

9th June, 1969.

A Statutory Meeting of the Council was held this day in the Municipal Buildings at half past seven o'clock p.m., the members present being:-

Alderman James Jenkins, Mayor, in the chair.

Aldermen: Kevin C. Morris, Thomas F. Byrne and James Mahoney.

Councillors: John Cullimore, James J. Morris, Peter Roche, Desmond Corish, Fintan O'Leary, Thomas Roche and John Dunne.

The County Manager, Town Clerk and Acting Borough Surveyor were in attendance.

MINUTES

On the motion of Alderman Byrne seconded by Councillor Cullimore, the minutes of meetings, 5th and 6th ultimo, copies of which had been circulated with the agenda for the present meeting, were taken as having been read, approved and signed by the Mayor.

The Mayor drew attention to the words "rated premises" which appeared in the minutes of 5th ultimo in relation to domestic scavenging service and pointed out that this should read "postal address". The Town Clerk agreed to insert a correction in these minutes.

ACKNOWLEDGEMENTS

An acknowledgement was read from the relatives of the late Seamus Gallagher of the vote of sympathy passed with them in their recent bereavement.

A letter was also read from the Minister for Industry and Commerce, acknowledging receipt of the resolution adopted at last meeting on the subject of redundancy in the malting industry.

A letter was submitted from the Superintendent, Garda Siochana, on the appointment of Traffic Wardens, setting out details of the number of pupils attending each school in the town, and it was decided that a copy of this letter be circulated to the members for their information.

SOCIAL STUDY CONGRESS

On the motion of the Mayor, seconded by Alderman Byrne, it was unanimously agreed to extend a Civic Welcome to those attending the Social Study Congress to be held in St. Peter's College, Wexford, from 2nd to 9th August.

9th June, 1969.

SWIMMING POOL AT FERRYBANK

A recommendation was submitted from the Ferrybank Committee, that a swimming pool on the lines of the "Ascon" pool be provided there. It was explained that this pool would cost approximately £68,000. Arising out of this matter, the County Manager intimated that he thought it only right at this juncture to inform the Corporation of their existing and prospective debt which was as follows:-

1. Capital Debt at 31st March, 1969:-

(a)	Housing		£1,259,433
(b)	Sanitary Services		42,293
(c)	Loans and Grants		79,466

	(iv) Lorry	4,101	
	(v) Deficits	14,000

			<hr/>

			<hr/>

3. In addition to the foregoing, land has been acquired for an extension of St. Ibar's Cemetery. As the laying out of this land as a modern Cemetery will take some time, work will require to commence as soon as possible, if it is to be available when all graves in the existing Cemetery are taken. The cost of this work has not yet been estimated but it will run into some thousands of pounds.

9th June, 1969.

The provision of car parks on a large scale is also becoming an urgent necessity and various other minor but necessary improvement projects have been suggested from time to time and only postponed due to lack of capital.

As well, it would appear from the local press that the Town of Wexford Vocational Education Committee propose to erect a new Vocational School and if the financing of this follows the existing practice, the Corporation will be responsible for 50%.

After some discussion, it was proposed by Alderman Byrne, seconded by Councillor Cullimore, that the Council agree in principle to the provision of a pool on the lines of the "Ascon" one. This proposal was unanimously adopted. Arising out of this matter, it was further agreed that a meeting with representatives of the Corporation and Bord Failte be held as soon as possible after the General Election, to discuss this project, and it was further suggested that when this meeting took place, the Bord Failte representatives should be urged to nominate one officer to deal with the Ferrybank project, and that it be a permanent feature on the agenda of the Corporation, so that the matter will not be lost sight of.

Regarding the Caravan Park, the Town Clerk intimated that he had been trying to contact the Architect for the last week, and eventually had been successful in having Mr. O'Dowd come to Wexford on the following day for a meeting with the Contractor and Mr. Lennon to try and deal with outstanding matters there, which would include the lighting of the park etc. The meeting was also informed that a Selection Board would meet the following day to interview applicants for the post of Supervisor.

CAR PARKS

The next business was correspondence from M/s J. J. Stafford & Sons, Mr. Breen, Waterford and Wexford Chamber of Commerce regarding the provision of car parks. M/s Stafford suggested that the Corporation should make an offer which would receive their immediate attention. Mr. Breen's letter was on similar lines, and the Chamber of Commerce urged the Corporation to try and expedite the provision of car parks along the main traffic route of the Quay. This matter gave rise to a lengthy discussion, at the end of which it was decided to appoint a Valuer to obtain the valuation of the property of M/s Breen and Staffords for consideration at the next meeting of the Corporation.

Arising out of this, the meeting was informed that application had been received from M/s J. J. Stafford & Sons (Wexford) Ltd., for a planning permission to erect grain storage bins on a site at Oyster Lane/Paul Quay. The meeting was also informed that this particular site had been reserved in the Development Plan as an off-street car park, and in the circumstances, it was not possible to grant the permission asked for by M/s Stafford.

9th June, 1969.

A letter was read from the Architects on behalf of M/s Staffords intimating that the bins were readily demounted; that they were urgently required to accommodate this year's harvest; and that they would give an undertaking that should at any time their property be required by the Corporation for car parking, they would take down the bins at their own expense, and would be prepared to forego compensation either for the cost of such work or for costs resulting from same. In other words the ground on which the bins would be sited would be treated for valuation purposes as open general storage space for which purpose it is now used.

In view of the urgency of the case, the Architects asked that this matter receive early attention.

After some discussion, it was unanimously agreed on the motion of Alderman Byrne, seconded by Alderman Morris, that the permission of the Minister for Local Government be sought under Section 26(3) of the Local Government (Planning and Development) Act, 1963, to the granting of permission for the erection of the bins on the terms set out on behalf of M/s Stafford. A complaint was also made that no action had been taken on the decision of the Corporation to have machinery removed from car parks, and the Town Clerk admitted that due to the pressure of work, he had been unable to refer this matter to the Corporation Solicitor, but that he would do so shortly.

SPEED LIMITS

In accordance with notice given, Councillor Peter Roche moved "That this Council recommend to the Garda Authorities, the fixing of a speed limit of 15 to 20 m.p.h. on the road from Ard Carman side of Kennedy Park, through Kennedy Park, Corish Park, Wolfe Tone Villas and St. Aidan's Crescent, down to the junction of Thomas Street and Joseph Street". After some discussion, this motion was amended to include a speed limit of 20 m.p.h. throughout the town, which was seconded by Alderman Mahoney, and agreed to refer it to the Gardai for consideration.

DIFFERENTIAL RENTS

Councillor Peter Roche also moved "That in arriving at income for the purpose of differential rents in housing schemes where these rents apply, that the allowance of 10/= per child be increased". The Town Clerk asked Councillor Roche to defer this motion as a Committee of officials was at present drafting a new scheme of differential rents for the County Manager, which would come before the various councils in the County in the near future. Councillor Roche agreed to defer his motion.

Arising out of this, Alderman Mahoney raised the question of the rent charged to a man named Murphy of Bishopswater, and the County Manager promised to review this at an early date.

RATES

In accordance with notice given, Councillor Dunne moved "That owing to the continued yearly spiralling increases in the rates, that this Council press the Government to give immediate first priority to considering some other just and acceptable alternative to raising revenue for local authorities". Councillor Peter Roche seconded the motion which was supported by all the members with the exception of Alderman Morris, and adopted.

9th June, 1969.

POSTAL VOTES FOR SAILORS

In accordance with notice given, Councillor Dunne moved "That we the members of Wexford Corporation call on the Government to give postal votes for the general elections and local elections, to all Irish seamen". Alderman Mahoney seconded this motion, which was amended to include the employees of the Irish Lights serving on Lightships and Lighthouses around the coast, and adopted.

BUCHANAN REPORT

In accordance with notice given, His Worship the Mayor moved "Wexford Corporation strongly disagrees with the location of industrial growth centres set out in the Buchanan Report. We call on the Government to develop the long established industrial tradition of Wexford, by having Wexford designated as a suitable centre". Alderman Mahoney seconded the motion, which was supported by all the members and unanimously adopted.

COUNTY CLINIC SERVICES.

In accordance with notice given, Alderman Mahoney moved "That this Council recommend that better services be provided at County Council Clinics". Councillor Peter Roche seconded. In moving this motion, the Alderman complained about the absence of the Dispensary Chemist to dispense prescriptions in the dispensary. The County Manager intervened to explain the reason for this and the action he had taken to have prescriptions dispensed by local retail chemists. Having regard to the Manager's explanation, the complaint was withdrawn.

The Manager also explained that he was investigating the possibility of having evening clinics in the dispensaries, but so far he had not been able to get a favourable reaction from the doctors.

HOUSING

In accordance with notice given, Alderman Mahoney moved "That the Corporation examine the subject of housing in all its aspects". Arising out of this, the Mayor pointed out to the Alderman that such a motion with such wide terms of reference, would take a considerable time, and as it was now already late in the present meeting, he suggested that the Alderman raise the matter on a future occasion, and arrange to have a special meeting to discuss housing. The Alderman agreed to this suggestion and asked about repairs to doors etc. and the Borough Surveyor informed him that some 50 doors were on order to replace defective ones in various Corporation houses.

9th June, 1969.

SALE OF LAND

The following recommendations were submitted from the County Manager:-

- (a) That land at Whitemill North be leased to M/s Canon Building Ltd.; and
- (b) That land at Whitemill North be sold to Elwex Ltd.

In accordance with the provisions of Section 83 of the Local Government Act, 1946, as amended by Section 88, Sub-Section 3 of the Housing Act, 1966, notices of these two recommendations were issued on 7th and 26th May, 1969 respectively.

As regards recommendation (a) that land be leased to M/s Canon Buildings, Ltd., this recommendation was withdrawn as M/s Canon had recently visited Wexford and decided on another site. When he had submitted the necessary plans etc. covering the proposed new site, a fresh notice would be issued to the members in the matter.

Resolution (b) that land at Whitemill North be sold to M/s Elwex Ltd. as a site for a factory, was then put to the meeting, and unanimously approved on the motion of the Mayor, seconded by Alderman Byrne.

HOUSING

Alderman Mahoney asked a question regarding the removal from the housing priority list of a man named Browne, living in a hut at Drinagh, and was informed by the County Manager that he had removed this man from the priority list as he was living outside the Borough. He felt that the Corporation had enough residents in the Borough to re-house at the moment, and that if he was to allocate houses to applicants from the rural area, the Corporation would not view it with favour. However, if the Corporation so desired, he would place this man back on the list, and this was unanimously agreed to.

QUESTIONS BY ALDERMAN MAHONEY

(a) What is the position regarding repairs to roads and footpaths? In reply to this question, the Town Clerk stated it was assumed the Alderman was referring to the streets disturbed by the Electricity Supply Board, that is Main Street and High Street. Two tradesmen were now employed on the Main Street working from each end, and it was hoped that the work would be completed within the next few weeks, when the men would start at High Street. It was pointed out to the members, that work could only be carried out on four days each week, due to the enormous amount of traffic on Fridays. As well the weather was not suitable for concrete work until recently, and if it had been possible to close sections of the street to traffic, the work could have been carried out more expeditiously.

9th June, 1969.

(b) What progress had been made to construct the tunnel at Parnell Street for the relief of flooding in King Street? The Town Clerk replied that on the 23rd January, the Consultants informed the Council that it would take at least 6 months to prepare the necessary contract documents. When these were ready, they would be submitted to the Department of Local Government for approval, and when such was received, the work would be advertised for tender.

(c) The Alderman also raised a question regarding the Standing Orders of the Council, and the Town Clerk informed him that a sub-committee had met a long time ago and made certain suggestions which he (Town Clerk) had embodied in a report for the members of the Committee. Since then he had not heard from any of the members as to whether or not they agreed with the suggested amendments and it was decided that a further meeting of the sub-committee should be held as soon as possible.

The Alderman raised a further question regarding sewerage at Barrack Street/Lambert Place, and was informed by the Borough Surveyor that this was being carried out for the local residents by their own Contractor. It had nothing to do with the Corporation, as it was not the sewer that was at fault, but the drainage from the houses.

QUESTIONS BY COUNCILLOR DUNNE.

Councillor Dunne asked "What was the present position regarding the future of the Town Hall, Cornmarket as a museum or picture gallery?" He was informed by the Town Clerk that provision had been made in the current year's estimate for the expenditure of a sum of £400 as the first instalment of a 5-year plan to preserve the building. The first step was to instal a heating system in the Assembly Room and to renovate the main stair case. This work would commence after the General Election Count. The officials of the Corporation were in communication with the Electricity Supply Board regarding the installation of the heating.

In reply to a further question, Councillor Dunne was informed that the cost to date of the work at St. Peter's Square was £177, and the work at Swan View £1,700.

His Worship the Mayor referred to the unsatisfactory lighting of the Wexford Bridge, and asked that the matter be taken up with the County Council, as an accident had occurred there on the previous Saturday night. He, the Mayor, felt that a 'Sharp Left Turn' sign should be placed on the bridge.

SALE OF HOUSES

On the motion of Alderman Morris, seconded by Alderman Byrne, a recommendation from the County Manager that the sale price of the houses at Bernadette Place be fixed at £3,000, subject to the consent of the Minister for Local Government was agreed to.

9th June, 1969.

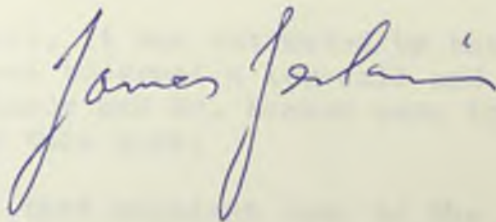

TALBOT STREET/GREEN STREET AREA

A draft plan was submitted for the Talbot Street/Green Street area for the information of the members, and the following explanation given:-

1. The whole area involved was included even though some parts will not be available for development for some years.
2. The new road leading east off Talbot Street would not be available for 1st stage of development, therefore, entry would be from Green Street (B). When the 2nd stage is reached, I would be in favour of blocking off this entrance and allow only pedestrian traffic through here. Entrance would be then off Talbot Street.
3. First stage development would be house Nos. 1-38, 43-48, 57-61 and 69-82. A plot of ground (C.C.) which comprises back gardens to existing houses would have to be acquired for back gardens to house Nos. 28-32. A plot (A) would have to be acquired to provide turn table and improve access to houses 37 and 38.
4. A further play area could be established as shown at the rear of houses 72 to 82, with pedestrian way entrance, which would also serve the proposed Forth Estate Shopping Centre.
5. The establishment of lock-up shops or otherwise in Talbot Street would be a matter for decision.
6. Total number of houses available in first stage development would be 70 or 78 if shopping area were included. In second stage development, 20 houses would be available.
7. Total area of site, $7\frac{1}{2}$ acres - 13 houses to the acre. 7.3 ft. of road per house, not including Green Street or Talbot Street.

The County Manager also intimated to the meeting that he proposed to employ an Architect to examine the draft plan and to deal with the whole area from an architectural point of view and to design a house for it.

The meeting then terminated.

1st July, 1969.

A meeting between the Corporation and representatives of Bord Failte Eireann, regarding Stage 2 of the Ferrybank Project, was held this day in the Council Chamber, Municipal Buildings, at 3 o'clock p.m., those present were:-

His Worship the Mayor, Alderman Jenkins, who presided.

Aldermen: Kevin Morris and Thomas Byrne.

Councillors: Peter Roche, Thomas Roche, John Cullimore and James J. Morris.

In attendance: County Manager, Town Clerk and Borough Surveyor.

Bord Failte Eireann was represented by Mr. John O'Donnell. The South Eastern Regional Tourism Organisation was represented by Mr. Michael Cusack and Mrs. B. Wallace.

A message was received from Mr. O'Donnell that his car had broken down and that he would be a little late for the meeting.

At the outset, reference was made to the long delay in proceeding with the Ferrybank Project, and the Town Clerk submitted a statement dealing with this whole question from December 1961, when the Corporation agreed to purchase the land for the development, up to 22nd April, 1968, when the contractor signed the contract for the Caravan Site, which provided for the work to be completed within four months from 25th March, 1968. From this it was seen that the delays in the Ferrybank Project were not due in any way to any of the Corporation or their officials.

The present meeting had been called to decide on the question of a swimming pool, and after Mr. O'Donnell attended, the matter was discussed in detail. Reference was made to the Ascon 25 metre heated indoor pool, which Mr. O'Donnell intimated would be acceptable to Bord Failte. When the question of the provision of the pool and its probable cost had been discussed at length, it was unanimously agreed that the Department of Local Government and Bord Failte be written to officially and asked if the usual grants would be available for the provision of a pool on the style of the Ascon pool, several of which had recently been provided in the Dublin area, and if it would be in order for the Corporation to appoint an Architect to prepare plans for the provision of such a pool.

When the question of the swimming pool had been disposed of, a general discussion took place on the entire Ferrybank Project.

As regards the sea wall, it was intimated by the Borough Surveyor, that it was proposed to erect a low wall and to grade the bank down to it, and Mr. Casey and Mr. Lennon were to produce a plan and specification for this work.

