extent that would enable girls to support themselves, supposing them to be able to earn 1/2 p day only, at the present rate, then I say it would not be wise to expect such a thing from us. If we were doing such a thing I have no doubt that the tendency of matters would be to bring us to their level.

To earn wages not only labour but skill must be employed, and that continuously and actively.

With these there is no doubt of the Embroidery affording as ample remuneration as any, and more than the majority of employments suitable for female Industry.

Yours truly
John Ritchie

The Masters of the Workhouse
Enniscorthy.

Ordered. That advertisements be issued for sale of the Cabbage. That the consideration of procuring Cocoa nut fibre as a substitute for Straw be postponed.

That Tenders be received for Ten Tons of Oatmeal to be taken within next three months.

That the Master write to Mr Brown of Bangor for some prices of Embroidery Muslin to be marked in the Schools, also that the Master write in answer to Mr Ritchie, that in future the work done in the Establishment shall be marked with the Enniscorthy Union in color that will wash out, and that as a protection to the Workers & Establishment the Guardians request that the Patterns sent in future shall be marked with the price of the Muslin as well as the price to be paid for it, as under the statement made & published by Mr James M. Murphy Agent at Carrickmines.

The case may arise where it would be desirable to pay the price marked on the Muslin rather than submit to a price lower than that marked on the piece as its value when properly worked. That a class of work likely to be better paid for, be also requested.
