P. L. Commission Office Dublin  
10 Sept 1846

Sir,

Adverting to the information received from the Board of Guardians regarding the state of the Potato Crop in the Banis constituency Union I am directed by the P. L. Commissioners to express their deep regret that the report of the Guardians is to so great an extent unfavourable. The Commissioners anticipate in consequence hereof a great increase of poverty and distress among the labouring population of the Union and it is their earnest wish that those means of affording relief which the Law has placed at the disposal of the Guardians should be made available to the utmost practicable extent - They recommend therefore that the guardians should promptly bring under review the subject of their Contracts for Provisions and other supplies the present state of their stocks of Bedding and Clothing and the general state of their Finances so as to be prepared in due time for an accession to the number of inmates which the present circumstances of the Union render probable. In making high preparations the Commissioners urgently advise and call upon the Guardians to base the Estimates for their financial & other arrangements on the assumption that the whole accommodation which the Workhouse affords will be placed in requisition during a considerably long period commencing from the close of the present autumn. The means of employment at the disposal of the Guardians being limited it will be a source of satisfaction hereafter both

Both to the Public and to the Guardians themselves if nothing be left undone to make the utmost use of those means to far as may be found necessary especially in the relief of the Primary Objects of the Irish Poor Law - Aged, infirm, or otherwise disabled Persons, to whose relief the recent measures of Parliament enacted for the employment of labour apply only in an indirect manner - and who may therefore be compelled to form the class most liable to destitution in consequence of the present calamity - what number of inmates may be safely and properly accommodated in each department of the workhouse is a question upon which the Guardians will not fail to consult their Medical Officer from time to time as occasion may require with reference to any change of the Workhouse Dietay which may become desirable through failure of a supply of bound Servants the Commissioners call the attention of the Guardians to their sealed Order of 27th October last which remains in full force authorising such departure from the Prescribed form of Dietay as to the Guardians subject to the approval of the P. L. Commissioners - shall seem fitting & expedient. The Assistant Commissioner in superintendence of the Union is specially instructed to afford the Guardians on this occasion all the assistance and cooperation it may be in his power to give -

(Signed) B. Banks,  
Clerk, first class.