It was also suggested that adjacent land to the present development site should be acquired as soon as possible for future activities, and it was thought that the owners of such land might be ascertained with a view to acquiring same.

1st July, 1969.

The question of the provision of a caravan for the caretaker was also raised, and the Town Clerk intimated that he was obtaining tenders for a caravan. It was also agreed that a "No Trespass" notice should be provided at the site, and that a sign pointing to the caravan park should be provided approximately 100 yards above the entrance on the Dublin road.

Finally, it was decided that in connection with the caravan park, that one officer from Bord Failte should be nominated to deal with the entire project, and that some member of the Corporation staff should also be assigned similar duties, so that if any delays occurred in future work at Ferrybank, it could be followed up without delay.

The meeting then terminated.

Thomas F. Byrne

7th July, 1969.

A quarterly meeting of the Council was held this day in the Assembly Rooms, Cornmarket, at half-past seven o'clock p.m., the members present being:-

His Worship the Mayor, Alderman James Jenkins, in the chair.

Aldermen: James Mahoney, Kevin C. Morris and Thomas Byrne.

Councillors: Desmond Corish, John Cullimore, John Flaherty, Thomas Roche, John Dunne, Peter Roche, Fintan O'Leary and James Morris.

In attendance: Town Clerk and Borough Surveyor.

MINUTES

On the motion of Alderman Byrne seconded by Councillor Cullimore, the minutes of previous meeting, a copy of which had been circulated with the agenda for the present meeting, were taken as having been read, approved and signed by the Mayor.

ELECTION OF MAYOR

The first business of the quarterly meeting was the election of a Mayor, who would hold office until quarterly meeting to be held not more than 14 days before or after 8th July, 1970, and until a successor had been appointed and made a declaration of acceptance of office.

The Mayor then asked for nominations for the office of Mayor.

Councillor Corish proposed Alderman Byrne and Councillor Thomas Roche seconded. Alderman Morris proposed Councillor John Flaherty and Councillor Fintan O'Leary seconded. Alderman Mahoney proposed Councillor Peter Roche who seconded himself. Before a poll was taken as between the candidates, the Town Clerk intimated to the members that once a poll had commenced, no further nominations could be received.

Alderman Mahoney complained of the procedure adopted last year in selecting the Mayor, when two members tied, and the question of who would be Mayor was decided by lot. He felt that the procedure had not been properly explained to the members, but it was pointed out that in each case, the members themselves decided the procedure, that is, whether a person whose name was drawn from the hat was elected or eliminated. The Alderman complained that this had not been done on the last occasion, although several members and the Corporation Solicitor intimated that it had.

A poll was then taken as between Alderman Byrne, Councillors Flaherty and Roche, when there voted for Alderman Byrne: Aldermen Jenkins and Byrne, Councillors Corish, Cullimore, Thomas Roche and Dunne. Six. For Councillor Flaherty: Alderman Kevin Morris, Councillors Flaherty, O'Leary and J.J.Morris. Four. For Councillor Peter Roche: Alderman Mahoney and Councillor Peter Roche. Two.

7th July, 1969.

As no candidate had a clear majority, Councillor Peter Roche was eliminated and a second poll taken, when there voted for Alderman Byrne: Aldermen Mahoney, Jenkins and Byrne, Councillors Corish, Cullimore, Thomas Roche, John Dunne and Peter Roche. Eight. For Councillor Flaherty: Alderman Morris, Councillors Flaherty, O'Leary and J.J. Morris. Four. Alderman Byrne was formally declared elected, and made and subscribed the declaration of acceptance of office provided by the Municipal Corporations (Ireland) Act, 1840 and the Local Government Act, 1941.

Before leaving the chair, the outgoing Mayor, Alderman Jenkins, thanked all the members and officials who had helped him during his year of office. He also thanked all the clubs, organisations etc. in the town who had invited him to various functions, and all who had helped him in any way to carry out his duties during the previous twelve months.

The outgoing Mayor criticised the system of Local Government intimating that all powers seemed to be vested in the County Manager and officials, and while the Manager and officials were always prepared to listen to representations and advice from the members, they were not always prepared to act on same.

Alderman Jenkins then vested Alderman Byrne with the Robes and Chain of Office, and Alderman Byrne took the chair. Alderman Byrne thanked all the members who had voted him into the present Office, and also congratulated the outgoing Mayor for his work during the past twelve months. All the members present then congratulated the new Mayor and thanked Alderman Jenkins for the manner in which he had conducted the business of the Corporation and the Town during the previous twelve months, at the end of which Alderman Jenkins thanked the members for their kind remarks.

ACKNOWLEDGEMENTS

The following acknowledgements were read:-

1. From the Department of the Taoiseach, acknowledging the resolution of the Corporation regarding rates, which he stated had been passed to the Ministers for Local Government and Finance for their consideration.
2. From the Minister for Local Government acknowledging the resolution passed at a recent meeting regarding the giving of postal votes to Irish seamen, and stating that the question of extending postal voting facilities to such other categories of persons was considered by the joint committee of the Dail and Senate in 1960/61, but they recommended against any further extension, mainly because they considered that the resultant greatly increased risk of abuse, would not be justified.
3. A letter was read from the Secretary, County Council, regarding the lighting on Wexford Bridge, and the provision of a 'Sharp Left Turn' sign, which he had referred to the County Engineer for his attention.

7th July, 1969.

MUNICIPAL RATE 1969/70.

The next business was to formally make a Municipal Rate of 85/= in the pound on the property rateable thereto for the local financial year ending on 31st March, 1970, as agreed and adopted on 3rd April, 1969.

Once again Alderman Mahoney, Councillors Roche and Dunne, who had objected to the adoption of the rate on 3rd April, again objected to the making of a rate, but on the motion of Alderman Morris, seconded by Councillor Flaherty, the following resolution was adopted with Alderman Mahoney, Councillors Roche and Dunne dissenting "That a Municipal Rate of 85/= in the pound be made on the property rateable thereto in the Borough for the service of the local financial year ending on 31st March, 1970, as agreed and adopted on 3rd April, 1969".

The rate book containing the various items of rate was therefore sealed and signed on behalf of the Council, as well as the warrant authorising its collection.

TRAFFIC AND FUNERALS

The Town Clerk intimated to the meeting that he had received a lengthy letter from the Superintendent, Garda Siochana, on the subject of the resolution adopted by the Council regarding the reduction of the 30 m.p.h. speed limit in Wexford, which he, Town Clerk, proposed to circulate to the members for consideration at the next meeting.

In the final paragraph of the letter, however, the Superintendent stated "it is proposed that as and from 1st proximo, all funerals from Bride Street and Rowe Street Churches to Crosstown cemetery, should proceed along John Street, Hill Street and Redmond Monument. This it is felt would eliminate the existing delay to traffic along Main Street and Quays".

As the Council would not meet again before 1st August, the date on which the Superintendent proposed to make the new regulation, the Town Clerk now asked for the views of the members on this proposal.

All the members unanimously agreed that the suggestion of the Garda to take funerals off the Main Street and Quays was a good one, and it was approved.

Arising out of this, the question of car parks and parking on the Quays was raised, and the Town Clerk informed the meeting that he would have information regarding the suggested car parks for the next meeting. Reference was also made to the bollards which C.I.E. had at present unloaded on the Quays, and the members were anxious to know there it was proposed to place these.

Councillor Cullimore referred to indiscriminate parking in Common Quay Street on the previous Saturday night, when a doctor who wished to go to Ely Nursing Home could not get down the street, and the Town Clerk promised to take this matter up with the Garda.

7th July, 1969.

OVERDRAFT ACCOMMODATION

On the proposal of His Worship the Mayor, seconded by Alderman Morris, an increase in the overdraft accommodation on the Revenue Account for the quarter ended 30th June, 1969, from £60,000 to £80,000 was agreed.

It was also agreed on the motion of His Worship the Mayor, seconded by Alderman Morris, that overdraft accommodation on the Revenue Account in the sum of £80,000 and on the Capital Account in the sum of £60,000 be authorised for the quarter ending on 30th September, 1969.

QUARTERLY MEETINGS.

On the proposal of Councillor Flaherty, seconded by Alderman Morris, quarterly meetings of the Council were fixed for 6th October, 1969; 5th January, 1970 and 6th April, 1970, at the usual times.

SALE OF LAND

A recommendation from the County Manager that a plot of ground at Whitemill North be sold to Mr. P. C. Cox for the sum of £900, on which Mr. Cox proposed to erect a factory, was approved on the motion of Alderman Morris seconded by Alderman Jenkins. Notice of this proposal by the Manager was given to each member on 20th June, 1969.

TRAFFIC WARDENS

A report from the Garda Siochana on the subject of traffic wardens, a copy of which had already been supplied to the members, was adjourned for consideration at next meeting, with other traffic problems.

The meeting then terminated.

Thomas F. Byrne

11th August, 1969.

A Statutory Meeting of the Council was held this day in the Council Chamber, Municipal Buildings, at half past seven o'clock p.m., the members present being:-

His Worship the Mayor, Alderman Thomas F. Byrne, in the chair.

Aldermen: James Mahoney, Kevin C. Morris and James Jenkins.

Councillors: John Dunne, James J. Morris, Peter Roche, John Cullimore, Desmond Corish and John Flaherty

In attendance: Town Clerk, Borough Surveyor and Borough Accountant.

MINUTES

Councillor Cullimore proposed the adoption of the minutes of 1st and 7th July, 1969. This was seconded by Alderman Morris. Alderman Mahoney, however, referred to the minutes of 7th July, and again raised the question of the election of a Mayor in 1968. He claimed that on that occasion he should have been declared elected. The members, however, agreed by six votes for, to three against, that the minutes of the 1st and 7th July, were an accurate record of the proceedings, and they were signed by the Mayor.

ACKNOWLEDGEMENTS

Acknowledgements were read from the Ministers for Industry and Commerce and Local Government, of the resolution passed at the previous meeting regarding the Buchanan report.

PARKING PLACES AND TRAFFIC

The first item under this heading was to receive independent valuations of premises proposed to be acquired as parking places, and at the suggestion of the Town Clerk, it was unanimously agreed that pending further negotiations with the owners of the properties, these valuations should be in committee.

The valuations were made by Mr. Thomas J. O'Brien, Auctioneer and Valuer, who had been appointed by the Manager for the purpose. In the case of the property at Custom House Quay and Church Lane, owned by M/s J. J. Stafford & Sons, he placed the value at £13,000, and in the case of premises at Henrietta Street owned by M/s Breen & Co., Waterford, he placed a valuation of £8,000.

After some discussion, it was unanimously agreed that the Town Clerk should open negotiations with the owners of the properties based on the valuations above quoted, as the need for parking places between the Quays and the Main Street was becoming more evident and urgent every day.

In this connection, the Town Clerk reported that he had communicated with the Department of Local Government, inquiring if grants and long-term loans would be made available for parking places in the town, after explaining to them the urgent need for them in Wexford, and giving them some idea of what they are likely to cost. He had received a formal acknowledgement only, and it was now decided that he should again communicate with the Department to inquire if a decision had been made on his previous request.

SPEED LIMITS

The second item under the above heading was a letter from the Garda Síochána intimating that they would not favour a reduction of the 30-mile speed limit in the Borough. Most of the members accepted the Garda view with the exception of Councillor Peter Roche and Alderman Mahoney, who maintained that the speed at which motor cars were travelling through the town was much too high.

FUNERAL ROUTES

In this letter from the Garda on the matter of the 30 m.p.h. speed limit, they stated that it was proposed that as and from 1st August, all funerals from Bride Street and Rowe Street churches to Crosstown Cemetery should proceed along John Street, Hill Street and Redmond Monument. This, it was felt, would eliminate the existing delay to traffic along the Main Street.

This paragraph of the Garda letter had been read for the Corporation at the meeting held on 7th July, when it was unanimously decided that it was a good idea that funerals should be routed along the streets suggested.

Since then, however, a motion had been put down in the names of Alderman Mahoney, Councillors Morris, Corish and Dunne to rescind the resolution of 7th July, approving the decision of the Garda to alter the route of funerals.

Before any discussion took place on this motion to rescind the previous resolution, the Town Clerk pointed out to avoid any misunderstanding afterwards, that to rescind this resolution would require a two-thirds majority of the Council, and as well, in his, Town Clerk's opinion, the intimation from the Garda Síochána regarding these routes was a matter of courtesy to the Corporation and that the question of routing traffic was entirely a matter for them.

This matter gave rise to a lengthy discussion, at the end of which the Town Clerk was instructed to communicate with the Garda and suggest that the following alternatives might be considered by them:-

1. funerals from Bride Street church to proceed via Joseph Street, King Street and the Quays; and,
2. funerals from Rowe Street to proceed via John Street, George Street, Lower Abbey Street and Slaney Street; or via John Street, George Street, Selskar Street and Monck Street.

Pending a reply from the Garda on these suggestions, the motion to rescind the resolution of 7th July was deferred.

11th August, 1969.

TRAFFIC WARDENS

A lengthy letter under date of 7th June from the Garda Siochana, on the matter of traffic wardens, a copy of which had been circulated to the members, showed that there were 4,454 children attending seven schools in Wexford, and in the view of the Garda, the need for the appointment of a warden at the Loreto Convent, was no greater than any other school named. The Garda intimated if the Council considered it necessary, to have traffic wardens appointed, they would have to seek the consent of the Commissioner of the Garda Siochana in accordance with Section 96 of the Road Traffic Act, 1961.

The members felt that they could not afford to employ seven traffic wardens in the town, and felt that if traffic barriers were erected outside the schools and some attention given to the younger children leaving school by the teachers, that the matter would be satisfactorily resolved.

A doubt was expressed about the ability to place a traffic barrier at the Loreto Convent, and the Borough Surveyor was asked to look into this matter.

TRAFFIC PLAN

The next matter under the heading of parking places was to consider the traffic plan prepared for the Borough by Orrje & Co., Traffic Consultants.

The report of these consultants had been before the Council on a few occasions, and it was now suggested that the Council should adopt the report in principle.

After it had been explained to the members that the adoption of the report in principle would not prejudice them in any way, of a say in whether or not any or all of the recommendations should be carried out, the Mayor proposed that the report of Orrje & Co., Traffic Consultants be adopted in principle. This was seconded by Alderman Morris and unanimously agreed to.

PUBLIC CONVENIENCES

Councillor Dunne moved "That the opening hours of the public conveniences at Selskar be extended by one hour on Sunday mornings during the tourist season". This matter was discussed at length, during which it was pointed out that there were ample facilities for tourists at O'Hanrahan station, where the morning train from Rosslare Harbour stopped, and most of the members felt that the matter should be deferred, and on the motion of the Mayor seconded by Alderman Morris, a motion to defer the proposal of Councillor Dunne was carried by eight votes for, to two against.

11th August, 1969.

SOCIAL WELFARE AGENT

In accordance with notice given, Councillor Peter Roche moved "That this Corporation request the Minister for Social Welfare to appoint a Social Welfare Agent at Wexford for the receiving of medical certificates and the making of payments on same". Alderman Mahoney seconded this motion. This matter had been raised at the March meeting of the Council, and under date of 6th March, the Town Clerk had written to the Minister on the subject of the delay in the payment of the Social Welfare benefits to persons out of work through illness, but up to date no reply had been received to his communication.

Further reference was now made to this matter, and it appeared that practically every member of the Council had received complaints of unreasonable delay in the payment of these benefits. Some members went so far as to say that they had to go to the expense (that they could ill afford) of telephoning the Department in an effort to secure payment of benefits long overdue.

It was also stated that a number of persons were constantly having to be granted Home Assistance, while waiting for payment from the Department, and this had cost the Local Health Authority some thousands of pounds.

The motion as proposed by Councillor Peter Roche and seconded by Alderman Mahoney was unanimously adopted.

EMPLOYMENT FACILITIES

Councillor Peter Roche also moved the following resolution in his name: "That this Corporation demand that the Minister for Labour bring in legislation to see that proper use is made of facilities available at local Employment Exchanges by local firms when they have vacancies available.

Objection was taken immediately to the word 'demand' in the resolution and Councillor Roche replaced it by the word 'request'. Alderman Mahoney seconded the motion, but some of the members felt that legislation on these lines would be taking away from employers the right to employ who they liked, and after some discussion, an amended motion was agreed to as follows:- "That this Corporation request the Minister for Labour to ensure that the best use is made of the facilities available at local Employment Exchanges for the filling of vacancies by local firms". Alderman Morris dissented from the resolution and it was also agreed that the Minister be requested to instruct his local Managers to circularise the firms in their areas and request them to notify vacancies as they occurred.

150 HOUSES AT WHITEMILL

On the proposal of Councillor Corish, seconded by Councillor J. J. Morris, it was unanimously agreed that the Minister for Local Government be requested to approve the raising of a loan of £414,000 for the erection of 150 houses at Whitemill North and that an undertaking be given to the Commissioners of public works in Ireland that the instalments of this loan and of all outstanding loans, could be constantly repaid on the due dates.

