Medical Officers Report

That some Zinc Basins, Cruetsticks, Spittoons and Chambers are badly wanted for the Infirmary. There are several Spittoons in the Ward which might be repaired and would then answer, there are also some foot-warming pans in want of repair — a Hoop is wanted around the Water Reservoir for the Pharmacy, there were Curtains of Marino or Serge made long since but not yet put up to the Windows in the Eye and other wards. Having examined the Calico intended for sheeting they learn to suggest that a better material be procured for the Infirmary, Linen would be much better for sheeting.

Ordered, That 1200 yards of Linen be procured from the Contractor at 9³/₄ p yds half bleached.

A Committee consisting of Messrs Crookman

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

and Mr A Le Hunt having been appointed to visit the Infirmary they reported that they considered there is at present required for use in the Infirmary green blinds for six windows in the Eye wards, 4 do of new Chambers, Six tin Basins — Six Cruetsticks of Sheet iron tied over — Six new Spittoons — the old ones to be repaired ^{foot pans and opening}, and a Hoop to the Water Cask — also a quantity of Linen required for sheeting in the Infirmary — the Calico being too light a material.

Ordered, All these requirements allowed,

Ordered, A Committee having examined the Calico report it equal to if not better than Sample. Resolved to be issued for a Shammaker to repair the Sacks at 50 much per pair or at 50 much per sack - to be considered on next Board day.

Agriculturists Report

The Agriculturist reported that in consequence of the unfavorable state of the weather he had not commenced sowing the wheat he was occupied during the week repairing the injury done by the last frost to the covering of the Mangold and at the drain in the Mangold field.

The National School Report Book showed the following entry.

That he examines all the Pupils in the Subjects ordinarily taught in National Schools but with more especial reference to their proficiency in Reading and Penmanship, Subjects which ought to

receive paramount attention in Schools for the Poor.

In each of these the Children acquitted themselves remarkably well and were particularly gratified with the Reading — the Intelligence of the explanation and the acquaintance with Elementary Grammar and Geography shown by the Third Class pupils.

To mark my sense of this good proficiency and satisfaction with the healthy tone of the School in general — I shall have no hesitation in recommending Miss Harris the Teacher for a first class gratuity

The Visiting Committee reported that having visited the House today at 11 o'clock they found it clean and orderly — all the Cornitories well ventilated — the Salutes appearing to be contented and no complaints. We visited the Mid wards and found the Ward Master Farrell paying proper attention to his duties. We then visited the general School and examined several classes — We are glad to state that the answering of the girls surprised us and showed the great attention paid by their mistresses ^{Mrs Harris} to the cultivation of their minds both literary and moral.

Ordinary Proceedings

The Board proceeded with the Consideration of
Claims for Relief in the W House and Union Fever
Hospitals — also to Out door Relief in certain cases

Margaret Cleary and illegitimate Child
applied for admission to the W House — the father
the alleged to be Owen Neill of Ballynagat —
— She was admitted.

Letter was read from James Cleary Ballynagat
informing the Board that he will take out
the Child of which he is the alleged father
now in the W House with the mother
Ann Byrne provided she gives it up to him
quietly. Ordered. The Master is requested to
advise Ann Byrne to give up the Child to James
Cleary who is a very comfortable Farmer.

The following letter was read and ordered to be
placed in the Minutes.

Gentlemen As Chairman of the Magistrates
at Petty Sessions in this town upon Monday last I beg
to enclose a letter I found on the Bench upon that day
The person alluded to has been in Custody for 5 days
and in the absence of prosecution on part of the Union
was by me discharged.

