and Cheques were ordered to be drawn for the respective amounts [or directions were given thereon as follows] :

I have to report that in accordance with the directions of the Board I inspected the Village of River Chapel on the 12th inst, with a view towards ascertaining the state of the present water supply & being able to suggest the best means of procuring a supply of pure water for the use of the inhabitants. There are three sources from which water is obtained in close proximity to the Village & to those who are unable or unwilling to go a distance of half a mile there is no other. The first & the only one now available is a small open well in the bed of a very filthy stream - Stagnant pools of sewage collect along the bed of the river & are carried down with the first flush that comes mingling their contents with the water in this well, & independent of this occasional pollution the surroundings are of the most filthy nature rendering the well in my opinion a very dangerous source to take water from. 2^o The pump is in the centre of the village & is in every respect as conveniently & well situated as could be considering the circumstances of the locality, the present iron pump is out of order & was I consider not strong enough for such rough usage as it was subject to. I found on opening the well that it was twenty feet deep, is cut in its entire length through solid rock & has a depth of 12 feet of water in it at present, the quality of the water as far as I can judge is very good, but from the pump being long disused the well is dirty & the water consequently in its present state unfit for use. I recommend that this well be thoroughly cleaned out, & that a new & substantial pump be put up, & also that a sample of the water be sent to Dr. Cameron for analysis & his analysis be made known through the Rev Mr. Furlong to the people of River Chapel. 3^o The Fountain at the South side of the village does not supply water for more than about 9 months of the year & I cannot but think that it is a pity that the large quantity of water which runs to waste for so many months in the year at this fountain is not stored in a suitable reservoir, if it were it would (I should think) afford a full supply the whole year round, but I must point out to the Board that the Fountain as well as the pump in the village were

The Clerk's Report of Vaccination was read—(this on the First Meeting in every month)—number of successful cases :—

The Report of the Visiting Committee was read, and orders were made thereon as follows :—

Visited the House & found it very clean & orderly. I would recommend two new grates put up before the winter sets in one at the mens side & the other at the womens
Signed Tho Cranwill.
Ordered a stove in the mens room & a register grate for womens dormitory.

I have taken the liberty ~~visit~~ of visiting the House & was pleased to find it clean, orderly; & the Inmates comfortable. There is in the womens Dormitory a leak which I would wish to call the attention of the guardians to, as calculated to injure both the Inmates & the building itself permanently if not attended to in ~~is~~ time. I examined the senior girl class in reading

& arithmetic in both which they acquitted themselves satisfactorily
 on the whole I feel I may congratulate the Board on the
 satisfactory state of the whole Establishment
 Signed Lorenzo A. Nunn

Chaplain's Report

I am happy in having it in my power just now to render material
 service to the House by aiding the guardians in the selection of a
 well qualified Schoolmistress, to fill the vacant situation.
 I can say without hesitation Miss M. A. Murray is, in every sense
 suited for it, she has from the National Board of Education
 certificated attestations of being duly qualified & I can add
 of my own knowledge, from many years personal observation,
 that she possesses the quality too rare, of adapting herself to the
 capacities of children & of communicating to them, with facility
 the information she has acquired. I recommend her with still
 more confidence because she had succeeded in maintaining
 a perfect control over her pupils & secured their respect & ready
 obedience by her solicitude for their welfare, by her untiring zeal
 & by the moral weight of her own excellent character -

Signed James Lacy

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

Gentlemen - Having read in the Gorey correspondent of the 11th inst which I rec^d today the a/c of your meeting of that date in which I am sorry to see that a worthy member of your board D^r Owens proposed to send a poor man to America to starve - if I must express it so, but it is but too true that we have thousands of honest, industrious men starving in this country at the present time for instance in this city alone we have fully two thirds of mechanics & Labourers idle, & the majority of those who are working are only on half time & getting half wages. But you Gentlemen cannot imagine the state of affairs unless you were here to see them - I was glad to see the Honorable Chairman objected to the proposition of D^r Owen, & I think it would be at the present time better for Murphy or any poor man to live in a Workhouse in Ireland especially in Gorey under the well known hospitality of its board than have a subscription raised to send him across the Atlantic to die in the Streets of New York or any other city in the Union for I assure you that a poor man in this country without money has few friends & no home. Hoping I have not intruded too much on your valuable time, but as a lover of humanity, honesty & industry - I am &c

Report of B. MacSheehy Esq LL D - School Inspector Boys' School

- 1st Class - Class progressing 5 out of 6 passed for promotion to 2nd class - 3 of the 5 had failed in this class last year. The class should be kept attentive to reading as it goes on - Blunders to be noticed by other boys raising the hands -
- 2nd Class - Proficiency satisfactory on the whole, all passed for promotion (3 failed last year in 2nd)
- 3rd " Reading very fair, Spelling of words at end of lessons middling, Spelling of clauses satisfactory, 2 out of 4 passed for promotion
- 4th " Reading & spelling moderate, explanation fair, 1 of 3 passed for promotion - the others failing in Arith.

Copy books not quite neat enough - writing very fair.

Dictation tolerably correct - Teacher should discourage tendency to writing too small, & require strict neatness in the copy books. The boys should be thoroughly practised in applying the Tables of Weights & measures, & in mental calculation to the extent prescribed by the Programme -

Grammar - pretty fair - Geography - Poor. meanings of the ordinary terms should be better known -

Agricultural Class Book - Knowledge insufficient, only 1 of the 3 in 4th class passed - a "bare pass" in this -

The Teacher will do well to train his pupils to perfect order at class - to silence when required & to prompt obedience to orders. I observed no wilful irregularity, but a want of good drill -

Girls' School

- 1st Class - This class heretofore deplorably backward, like the others in School improved in reading, spelling & writing, 2 of the 3 failed last year in every item -
- 2nd " 4 of them had failed in 1st Class - 3 of them more than once, Reading much improved - 3/4 spelled well, writing improving 6 of the 7 passed for promotion -
- 3rd " The highest reached is represented by 1 girl of delicate constitution - She failed in this class last year, & now also fails in Arithmetic
- Penmanship - progressing - Notation & numeration require

require to be thoroughly taught as groundwork.
 The 3^d class girl passed in grammar & Geography.
 Fair proficiency in hemming & Knitting, attention has been paid
 to remarks on last page.
 The Discipline of School is satisfactory, cleanliness & order

A requisition for Medicine was signed—

The Com^{tee} appointed by the Board of Guard^{ns} on Saturday the 16th, to inspect & report on the fencing of Kilnencor grave yard, beg to submit the following report for their consideration. We recommend about 17 perches Irish of a new double fence to be made, 5 feet high, the side next grave yard to be quicked with thorns, also about 8 perches to be faced with stones, & some small repairs. There is also a portion of two old fences to be levelled where there will be stones got to build the new, & which will open an entrance into the grave yard - The entrance gate being only 6½ feet wide, it would be necessary to get a new gate 3½ feet wide, made to correspond with the old so as to form a double gate, & a granite stone post 8½ long to hang the old gate, the old post being sufficient to hang the new gate but too short for the old one.