ASSOCIATION OF MUNICIPAL AUTHORITIES

An intimation was received from the Secretary of the Association of Municipal Authorities of Ireland that the 56th Annual Conference would be held in Nenagh on 16th, 17th and 18th, September, 1969, and that any motions for the agenda should reach him not later than 16th instant. The following two resolutions were agreed to be forwarded to the Association for discussion at the Annual Conference:-

1. That the Conference request the Minister for Finance to examine the possibility of increasing the amount of non-taxable income for single persons and couples whose families have grown up.
2. That this Conference request the Minister for Social Welfare to appoint a Social Welfare agent in each town for the receiving of medical certificates and the making of payments on same.

COMMODORE BARRY COMMEMORATION

The next business was to fix a date for the holding of the Annual Commemoration of the Unveiling of the Commodore John Barry Statue and to make the necessary arrangements. Alderman Morris proposed that the commemoration be held on 28th September and Councillor Flaherty seconded. Alderman Jenkins proposed 21st September, and Alderman Mahoney seconded.

No decision, however, was taken on which date to hold the commemoration, but a committee of four Aldermen was appointed to arrange for a person to lay the wreath and to fix the date to suit the convenience of that person. It was further agreed that the committee of Aldermen should meet on Tuesday, 12th instant, at 8.30 p.m. Councillor Peter Roche objected to the appointment of a committee and felt that the matter should be decided by the Borough Corporation.

BOAT AT CRESCENT

Arising out of this matter, a complaint was made of a wrecked boat at the Crescent Quay, and the Borough Surveyor was asked to have it removed.

CORPORATION TO ELECTRICITY SUPPLY BOARD

A recommendation from the County Manager that 75 square feet of ground at Allen Street be leased to the Electricity Supply Board as a transformer site, at a fine of £20 and a rent of 1/- per annum, was next submitted. On being assured that this did not in any way interfere with the existing parking place at Allen Street, the recommendation of the Manager was unanimously agreed to on the motion of Alderman Morris seconded by Councillor Flaherty.

Arising out of this question of parking places, a complaint was made regarding the parking of vehicles on footpaths in various parts of the town, and the attention of the Garda was to be drawn to this practice.

QUESTIONS

In reply to a question by Councillor Dunne, it was intimated that the car park at Abbey Street would be cleaned and tarmacadamed in the Autumn of this year. Councillor Roche asked when would the fencing at Kennedy Park be completed, and he was informed that this matter would have to wait until the Housing Engineer returned to work, and it was decided that he be informed that the Corporation insist on this work being carried out immediately the men resume duty after the annual holidays. A further question was asked by Councillor Roche as to when repairs to houses purchased by tenants would be completed, and the Borough Surveyor intimated that of 53 houses, 35 had been done, and the 18 outstanding would be dealt with in the immediate future.

A final question by Councillor Roche as to whether or not points were available for each person who had applied for a house, and been inspected by the Sanitary Officer irrespective of the current priority list. The Town Clerk informed him that he had no information regarding points, except what was on the current priority list submitted by the Chief Medical Officer.

FERRYBANK TOILETS

Alderman Mahoney complained of the public being prohibited from using the toilets at Ferrybank, and the Town Clerk pointed out that these toilets were provided for the people using the caravan site. Before the general public had been prohibited from using them, damage had been done and some of the hand basins had actually been pulled out of the wall, but it was decided to ask the Borough Surveyor to prepare plans for the provision of a toilet at Ferrybank, and then request the County Council to provide same as it was in their area. A complaint was also made regarding the charge of 10/= per night for tents at Ferrybank, and this was referred to the Ferrybank Committee.

WATER SUPPLY

A complaint was also made regarding the water supply to the town, and the Town Clerk gave copies of the latest chemical and bacteriological reports to the members and the press. All these showed that the water was safe to drink. He, Town Clerk, however, admitted that the taste and smell were not very pleasant during the past couple of weeks, and informed the meeting that from investigations made, it would appear that the heavy downpour of rain on 1st instant had washed the growth of algae from the banks into the reservoir, and it was very difficult to filter this out, having regard to the abnormal use of water at the present time. However, he stated, steps had been taken during this day to deal with it in the actual reservoir itself and they were hopeful that the result would be satisfactory.

LIGHTING OF WEXFORD BRIDGE

A complaint was again made regarding the absence of lighting on Wexford Bridge, and the Town Clerk was asked to take this matter up with the County Engineer.

Councillor Flaherty asked the Town Clerk if he had received a letter from the Trade's Council and the Town Clerk intimated that he had received the letter referred to and had replied to the Secretary.

Councillor Flaherty also complained of the parking of cars on Wexford Bridge by fishermen and felt that this was a traffic hazard which should be dealt with by the County Council.

ST. PETER'S SQUARE

Alderman Morris referred to a decision of the Corporation on May 8th, not to proceed with the kerbs around the parking place at St. Peter's Square, and asked why this decision had not been carried out. The Town Clerk intimated to the meeting that kerbs had been laid temporary to try and work out a traffic route for the area, now that it had been properly marked as a car park.

He, Town Clerk, also pointed out that the decision to kerb the centre of the square around the marked car park had been made by the Corporation and sanctioned by the Minister for Local Government who had made a grant available for the purpose of carrying out this work. The Town Clerk further intimated that in his opinion, if any loss occurred through the non-use of the kerbs, that the members voting in favour of this would be held responsible. After some discussion, it was proposed by Alderman Mahoney, seconded by Councillor Peter Roche, that the Corporation adhere to the previous decision of the May meeting, not to have the kerbs put in place, and on a vote being taken, the following voted in favour of the proposal:— His Worship the Mayor, Aldermen Mahoney and Kevin Morris, Councillors Dunne, J.J.Morris, Peter Roche, John Cullimore and Desmond Corish.

Councillor Flaherty had left the meeting at this stage, and Alderman Jenkins did not vote.

Councillor Cullimore asked that a seat be provided at the Monument Cross and Councillor Peter Roche asked that a pilot light be provided at Kennedy Park. Both these matters were to be investigated.

BOROUGH ARMS

An application was read from the Federated Union of Employers, Wexford Branch, requesting permission to embody the Wexford Coat of Arms in a President's Medallion to be struck for the branch, and it was unanimously decided to grant the necessary permission for the use of the Coat of Arms to the Federation.

OLD FIRE ENGINE

It was intimated to the meeting that Mr. Sean Scallan of St. Magdalen's was prepared to take over and refurbish the old Albion Fire Engine at present in the Corporation Yard. Mr. Scallan felt that the fire engine in some years to come would be regarded as an antique, which should be retained in Wexford. He, Mr. Scallan, proposed to have the fire engine restored as near as possible to its original state and to retain it and maintain it until such time as a permanent museum would be established in Wexford, when it would be returned to the town.

The Town Clerk informed the meeting that the County Manager had agreed to the request of Mr. Scallan and on the motion of Alderman Byrne, seconded by Alderman Jenkins, it was unanimously agreed that the old fire engine with its full equipment, should be handed over to Mr. Scallan on loan until such time as a permanent museum was established in Wexford, when it would be returned to it.

LEASING OF SITE TO CANNON BUILDINGS LTD.

The Town Clerk intimated that Mr. Cannon of Cannon Buildings Ltd., had recently approached the Corporation for a site on which to establish a factory at Whitemill. A site had been agreed on and notice of intention to lease it to him had been given to the Corporation, but before this could come before a meeting, Mr. Cannon had intimated that the site was too small and that a larger site would be necessary so the original proposals had not been proceeded with. Mr. Cannon required a site of some seven acres and it was proposed to rent it to him at £60 per acre per annum.

Formal application for the site had not yet been received from Mr. Cannon, but it was now unanimously agreed in principle that a site be let to Mr. Cannon and that when application was received from him, that the necessary statutory notices be given to the members, but in the meantime, the legal arrangements could be made for it.

The meeting then terminated.

20th August, 1969.

A Special Meeting of the Council was held this day in the Council Chamber, Municipal Buildings, at half past seven o'clock p.m., the members present being:-

His Worship the Mayor, Alderman Thomas F. Byrne, in the chair.

Alderman: James Mahoney.

Councillors: Thomas Roche, John Cullimore, Peter Roche, John Dunne, and Desmond Corish.

In attendance: Mr. A. A. Connolly, Deputy County Manager, Town Clerk and Borough Accountant.

The meeting had been convened by His Worship the Mayor at the request of Aldermen Mahoney and Morris, Councillors Peter Roche, Fintan O'Leary and John Flaherty, to consider the following resolution: "To call on the Government to use every means in its power to protect our brothers in Northern Ireland, also for an immediate disbanding of the B. Specials and a U.N. supervised plebescite on the question of Irish Unity".

STATEMENT BY TOWN CLERK

The Town Clerk asked permission of the Mayor to make a personal statement regarding the calling of a Special Meeting, and having been granted this permission said, that on the morning of 13th instant, Councillor Peter Roche had telephoned him asking how many names were required to convene a Special Meeting of the Council. He (Town Clerk) had informed the Councillor that His Worship the Mayor could convene a meeting at any time, but if he refused to do so, five members of the Council could sign a requisition requesting the Mayor to call a Special Meeting. At the time of this telephone conversation, Councillor Roche did not intimate either the purpose for which the Special Meeting was to be called or the date on which he wished it called for.

On opening the Free Press on 15th instant, he (Town Clerk) observed the following report therein: "Emergency Council call to aid North. A call to hold an immediate emergency meeting of Wexford Corporation to allow Councillors to urge the Government to intervene in the Northern Ireland 'tragedy' was rejected yesterday on the grounds that five days statutory notice has to be given. Yesterday (Wednesday) Mr. Peter Roche requested the Town Clerk, Mr. John Byrne, and Mayor Thomas F. Byrne to convene an emergency meeting of the Corporation, so that the Council could plead with the Government to take some measures to allay the situation in the North.

Mr. Roche was informed by both, that an emergency meeting could not be held until five days had expired, as this was stipulated under the Statutory Laws of the Corporation. 'This was amazing' an astonished Mr. Roche observed, 'seeing that meetings of Local Authorities can be summoned within a few days notice, when a leader of Church or State dies, so that they can pass a vote of sympathy'".

Continuing, the Town Clerk intimated that at no time had he spoken, except on the telephone to Councillor Roche, and then only to answer the question as to how many names were required on a notice to convene a Special Meeting. The Town Clerk then quoted from Section 92 of the Municipal Corporations (Ireland) Act, 1840, which stated, inter alia, that the Mayor shall have power to call a meeting of the Council as often as he shall think proper, and in case the Mayor shall refuse to call any such meeting after requisition for that purpose signed by five members of the Council at the least shall have been presented to him, it shall be lawful for the said five members to call a meeting of the Council.

20th August, 1969.

According to this, the Town Clerk intimated he had no function whatever, regarding the calling of a special meeting. The Mayor could do so anytime he wished, five members could request the Mayor to do so, and if he refused they had authority to call such a meeting themselves, but as far as he, Town Clerk, was concerned, his only function was to issue the necessary notice.

In reply to the Town Clerk's statement, Councillor Peter Roche said that he agreed that the report on the paper was incorrect, but he had been pressurising His Worship the Mayor to call this meeting, and instead he had called a public meeting in the Parish Hall for Friday night next.

At the outset, the Mayor read a lengthy letter from Alderman James Jenkins, apologising for his absence, due to the short notice of the meeting. The Alderman stated he fully supported the motion before the meeting, and gave a lengthy resume of his views on the present position in Northern Ireland. The Mayor also made an apology on behalf of Councillor Flaherty, and the Town Clerk intimated that Alderman Morris had phoned to say that due to a prior engagement, he would be unable to attend the meeting.

Councillor Peter Roche then moved the resolution as set out above, Alderman Mahoney seconded. Councillor Dunne while supporting the motion, suggested that these pious resolutions were of little use, and that the members in robes should visit Northern Ireland during the weekend on a fact-finding mission. Councillor Thomas Roche also approved the resolution, but suggested that the Corporation call on workers in the 26 counties to withdraw their cards from English based Unions. Councillors John Cullimore and Desmond Corish also supported the motion before the meeting, after which the Mayor summed up and the resolution was unanimously adopted.

The meeting then terminated.

The Acting Borough Engineer reported that there was a light within thirty yards of the gateway at the end of Joseph Street. He further reported that there was no evidence of the use of the gateway as a public toilet. Councillor Thomas Roche seconded the motion. Councillor Corish proposed "That in view of the difficulties experienced in the last few months in Wexford Clinic concerning:-

The County Manager reported on improvements which were being brought into the Health Services in the County, in particular, the scheme for having prescriptions dealt with by Pharmacists, the appointment of a supervising Dentist and extensions to the Wexford County Hospital. This was considered very satisfactory by the meeting and the proposer suggested that a motion such as the foregoing should be proposed at intervals to ensure that the matter of hospital services in the area was not lost sight of.

REPORT OF TIDY TOWN COMPETITION - ADJOURNED FROM PREVIOUS MEETING.

The report having been circulated was taken as read. It was agreed that efforts should be made to engage the help of local voluntary committees next year with a view to securing a higher place. Councillor Peter Roche expressed disagreement with the findings of the judges as stated in the report.

RELIEF GRANTS

A letter from the Department of Local Government intimating that no money was available for allocation under subhead J of the Local Government Vote for Employment Schemes in Urban Areas.

All present deplored the announcement and after discussion, it was agreed that the Minister should be asked to review the matter in view of the fact that Wexford had no new industries established, which would alleviate unemployment. It was further agreed that the matter should be put before Deputies Allen, Browne, Corish and Esmonde, who should be asked to interest themselves in the matter.

MOTIONS BY COUNCILLOR PETER ROCHE

- (a) Councillor Peter Roche proposed "That a special meeting of this Council be held to discuss housing repairs". It was agreed following a discussion to hold such a meeting on Monday 17/11/1969 at 8.30 p.m.
- (b) Councillor Peter Roche proposed and Alderman James Mahoney seconded the following motion:-
"That this Council instruct its officials to carry out an immediate survey of all possible housing sites in the northern end of the town, with a view to building in this dying area in the not too distant future".

All those present supported the motion, in the discussion which followed, and the Town Clerk outlined negotiations which are in progress regarding the acquisition of land in the north end of the Borough, which was considered satisfactory.

MOTION BY COUNCILLOR THOMAS ROCHE

MOTION BY ALDERMAN JAMES MAHONEY

Alderman Mahoney moved and Councillor Peter Roche seconded the motion "That clearance and cleansing of the Talbot Street/Green Street area and other areas containing ruinous buildings be carried out as soon as possible". The Town Clerk explained that the area was subject to a Compulsory Purchase Order and that there were the problems of re-housing those still resident in it, and the financial resources to enable the work to be done and in addition the premises had to be formally taken over in accordance with the law. The Town Clerk assured the members that the matter would be dealt with as soon as possible.

SALARIES

Salary increases of 4% on the first £1,800 and 3% on the balance, to take effect from 1st June, 1969, for the Councils' officials, were unanimously approved and it was agreed that the sum of £750 to cover this expenditure in 1969/70 to be provided on the proposal of Councillor John Cullimore seconded by Councillor James J. REPORTS OF COUNCIL'S ENGINEERS

(a) A report on the provision of handrails and pram ramps at Kennedy Park was submitted, stating that the provision of the latter would cost £365 and sanction of the Department of Local Government would be required. It was agreed that the necessary sanction should be sought.

(b) A report on the promenade at Ferrybank stated that the dry filling had shifted and concrete slabs were undermined and that replacement stones, filling and pointing would cost £300. It was agreed to apply the amount provided as the local contribution for grant works for the year should be applied to have this work carried out.

(c) The Acting Borough Engineer reported that it had been agreed that street sweepers should not be used in bin collection, but when the regular bin men refuse to work overtime or are shorthanded, a man must be taken off the sweepers to complete the collection. This stems from the fact that the Corporation has the minimum amount of labour employed and it would not be feasible to take a man from the Labour Exchange for one day or two. It was decided that sweepers should be kept on street cleansing.

(d) A report on the provision of road and avenue name plates at Maudlintown stated that the erection of the thirteen necessary plates would cost £70. It was agreed that this work should be carried out from the current estimate.

(e) The report on the position of fuel tanks at M/s Sherrards, Carriglawn, stated that the petrol tank is not over the water main, it is approximately thirty feet therefrom and about six feet below the main and is of ten thousand gallon capacity. This was considered satisfactory.

(f) On the water supply, it was estimated that to carry out the pumping necessary to maintain the supply during the dry weather was costing about £225 per week. It was agreed that when the water supply has come back to normal, an estimate of the total additional cost will be brought before the Council.

REPLIES TO QUESTIONS

Councillor Peter Roche was informed:-

1. That arrangements have been made with the Electricity Supply Board to alter all lighting at Kennedy Park to the new system and to extend the same to the last pole on the Whitemill Road (Cullen's House). It is not possible to extend further as no further poles are available and to have new poles erected would be a waste, in view of the Electricity Supply Board's intention to alter the existing network in the area. It was estimated by the Acting Borough Surveyor that the widening of the road at Kennedy Park would cost £2,400.

