The report of the Building Committee

The undersigned members
of the ^{Building} Labor Committee have examined the
wooden house as called upon. They find it is
in want of repairs in many parts & recommend
that the felt with which it is covered should
be overhauled, and renewed in such parts
as require it - and that such repairs should
be executed with the least possible delay,
as it would be extremely difficult to supply
its place in case of necessity arising to use
it as a hospital

The Memorial of the Board of Guardians of the Joney Union to the Commissioners for Administering the Laws for the relief of the Poor in Ireland

Humblly sheweth

That your Memorialist struck a rate in the Union in the month of September 1853 contemplating the repayment of the Loans in instalments. That this rate, now nearly collected would enable the Guardians to postpone the striking a new rate until next Harvest, instead of being obliged to do so now, at a period seriously injurious to the ratepayers - In order to effect this object, the Board would urgently pray that the repayment of the Loans instalment may be postponed until the Board strike a new rate when it could be collected with ease.

The Board beg to be understood as not wishing by any means to expediate the debt due by them for the repayment of Loans, they only desire to postpone its payment to a period when it could be done without difficulty

Signed, Ouentown
