Ordinary Proceedings

A Letter was read from the Commissioners of National Education dated 15th Inst. N^o 5937, acknowledging the receipt of a communication from the Board of Guardians concerning Mr. Hankins, and the improved state of the Workhouse Farm, the management of which he had lately resigned

The Agentth (Mr. Harris) reported that he had scythed off the seeds from the Ray grass thinks there will be 100 Stone of Italian and about 40 of Perennial, wished to sell the thinnings of the Mangold crop — commenced cutting the Barley — suggested that the hands employed he allowed their supper

Ordered That the Master dispose of the Thinnings if he can find a purchaser. the Board has no power to allow the additional seed to the Farmers

Moved by Mr. Dolger

Seconded by Mr. Keating

That the Resolution adopted on the 26th Inst. in reference to the New Rates be rescinded — as the Guardians believe a smaller Rate will be sufficient, and that the Estimate submitted by the Clerk on the 2nd Inst. be now considered by the Board

The Board then proceeded to consider on the attached Estimate a copy of which the Clerk had forwarded to the P. L. Commissioners, and it was ultimately moved by Mr. Dolger, and seconded by Mr. O'Sullivan that the Estimate be adopted

In Amendment to which was

Moved by Mr. Korry

Seconded by Mr. Shill

That the rating of 2/- in the pound on the

declared by the Chairman to be carried and
the Amendment lost

Ordered That the Clerk prepare the Rate Books agreeably
to the Estimate he submitted to the Board on the
2nd Inst. — and that the several Ratings as set
forth fully on our Minutes of that date be now
adopted as the Rates for the ensuing year

The Board next proceeded to consider the arrears
sheets of the several Collectors, who were called up
and examined, the General State of the Collection
for the past year appeared satisfactory, but the
Districts of Enniscorthy, Castletalkin, Castletalkin
Boo-lough and Ballyraddon presented disagreeable
exceptions — Mr. White, who had charge of the
former District stated he could do no more —
and that if the Board required it, he would take
a Bailiff and sell all the effects in the Houses in
arrear in the Town — but that he felt confident
the fees would not be realized if that extremity was
resorted to. He was subsequently ordered to attend
and close his Books with the Clerk on Wednesday
next — Mr. Sambel who has charge of the four
latter Divisions being called did not appear nor
were his arrears sheets put in as ordered, A Letter
was read from him asking a week or more to close
up finally.

Ordered That Mr. Sambel close his Accounts and deliver up his Books
with the Arrear Sheets on Wednesday next and that he
do attend the Clerk in the Board room on that day, or
otherwise the Board shall adopt extreme measures on
this day week

The Bonds and other Securities in force were laid before the Guardians by the Clerk, together with his Report

Ordinary Proceedings

A Report was read from Mr. Donaghy, Agricultural Inspector under the National Board of Education - that having attended on Friday the 24th Inst. he examined the Agricultural Class - and inspected the Farm - he would remark, that he had been tolerably well pleased with the ordering of the Pupils - and especially so with the cultivation and general management of the Crops - very great credit appears to be due to the late Agricultural Mr. Hankins for the very efficient manner in which he carried out the business of the Agricultural Department of this Establishment, and it will therefore afford him great pleasure to recommend that the Commissioners of Education allow him a gratuity for his valuable services - He was of opinion that the Agricultural training of the Pupils will be more efficiently performed under existing circumstances, by the conjoint services of the Agricultural and Literary Teachers, and therefore threw out the suggestion for the consideration of the Guardians - Should he find in his future visits that the Agricultural training of the Pupils is properly attended to, and that a systematic course of cropping and good cultivation is pursued, he will recommend the usual gratuity to the Officers in charge of the Agricultural Department

Ordered the Suggestions of Mr. Donaghy in reference to the Agricultural class shall be carried out

Ordinary Proceedings

The Clerk further reported that he had received a reply to his Communication respecting the Fever Hospital at Ballinrobe - but that he had twice written to Kenagh since the 23rd ult. for similar information without receiving any reply

Mr. Donke Relieving Officer had entered on his Application and Report Book the name Peter Murphy aged 9 years who had been admitted to the Ulster Fever Hospital on the 1st Inst. from the Poorland of Askebeg. A Guardian interested in that Division stated he knew no person of that name living in Askebeg, upon which the Relieving Officer stated that it was only that morning he had received the account of the admission

Ordered That Mr. Donke Relieving Officer make particular enquiry before the signing of the Register on this day week and that in future he do attend at the Hospital every Saturday and learn from the Medical Officer the admissions to Hospital and the names of the patients about them so as to be able to report to the Board fully on each case he brings on his Books

A note was read from D. S. Doyle Esq. Concerning the Ulster Fever Hospital and directed to be considered on this day fortnight

Mr. Doyle again applied to the Board for the brothers John and Patt Emory provided clothes were allowed them going out, engaging to find work and keep them out. He also applied for the girl Mary Haranagh charged on the Relief Division all of whom were brought up and examined as to the clothing brought by them to the Workhouse

Ordered The old clothing of the boys Emory having been inspected

¹⁰
The Master is directed to have repairs done on them to enable them to leave the House and that they be then discharged - that the clothing of Mary Haranagh being sufficiently good she be discharged to morrow morning Mr. Byrne undertaking to find her employment

The question of dressing Flax for the House having been brought under Consideration it was

Ordered, That the Flax to be packed by Stephen Partly be weighed when in lots of 30 Stone - and the produce returned before he receives another lot until his part of the work be finished - That Byrne continue to hackle as at present in the Cow Sheds his share of the work, and that the Master keep an accurate and separate account of the produce delivered by each.