2. That the order for the pedestrian crossing at Maudlintown/Faythe/William Street was with the Electricity Supply Board and that in addition, the corner would be improved.

3. That neither the Bishopswater nor the Corish Park/Kennedy Park roads are the main road out to the "New Line", the official main road being King Street/Distillery Road.

4. That sanction to the 150 house scheme at Whitemill has not yet been received.

5. That the slabs which had been placed round the car park at St. Peter's Square had been removed.

Councillor Thomas Roche was informed:-

1. That the following were the numbers of houses built in each year since 1960:-

1960/61	22	1965/66	32
1961/62	8	1966/67	28
1962/63	23	1967/68	38
1963/64	18	1968/69	40
1964/65	24	and from 1/4/1969 to 3/11/1969 - 24.	

2. That the 12 houses in Davitt Road South will be completed by February, 1970.

3. That the number of people on the list for houses was:-

at 31/10/1967	180

	<hr/>
	357
Less: Re-housed since	80
	<hr/>
Leaving at present	277

4. That in the purchase of cast iron goods used in building schemes, the Corporation was compelled to buy from those whose names are on the Combined Purchasing List or who submitted the lowest tender.

5. That all gully traps are cleaned and disinfected frequently.

Alderman James Mahoney was informed that:-

1. Three new signs indicating the route to the Town Centre from the Faythe/William Street would cost £20, in addition to the large sign already there.

2. "Go-Slow" signs can be erected for the protection of the children at the entrances to Bishopswater, Croke Avenue and Slaney Street, but it was doubtful if they would have any slowing effect on traffic as these places were already in the 30 mile speed limit zone. The cost would be £20.

3. Very little can be done to repair steel window sashes in St. Aidan's Crescent, other than renew them with timber ones costing between £6 and £14 per window, depending on size.

Alderman Kevin C. Morris proposed that the Council extend thanks to the organisers of the 1969 Wexford Festival and the Garda and all who helped to make it such a great success. His Worship the Mayor, seconded and the other members concurred.

Councillor Fintan O'Leary referred to the state of the slabs in the centre of Swan View and the fact that grass was growing between the slabs. The Acting Borough Surveyor stated that he would treat the area with sodium chlorate, which was approved.

The current year's estimate had provided £6100 for house repairs (approx. £5.10.0d. per house) and to date about £3,000 to meet repairs up to 31st March, 1970. The Engineer suggested that the Council might consider giving sections of the housing estate to be repaired by contractors. A lengthy discussion ensued and it was agreed that the work at present being done was satisfactory and that schemes for maintenance of houses should be brought in by the Acting Borough Engineer for the preliminary Estimates Committee Meetings.

WATER SUPPLY

A report on the water supply was read and showed the improvement in the position brought about by the recent rains. It was hoped that curtailment of the supply and night pumping would soon be discontinued.

Appreciation was expressed of the work done by the Engineer and other employees for their efforts to maintain the supply in very difficult circumstances.

SCHOOL MEALS

Approval was given to the supply of school buns to the Handicapped Children's School in St. Michael's Hall. The extra cost for 1969/70 of £50 was unanimously approved on the proposal of Ald. Kevin Morris seconded by Ald. Jas. Jenkins.

PURCHASE OF LAND AT FERRYBANK AND HILL STREET

It was agreed that the nuns should be informed that the Corporation would Compulsorily acquire the land, if necessary.

Negotiations for the purchase of land at Hill Street from the Sisters of St. John of God were reported to be going ahead.

Mr. Nolan from S.E.R.T.O. Office, Waterford, Mrs. Barbara Wallace, Development Officer for Wexford and Mr. Michael J. Cusack, Manager, S.E.R.T.O. who led the deputation. Mr. Cusack then outlined very clearly the many and varied services of the Tourism Organisation and plans for expansion in the coming year. He noted the contribution paid by Wexford Corporation for 1969/70 was £100. whereas the Corporation was empowered to contribute up to approximately £420 and he asked that in the coming year, the maximum contribution should be paid. His Worship the Mayor thanked Mr. Cusack for his statement and assured the deputation that full consideration would be given to the matter when the Estimates for 1970/71 were being adopted. His Worship the Mayor, Alderman Thomas F. Byrne, in the chair;

Aldermen: James Mahoney, James Jenkins and Kevin Morris;

Councillors: Desmond Corish, Thomas Roche, John Cullimore, Peter Roche, James J. Morris, John Flaherty, John Dunne, and Fintan O'Leary.

Mr. Thomas F. Broe, County Manager; Mr. K. Conway, B.E., Borough Engineer and J.A.V. Merriman, Acting Town Clerk were in attendance.

SYMPATHY

Resolutions of sympathy were adopted unanimously in respectful silence in the following cases:-

- (1) With Dr. B. Finucane, Chief Medical Officer, on the death of his daughter, proposed by Alderman James Mahoney and seconded by His Worship the Mayor;
- (2) With Mr. James Pierce, on the death of his father, proposed by His Worship the Mayor and seconded by Alderman James Mahoney;
- (3) With the relatives of the late Matthew Duggan, proposed by Councillor Peter Roche and seconded by Alderman Kevin Morris. Councillor Thomas Roche, a relative of the deceased expressed thanks on behalf of the family for the Council's expression of sympathy.

MINUTES

The minutes of the meeting held on 9th March, 1970, having been circulated to members, were taken as read, approved unanimously on the proposal of Alderman Kevin Morris seconded by Councillor John Cullimore, and signed by His Worship the Mayor.

SUSPENSION OF STANDING ORDERS

Councillor John Flaherty requested permission of the Chair to move that Standing Orders be suspended for a period to allow discussion of a matter of grave importance to the Corporation, viz. the acquisition of a site for houses at Wygram. His Worship the Mayor agreed to accept the motion which was then seconded by Councillor Peter Roche and unanimously agreed. It was further agreed that the representatives of the press should remain during the discussion. There followed a very full discussion of the matter after which it was decided that the Acting Town Clerk should consult Mr. R.E. Corish, Auctioneer and agent for the owners of the land in question, the St. John of God Nuns in order to find out if in fact the land had been sold to another person and if not to arrange a meeting between the Nuns and a deputation from the Corporation which should include His Worship the Mayor, Councillor John Flaherty, the County Manager, Borough Engineer and Acting Town Clerk. The business on the agenda was then resumed.

ACKNOWLEDGEMENTS

A letter from Mr. James J. O'Connor was read in which appreciation of his family was extended to the Mayor and Council members for the resolution of sympathy recently adopted consequent upon his father's death. The letter was noted.

REQUEST FOR NEW INDUSTRY IN WEXFORD

The Minister for Industry and Commerce in a letter, stated that he had noted the resolution passed at the meeting of the Council held on 9th March, 1970, in which a request was made for the establishment of a major industry in Wexford, which would employ five hundred male workers. The letter was noted.

SLAUGHTERHOUSES

A report from the Chief Medical Officer indicated that the standard had considerably improved in slaughterhouses operating in the Borough since his last annual report. The report further recommended the provision of a public abattoir for the area. The contents of the report were noted.

OVERDRAFT REQUIREMENTS

On the proposal of Councillor John Flaherty, seconded by His Worship the Mayor, it was unanimously agreed that an overdraft of £80,000 on Revenue Account and £38,500 on Capital Account for the quarter ending 30th June, 1970, should be obtained from the Council's Treasurer.

RATES 1970/71

The County Manager referred to a report concerning the sum adopted in the Estimate of Expenditure in respect of the County Council Demand for the local financial year ending 31st March, 1971. He explained that a circular dated 11th February, 1970 had been issued by the Department of Health in which it was notified to Health Authorities that a special grant would be made available to enable the increased levy on the Rates by those bodies in the year ending on 31st March, 1971, to be not more than two shillings in the pound on Rateable Valuations. The increase in the levy on Wexford Borough Rates amounted to 4/4³/₄. The Wexford Borough Estimates were adopted on 6th April, 1970. Subsequently a statement was made by the Minister for Health indicating that the provisions of the circular could be applied to all local authorities which contributed to Health Services, but since the Council had lawfully adopted the Estimate of Expenditure in accordance with its powers, no alteration could be made in the levy. The matter could be corrected by allowing the appropriate credit in the following year's Demand from Wexford County Council. In the discussion which followed, the members were unanimous in expressing dismay that the necessary reduction could not be made in the current year's charge and noted the fact that an adjusting credit would be forthcoming when the Demand for the year ending 31st March, 1972, was prepared.

STRIKE IN CEMENT FACTORIES

Alderman James Jenkins proposed, Councillor John Flaherty seconded the following resolution, which was passed unanimously:-
"Bearing in mind the present suspension of building of houses so urgently needed by the Town of Wexford, that Wexford Corporation call on the Taoiseach to use his influence to bring the cement factories of Ireland back into production".

TRAFFIC MANAGEMENT

The motion "That Wexford Corporation calls on the Minister for Local Government, Wexford County Council and all officials involved to note its complete rejection of any implementation of the so-called 'Western Ring Road' idea of linking the Rosslare Road with the New Ross Road; Wexford Corporation asks for the improvement of the Quay thoroughfare to link adequately the Rosslare/New Ross roads", was proposed by Alderman James Jenkins, seconded by His Worship the Mayor and agreed unanimously.

APPLICATIONS FOR HOUSING

Councillor Peter Roche proposed "That when persons apply for Housing application forms, a leaflet be issued with same explaining the system of letting priorities". Alderman Kevin Morris seconded and it was unanimously approved. The County Manager informed the meeting that an appropriate leaflet would be prepared.

4th May, 1970.

FOOTPATHS IN WOLFE TONE VILLAS

Councillor Peter Roche, with the approval of the meeting withdrew the motion "That the footpaths in Wolfe Tone Villas be included in the 1970 Relief Grant" as the Borough Engineer had made provision for the same in his report submitted in relation to the Urban Roads Improvement Grant for 1970/71.

RATES

Councillor John Dunne proposed "That the members of Wexford Corporation call upon the Government to set up a Commission of experts to examine ways and means to provide an alternative to the existing Rates system". His Worship the Mayor seconded and the motion was adopted unanimously.

PLANNING

The motion "That this Council supply to the local papers full details of all applications received for Planning Permission" which had been tabled by Councillor John Dunne was ruled out of order by His Worship the Mayor since the Local Government (Planning and Development) Act, 1963, set out the procedure to be followed in these matters.

OPEN SPACE AT BISHOPSWATER

Alderman James Mahoney proposed "That the green margin in Bishopswater will receive a general cleaning". Councillor Thomas Roche seconded and it was agreed. The Borough Engineer informed the members present that the work had commenced.

MEDICAL SERVICES

Alderman James Mahoney moved "That the public be notified when doctors are relieved of duty". A letter from the local doctors (copy attached) was read setting out the arrangements in existence for the provision of medical attention during the off-duty hours of doctors. The letter was noted with approval. The motion was seconded by Councillor Peter Roche and agreed. Some further discussion followed and the meeting decided that the Wexford Postmaster should be requested to seek the co-operation of the staff of the Telephone Exchange in making contact with doctors, when necessary, after hours.

QUESTIONS

Alderman James Jenkins in reply to questions 1, 2 and 3 regarding traffic management heard a report from the Borough Engineer, a copy of which is attached.

Councillor Peter Roche in reply to questions was informed:-

- (4) that the length of time elapsing after a housing application was submitted before the applicant's conditions were inspected was dependent on the circumstances and that generally in preparing a priority list, the Chief Medical Officer would have the applicants inspected at a date which would reveal the most up-to-date position.
- (5) that preliminary lay-out plans were submitted for consideration in the case of the Talbot Street/Green Street Housing Scheme.
- (6) that there was an increase of £500 in the levy for Fire Brigade Services in the current financial year, that the management of that service was under the control of the Wexford County Council and that the repairs to the engine damaged in a recent accident were carried out by a firm in Enniscorthy by direction of the Insurers who were paying for the same.

4th May, 1970.

Councillor John Dunne was given the following replies to questions:-

- (7) that the Corporation was responsible for cleaning and maintaining some of the laneways leading from Main Street to the Quays and that several of them were privately owned.
- (8) that the Mayor's and member's robes were symbols of office and not of authority, that the member's robes had been donated in 1932 and the Mayor's robes were about one hundred and ten years old. They were not "heirlooms of an ancient past".
- (9) that the matter of building sites in the northern end of the town had been covered in the debate regarding land at Wygram.

Alderman James Mahoney was informed in reply to questions:-

- (10) that the pedestrian crossing at Maudlintown was in progress, poles had been erected and some other work had to be completed.

His Worship the Mayor suggested that a meeting of the Housing Committee should be held on Monday, 11th May, 1970, and this was agreed.

The meeting then terminated.

The probable present average requirement in parking in and about the Central Business District is 1,200 spaces. The number of spaces available including off-street parking and legitimate kerbside parking is 750 approx. The available spaces are distributed as follows:-

Main Street	120 - 125	Kerbside spaces.	
The Quays (Both sides)	200 - 250	"	"
Bullring	10 - 12	Park	"
Georges Street	20 - 25	Kerbside	"
Anne Street	30 - 36	"	"
Rowe Street	20 - 30	"	"
Rowe Street Church	50 - 60	Park	"
Cornmarket	10 - 12	"	"
Selskar, Temperance Row, Well Lane and Trimmers Lane.	45 - 50	"	"
Abbey Street	25 - 28	"	"
Back Street	35 - 40	"	"
Redmond Place	8	"	"
Patrick Square	8	"	"
Henrietta Street	30 - 36	Kerbside	"
Charlotte Street	10 - 15	"	"
Monck Street and Skeffington Street	15 - 20	"	"
St. Peter's Square	44	Park	"
Keyser's Lane	30 - 42	"	"
Totals	650 - 841		

The figure of 1,200 spaces required is guesstimated on the basis of the 1966 Traffic Survey with a linear annual growth of traffic and a small reduction in kerbside parking, which results from traffic management. By the close of the century, the requirement according to our traffic Consultants, M/s Orrje & Co., will rise to 3,000 in an area bounded on the north by Slaney Street, the south by Parnell Street, the east by the Quays and the west by a line roughly parallel to the Quays 500 yards west.

The Consultants' report specified areas - mainly where urban renewal was imminent - which would be most suitable for off-street parking. The Corporation, with the aid of Central Government Funds, is acquiring these properties for conversion to off-street car parks as the properties become available, within the limit of the funds provided. £20,000 is available during the current financial year. During the four years 1966 - 1970, 120 spaces have been provided at Keyser's Lane, Back Street, Abbey Street, Well Lane, Temperance Row and Selskar, as well as improving the facility at existing parks by white lining.

During 1970 it is hoped to:-

- (1) provide 150 new parking spaces at Church Lane and Abbey Street;
- (2) surface in blacktop the existing parks at Back Street and Abbey Street and resurface portion of Peter Square;
- (3) lay thermoplastic white lining on the existing parking areas.

The pace at which additional off-street parking is becoming available is not entirely satisfactory, but this is the experience of most worthwhile towns and cities in these islands. Parking regulations allowing limited periods of one or two hours at those parks nearest the centre of the Central Business District will help in the future.

Business people who park their own cars in public or kerbside parks, adjacent to their premises throughout the working day, would do well to consider that they may have deprived six or more potential customers of the facility and sent them elsewhere to do business.

His Worship the Mayor introduced Miss Barrington and Miss Donovan, who were in Wexford and had requested permission to attend a meeting of the Council.

HOUSING REPAIRS

The Borough Engineer, in reply to a question by Councillor John Flaherty, informed the meeting that due to slackness of work on Direct Labour Housing, he had asked the foreman Mr. William Bolger to inspect a number of houses which were reported to be in need of repairs.

A full discussion of the repairs problem followed, and Councillor Desmond Corish proposed that a list of repairs reported showing priorities should be prepared by the Borough Engineer for the next Council Meeting. The motion was seconded by Councillor John Flaherty and agreed.

Alderman James Jenkins then proposed that should the subject of housing repairs take up more than one half hour of the time at a monthly meeting of the Council, a special meeting of the housing committee should be held once a quarter to deal with the matter.

PURCHASE OF LAND AT WYGRAM

A letter from Mr. R. E. Corish, Auctioneer, was read, in which it was stated that the Nuns did not wish to receive a deputation from Wexford Corporation, but that their Agent, Mr. R. E. Corish was willing to discuss the matter at any time. It was noted that in the event of a Compulsory Purchase Order being made, that evidence of the price by the landowner would be based on the new offer. After some discussion, it was agreed that before taking a decision to acquire the land by Compulsory Purchase Order, that the deputation, consisting of His Worship the Mayor, Councillor John Flaherty, the County Manager, Borough Engineer and Acting Town Clerk, should meet Mr. R. E. Corish, Auctioneer. It was suggested that the meeting should take place at 7.30 p.m. on Friday, 15th May, 1970, at the Municipal Buildings.

It was further agreed on the proposal of Councillor John Flaherty, seconded by Councillor Peter Roche, that land at Coolcotts should be purchased from the several owners.

FERRYBANK

The drawings for the Retaining Wall at Ferrybank were submitted to the meeting, and it was agreed that the work should be carried out as part of the Ferrybank Scheme to be financed in the same way as the Caravan Park.

