directions given to answer them respectively, to the following effect, (for Orders made on such occasions respectively as follows :) One from the P. L. Com-
= missioners adverting to the
Circular letter addressed by them
to the Clerk of this Union on 26th of
June last on the subject of the Insurance
of this Workhouse from Fire and transmit-
= ting for the information of the Board of Guardians
a copy of a letter which the Commissioners
had received from the Dublin Agent of the
An Life and Fire Insurance Office relative
to the storing and manufacturing of Wool in
the Workhouses - further stating that the sub-
= ject is of importance as regards the validity
of the Policy of Insurance which contains cer-
= tain conditions with respect to the manufac-
= ture of wool and other materials of a highly
inflammable nature on the Premises.
The Commissioners request the early at-
= tention of the Guardians to the subject
with reference to the responsibility resting
on them under the 60th article of the General
Workhouse regulations - and state that it
will be desirable that the consent of the
Agent of the Insurance Company to the
Manufacture of Wool in the Workhouse should
be obtained on the Policy of Insurance.
The enclosure referred to in the above
Communication

Communication of the Commissioners states that the managers for the Lin. Fire Office will admit the spinning of wool by hand in the Union Workhouses of Ireland without extra premium but that there is an objection to allowing carding or combing of wool by hand as there is generally a pot used for heating the combs. If however a warrant is inserted in the Policy that no fireheat is used in the Process it will be allowed if done by hand only without requiring an additional rate. And if comb pots and fireheat be used an additional premium of 1/- per cent would be required.

The above communications were satisfactory to the Guardians so far as they went viz the spinning of wool; but there having been always more than wool spun by hand in this workhouse the Clerk was directed to write to the Commissioners that they might obtain if possible the same license allowed for flax as for wool. and in the mean time the Clerk was directed to write to the Agent here suspending the instructions given him by the Board's order at last meeting to insure at the additional premium of 1/- per cent

The following Letters from the Poor Law Commissioners and others were read by the Clerk, and directions given to answer them respectively, to the following effect, (or Orders made on them respectively as follows):

One from the P. L. Commissioners relative to the Subject of Insurance and recommending that the Board do themselves apply to the Agent of the Insurance Company with respect to the Spinning of Flax in the House - The Board of Guardians being under the terms of the both Articles of the Workhouse Regulations responsible for the Insurance of the House from Fire. - The Clerk stated He would apply as recommended.

Another from same stating that they have read before them the Minutes of proceedings of the Guardians of this Union on the 30th ultimo from which it appears that on that Day there were 606 inmates in the Workhouse which was built to accommodate 600 Persons - The Commissioners deeply regret the destitution which exists at the present time in the Enniscomorthy Union and they are satisfied that the Board of Guardians are anxious to do all in their power to relieve that Distress.

The Commissioners now it right to call the serious attention of the Board of Guardians to the danger which must

Must necessarily arise from admitting into the Workhouse a greater number of inmates than the Institution was intended to contain and they wish to press upon the Board of Guardians the propriety of being guided by the Medical Officers in forming an opinion as to how many inmates the Workhouse may receive without risk of engendering Disease.

The Medical Officer was sent for and having waited on the Board states that under the present arrangement of the Buildings he did not think it would be safe to take in a larger number than 700 and that that number could only be taken in by having proportionate numbers of the several classes.

Provisional Admissions into the Workhouse, and Applications for Admissions were considered and decided on, as set forth in the Application and Report Book.

The number of Provisional Admissions confirmed was	23
Ditto, disallowed	0
The number of Applicants admitted was	52
Ditto rejected	4

The Bonds and other Securities in force were laid before the Guardians by the Clerk, together with his Report thereon, as follows:— (this on the second Meeting after the Annual Election in every year.)

Orders were signed and countersigned for

50 pair of Sheets,
50 Rug
2 Doz Copies New Testament,
17 Stone Old Rags for floor cloths,
500 needles,
1 Wooden Bowl for Hospital,
12 Dozen Iron spoons—
200 yd 30 inch Drogheda Linen,
4 lbs Black Lead & 1 lb Lard.

Ordered — That the Master do have the Well clear of Water by 7 O'clock A.M. — or tomorrow morning for the purpose of having the Pump Machinery put Down — and that 150 pair of Pumps (shoes) be advertised for.

It appearing evident that the Expenses of C. Pitham and her 3 children have been erroneously placed to the Division of Templeshambo — Ordered that they be discharged and readmitted upon the Division of Killeary, Kildan —

A Deputation from the Drapers of Omiscorthy waited upon the Board complaining of the fact that after tenders and Samples of Bedding &c (which had been invited in) were examined and made Public — the Board accepted no tender — But decided on sending for the Goods to Dublin. — After a good deal of Discussion on the matter the Board decided to take tenders Anew from all Parties viz Here and in Dublin and then give the contract to whosoever gave the best value.

The meeting adjourned to Friday 13th of November 1846 — 11 O'clock A.M.

One from the P. L. Commissioners acknowledging the receipt of the Clerk's Letter of the 2nd Instant which contained an inquiry as to the proper mode of charging the cost of the relief afforded to an illegitimate child admitted into the workhouse without its mother - the child having been at Nurse in a different Electoral Division to that in which the mother resides. That the Commissioners regard the relief given to the child as in fact relief given to the mother and in reference to the point of Law the Commissioners are of opinion that the Board of Guardians acted correctly in charging the expenses incurred in respect of the child to the Electoral Division of Comisworthy.

The Commissioners however would strongly recommend the Guardians not to give relief in the workhouse to the child without the mother's tendency of allowing the mother in such cases to remain out of the workhouse while the child is maintained in it is to apply the workhouse to a certain extent to the purposes of a Foundling Hospital. Resolved That the consideration of the case to which the above letter refers be postponed until this Day week.

One from the Dublin Agent to the Insurance Company stating that although the managers will admit the risk of carding and spinning of wool by hand only when Fire Heat is not used in the Process - They require an extra premium of 1/2 - 1/4 cent on the sum insured for permission to spin Flax in the Building the latter process being much more hazardous than the former.

The Clerk was directed to write to the Agents of the Insurance Co. in this town offering on the part of the Board to insure at the extra premium of 1/2 - 1/4 cent for the purpose of spinning Flax in the Workhouse.
