Signed Mich^e. Kenny.*

The Med^l. Officer hopes the Board will be kind enough to sanction his ordering an Artificial Arm for James Doyle, an inmate of the Infirmary, & whose arm he amputated some weeks ago -
ordered from Mr Cooke -

The Med^l. Officer begs to submit the accompanying letter received from Dr Cameron which gives the analysis of some Drugs lately sent from the Workhouse for examination - viz

"The ethereal tincture of lobelia, the Hippo Wine, & the aromatic spirit of ammonia proved to be of very fair composition. The Tincture of opium contains 27.85 grains of extract per oz of which 1.66 grain consists of morphia. These quantities are about those found in pretty good tincture of opium. The spirit is deficient, as the tincture is prepared from proof spirit containing 57 per cent of absolute alcohol there should be at least 50 per cent of alcohol in it, which

~~The Reports of the Master and other Officers were read, and Orders made thereon as follows: -~~

would be ample allowance for evaporation during the preparation of the tincture, & the tincture contains only 42.59 per cent of alcohol - The Hippo Wine contains 25.84 per cent of alcohol, this is a high proportion of alcohol to be in sherry wine, so it is probably ^{that} the so called Hambro' Wine was used in preparing this Vinum Ipecacuanhae

The Master recommends that advertisements be issued for a supply of straw ordered for 12 months

Submitted Dr Cameron's letter in reference to milk samples forwarded for analysis - viz Tyrrell's milk contained 13.7 per cent & Kuisella's milk 12.85 per cent of solid matter, they are therefore of good quality -

56 $\frac{3}{4}$ yds of Frieze received from Roper & Co submitted - approved -