TALBOT STREET/GREEN STREET HOUSING

It was agreed on the proposal of Alderman James Mahoney, seconded by His Worship the Mayor, that a provision for small businesses now in the area should be made by the Architect in the overall plan for the new housing scheme at Talbot Street/Green Street.

CONTRIBUTION TO REDMOND MEMORIAL PARK

A letter was read from Mr. H. Coffey, Hon. Secretary, Redmond Memorial Park Committee, in which a request for an increase in the Corporation's contribution towards the upkeep of the Park was made. The increase was to help meet increased wages costs. The Council decided after discussion that as the current year's allocation had been fixed, that an additional grant was not now possible and that the matter would receive sympathetic consideration when the next year's estimates were being prepared.

DOMESTIC SCAVENGING

The matter of collection of Domestic Refuse was discussed at some length and it was decided that in view of the increasing volume of refuse for disposal that regulations should be made. Alderman James Jenkins suggested that the dump should be left open later to allow traders to dispose of refuse. The County Manager suggested that representatives of the shopkeepers might meet the Corporation to discuss the problem.

WHITEMILL HOUSING SCHEME

The Borough Engineer reported that the Contractor was having some difficulty in obtaining a bond and advised the Council that it might be necessary, in the event of the bond not being forthcoming, to secure a Contract with one of the other firms who had tendered.

FIXING OF RENT

Councillor Peter Roche questioned the differential rent fixed for Mr. T. Carroll of Kennedy Park and was informed that the rent was fixed on the basis of the particulars supplied by the tenant in accordance with the scheme.

The meeting then terminated.

19th May, 1970.

A Special Meeting of the Housing Committee of Wexford Borough Council was held this day in the Council Chamber, Municipal Buildings, Wexford, at half past seven o'clock p.m.

His Worship the Mayor was in the chair, and also present were:-

Aldermen: Kevin Morris and James Mahoney.

Councillors: Thomas Roche, Peter Roche, John Dunne, Fintan O'Leary and John Flaherty.

Apologies were received from Councillors James J. Morris and Desmond Corish.

Officials in attendance were: Mr. K. Conway, B.E., Borough Engineer and J.A.V. Merriman, Acting Town Clerk.

Apologies were received from Mr. T.F. Broe, County Manager, who had to attend a meeting in Gorey.

ACQUISITION OF LAND AT WYGRAM

His Worship the Mayor and Councillor John Flaherty reported on the meeting which had been arranged for the 15th May, 1970, with Mr. R.E. Corish, Auctioneer and Agent for the Sisters of St. John of God, from whom the property was proposed to be acquired. The Building Contractors, Messrs McInerney, who were also seeking to acquire the land had not in fact signed a Contract and the Council were advised that the price of the land was now the figure offered by Messrs McInerney, viz. £3,800 cash and in addition a seven foot wall with unclimbable fence on top to give privacy to the remaining land occupied by the owners.

The Acting Town Clerk informed the meeting at the request of the County Manager that the erection of houses by a private developer would involve no expense to the Corporation and help to provide houses which would relieve somewhat the demands on the Council for houses and that the availability of suitable houses would facilitate potential industrialists who might consider setting up factories in Wexford and further, that should it appear, that people wishing to invest in the area might find difficulties in dealing with the Corporation, that industrialists might be unwilling to come into the area.

As a result of an approach made to the County Manager the same day, His Worship the Mayor had given permission to Mr. Jordan and Mr. Considine of McInerney's Ltd. to come and put the Company's proposals to the Council. Some discussion followed and the members agreed to hear the proposals. Mr. Jordan and Mr. Considine then came in to the Council Chamber and informed the Council that he proposed to come in to Wexford and build moderately priced houses of slightly over nine hundred square feet. He suggested that if the Council wished to acquire the site at Wygram, he would be willing to go to another site, if it were made available to him. He then invited all members of the Council to visit schemes at Waterford and Kilkenny at his Company's expense to inspect houses similar to those he proposes to build in Wexford, before taking a final decision.

His Worship the Mayor proposed and Alderman James Mahoney seconded and it was agreed that no decision be taken, especially in view of the absence of some Council members and that Mr. Jordan's offer to view his houses in Waterford and Kilkenny be accepted.

19th May, 1970.

150 HOUSES AT WHITEMILL

The Acting Town Clerk reported that the Contractor, Irish Excavation Co. Ltd. who had been given the Contract for the erection of the houses at Whitemill had withdrawn his tender in view of difficulties arising from the cement workers' strike and the Bank officials' strike, which he claimed made it impossible to obtain the necessary bond. The report was noted and the Borough Engineer undertook to secure another Contract with one of the remaining firms, which had submitted tenders.

It was decided that the June 1970 meeting of the Council would be held on Monday, 8th June, 1970, due to the 1st June being a public holiday.

The meeting then terminated.

The County Manager assured the Council that the full grant would be pursued with the Department and that the appropriate benefit would be brought into account in preparing the estimates for 1971/72. Alderman Jenkins requested that an amendment to the minutes should be made. This was agreed and subject to the foregoing amendment, the minutes were adopted unanimously on the proposal of Councillor John Cullimore, seconded by Alderman James Mahoney.

CORRESPONDENCE

Mr. Albert Lennon, B.E., Consulting Engineer attended and gave the meeting an up-to-date report on the Ferrybank Caravan Site. He hoped to have the showers and laundry facilities completed by the end of June, 1970, with a number of other smaller improvements such as those suggested by Alderman Jenkins for the provision of shelving near wash basins, hooks for towels. The meeting noted with satisfaction Mr. Lennon's report.

WATER SUPPLY

The Borough Engineer reported that due to a severe drought since March this year coupled with the drought of 1969, with consequent lack of recovery of the catchment, the reservoir at Coolree, in spite of day and night pumping from Edenvale, has dropped 42" and to conserve supplies, it was necessary to shut down the supply nightly from 12.30 a.m. to 5.30 a.m. The Engineer also asked for permission to expend a sum not exceeding £20 per week in excess of the estimate, in order to conserve the supply and to avoid more severe rationing. The proposals set out in the report were agreed unanimously on the proposal of Alderman Kevin Morris, seconded by Alderman James Mahoney.

TOILETS IN MARKET PLACE

A report from the Borough Engineer on the condition of the toilets in the Market Place stated:-

"These toilets are for the use of the market shoppers and I.C.A. market vendors. While the plumbing is serviceable, the fittings and the structure are old and unsightly. The following repairs would be necessary to put the toilets in reasonable condition:-

2. Hack off loose plaster on inside of building and replaster.
3. Repair skylights and roof.

5. Redecorate.

The estimate cost of the work required is £100. Unless funds are available for the general renovation of these toilets (£100) and their annual maintenance (say £120 per annum), I recommend that they be closed".

The report was adopted and it was unanimously agreed that the required funds should be provided on the proposal of Alderman James Jenkins seconded by Councillor John Cullimore.

SITE FOR ABBATOIR

A letter from Mr. John Fortune, North Main Street, seeking to purchase a site at the industrial estate for the purpose of building an abbatoir was referred to the Borough Engineer for examination and report.

APPOINTMENT OF TOWN CLERK

The County Manager informed the Council that Mr. Desmond T. Wixted had been appointed to fill the office of Town Clerk in succession to Mr. John J. Byrne, who had retired, the appointment to take effect from 1st July, 1970. All members present extended a welcome to Mr. Wixted and paid tribute to the Acting Town Clerk.

HOUSING LOANS AND GRANTS

The County Manager referred to Circular letter H.8/70 dated 18th May, 1970, which set out the allocation for loans and grants for the year ended 31st March, 1971, and advised the Council that Wexford Borough was designated under Section 7 of the Housing Bill 1970 to pay supplementary Housing Grants to such an extent as the Council might decide. After a lengthy discussion, it was agreed to adopt the draft and give it a trial for a period.

JUNIOR TRAFFIC WARDENS

The meeting heard the terms of Circular No. R.T.19/5/4, which set out particulars of a scheme for Junior Traffic Wardens. His Worship the Mayor suggested that the matter be deferred pending preparation of a scheme for detailed consideration by the Council. This was unanimously agreed.

It was pointed out that the Lane in question was a private lane and responsibility for its upkeep was on the occupiers. A letter from the Department of Local Government re the provision of a Swimming Pool at Ferrybank was considered, in which it was pointed out, inter alia, that a local voluntary contribution of 20% would be required. It was further emphasised that it had been originally agreed that the local contribution to the pool would be met by means of a loan raised by Wexford Corporation for the purpose. QUESTIONS

In reply to questions, Councillor Peter Roche was informed:-

1. That the derelict houses in John's Gate Street would be demolished when the one remaining occupier had been rehoused. During the past six weeks, he had been offered a house by the Corporation, but had refused same, and the Corporation might now have to use its statutory powers to have him removed.
2. The question of paying service pay to toilet attendants will be discussed with the County Manager.
3. (a) Temporary posts are not normally advertised - clerical officers and clerk typists are recruited from an existing panel, while the more senior posts are filled by internal promotion. Collectors nominate their deputies for approval by the Corporation.
(b) Three clerical officers, two clerk typists and one storekeeper are employed by the Corporation.
(c) Normally it is not necessary to have electric fires burning in Council offices during the summer months, but, particularly in the general office during colder summer days, a fire might be needed for a short spell.

In reply to questions, Councillor Dunne was informed:-

1. The Borough Engineer submitted a report on proposed building sites in north end of town (copy attached).
2. The County Council had now discontinued using the Assembly Room in the Town Hall for civil defence purposes, and when the Lease, which that body had on the premises, was revised in view of this, the necessary space for storage of "relics" might be available.
3. No decision had been given by the Board of Works on the Council's representations re restoration of Selskar Abbey Tower.

In reply to questions Alderman Jenkins was informed:-

1. The County Council are responsible for the grass margin outside the fence of M/s Hardob. This area is very cut up at the moment, and it is hoped to carry out improvements there in connection with the 150 house scheme.
2. The report of the Borough Engineer re housing sites at the north end of the town contained a reference to a field at the rear of Davitt Road North, and while no progress has as yet been made towards acquisition, the matter will be further looked into in the light of the Engineer's report.
3. Rubble etc. had been removed from the car park at Cornmarket/Back Street, but persons unknown continued to use the area for the purpose of depositing rubbish. The matter will be investigated.

10th August, 1970.

In reply to questions Alderman Mahoney was informed:-

1. The question of responsibility for maintaining King Street Avenue would be investigated, as there was some doubt as to whether the Corporation or private interests were responsible.
2. It is intended to remove the stones from the green at Bishopswater, in connection with the current year's Employment Schemes Grant. In this connection, the Council agreed that these stones should be removed forthwith.

CIVIC RECEPTION

Several members referred to the discourtesy which had been paid to members of the Borough Council by reason of failure to invite them to attend a civic reception given in connection with the European Mirror Championships in Wexford, and His Worship the Mayor assured the members that this oversight, which did not take place through his fault, would not be allowed to reoccur.

BARRY COMMEMORATION

The Town Clerk pointed out that due to holidays, he had so far been unable to secure the services of a member of the Government for the Wreath Laying Ceremony at the Barry Memorial on 23rd August, and suggested that the ceremony be deferred until 20th September. This was agreed to by the members present.

The meeting then terminated.

17th August, 1970.

A Committee Meeting of Wexford Borough Council was held this day in the Council Chamber, Municipal Buildings, at half past seven o'clock p.m. The members present were:-

His Worship the Mayor, Alderman Thomas F. Byrne, in the chair.

Aldermen: James Mahoney, Kevin Morris and James Jenkins.

Councillors:- John Flaherty, John Cullimore, Fintan O'Leary and Thomas Roche.

Apologies for inability to attend were received from:-

Councillors Peter Roche, John Dunne, James Morris and Desmond Corish.

Officials in attendance:- T. F. Broe, County Manager; D.T. Wixted, Town Clerk and K. Conway, Borough Engineer.

Members of Wexford Industrial Development Committee in attendance:- Messrs J. Furlong, T. Hassett and V. Stafford.

His Worship the Mayor explained that the purpose of the meeting was to meet Messrs C. G. Cooney and M. Meghen to hear their proposals for the erection of advance factory shells on the Corporation's Industrial Estate.

Mr. Cooney gave the meeting an outline of his proposal. This envisaged a joint venture between himself and the Corporation and/or local interests. Initially a factory shell would be erected, and a local contribution of £10,000 or £12,000 would be required to finance this. The investors would have to be prepared to wait until factory was sold or leased before they got any return on their money. The local money could be raised either by the Corporation itself or by private investment. In reply to queries, Mr. Cooney was informed that (1) some local support would be available but perhaps not to the extent of £10,000 or £12,000; (2) the Corporation was under no legal disability to form a partnership with private interests in the development of industrial potential and (3) depending on circumstances, the price of land on the Industrial Estate was about £800 per acre.

His Worship the Mayor thanked Mr. Cooney for his attendance and the proposition he had placed before the meeting.

Mr. Meghen, on behalf of Mr. Stephen Finn, told the meeting that due to present circumstances, Mr. Finn had been advised by his legal advisors not to undertake the erection of advance factories at this time. This position would obtain at least until February, 1971. Experience of another developer in Dundalk had prompted this decision. Mr. Finn wished, however, to take an option on five acres of the Industrial Estate for a period of two years, for a fine of £200 - which amount would be subject to negotiation. For this he would lodge plans of a 5,000 or 6,000 square feet factory with the Corporation together with an estimate at a price of approximately £5 per square foot, subject to wage and price variation clauses. In the event of an industrialist wishing to have such a factory erected, this would be done within six months of signing agreement. No part of the cost would fall to be met either by the Corporation or private interests in Wexford. Larger factories of up to 15,000 square feet could also be built but very little demand existed for this type.

17th August, 1970.

His Worship the Mayor thanked Mr. Meghan for his attendance and the proposition he had placed before the meeting.

Following the withdrawal of Messrs Cooney and Meghan, a short discussion took place, when doubts were expressed as to the possibility of raising locally the funds specified by Mr. Cooney and the unwillingness at the present time of Mr. Meghan's principal to erect an advance factory. It was decided to adjourn further consideration to another meeting to be held in three weeks time, before which information would be secured on the position in Dundalk and also on the demand for advance factories on Industrial Estates at Waterford and Galway.

Following the withdrawal of the members of the Wexford Industrial Development Committee, the Town Clerk referred to report of the Borough Engineer intimating that due to shortage of supply, water supplies would be cut off between the hours of 10.00 p.m. and 6.00 a.m. as from Friday next. The Council approved of the Borough Engineer's recommendation.

BUNGALOWS AT DAVITT ROAD SOUTH

The Town Clerk reported that due to numbering difficulties it would be necessary to number separately the twelve bungalows at Davitt Road South, and suggested that a separate name be placed on the bungalows. The matter was adjourned to the next meeting of the Council.

On the question of tenants for the bungalows, the County Manager was requested to submit his proposals to the next meeting of the Council.

CORISH PARK/COOLCOTTS DEVELOPMENT

Three tenders received for the supply and installation of Booster Plant at Wygram were opened by His Worship the Mayor, as follows:-

Roche & McConnell, Ltd., Dublin	£2,565
H. R. Holfeld (Hydraulics) Ltd., Dublin	£2,820
Mahon & McPhillips, Ltd., Kilkenny	£2,861

The tenders were referred to the County Manager for investigation.

The meeting then terminated.

31st August, 1970.

A Special Meeting of the Wexford Borough Council was held this day in the Council Chamber, Municipal Buildings, at 7.30 p.m.

His Worship the Mayor, opening the meeting, said that they were here to consider further the possibility of providing advance factory shells on the Corporation's Industrial Estate, particularly in the light of the proposals of M/s. Cooney and Meghen, who had attended their last special meeting. A general discussion ensued during which all members stressed the need to provide advance factories, but felt that the question of financing the project would have to be carefully examined. Mr. Ringwood advised on the need for advance factory space in Wexford and stated that if such were provided, he, from experience and knowledge of requirement, could guarantee an industrialist to occupy same.

The meeting unanimously approved on the proposition of Councillor Corish, seconded by Councillor Thomas Roche, in principle of the provision of advance factories and also agreed that a public meeting should be called to ascertain the views of interested parties in the town and to ascertain the availability of the necessary capital.

On the proposition of Councillor Flaherty, the following preliminary steps were agreed on :

2. Small active Committee representative of interested bodies to be formed to publicise the idea, examine the technicalities and in time to present the case for the idea to a public meeting of the Townspeople.

Public Notice had been issued inviting applications for inclusion on the list. As this would be a comprehensive list, covering the Whitemill Scheme and also the basis of the Corporation's assessment of Housing Needs for the five year period commencing 1st April, 1971, it would probably be early 1971 before it was completed. Some aspects of the matter were raised by members as follows :

- 1/ It was agreed that while it would not be possible to notify each applicant of the time of inspection, in exceptional cases some such arrangement might be possible.

- 3/ Reference was made to applicants on previous lists not appearing on the current list. It was pointed out that any such omissions would be rectified when the Revised List was being prepared and every effort would be made to avoid a reoccurrence.