This is the second instance that has occurred before
the Bench in this town — as on a reference to the Books

The Bonds and other securities in force were laid before the Guardians by the Clerk, together with his Report
thereon, as follows: (this on the second Meeting after the Annual Election)

I find that Solatety as the 22nd of Last September
a woman charged on oath with absconding from the
Union and taking with her clothing the property of the
Union was discharged by reason of "no appearance"
upon the part of those whose Informations had caused
her to be kept in Custody for 4 days. I regret that
a body of Gentlemen should through their Officials
have thus brought the Law into Contempt and feel
justified in saying that if the internal economy of
the Union is similarly carried out — if paupers
are allowed to steal the clothing and leave their
relations chargeable on the Union Unpunished by those
whose duty it is to prosecute — I am not surprised at
the Rates in this Division being at the rate of 2/6
in the Pound

To the Board of Guardians &c

Signed
Thomas Fetherston

Enclosure

W House 8 Dec 1862

Respected Sir, Having to attend at
the Office of Mr. Faour this day I am prevented
from attending the Petty Sessions Court and have therefore
to call your attention to the Case of Kehoe which appears
to be a Case of dispute between man and wife.

The Guardians do not wish to proceed
against him if you would have the kindness to settle
the affair between them. On hearing both Sides
of the question you will be able to judge the affair
and give your decision: Kehoe's wife was only
a short time in the W House and I believe came in
solely for the purpose of proceeding against him, She
was admitted on the 24th of July last and left on the
20th of August

To the Chairman

Bench of Magistrates &c

Signed
George Maguire
Master

Ordered. That the Master furnish his explanation
in writing and the same to be placed on the Minutes.

Gentlemen With reference to Sir Thomas
Fetherston's letter I beg to say that as regards the
first Case where he endeavours to throw blame on
me I emphatically deny without fear of contradiction
that I ever neglected attending Court when it was my
duty to do so unless otherwise particularly engaged.

In this Case the wife of Kehoe who swore the
Informations against him was present before the opening
of the Court and during its sitting altho Sir Thomas

would make it appear that there was no one present to prosecute. In another part of his Letter he endeavours to make it appear that there was an immense loss in the case of Anne Lacy who absented herself whilst working on the farm for about 3 hours in going to see her friends - but who brought back every article of clothing she took on her person and as there was no loss whatever in this case save the time - I do not suppose it can be any - even the least effect on the Poor Rates.

His allusion to the internal management of the Workhouse or rather mismanagement I can also state without fear of contradiction is as unfounded as can be - the management of the House is carried on to the best of my judgment and that of the Board of Guardians attending to strict economy in every department.

The Agent turned who sworn the depositions against Anne Lacy left here at half past 12 o'clock the 22nd September to attend the Petty Sessions and I am perfectly satisfied he lost no time as he returned shortly after saying the Court was over and if the Court broke up at an unusually early hour I could not help it, but as I was not a witness in either case I am not at all accountable, yet I would feel it my duty to attend the Court if circumstances permitted me to do so.

In the case of Nelson I am clearly of opinion it could have been proceeded with without my attendance and in both cases I again repeat there was no neglect

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

Masters Report

He hoped the Board with their usual kindness will order a meat dinner to the inmates on Christmas day and appoint a Committee to select the Meat on Wednesday next.

A person named Anne Stafford aged about 63 yrs was admitted provisionally by the Receiving Officer about 12 1/4 O'clock on Wednesday the 17th instant died about 7 1/2 past 9 O'clock next morning. He reported the matter to the Authorities who had an inquest held and the Jury returned a verdict that deceased died of General Dropsy.

Ordered. A Committee Consisting of Messrs. Alder. Simons, Cullen & Stone Consents to select the Meat. The same Committee also examined the provisions laid before the Board for inspection by the Master and reported them to be all of good quality.

The Report Book of the Agricultural Inspector shows the following entry, Agricultural instruction is in fair proficiency.

The Supply of agricultural Books is sufficient Supply their condition satisfactory. The Agricultural Class book is read Farm Management — the rotation alternate from a Green crop — Cultures tolerably efficient — Cropping fairly successful — Farm Offices — none but a Tool Room and Stable, Live Stock — none kept but draught animals, Implements and Machines — the same as at my last visit, Manures are carefully managed, Farm accounts — kept by the Master of the W House, I should be well that the Agriculturist should also keep a record of the pecuniary transactions.

