December 15 16 1863,

Have vioited this Hospital, and in my opinion there is not a finer tite for a Hever Hospital, in all Ireland, It is surrounded by currents of the princet air, foul air of the Town. The traffic of the roads can have no evil effect what -ever; Fever Patients are generally too bethangie, dull of hearing and requiring Stimulants more than degression. I have been in Hospitals in Dublin and in the Country, and in rone have I found better ventilation than here, Let the clay be cleared from the back fant of the House, let the foundations be cemented as has been done in Scholton Abby, and let pipes be lied under the Mill race, to carry af the surface water, and there will not be a more healthfull house in the Kingdom, When Seame here at 11's Oflasts IM, I found neither vioitors nor report Books, and had towait for them The brought from the Workhouse, - Tames Coun Redmind P. of Saturday the 26 is day of (Signed,) Mey Clerk of the Union.

## The Fever Hospital Committees Report,

The Committee appointed by the Board to inspect the Govey Fever Hospital with a view to ascertain its present state and what sum would be necessary to place it in sufficient repair, have to report that we consider that a fum of Swenty founds is the esettene amount that would be required for this purpose, We consider that the water (which in rainy weather) finds to

way into the Kitchen can readily be obviated by attaching shoots and down pipes to the House so as to conserve the water from the pool of the present sewer, at a front between the mouth of the sewer and the road in front, and that by opening and cleaning the Sewer it will then be quite Sufficient to remove the water from the ground floor, but if not this can readily be effected by deepening the present Sewer by running it under the mill stream

The thirts the Mitchens showed be put in proper repair so as to answer their Original purposer their occupation by the Oppieers of the Institution,

This clone we think the elasoification of the Fatients can be amply and effectively earried out by having the wands or the ground floor appropriated for male Patient , and those above for Genales instead of having one of the lower wands us at prevent, occupied as a Kitchen by the Officers, There are some repairs required on the Priviles and also on the Windows of the Hospital, the cost of which would be very trifling,

Then, the wards of the Hospital would be the better of a coat of paint, but which some of the Committee do not thinks necessary at present, and if this painting be not done we do not consider the expenditure necessary would exceed I'm founds, as to the dust hole we thinks the inconvenience from it, can be readily obviated by having its contents removed to the Workhouse, once a week, or so often as may be

A: 3131/64, 4th March 1864. Italing that they had received from their Inspector Mi. William Hamilton his halfyearly Report on this Union, in which he states that on his recent inspection of the Workhouse, he found the Infirmary. The Temale Infirm Wards and the Jolet Wards, not inferior in froint of cleanliness and good order to any we his District, Hamilton calls attention to the fast that the faupers in classes 4 and 5 receive only a halfpint of Buttermilto at the breats -fast meal instead of a frint, to which they are entitled under the 13th article of the Workhouse rules, That only one sheet is still allowed to each bed throughout the Jealthy portion of the Establishment, and the he is still of opinion that the Schoolboys should have more regular instruction on the land, there being at present no agricultural class instruction, and he fears very lives instruction of a practical Character, W. Hamilton also suggests that a Steady hiddle aged Vorter be appointed at the Fever Hospitals, so long as it remains at Gorry Bridge, As regards the Workhouse Buildings Mr. Familton informs the Commissioners that there are leakages in the eave shoots and that one of the Chimney Shafts is out of plumb, and the coping of the yand wall requines trifling repair in a few places. Mr. Hamilton thinks that invide porches to the schoolmoons would be a great improvement, and he states that the Ordinary Wards Not 11. 12 and 13 have an appearance of damp in a few places, and The cases of provisional relief, and applications for relief, were considered and decided on, as set forth in the Application and Report Books. have the Commissioners Letter of the 2nd of March relative to the late Investigation as regards one, with very great Surprise and regret, and I beg most respectfully to offer a few remarks on the charges preferred against me,

As to my neglect of clute, in not viviling the Fever

Hospital at Forey Bridge. I never considered it as part of my duties, inamuel as none of the masters before me ever did, and the frevious Four Law Inspectors never found fault with me for not doing or, and Captain Hamilton never found fault with me before the present one, and the Guardians ought to be aware that I did not, as the Flever Hospital Svoks are onthe Toward room table every Board day, and am correct in stating that Marters of other Workhouses only visit Hever Hospitals on the Worlhouse ground, The entries in the Reguler I have always made as I found the practice when I came here, which was never faulted before; and Luice Capt, Familton visited last I made muito the entries as he directed, as to my assistant Keeping some of the Books, I have trained some very smart Boys in my Office, and got 3 of them in Fituations as Assistant Clerks, and they never could understand the Broke perfectly without doing some of them, I do all the particular Books and Cheeks the others and I got credit from the late Whraddel and With