CAPITAL WORKS:

The Borough Engineer reported on Capital Works as follows :

- 1/ Thomas Clarke Place: It was hoped to have eight houses completed by early 1971 with a further four by April 1971.
- 2/ Whitemill North: Preliminary investigations re Fidelity Guarantee Bond had now been completed. It was hoped to have a Bond submitted at a very early date and to commence work immediately after that. Up to 25th September, 1970, expenditure amounted to approximately £4,100 leaving a balance of approximately £3,000 for the period to 31st March, 1971.

On the proposition of Alderman Jenkins, seconded by Alderman Mahoney, it was unanimously resolved: "that urgent action be taken in the matter of the erection of the sea wall and promenade at Ferrybank".

The Borough Engineer pointed out that repairs to the promenade had now been completed, but he would inspect the area in order to ascertain if any further works needed to be carried out.

Regarding the sea wall, the Town Clerk pointed out that proposals for this wall had been submitted to the Department of Local Government with a request that 50% of the estimated cost of £9,421 be recouped by the Department by way of amenity grant. So far, no decision had been arrived at by the Department. In this regard, it was decided that in the event of the Minister for Social Welfare agreeing to meet a deputation from the Council on the question of the Social Welfare Benefits, the Minister for Local Government be also requested to meet this deputation to discuss the question of the sea wall, which was now urgently required.

In this connection, the County Manager pointed out that a decision on this condition was now a matter for the Minister for Local Government on appeal by the Wexford Credit Union Ltd., and apart from that, there was nothing either he or the Borough Council could do.

On the proposition of His Worship the Mayor, seconded by Alderman Kevin Morris, it was unanimously resolved "that the Minister for Local Government be requested to deal sympathetically with the appeal of Wexford Credit Union Ltd. against the condition re. car parks attached to the decision of Wexford Corporation on their planning application".

QUESTIONS

1. The attention of the Wexford County Council would be drawn to the condition of the road at Casa Rio and Distillery Road.
2. The Borough Engineer is aware of the condition of the surface of the road at Batt Street and the danger that condition of the road is causing to sewers. In this connection, the Borough Engineer pointed out that while the surface needed attention, the damage was being done by the box sewer, which had been built too near to the surface of the road. Work would be carried out on the surface of the road.
3. The Borough Engineer is of the opinion that the school sign to the north of the St. John of God school, The Faythe, was situated too close to the school, while the sign at the southern end was located too far away. He pointed out that a condition attached to recent permission for an extension to the school, required the erection of a barrier outside the school gates.

TALBOT STREET/GREEN STREET DEVELOPMENT - PROVISION OF SHOPS.

A letter was read from the Department of Local Government intimating that the Department did not consider the provision of shops in the Talbot Street/Green Street Development to be necessary, particularly in view of the close proximity of the Shopping Centre. It was pointed out that the cost of the provision of shops in a local authority housing development cannot be considered as a charge on the housing capital account, unless the Corporation are committed to such provision as part of the terms of the acquisition of the housing site. A report from the Borough Engineer agreed with the Department's views. The members thought that it would be most unfair to deprive the existing shop-keepers in the area of their livelihood and the matter was adjourned until the next meeting, the Town Clerk to discuss the problem with the shop-keepers involved in the meantime.

The letter set out systems for payment of these benefits and enumerated causes which might give rise to delays. The letter was noted.

In this connection the Council considered a letter received from the Department of Local Government intimating:-

1. That the planning of the Swimming Pool be advanced to the stage where all technical aspects would have been finalised and that arrangements are being made for the Department's Inspector to discuss the pool plans with the Corporation's Technical Advisors.

2. While no indication could be given at this stage as to when capital could be made available for the financing of this pool, it will be possible when planning etc. has been completed, for the Minister to consider releasing the pool for commencement in the light of the capital allocation available to him for the financing of the programme. Any loan raised should be obtained from a source other than the Local Loans Fund, and the overall amount to be borrowed for the pool should not exceed £50,000 or 80% of the cost of the pool proper, i.e. exclusive of features such as the restaurant, spectator accommodation and sun-bathing area, which are not normally part of a local authority swimming pool project, whichever is the lesser.

A discussion took place, during which the members expressed dissatisfaction with the financing arrangements as outlined in the Department's letter, and it was agreed that while discussion on the technical aspects would take place between the people involved, the request for the reception of a deputation by the Minister would again be renewed.

It was also agreed on the proposition of His Worship the Mayor, seconded by Alderman Jenkins, to request the Minister to include the pool in his capital allocation for 1971/72.

2. The Borough Engineer does not feel that there is any need for a light in alleyway leading from Bernadette Place to the top of the Faythe, as a light already exists there.
3. Repairs to the roadway outside Springs at Gulbār Road/Antelope Road will be commenced within the next week or so.

PAINTING BY FRANCIS DANBY

OPEN SPACE AT BISHOPSWATER

The Council considered a report from the Borough Engineer regarding the improvement of open space at Bishopswater as follows:-

1. Level and reseed open space, widen roadway to 24 feet including completion of paths through the open space - £2,650

Breakdown as follows:-

(a) Materials:- concrete, bituminous macadam, soil, seeds, miscellaneous and plant hire - £2,100

(b) Labour:- £550

2. Alternative:- Level and reseed open space where necessary, including completion of pathway through the open space - £500

Breakdown as follows:-

(a) Materials:- Bituminous macadam, soil, seeds, miscellaneous and plant hire - £350

(b) Labour:- £150

As stated in the original report, the alternative and cheaper scheme has the disadvantage that without road widening, cars and lorries would continue to damage the open spaces.

LIGHTING OF DISTILLERY ROAD

Alderman Mahoney moved the following motion "that this Council will give extra lights along the Distillery Road".

It was pointed out that the lighting of Distillery Road was a matter for Wexford County Council, and His Worship the Mayor and Councillor Corish intimated that the County Council had plans to have the lights on this road improved in the very near future.

GRANT TO WEXFORD HARBOUR COMMISSIONERS

On the proposition of Alderman Morris, seconded by His Worship the Mayor, it was agreed in principle that a grant of £36 be made to Wexford Harbour Commissioners for the financial year 1971/72, the Town Clerk to investigate the possibility of having the statutory requirements re advertising and sanction, either waived or covered by Wexford County Council, in the event of that Body also agreeing to the payment of a grant to the Commissioners.

PEDESTRIAN CROSSING AT WYGRAM

Councillor Flaherty gave notice that he would introduce a motion at the next meeting requesting the provision of a pedestrian crossing at Wygram.

QUESTIONS

In reply to questions, Councillor Dunne was informed:-

1. That Wexford Corporation was responsible for the "new" refuse dump on the derelict site at John's Gate Street opposite Mr. Boyle's yard, that the dump had now been removed, and that arrangements were now being made to have receptacles made available for the temporary disposal of street refuse, pending removal by the Corporation truck.
2. A report on the necessity for a pedestrian crossing from the Quay to Wexford Bridge was considered by the Council approximately two years ago. The volume and nature of traffic in the area at the time did not warrant the provision of a crossing, but the matter was again being examined in the light of the Traffic Management Study at present being carried out.
3. The Contractor is responsible for the condition of the roadway from Wexford Park to Mr. Sinnott's residence.

In reply to questions, Alderman Jenkins was informed:-

1. A sign half way down the Market Place indicating where the toilets are could be provided, and the Borough Engineer would discuss with Alderman Jenkins, the exact location of same.
2. No provision had been made by the Corporation for the improvement of the public lighting in the Bull Ring and North end of the town, but the Electricity Supply Board would be asked for their recommendations and Estimate.
3. It is hoped to hold the first Special Meeting of the Corporation to review motions passed at previous meetings in conjunction with a Housing Committee Meeting, which will be held in about one month's time, but if the members wished, a Special Meeting to consider motions could be called at any time.

The meeting then terminated.

A meeting of the Traffic Management Study Group for the Borough of Wexford was held in the Municipal Buildings, Wexford, on Tuesday, 2nd February, 1971, at 2.30 o'clock p.m.

His Worship the Mayor, Alderman Thomas F. Byrne, was in the chair.

Those present were:- Thomas F. Broe, County Manager; M/s Ahlback and O'Reilly of the firm of M/s Orrje & Co., Traffic Consultants to Wexford Corporation; Mr. T. J. O'Connor, County Engineer; Mr. K. Conway, Borough Engineer; Mr. P. Lynch, Department of Local Government; Inspector J. Feely and Sergeant Darmody, Wexford Garda Siochana; Mr. M. Kelly, Coras Iompair Eireann; Mr. P. At the outset, reference was made to the proceedings at the last meeting of the Study Group held on 13th January, 1970, and it was pointed out by the Town Clerk that the present meeting had been called to consider the implementation of some of the Consultants recommendations by way of affording temporary relief in congested areas of the town.

CAR PARKS

The Borough Engineer reported that certain properties had now been acquired in the Church Lane/Custom House Quay/Common Quay Street area, and it was hoped to have demolition work on these completed within the next five or six weeks. Parking facilities for an additional 100 cars would then be available.

RECOMMENDATIONS

A general discussion took place on the possibility of introducing some further controls in the form of additional one-way streets, and stricter enforcement of the existing restrictions by the Garda Authorities. The various proposals put forward were discussed in detail, with full account being taken of problems which they would create for business people, delivery trucks, private motorists and pedestrians.

Eventually, it was agreed that the following recommendations would be made to the Wexford Borough Council and the Garda Authorities with a view to their implementation as soon as possible.

DOUBLE ^{yellow} ~~white~~ LINES:

Double ^{yellow} ~~white~~ lines to be provided where feasible and as agreed between the Borough Engineer and the Garda Authorities, and particularly at road junctions.

LOADING BAYS: It was agreed that a number of properly marked loading bays would be provided at locations selected by the Borough Engineer in consultation with the Garda Authorities.

2nd February, 1971.

ONE-WAY STREETS:-

The following additional streets to be converted to one-way traffic:-

- (a) Skeffington Street - west from the Quay to Main Street.
- (b) Monck Street .. east from Main Street to Quay.
- (c) Henrietta Street - west from the Crescent to Main Street.
- (d) Harpur's Lane .. west from the Crescent to Main Street.
- (e) Peter Street - west from Main Street to St. Peter's Square.

It was pointed out that when the Church Lane car park was in operation, there would no exit from same onto the Main Street via Church Lane.

PEDESTRIANISATION:-

Mr. Ahlback suggested that part of his proposals for the pedestrianisation of portion of the Main Street might be implemented for a limited length of time as a trial. It was suggested that a suitable time for this would be during the shopping period around Christmas.

It was agreed that the idea of following Mr. Ahlback's suggestion would be put forward for discussion by the Borough Council and other interested bodies before any decision on such a trial was arrived at.

CRESCENT QUAY

The provision of a through road at Crescent Quay was raised and it was decided that the matter could be discussed with the County Engineer and the Harbour Authorities with a view to arriving at an amicable solution.

His Worship the Mayor thanked all those who had attended the meeting.

The meeting then terminated.

16th February, 1971.

A Special Meeting of the Wexford Borough Council was held this day in the Council Chamber, Municipal Buildings, Wexford, at 8.15 p.m. The members present were:-

His Worship the Mayor, Alderman Thomas F. Byrne, in the chair.

Aldermen: Kevin Morris and James Jenkins.

Councillors:- Desmond Corish, Thomas Roche and John Dunne.

In attendance:- Kevin Conway, Borough Engineer; J.A.V. Merriman, Borough Accountant and D.T. Wixted, Town Clerk.

The meeting had been specially requisitioned by His Worship the Mayor to consider the following letter from the Department of Local Government re Ferrybank Swimming Pool:-

"I am directed by the Minister for Local Government to refer to your letter of 29th January, 1971, and previous correspondence relating to the above-mentioned project and to state that the Minister is not prepared to waive the financial stipulations contained in this Department's letter of 4 Nollaig, 1970, which were that any loan raised should be obtained from a source other than the Local Loans Fund and that the overall amount to be borrowed for the pool should not exceed £50,000 or 80% of the cost of the pool proper, i.e. exclusive of the cost of features such as the restaurant, spectator accommodation and sun-bathing area, which are not normally part of a local authority swimming pool project, whichever is the lesser. The Minister considers the provision of the voluntary local contribution of 20% of the cost of the pool proper as an essential requirement and that no useful purpose would be served by his receiving a deputation at this stage.

With regard to the last paragraph of your letter under reply in which you request that a capital allocation be made available for the project in 1971/72, I am to say that as indicated in the Department's letter of 4 Nollaig, 1970, when all the technical aspects of the project have been finalized and the voluntary contribution of 20% available, the Minister will consider releasing the pool for commencement in the light of the capital allocation available to him for the financing of the programme".

A long discussion took place on the financing of the swimming pool project, and on the implications for its erection in the immediate future contained in the Department's recent letter. Grave dissatisfaction was expressed at the Minister's refusal to waive the two vital conditions, viz: loan ceiling of £50,000 or 80% of the cost of the pool proper, whichever is the lesser, and the requirement that 20% of the capital cost be raised by voluntary local contributions.

After the matter had been discussed for some considerable time, it was unanimously agreed (1) that the Corporation renew its efforts either to have the above conditions waived or a deputation received by the Minister for Local Government to discuss the matter; and (2) that a meeting of the members of the proposed deputation be called to discuss the matter with particular reference to the possibility of raising the necessary monies voluntarily in the event of the Minister refusing to alter his decision.

16th February, 1971.

Regarding the technical aspects of the project which had been raised by the Department of Local Government, the Borough Engineer informed the members that in company with M/s Lennon and Meehan, he had discussed the matter with the Department's Inspector and no major problems would arise on the technical end. He pointed out that the ramp referred to by the Department in previous correspondence concerned entry to the pool complex rather than to the pool itself.

The meeting then terminated.

1st March, 1971.

- 3 -

The Town Clerk pointed out that the Corporation would be responsible for the maintenance and lighting charges on these new lights and in a full year, these would mean an increase of approximately £1,300 in the vote for Public Lighting. The Borough Engineer had some reservations about the Scheme and commented: "Stage 2 may require some modification as there are areas such as St. Peter's Square, Wygram, Bride Street about the Church and one or two others where I would prefer the high pressure mercury vapour fluorescent type lamps to the monotonous yellow light given off by the sodium vapour lamp" On the proposition of His Worship the Mayor, seconded by Alderman Morris, it was unanimously resolved to agree in principle to the proposals subject to the reservations of the Borough Engineer and to accept the additional charges - the question of a Government Grant towards the maintenance charges to be investigated later.

A Special Meeting of Wexford Borough Council was held this day in the Council Chamber, Municipal Buildings, Wexford, at half past seven o'clock p.m. The members present were:-

His Worship the Mayor, Alderman Thomas F. Byrne, in the chair.

Aldermen: James Mahoney, Kevin Morris and James Jenkins.

An apology for inability to attend was received from Councillor Desmond Corish.

In attendance: Thomas F. Broe, County Manager; J.A.V. Merriman, Borough Accountant; Kevin T. Conway, Borough Engineer and Desmond T. Wixted, Town Clerk.

The meeting was convened on the requisition of His Worship the Mayor for the purpose of considering the following letter addressed to the County Manager from the Department of Local Government:-

"I am directed by the Minister for Local Government to refer to your letter of the 24th April, 1971, and enclosures and the Town Clerk's letter of 30th idem, and to state that it is noted that Wexford Corporation have failed to reach a decision on the adoption of the Estimates and the determination of a rate in respect of the year 1971/72.

I am to point out that there is a clear obligation on the Council to strike a rate sufficient to meet that portion of the expenses of the Local Authority which falls to be met from local taxation and failure on the part of the Council to do so would have such serious consequences that the Minister would have no alternative but to take action in the matter. The remedy provided in law to deal with the present situation would involve the removal of the members of the Council from office under Section 44 of the Local Government Act, 1941, as amended by Section 64 of the Local Government Act, 1946. Before having recourse to that remedy, however, the Minister is anxious that the Council should be afforded every reasonable opportunity of discharging its statutory functions in this matter and for that reason he has decided to defer taking action under the Local Government Acts for a period of fourteen days.

I am to request you to bring the contents of this letter to the notice of the Council at the earliest possible date".

It was proposed by His Worship the Mayor and seconded by Alderman Morris, that the Estimate of £221,184 be adopted and a Rate of £6.40 in the £ be determined for the local financial year ending 31st March, 1972. A poll was taken and resulted:-

for the motion: Aldermen Morris and Jenkins, His Worship the Mayor, Councillors Flaherty and Thomas Roche (5);

against: Alderman Mahoney, Councillors Peter Roche, O'Leary and Morris (4).

Councillor Dunne did not vote. The motion was declared carried by five votes to four.

ESTIMATES 1971/72

A report was submitted as follows from the Borough Engineer, indicating the affects which reductions in the County Manager's Estimates for 1971/72 by the Borough Council would have on the services provided by Wexford Corporation during the current financial year:-

"Resulting from the Finance Committee's recommendations and the final adoption of a reduced rate, adjustment to attain the necessary reduction in spending will be required. Hereunder are comments and proposals regarding same:-

ROADS - £3,000 - Special Works - Deleted.