The classes in literary departments to which agricultural pupils belong are Third Class 8 — Second 12 and Second 3 — Total 12. The observance of former suggestions have been fairly attended to.

I am enabled to report a satisfactory amount of improvement in the Agricultural Class whose answering on this occasion displayed a very fair amount of proficiency and intelligence. The farm management is in a tolerably fair state of efficiency. There is a considerable amount of preparatory tillage effected but the extent of winter grain cropping at present is not equal to what had been accomplished at this time in former years.

Commissioners Letters

Agriculturist's Report.

Ordered, That the following letter be entered in full on the Minutes —

At Commission Office
Dublin 19 Decem^r 1862

Sir The Commissioners for administering the Laws for relief of the Poor in Ireland have received Mr Hamilton report of the inquiry which he held on the 10th instant in pursuance of the Commissioners instructions and in accordance with the request of the Board of Guardians of Emmet's Union as expressed in their Resolution of the 15th ultimo into the circumstances connected with the death of Anne Humphrey which took place in the W House on the 31st October last. It appears by the Record which was returned at the request that the Jury came to the conclusion that Mary Humphrey the Nurse in Charge was guilty of manslaughter.

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:—

That Mrs Fraser the head Nurse acted injudiciously in not leaving one of the Ward women in her presence with Mary Humphrey and in not sending for a Clergyman and that Dr O'Rourke the Medical Officer of the W House acted wrongly when giving his report to the Police in not associating them with all the facts attending Anne Humphrey's death.

Mr Hamilton reports that he was requested to inquire into the Medical treatment of the case and whether or not Instruments should have been used — but that he declined to enter upon that subject without special instructions there being no allegation that in this respect the case had been neglected and with the information before the Coroner was the verdict of the Jury appearing very grounds for believing that the treatment had been improper. It appears to the Commissioners that Mr Hamilton was right in declining to enter into an inquiry as to the Medical treatment of the case under those circumstances, but at the same time they desire to observe that the evidence produced both before the Coroner and at Mr Hamilton's inquiry appears to be quite sufficient to negative any suspicion of improper or defective treatment — it appearing that Dr O'Rourke finding at an early stage of the case that it was a complicated one requested two other Medical Gentlemen Dr Sheridan and Dr Goodisson to see her with him and that both these Gentlemen saw her on two occasions and expressed themselves satisfied with her treatment and the way in which the case was progressing and did not think it necessary to resort to the use of Instruments.

The following appear to be the facts of the case as disclosed in the evidence taken before the Coroner and by Mr Hamilton at his inquiry on the 10th instant. Anne Humphrey aged according to the Registry 34 but probably from the evidence some years older — was admitted to the W House on the 22nd September last. She came in for the purpose of being confined. She appears to have been in good health on the morning of Wednesday the 29th October. On that day she was admitted to the Infirmary and placed in the Lying-in Ward. She was attended by Mary Humphrey one of the Sumatry who has been for some years midwifery attendant in the W House. Doctor O'Rourke visited her about 8 o'clock that evening. He found the case complicated and difficult and he remained in the Infirmary for two hours on that occasion and left with directions that if any thing occurred he was to be sent for. On the following morning (Thursday) Dr Sheridan & Goodisson saw the Patient with him and it appears from

the evidence that they were satisfied with the way in which she was going on. A female named Mary Hogan sat up with her on Wednesday night as well as Mary Humphreys and Mrs Fraser the head nurse remained up until 2 a.m. on Thursday. Mary Doyle the paid Assistant Nurse also saw her at 2 o'clock a.m. on Thursday. Dr O'Rourke visited her again on Thursday evening and found her progressing favorably.

