I believe well founded prevails, that an undue and an illegal interference has been resorted to at the late dection for a Guardian for this Division. It is a notorious fact. that on the day of the voting papers being taken up by the Police, a man named Bass. a bailiff. If such should prove to be the case I will insist on the matter being followed up to the atmost limits. The law will allow. 347. 11 The Roman Catholie Chaplain's Report. August 28 - 1863 , In the Boy' School I examined the chierrais classes a good deal in detail. Those composing the arvanced claps. though partially engaget in learning trades, are allowed some time during each week in the school for their improvement, I examined them carefully and am Sorry I could deserver no improvement in them, they and Very deficient in Geography and as the rudiment even of Framma their Knowledge is confined to resiting by heart the definitions of pome of the Parts of Speech, This is much to be regretted as These Boys are for the most part Smart and intelligent, have been a long time in the School and appear to have a seen appetite for Carning, and a desire to improve themselves. In the other elagses there is improvement, show but progressive and I have nothing particular to remark, only that in reading or spelling most of the Orienary words in which the Letter U occurs they are uniformly mispronounced. This ornor having been pointed out will . I am sure soon be remissied, To do quoties to the advanced boys, the Achoolinaster will, Sapprehend, have to labor a good deal and to improve himself by frivate study. In the Girls' school I did not spend much time or examined the classes so much in detail, I am enabled however to report favourable. The Dehostinistrees acquirements are of a most datifactory description. The visible effects of her teaching. as mainfested in the improvement of the children, dis thosever always correspond, either will the information she prosessed herself or with the exertions she used , This aroad from her allowing the children to depend too much on the car or memory alone, without exercising them in the use of the other faceulties of the mind. Sam happy & find this depoten is being Supperseded, and a more wholesome one introduced into, even, the dowest classes of the Dehose .- The monotonous tone in reading , has been also laid aside , and the natural inflection of the voice introduced , I coopeet much from this School and hope it will afford uniform Satisfaction - 0 Injustice to the Fachers of book schools. Imust state

my belief founded on continued Observation, that they are very anserious for the improvement of their pupils, and that they exert themselves very much in endeavouring & fulfil. as they ought their respective duties ,-Legned Lacy.