These comprised the following:-

- | | |
|---|----------|
| 1. Widening at Bishopswater and kerbing, Phase 1 | - £1,600 |
| 2. Renewal of footpath - selected stretches | - 400 |
| 3. Renewal of road surfaces - selected stretches
(Maudlintown, The Faythe, etc.) | - £1,000 |

Regarding Item 1, this is now included in the Urban Road Improvement Grant allocation. (Report submitted for Manager and Council). Items 2 and 3 will have to remain undone and there is little point in the Council complaining of the condition of these old pavements which cannot be renewed from normal maintenance funds.

PUBLIC AND DOMESTIC SCAVENGING - Reduction of £811 on the Manager's Estimate

The necessary reductions will be achieved by a lowering of the maintenance standard at the Municipal Dump, the cutting down on overtime by using one sweeper on Sundays in place of four and rigid adherence to the regulations on the quantities and quality of waste to be handled.

SEWERS: - £2,300 - Special Works - Deleted.

These comprised the following:-

- | | |
|---|----------|
| 1. Relaying sewer at Batt Street/New Street | - £2,000 |
| 2. Relaying sewer at St. Patrick's Square | - 300 |

The deletion of these Items will put a burden on normal maintenance funds, as these old sewers are constantly giving trouble and are a source of bitter complaint from the residents.

HOUSING MAINTENANCE - Manager's Estimate reduced by £1,724.

This reduction will be achieved by maintaining repairs at present level - no additional carpenter, etc."

SALE OF HOUSES

Proposals of the County Manager for the sale of houses in a number of Corporation Schemes to the tenants thereof, indicating proposed sale prices, were considered by the Council, and on the proposition of His Worship the Mayor, seconded by Councillor Thomas Roche, it was unanimously decided to defer further consideration of the proposals to a future date.

14th June, 1971.

In this connection, the feeling of the members of the Council was, that the prices required were too high, too much emphasis being placed on location. The Council also considered that market value would be a much fairer basis on which to calculate sale prices, rather than replacement cost.

WEXFORD MAIN DRAINAGE SCHEME

The Council was informed that a loan of £115,000 for the financing of the Wexford Main Drainage Scheme has now been sanctioned, and the Contractor is being instructed to submit a Fidelity Guarantee Bond and to indicate when he will be in a position to commence work.

SOCIAL WELFARE BENEFITS

On the proposition of Councillor Peter Roche, seconded by Alderman Mahoney, it was unanimously resolved "that this Council protest most strongly to the Department of Social Welfare regarding the hold-up in the payment of Widows' pensions and payments to deserted wives".

14th June, 1971.

NAMING OF WHITEMILL HOUSING SCHEME

On the proposition of Councillor Dunne, seconded by His Worship the Mayor, it was unanimously resolved "that the new housing scheme at Whitemill North be named Liam Mellows Park".

PARKING AT BULLRING

(4th Minute of Council Meeting of 14th July 1971)

J. Morris and Thomas Roche. Against: Aldermen Mahoney and Jenkins, Councillors Dunne and Peter Roche.

QUARTERLY MEETINGS

On the proposition of His Worship the Mayor, seconded by Alderman Morris, it was unanimously resolved that quarterly meetings be held as follows:- 5th July, 1971, 4th October, 1971, 3rd January, 1972 and 3rd April, 1972.

QUESTIONS

In reply to questions, Alderman Mahoney was informed:-

1. Repairs will be carried out to No. 33, Wolfe Tone Villas.
2. Broken path and concrete around a newly erected pole at Barrack Street will be repaired within the next week or two.
3. The Borough Engineer will inspect fire brigade houses with a view to repairing windows, but it might not be possible to carry out full repairs due to scarcity of funds.

In reply to questions, Councillor Peter Roche was informed:-

1. That the Council's Foreman only attends fires occurring within Wexford Borough, and his attendance is necessary to ensure an adequate supply of water. During his absence on holidays, either the Storeman or Water Inspector acts in his place.
2. The duties of the Assistant Borough Engineer consist of:-
"To give to the Local Authority under the direction and supervision of the Borough or Town Engineer, such engineering or ancillary services of an advisory, supervisory or executive nature as may be required by the Local Authority in the exercise and performance of its powers and duties, and including the duties of acting for the Borough or Town Engineer as so required during that officer's absence".

14th June, 1971.

In this connection, the Town Clerk read a report submitted to the County Manager by the Borough Engineer, and in fact, recommending that two Assistant Borough Engineers were required. While the County Manager could not, at this stage, accept fully the latter recommendation, he was satisfied that a need did exist to maintain the engineering staff at its existing level.

3. The Temporary Assistant Engineer recently advertised for would be employed until such time as a permanent Assistant Borough Engineer was appointed.

In reply to questions, Councillor Dunne was informed:-

1. The clearance of derelict sites at John's Gate Street was a preliminary to the provision of houses there and any expenses incurred would have to be carried as a debit until such time as a loan was negotiated.
2. The remaining derelict houses will be removed within the next few weeks.
3. The Assembly Room in the Town Hall is not yet available for Picture Gallery and Museum. It was estimated that the adoption of the Assembly Room for this purpose would cost approximately £300, not including insurance on exhibitions, and in addition to this, the rent of £400 per annum received from Wexford County Council would have to be foregone. The County Manager did not feel that the time was opportune to request the Council to provide these monies.

The meeting then terminated.

5th July, 1971.

A Quarterly Meeting of the Wexford Borough Council was held this day in the Assembly Room, Town Hall, Cornmarket, at half past seven o'clock p.m. The members present were:-

His Worship the Mayor, Alderman Thomas F. Byrne, in the chair.

Aldermen:- James Mahoney, Kevin Morris and James Jenkins.

Councillors: Desmond Corish, John Flaherty, John Dunne, Peter Roche, James Morris and Thomas Roche.

An apology for inability to attend was received from Councillor Cullimore.

On the proposition of Councillor Flaherty, seconded by Councillor Morris, the minutes of Statutory Meeting of 14th June, 1971, as amended, having been circulated, were taken as read, adopted unanimously and signed by His Worship the Mayor.

SYMPATHY

On the proposition of His Worship the Mayor, seconded by Councillor Corish, the sympathy of the Council was extended to the relatives of the late Thomas Rossiter. All members and officials present associated themselves with the vote which was passed in silence.

ELECTION OF MAYOR

The first business of the Quarterly Meeting was the election of a Mayor, who would hold office until either:-

- (a) Quarterly Meeting to be held not more than fourteen days before or after 8th July, 1972, or
- (b) Quarterly Meeting to be held after next Local Elections, and until his successor has been appointed and made a Declaration of Acceptance of office.

His Worship the Mayor asked for nominations for the office of Mayor, and the following were duly nominated:-

Alderman Thomas F. Byrne - proposed by Councillor Corish, seconded by Councillor Thomas Roche.

Alderman Kevin C. Morris - proposed by Councillor Flaherty, seconded by Councillor Morris.

Alderman James Mahoney - proposed by Councillor Peter Roche, seconded by Councillor Dunne.

5th July, 1971.

There being no further nominations, a poll was taken and resulted:-

For Alderman Byrne,- Alderman Byrne and Councillors Corish and
Thomas Roche (3).

For Alderman Morris - Aldermen Morris and Jenkins, Councillors Flaherty
and Morris (4).

For Alderman Mahoney - Alderman Mahoney and Councillors Dunne and
Peter Roche (3).

As no candidate had a majority of the members present, the question as to which of the two lowest remaining candidates, viz. Alderman Byrne and Alderman Mahoney should be eliminated was determined by lot. At this juncture, Councillor Corish suggested that the question of who should be eliminated should be determined on a further poll as the drawing of lots introduced an element of chance into the election. The Corporation's Solicitor pointed out that the law was quite definite that the choice must be made by lot and the Council had no option in the matter.

On a drawing of lots, Alderman Byrne was eliminated. A second poll was then taken and resulted:-

For Alderman Morris - Aldermen Morris and Jenkins, Councillors
Flaherty and Morris (4).

For Alderman Mahoney - Aldermen Mahoney and Byrne, Councillors
Dunne and Peter Roche. (4).

Councillors Corish and Thomas Roche did not vote.

As no candidate had a majority of the members present, and there being only two remaining candidates with an equality of votes, the question as to who would be elected Mayor was determined by lot. On a drawing of lots, Alderman Morris was elected. The outgoing Mayor formally declared Alderman Morris to be elected and he made and subscribed the declaration of acceptance of office as provided by the Municipal Corporations (Ireland) Act, 1840, and the Local Government Act, 1941. Before leaving the chair, the outgoing Mayor, Alderman Byrne, thanked all those who had helped him during his term of office.

Alderman Byrne then vested Alderman Morris with the Robes and Chain of office and Alderman Morris took the chair. Alderman Morris thanked all those who had voted him to office and also congratulated the outgoing Mayor on his work during his term of office. The other members then congratulated Alderman Morris on his election and Alderman Byrne on the excellence with which he had carried out his duties.

MAKING OF THE MUNICIPAL RATE

The making of a Municipal Rate of six pounds and forty pennies in the pound for the service of the local financial year ending 31st March, 1972, was proposed by Alderman Byrne and seconded by His Worship the Mayor. technical aspects of the project have been finalised and the normal voluntary contribution of 20% is available the Minister will be prepared in the light of the capital then available to him to consider the raising by the Corporation from a source other than the Local Loans Fund of a loan not exceeding £50,000 or 80% of the balance whichever is the lesser excluding certain features such as restaurant, spectator accommodation and sun bathing areas. 50% of the charges on the loan will be recouped by the Department.

2. From Bord Failte Eireann stating that because of severe curtailment of funds for work of this nature there would be no grants available in the current year for the proposed pool. In view of available information on finances for next year and the demands on these resources there is little hope that Bord Failte will be able to provide the grants requested by the Corporation. However, should any change take place in the position of available funds the Corporation's request will be re-considered.

Following a discussion it was agreed on the proposition of Councillor Flaherty, seconded by Councillor T. Roche, that a special meeting of all interested bodies in the town be held as soon as possible to consider the matter with a view to sending a deputation to meet the Director General of Bord Failte on the question of that Boards contribution towards the project.

BARRY COMMEMORATION

The Council was informed that due to a clash with the Church Gate Collection for Northern Ireland Relief, the holding of the Annual Wreath Laying Ceremony at the Commodore John Barry Memorial had been postponed from 29th August, 1971, to Sunday 12th September, 1971. On the proposition of Alderman Jenkins, seconded by Councillor T. Roche, it was agreed that the ceremony be held on that date and that no charge on the Corporation's funds be made in respect thereof.

ASSOCIATION OF MUNICIPAL AUTHORITIES OF IRELAND

On the proposition of Councillor T. Roche, seconded by Councillor Flaherty, Alderman Byrne was unanimously chosen as a delegate to the annual conference of Association of Municipal Authorities of Ireland, 1971, in place of Alderman Mahoney who is unable to attend.

INDUSTRIAL SITES

The Council was informed that the present figure of £750 per acre at which sites on the Industrial Estate are being sold was not sufficient to recoup the Corporation for its outlay on land purchase and developments costs. Difficulty was now being experienced in raising additional monies to carry out further developments, including the provision of a spur road and further water and sewerage extensions. The Department of Local Government have now agreed to release sufficient funds to enable development to be carried out to facilitate the erection of an advance factory by the Industrial Development Authority, but have pointed out that the Corporation should endeavour to recoup its outlay on the provision of Industrial Sites by charging an economic price for sites. It was estimated that allowing for government subsidy in respect of water and sewerage works, a price of £1,000 per acre should be charged, and on the proposition of Alderman Byrne, seconded by Councillor Flaherty, it was unanimously resolved that future sales of sites be at the rate of £1,000 per acre.

KENNEDY PARK

Reports and estimates were submitted by the Borough Engineer in respect of the provision of a pramwalk and the surfacing of the space between the road side path and the front boundary wall at Kennedy Park. The Town Clerk pointed out that a proposal to raise further monies for the completion of this scheme would shortly be before the Council, and it was agreed to defer further consideration of this matter until such a proposal was being discussed.

DERELICT HOUSES AT MAUDLINTOWN

The Council considered the report of the Borough Engineer on work carried out by the Corporation at old thatched houses at Maudlintown. The report indicated that the works which had been carried out by the Corporation were necessary in order to safeguard members of the public and that any further works to alleviate the effect of the demolition of the adjoining houses was the responsibility of the owner.

Following a discussion it was agreed that the Borough Engineer would take another look at the position.

PUBLIC SCAVENGING

A letter was read from Mrs. Barbara Wallace of South Eastern Regional Organisation complaining about the incidence of litter in the town during recent weeks and in this connection the Borough Engineer submitted a report on the matter as follows :-

Complaints have been received from the South Eastern Organisation and some others regarding litter about the town and these complaints are, I regret, not without some foundation.

Difficulty is being experienced :-

- 1) With the increasing quantity of litter produced by modern packaging methods relative to the number of sweepers employed which has remained static since the 1940's.
- 2) Shopkeepers who sweep their litter on to the footways.
- 3) Shopkeepers who give cartons and boxes to children to play with which end up in the streets or car parks.
- 4) Occasional slackness in the case of some individual sweepers; dealt with by modest disciplinary measures.

The occurrence of litter over the week-ends gives the most serious cause for complaint, and the report to Council at the Statutory Meeting in June is relevant, when the Council was informed of an intended reduction in Sunday sweeping to match the funds available. During the last two weeks in August, Sunday sweeping was increased again and some improvement resulted.

Funds are not available to employ more sweepers at present and I am in process of collecting information from a number of towns on mechanical sweepers which would reduce the manual work load. I have received data on a number of machines but am not yet ready to make a recommendation on the matter of purchase of one.

Derelict sites are a constant problem in creating dumping grounds for citizens with complete lack of civic spirit, and some of these persons are the first to complain.

A lengthy discussion took place on this subject during the course of which many causes of the problem were voiced and various suggestions put forward. It was agreed that the co-operation of all sections of the community including the public authority and citizens was necessary if an improvement was to be effected, and it was agreed that the question of providing mechanical sweepers would be vigorously pursued.

JUNIOR TRAFFIC WARDENS

The Town Clerk informed the meeting that he had had consultations with the Garda Authorities and the County Road Safety Officer on the question of introducing a scheme of Junior Traffic Wardens in the town, and it had been agreed that a scheme would be introduced at some school on the advice of the Garda Authorities. The scheme would be commenced at either the Faythe National School or The Christian Brother School, and the members would be kept informed of developments.

GRADED RENT SCHEME

The Council considered the draft of an amended graded rent scheme which the County Manager proposed to submit for the sanction of the Minister for Local Government and to apply to housing schemes in the town which were subject to graded rents. The scheme as submitted by the County Manager was as follows :

On the proposition of Alderman Byrne, seconded by Councillor Peter Roche, the Council unanimously approved of the proposals of the County Manager in this regard.

OVERDRAFT

On the proposition of Councillor Flaherty, seconded by Alderman Byrne, it was unanimously resolved that subject to the sanction of the Minister for Local Government approval be given to the raising of an overdraft from the Corporation's Treasurers, The National Bank of Ireland Ltd., Wexford, for the quarter ending 31st December, 1971, as follows :-

The remaining items on the agenda were adjourned to a special meeting of the Council to be held on Monday 13th September, 1971, at 7.30 p.m.

QUESTIONS

In reply to questions, Alderman Jenkins was informed :

- (i) One man was engaged during the month of August in sweeping the Main Street/Quay area. The Town Foreman was responsible for supervision of this work under the direction of the Assistant Borough Engineer in the Borough Engineer's absence.
- (ii) While no concrete steps were at present being taken to minimise pollution of Wexford Quays, in the long term position action would be necessary. The cost would be very great and this was an inhibiting factor.

Councillor T. Roche was informed :

"Twenty eight houses would be ready for occupation at Liam Mellows Park in about two weeks time and groups of houses would become available each week thereafter. Tenants would be notified when their particular house was ready".

Councillor P. Roche was informed :

- (i) The Borough Engineer will check on dumping in Oyster Lane and dumping of boxes on various streets of the town.
- (ii) Yes. Cuttings would be attended to at Marian Row and Thomas Street.

The meeting then terminated.

13th September, 1971.

Apologies for inability to attend were received from
Councillors Desmond Corish, John Cullimore and James Morris.

In attendance : Thomas F. Broe, County Manager, Kevin T. Conway,
Borough Surveyor, Desmond T. Wixted, Town Clerk.

SYMPATHY

On the proposition of Alderman Mahoney, seconded by Councillor P. Roche, the sympathy of the Council was unanimously extended to Alderman and Mrs. Byrne and the other members of her family on the recent death of Mrs. Byrne's mother. All members and officials associated themselves with the vote which was passed in silence. Alderman Byrne thanked the members for their kindness.

MR. VICTOR MERRIMAN. BOROUGH ACCOUNTANT

On the proposition of Alderman Byrne, seconded by His Worship the Mayor, best wishes of the Council were extended to the Borough Accountant, Mr. Merriman, with the hope that he would soon be fully recovered from his present indisposition.