On Thursday night a Wardsmaid named Eliza Redmond sat up with her Mary Humphreys being still in immediate charge of the patient and she was visited at 2 o'clock by the head Nurse who also saw her again at 4 p.m. on Friday morning. Mary Doyle the Assistant Nurse appears also to have repeatedly visited her.

On Friday morning Anne Hennessy was again visited by Dr O'Rourke and Doctors Goodisson and Sheridan.

Dr O'Rourke states that the labour was still progressing favorably with every appearance that the case would soon be well without any interference and Doctors Goodisson and Sheridan appear to have been quite satisfied. Dr O'Rourke remained some time at the Infirmary and then left after giving instructions as to sending for the Chaplain or for himself. He returned to the Workhouse shortly before 3 o'clock and having remained about 15 or 20 minutes in the Board Room he proceeded to the Infirmary and on entering the Lying-in Ward he asked Mrs Humphreys how was Anne Hennessy who replied (from the bed on which she was lying) that she was quiet and at rest. Dr O'Rourke then went over to the bed where the patient was lying and found her dead - but warm.

It appears to the Commissioners that there is no ground whatever for attributing neglect in this case to any person up to within a very short period before death occurred and the only question that remains out of the case is whether Mary Humphreys had not watched the patient with sufficient attention during the interval between the period when the head Nurse last saw her (about 2 o'clock) and the time she was found dead.

Mary Humphreys being in custody Mr Hamilton did not examine her to obtain her own explanation of the circumstances - but there is evidence that up to within a quarter of an hour of the death of Anne Hennessy Mary Humphreys was not asleep and the impression of the Medical Officer is that when he spoke to her on entering the Lying-in Ward she was not asleep but she was lying down.

One of the Witnesses (Catharine Roche) deposes to having spoken to Mary Humphreys about a quarter of an hour before the death.

The Bonds and other securities in force were laid before the Guardians by the Clerk together with this Report thereon, as follows: (this on the second Meeting after the Annual Election)

of Anne Hennessy was discovered and states that the woman was at that time sitting up in the bed resting on her elbow - drinking out of a mug and Mrs Humphreys lying on her bed about two yards from her. Anne Hennessy was also seen and spoken to by a Wardsmaid named Eliza Redmond about a quarter of an hour before she died.

The reflection upon Mrs Fraser for not leaving one of the Wardsmaids with Mary Humphreys appears to have reference to the circumstance of her being sent for to the Board at about 2 o'clock in the afternoon of Friday, and leaving Mary Humphreys (who had been up the whole of the two previous nights with the patient) - alone in charge of her. It appears however that there was assistance within hearing if needed and there was at that time no reason to apprehend danger and Mary Humphreys did not appear to be fatigued.

In regard to Mrs Fraser's omission to send for the Chaplain it is to be observed that she mentioned the subject several times to Anne Hennessy but received no reply and that neither she nor any one else anticipated the fatal termination of the case - she admits however that she had intended to send for the Priest but that the subject escaped her attention when she was called to the Board.

In regard to Dr O'Rourke's omission to report all the facts of the case to the Constabulary - the Commissioners have to observe that altho it may be true that it was the duty of the Master and not that of the Medical Officer to make the report - the Medical Officer having undertaken to make the report - ought to have stated the particulars fully. At the same time it seems clear that Dr O'Rourke had no desire or intention to suppress any of the particulars or ~~to prevent an inquest~~ being held, and on the contrary it appears that he was desirous that there should be an inquest.

The evidence taken by Mr Hamilton and a copy of the proceedings before the Coroner are enclosed and the Commissioners request that they may be returned to this Office when the Board of Guardians have done with them.