WEXFORD COAT OF ARMS

On the proposition of Alderman Byrne, seconded by Councillor P. Roche, permission was unanimously granted to the Wexford Youth Group to incorporate the Wexford Coat of Arms on their membership cards and stationary.

ROSSLARE/LE HAVRE CAR FERRY SERVICES

His Worship the Mayor, Alderman Byrne, The County Manager and Town Clerk reported on a recent joint deputation from Wexford Corporation, South Eastern Regional Tourism Organisation and South Eastern Regional Development Organisation which met the Minister for Transport and Power to discuss the future of the Rosslare/Le Havre Car Ferry Service. The deputation had been received most courteously by the Minister who assured them that every possible effort was and would continue to be made to secure a continuance of the service. Irish Shipping Ltd., were exploring every possibility in an effort to secure a suitable ship in order to operate the service themselves.

HOUSING LOAN PERIODS

The Council considered a Circular from the Department of Local Government containing a suggestion that loans for house building purposes should be borrowed over a period of 35 rather than the existing 50 years, and in this connection considered the implications for Wexford Corporation of such a change assuming house building programmes of 50 and 100 houses over the next 3 years. It was disclosed that while the annual additional impact would be relatively light the total saving over the period will amount to quite a large sum of money. It was agreed on the suggestion of Alderman Byrne that the Council approve of the suggestion of the Department.

LITTER BINS

The Borough Engineer informed the Council that as far as he could ascertain M/s White & Carter (Councils) Ltd., who were the suppliers of commercial litter bins in the town appeared to have gone out of business.

It was agreed on the suggestion of Alderman Jenkins that the Corporation would investigate the possibility of providing such a service itself.

REVIEW OF STAFF STRUCTURES AND PROCEDURES OF LOCAL AUTHORITIES

The Council considered the Circular from the Department of Local Government in connection with the appointment of M/s McKinsey & Co. Inc. to assist the Minister for Local Government in carrying out a Review of Staff Structures and Procedures of Local Authorities. The County Manager explained that the reason for this review is to examine the staffing and structure of local authorities and their effectiveness by present day standards considering the antiquity of the legislation under which they were established. The members of the Council were critical of appointment of Non-Irish consultants for this work and it was agreed to wait until a report on their findings has been issued to consider the matter further.

WATER SUPPLY IMPROVEMENT

On the proposition of Alderman Jenkins, seconded by Alderman Byrne, it was unanimously resolved that "Wexford Corporation wishes to have the 24 hour water supply to the town of Wexford speeded up to lessen the fire hazard and for the convenience of the citizens of the town". In this connection the Town Clerk informed the members that a Contract Guarantee Bond had now been submitted by the contractors for the Water Supply Improvement Scheme, the contract documents were now in course of preparation and it was hoped to commence work in the very near future.

The Council approved of the recommendation of the Borough Engineer that due to the present dry weather the water supply be shut down between the hours of 10 p.m. and 6 a.m. each day until further notice.

DUMPING OF BUTCHERS WASTE

On the proposition of Alderman Jenkins, seconded by Councillor Dunne, it was unanimously resolved "that Wexford Corporation provide suitable modern disposal facilities at Wexford Dump for butchers waste being left in the dump." The Borough Engineer was requested to insure that in future the caretaker of the dump secured that all butchers waste dumped there be properly buried.

SUPPLY OF CAST IRON PRODUCTS FOR HOUSING SCHEMES

It was proposed by Councillor T. Roche, and seconded by Councillor Flaherty, "that this Council in present and future housing schemes recommend that cast iron products such as louvres, grates, manholes etc., be supplied by local firm of M/s P. Pierce & Co., Ltd., who are now listed on local government suppliers". The motion was adopted unanimously it being pointed out that in the case of contractors all the Corporation could do would be to encourage them to buy their requirements locally.

PROVISION OF BATHROOMS FOR FIRE BRIGADE STAFF

On the proposition of Councillor T. Roche, seconded by Alderman Mahoney, it was unanimously resolved "that this Council consider the provision of bathrooms for members of the Fire Brigade Staff". It was agreed that the position would be examined and an estimate of the cost of providing the bathrooms prepared. Alternatively the question of providing showers at the fire station would be explored.

CHILDRENS PLAYGROUND - KENNEDY PARK/LIAM MELLOWS PARK AREA

On the proposition of Councillor P. Roche, seconded by Alderman Mahoney, it was unanimously resolved "that this Council make some provision in Kennedy Park/Liam Mellows Park area for a playground for children". The Borough Engineer was requested to examine the position with a view to preparing a scheme for the area which might be implemented with the co-operation of the local residents.

FIRE RISK - FLATS

It was proposed by Councillor P. Roche, seconded by Alderman Byrne "that immediate investigation be carried out re. fire hazard risk of the many flats in the town. That this investigation be carried out by a committee composing reps. of Corporation and Trades Council and that technical assistance be given by Borough officials. The result of this investigation to be forwarded to the Minister for Local Government". A long discussion took place on this problem and also on the flat problem generally in the town, during the course of which Councillor Flaherty pointed out that the Trades Council had carried out an investigation recently into this matter and would shortly be seeking a meeting with the County Manager to discuss the problem. The County Manager stated that a committee comprising representatives of County Council and the Urban Authorities in the County would shortly be set up to consider the financing of the fire brigade service including the improvement of the preventative end on the service. In view of the steps which were already been taken Councillor P. Roche withdrew his motion, the Council to be kept informed of developments in the matter.

PEDESTRIANISATION OF MAIN STREET

It was proposed by Alderman Byrne, seconded by Councillor T. Roche, "that the Main Street from Bull Ring to Henrietta Street be pedestrianised for a trial period of four months.

Following a discussion it was agreed that a meeting of all interested local bodies would be called to discuss this matter before any positive steps were taken.

On the proposition of Alderman Byrne, seconded by Councillor Flaherty, approval was unanimously given to the proposal of the County Manager to dispose of house No. 28 Davitt Road South to the tenant thereof Mr. Martin J. Walsh on the terms as set out in notice dated 24th August, 1971, and circulated to the members, viz : for the sum of £2,646,

DISPOSAL OF SITE TO INDUSTRIAL DEVELOPMENT AUTHORITY

On the proposition of Alderman Byrne, seconded by Councillor Flaherty, approval was unanimously given to the proposal of the County Manager to dispose of approximately 3 acres of land at Whitemill, Wexford, to the Industrial Development Authority on which the purchasers propose to erect a factory and on the terms as set out in notice dated 24th August, 1971, and circulated to the members subject to the amendment that the sale price be fixed at £3,600.

INDUSTRIAL SITES

The County Manager referred to the agreement of the Corporation at the last meeting ~~to~~ his proposal to increase the sale price of sites on the Corporation's Industrial Estate to £1,000 per acre, and informed the members that since the Department of Local Government would not allocate subsidy towards the development of Industrial Estates it would be necessary to charge £1,200 per acre in order to recoup the Corporation's outlay. On the proposition of Alderman Byrne, seconded by Councillor Flaherty, it was unanimously agreed that future sales be at the rate of £1,200 per acre. Alderman Jenkins dissented.

FREEDOM OF BOROUGH

On the proposition of Alderman Mahoney, seconded by Councillor P. Roche, it was unanimously resolved to invite the President of Ireland Mr. Eamonn De Valera to become a Freeman of the Borough of Wexford.

The following members of the Borough Council were present :-

FERRYBANK SWIMMING POOL

The meeting had been especially convened to discuss the latest position re. the proposed swimming pool at Ferrybank. The meeting was informed that the position was that the Department of Local Government had confirmed the conditions under which the Minister's sanction would be available for swimming pools viz ;

- 1) A voluntary local contribution of 20% of the capital cost.
- 2) A capital cost ceiling of £50,000 or 80% of the balance of the cost having allowed for the local contribution, and
- 3) The loan to be raised from a source other than the local loans fund.

In addition to this, Board Failte have now intimated that "because of severe curtailment of funds for work of this nature, there would be no grants available in the current year for the proposed pool. In view of available information on finances for next year and the demands on these resources there is little hope that Board Failte would be able to provide the grants requested by you. However, should any change take place in the position of available funds your request will be reconsidered".

A long discussion took place on the matter during the course of which strong disapproval of the actions of both the Department and Board Failte in departing from the positions which they adopted some years ago was expressed and it was decided that a further approach would be made to Board Failte in an effort to persuade them to reconsider their attitude.

On the proposition of Councillor Flaherty, seconded by Alderman Byrne, it was decided that a pool in line with the Department's requirements as to cost should be designed and it was decided that His Worship the Mayor would call a public meeting of all interested at a suitable date to organise the raising of the necessary local voluntary contribution.

The meeting then terminated.

PEDESTRIANISATION OF MAIN STREET

A meeting had been especially convened to consider traffic problems in the town with particular reference to the proposal to pedestrianise portion of the Main Street from Bull Ring to Henrietta Street for a trial period.

A long discussion took place regarding the proposed pedestrianisation during which the advantages and disadvantages of the idea were stressed by the various representatives present. It appeared to be generally agreed that before a start was made adequate off-street parking space would have to be available while the question of access for goods delivery vehicles also posed problems.

At the request of the Main Street Traders, further consideration was adjourned to a later date pending the showing by the Traders of a film on the subject and a subsequent meeting of their members when the idea would be put before them.

The deputation explained that the study would consist of a social and amenity study of the town and it was hoped that the findings would be of some use to the Corporation in the review of the town Development Plan due to take place in 1972.

The Council were most sympathetic towards the position and promised the deputation to consider carefully their request for a grant.

ADJOURNMENT

It was proposed by Councillor Peter Roche and seconded by Councillor Dunne that standing orders be suspended to enable the Council to discuss a motion calling for the adjournment of the meeting as a mark of protest against television censorship recently introduced by the Government. It was proposed by His Worship the Mayor, seconded by Councillor Morris, "that by virtue of the Municipal Privilege Act Ireland 1876 the Honorary Freedom of this the ancient Borough of Wexford be conferred on His Excellency Damon De Valera, Uachtaran na h-Eireann, on the occasion of his visit to Wexford on 14th October, 1971, as a token of our regard for his outstanding service to the Irish Nation".

Councillor Dunne stated that he wished to disassociate himself from this motion and when Alderman Byrne rose to speak to the motion, His Worship the Mayor ruled that no discussion would be allowed. Alderman Byrne and Councillors Dunne and T. Roche then left the meeting in protest.

The motion was unanimously agreed.

ADJOURNMENT OF MOTIONS

In the absence of Councillors Peter Roche and John Dunne the notices of motion appearing on the agenda in their names were adjourned to the next meeting.

LOW COST HOUSING

The Council considered a text of an address of the Minister for Local Government in which he urged housing authorities to consider the question of providing Low Cost Housing as a means of speeding up their house building programmes. The County Manager explained that the Department of Local Government had been investigating this aspect of house building for some time and had now compiled a list of twenty five firms whose proposals had been accepted by the Department. The question as to whether or not this type of house building would be adopted in Wexford was a vital policy decision which the Borough Council had to make and he stressed that in future allocation of capital funds for house building, the decision of the Council in this regard could have far reaching consequences. He suggested that the Council might investigate the possibility of introducing this type of housing in Wexford on the Talbot Street/Green Street site.

On the proposition of Councillor Flaherty, seconded by Alderman Jenkins, it was unanimously resolved to investigate the matter further.

TIDY TOWNS

The Council considered the adjudicators report on the Tidy Towns competition in 1971 which indicated that, in its section, Wexford secured 19th position out of 26 entries as against 11th out of a similar entry in 1970. All members present commented on the report and it was agreed that no progress would be made until each section of the community both public and private co-operated whole-heartedly in the effort. On the suggestion of Alderman Jenkins, it was agreed that a meeting of all interested bodies be held in the Spring of 1972 to co-ordinate the effort for that year.

SOUTH EASTERN REGIONAL TOURISM ORGANISATION LTD

On the proposition of Councillor Cullimore, seconded by Councillor Flaherty, Alderman Jenkins was unanimously nominated to represent the Council at the Annual General Meeting of the South Eastern Regional Tourism Organisation Ltd., in the Clonmel Arms Hotel, Clonmel, Co. GRANT FOR AMENITY STUDY

The Council considered the question of making a grant towards the cost of an amenity study of Wexford by the students of Bolton Street College of Technology which had been requested by the deputation who attended at the commencement of the meeting, and it was unanimously agreed that an approach be initially made to the Department of Local Government for a grant from that Department towards the cost of the study - in the light of the Department's reply, the Council would further consider the deputation's request.

The meeting then terminated.

MINUTES

On the proposition of Councillor Flaherty, seconded by Councillor T. Roche, the minutes of Soecial Meetings of 27th September, 1971 and of Quarterly Meeting of 4th October, 1971, having been circulated were taken as read, adopted unanimously and signed by His Worship the Mayor.

Councillor Dunne pointed out that at the Meeting of 4th October, 1971, he had already left the Council Chamber before Alderman Byrne rose to speak to the motion re. Conferring the Freedom of the Borough on President De Valera. It was agreed to amend the minute accordingly.

HOUSING

The Council considered the present priority list which now contains a total of 64 names. It was pointed out that 71 houses have already been allocated at Liam Mellows Park, leaving a further 79 to be allocated. A total of 80 to 100 applications had not yet been reported on by the County Medical Officer and it would be necessary to have a further priority list prepared to complete Liam Mellows Park.

No objection was raised by the Council to the proposal of the County Manager to allocate a house at Liam Mellows Park to Mr. Gus Byrne who has retired from the Fire Brigade and whose house at Davitt Road North was now required for his replacement.

The County Manager undertook to enquire into the transfer need of Mr. Power of Wolfe Tone Villas, on the suggestion of Alderman Byrne.

FINANCE - WHITEMILL NORTH HOUSING SCHEME

On the proposal of His Worship the Mayor, seconded by Alderman Byrne, it was unanimously resolved that application be made to the Minister for Local Government for sanction to the raising of a loan of £78,000 from the Commissioners of Public Works in Ireland for the completion of Whitemill North Housing Scheme.

It was pointed out that allowing for price variations etc., up to date, it was estimated that the total cost of the Scheme would amount to £465,000, while a loan of £387,500 has already been approved by the Council and sanctioned by the Minister.

FINANCE - ADVANCES UNDER SECTION 39 OF THE HOUSING ACT 1966

On the proposal of Councillor Flaherty, seconded by Alderman Jenkins, it was unanimously resolved that application be made to the Minister for Local Government for sanction to the raising of a loan of £60,000 from the Commissioners of Public Works in Ireland for the purpose of making advances under Section 39 of the Housing Act 1966.

In this connection the Town Clerk pointed out that the E.S.B. have already been requested for their proposals and estimate for the improvement of the public lighting system at the north end of the Main Street, i.e. from Bull Ring to Selskar. The E.S.B. had replied that the question of public lighting from Bull Ring to Selskar will be considered in conjunction with the undergrounding of their net-works in North Main Street and, that the earliest this could now be carried out would be 1972. It was agreed to pursue the matter and to enquire again as to the timing of the E.S.B. proposals in the area.

REFUSE BINS ON FOOTPATHS

It was proposed by Councillor Dunne and seconded by Alderman Byrne, that the placing of refuse receptacles outside premises the night before collection be prohibited along the Main Street and adjoining streets.

The Town Clerk pointed out that it was doubtful if the Corporation had power to "prohibit" as suggested in the motion, but power did exist under the Towns Improvement (Ireland) Act 1854 whereby persons could be prosecuted for leaving bins on the public footpath. The question as to whether or not a public health nuisance was created by these bins was a matter for the County Medical Officer to decide.

On the proposition of Alderman Jenkins, seconded by Alderman Mahoney, it was unanimously resolved that any persons of whom the Town Clerk had information in this regard be written to, requesting them to co-operate with the Corporation by refraining from putting out their bins over night.

It was pointed out that the Corporation's Technical Advisers had reached agreement on some minor technical alterations with Department Inspectors some months ago and that it was intended to arrange a public meeting early in the new year to discuss ways and means of raising the necessary local voluntary contribution amounting to approximately £17,500.

The Town Clerk reported that he had had discussions with Board Failte regarding the contribution and had requested them to

Roche and unanimously resolved "that the Borough Council look into the matter of the latest flooding that took place at Bishopswater and proper drainage will be put there to take the water from the high land at the back of the dwellings and stop future flooding."

The Council considered a report from the Borough Engineer on the flooding which took place on Monday, 29th November, 1971 which was caused by a cloudburst over and to the west of the town which lasted about two hours and gave an intensity of one inch of rain between 4.45 p.m. and 5.15 p.m. The areas most affected were King Street, South Main Street from King Street Junction to Oyster Lane, Distillery Road, Bishopswater, John Street Upper, Monck Street and Wellington Quay.

Damage was caused to property, mainly motor vehicles, furnishings and decoration at Bishopswater, King Street, South Main Street, John Street and on the Quays, and one man lost his life in the flood in spite of the best efforts of the Fire Brigade and others to rescue him.