The Clerk's Report of Vaccination was read—(this on the first Meeting in every month) Number of successful cases

Orders on Contractors and others were signed for the following:

None

The Report of the Visiting Committee was read, and orders were made thereon as follows:—

Medical Officers Reported

In reference to the Board's order to explain why the extras in the Infirmary in the present month are greater than in December 1861, altho the numbers are less now. In explanation I have only to refer to the Medical Record of last year to show that a large number of the cases in the Infirmary were from Measles who only required medical stimulants when necessary to be given while the numbers now are of extreme debility—some of them being admitted in a dying state requiring the free use of extras to preserve life—and you will see in December 1861—the numbers in the Infirmary were very large but the extras were still less comparatively.

Over the use of extras I would respectfully refer the Board to my report of the 29th March 1855. I would recommend the use of placebo to an inmate named Nicholas Redmond.

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

Ordered—Slanned.

Master's Report

Having to absent myself today on business of importance which I trust the Board will sanction—I have also to request that the Board will be so kind as to give me leave of absence on Monday next for the purpose of transacting some pressing business.

Ordered. Leave granted.

Agriculturist's Report

That he was now engaged turning the manure heap and making a tram along the head of the field under manure. The Ploughman is now engaged preparing for wheat.

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:—

Dated 23 Decr/62 } Informing the Guardians that they had
No 27084 } received a communication from the In-
specter Captain Hamilton, in which
he recommends that a sum of one guinea for loss of
time and 76 for expenses be allowed to Dr. Carton
Coroner for his attendance as a Witness at the recent
inquiry into the circumstances of the death of Anne
Hammessey and as it appears that Dr. Carton was not
required to travel 16 statute miles from his place
of residence — the sum allowed is according
to the 14th Section of the Irish Poor Relief
Act payable out of the Rates of the Union and

The following letters from the Poor Law Commissioners, and others, were read by the Clerk
and directions given to answer them respectively, to the following effect (or, Orders made on them
respectively as follows):—

The Commissioners request that the Board of Guardians will be so good as to pay Dr. Carton
the sum of £1.8.6 accordingly.

Ordered. The Board are of Opinion
that as Doctor Carton is a paid Officer of the
Union he ought not to require payment from
the poor rate of this sum for attendance and
therefore the Charge for £1.8.6 ought not
to be granted by the Board for payment.

Education Officer
Dublin 22 December 1862.

We herewith forward for the infor-
-mation of the Board of Guardians the following
observations of the Inspector who visited the
Northhouse School on the 30th October last,

"In the male School the proficiency in
reading is only medium — that in Arithmetic indif-
-ferent."

The course of training & instruction is very
fair — the proficiency & skill attained in the
male School is medium — in the female School
satisfactory. Both departments are however
progressing."

The Inspector has further remarked
that the discipline & order of the boys school
have improved since the date of the former
visit and he has expressed his satisfaction with

the proficiency of the girls in reading, spelling, grammar, geography & intelligent explanations of the meanings of words, also with the healthful & orderly tone of the department in general.

James Treble
Secretaries

A Requisition for school requisites having been put forward by the Schoolmistress to the amount of £2.6.1 - same was allowed.

Ordinary Proceedings

The Board proceeded with the consideration of claims for relief in the Workhouse and Poor Hospital of the Union also to Outdoor relief in certain cases.

May Bolger & illegitimate child appeared for admission to the Workhouse - the putative father is John Martin, Regans Lane now in full employment on the Railway. He stated that he admits the paternity.

On examination into the Collectors accounts, the Clerk was directed to make a special report on next Board day in reference to Collectors Fitzpatrick & Bolger who appear to be more backward than the rest.

Mr. Sweetman brought under the notice of the Board the propriety of employing only one man as agricultural on the Grass instead of having two as at present. The Board agreed to consider the subject on next

Board day when there will be a full meeting of the Board.

A Letter was read from Mr. W. Hurvell meat Contractor stating that having supplied the meat on Christmas Day to the satisfaction of all parties - he took the liberty of representing to the Board the very high price of Cattle & the large quantity of coarse Beef left on hands after supplying to the House the best parts - and under the circumstances appealed to the consideration of the Guardians.

Ordered, The Board will allow Mr. Hurvell 4½ for the beef supplied on Christmas Day.

A Letter was read from Mr. Bailly Rate Collector stating that Charles H. Canning the Police sub-Inspector at Oulart refuses to pay him the rates on his holding containing about 7 acres of land and dwelling house valued altogether at £8.10/- and amounting to 7/- that when he asked Mr. Canning for the Rates he stated he had no claim upon him that if it was Mr. Bryce he should have looked to and would not pay it. Mr. Bryce left Oulart the latter part of October and Mr. Canning came about the 16th November - that he (the Collector) heard nothing of Mr. Bryce leaving the place until a few days before Mr. Canning came, also that Mr. Pease of Trimmallock is refusing payment for a small place rated to him in St. Marysree.

Ordered, The Collector to act under his Warrant in the case of Mr. Canning who being a subsequent occupier can deduct the whole rate 7/- from his Landlord.

The Board proceeded to consider tenders for the supply of Bread, Flour, Oatsmeal and Irish Meal to the Workhouse and accepted the following for 3 months from Mr. Thomas J. Newland - Enniscorthy viz.

Best white Bread 5 7/8 per 4 lbs

Ordinary Proceedings

The Board proceeded with the Consideration of Claims for Relief in the Workhouse and Fever Hospitals of the Union also as recipients of Out-door Relief in certain cases.

On the termination of a discussion to Relief the Board considered the legal notice of Mr R.W. Hall Dare served on the Board on the 20th ultimo to give up possession of the Fever Hospital at St. J. Barry or in the event of refusal he would immediately bring ejectments, after which the Board came to the following Resolution Unanimously,

That the Clerk give notice to R.W. Hall Dare Esq^r and to his Solicitors that the Fever Hospital at St. J. Barry was built with Public Expense some 40 years ago — that it was for many years supported by public Grants actually from the Grand Jury of this County and by private Subscriptions; that the late Lord Farnham and his Successors never demanded a shilling rent but always assisted in maintaining the House in proper Condition by grants of timber — stone &c for repairs, that the late owner of the St. J. Barry Estate Mr Ashton followed in the footsteps of the Maxwell family as regards the maintenance of that charitable Institution on his property, that it came under the Management and Control of the Board of Guardians about the year 1847; who have since maintained the House and its Officers with great Care and with every attention to due economy towards the Ratepayers; that the Patients generally treated in that Hospital are inhabitants either of the Town or the immediate neighbourhood of St. J. Barry and we cannot now view the proposal of Mr Hall Dare otherwise than with surprise and regret. We therefore are determined

The Bonds and other securities in force were laid before the Guardians by the Clerk, together with his Report thereon, as follows: (this on the second Meeting after the Annual Election)

by all legal means to resist the attempt to deprive this Board of the Control and Management of that public Charity — and direct our Solicitor to take such steps as he may by Council be advised in this behalf,

The Board then proceeded to Consider the question of what due notice has been given to the Board relative to the propriety of dispensing with the services of one of the paid Nurses in the Infirmary and to advertise for a properly qualified Nurse-tender in Midwifery

Resolved, That the Clerk issue advertisements for a properly qualified Midwife who will also act as Nurse whenever called on to do so — in the General Asylum and local papers at a salary of £15 per Ann. with Rations and a apartment, — also to give a month's notice to Miss Doyle the Assistant Nurse that the Board will after that time dispense with her services,

On examination of the Register the Master desired to know would it be necessary to enter the names of those on the Separate Register in the Indoor Register also — or would he put the number in the Separate Register opposite the names of the same parties in the Admission and Discharge Book. He also wished to know if it was necessary for him to keep a Separate Registry of the parties admitted into the Fever Hospitals of Enniscenty — Oulart and Newtown Barry as the Medical Officers in those Establishments are supplied with and keep a Separate Registry of those parties admitted to those Hospitals, who come under that head,