The list of names of inmates fit to be discharged as made out by the Board on last Thursday was read over Mr. Ponnells foreman had selected about 40 boys and girls most of whom had not clothing of their own, but it appearing not desirable to clothe and send out a large number without the certainty of sleeping accommodation at the Wilton Factory, it was

Ordered That the Clerk shall write to the M^{rs} Ponnell to know what provision for lodgings can be made for such Paupers as the Guardians may discharge for employment at their Factory. that the condition of Paupers clothing whose names have been put on the list of persons fitted for employment be examined, and that such single Paupers as may have clothes be discharged

A Committee consisting of M^{rs} Blacker, Cliffe Collins and Farnham, having been appointed to examine and report on the necessity for the Press in the Clerks office made the following report,

The Bonds and other Securities in force were laid before the Guardians by the Clerk, together with his Report thereon, as follows: (This on the second Meeting after the Annual Election in every year):—

We recommend the Press the Clerk has applied for as he had no lock up place in the office for vouchers and dated accts. &c. we also recommend that the shelves in the old office be taken down, and used along with the 5 Shuttles about 6 feet by 2 feet for shelves in the proposed Press. there will be about enough of material for the shelves. so that the stuff to be provided will be for the framing and doors, that the size of the Press will be about 10 feet square

Signed on behalf of the Committee
John Collins

6 September 1835

Ordered That Tondert be invited for the above work with proper locks, also for ceiling the Probation Ward, under the Clerks office

Agreeably to notice Mr. Farnham brought under the Consideration of the Board, the question of Fever Hospital accommodations. The Plans sent down by the Commissioners Architect were inspected, and a letter read from the Bathinche Union, stating the dimensions and cost of erecting an Hospital similar to one of the Plans for the accommodation of 80 Patients, upon full consideration it was decided to visit, and inspect the new Buildings of the Workhouse

Upon their return the Board made the following order

A Committee consisting of M^{rs} Farnham, Blacker, Kenny, Collins, Sheild and the Chairman - having examined the new Buildings occupied by the boys School, which from the diminished number of inmates could most probably, be sufficiently accommodated under the Original Plan of the Workhouse, are of opinion that it might be made available as a Fever Hospital by closing its communication with the muns yard, a part of which should be left for the use of Fever Hospital and opening an entrance thro' a convalescent yard on the opposite side, provided on a report of sufficient

Medical Inspection, its propriety had not considered dangerous to the general health of the inmates of the Workhouse and they therefore request the opinion of the Commissioners and that they would have a report made on the subject. The Guardians are fully aware of the insufficient accommodation at present provided for Fever Patients, and that an Hosp. for 80 beds which the building they propose would supply with abundant accommodation for mixed Surgery &c. in immediate connexion with the Workhouse would be most desirable and economical, but they are unwilling to add new buildings where so much vacant space is likely to exist - the present Hospital should be enlarged to double its size if adopted for future arrangements, and an outlay of considerable expense should be made on a terminable lease at a rent of £10 a year.

The Rate Books on the following Civil Divisions having been certified by the Clerk were submitted to the Board and duly signed and declared by the Chairman & two Guardians namely

The cases of provisional relief, and applications for relief were considered and decided on, as set forth in the Application and Report Books.

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon as follows:—

The following Letters from the Poor Law Commissioners and others were read by the Clerk, and directions given to answer them respectively, to the following effect (or Orders made on them respectively as follows):—

Dated 15 Sept 1833. Suspending the appointment of Mr. 511239 Gibson to the office of P. R. Collector in the Ennisceathly Union

Ordinary Proceedings

A note was read from Capt. Hamilton Inspector respecting the Fever Hospital at Ennisceathly, as he understood the Guardians were now offered a Lease of the Town Hospital, and would make arrangements to attend the Board's meeting of the 27th Inst. if necessary.

At the same time the Board referred to the Commissioner's last Letter on the proposal to convert the Boys School into an Hospital, dissenting from that course.

Ordered The Board having read the Commissioner's reply to the Guardians' suggestion, of applying the Boys School to the purpose of a Fever Hospital, and also having considered the offer of a Lease made by the Earl of Portsmouth of the present Town Hospital, the thanks of the Board be communicated thro' Mr. Ellis to Lord Portsmouth for the offer — but considering the additional staff which a separate Fever Hospital efficiently managed would require, and the consequent expenditure, the Guardians are of opinion that the interests of the Union will be best conserved by the erection of a Fever Hospital on the Workhouse grounds, and they request the advice of Mr. Hamilton in the choice of a site — of which the may be considered eligible, and that as the season is now advanced the present arrangements be continued to September 1836, and contracts be entered into to commence the new building early next spring.

The Clerk reported the deficiency of £20.2.8 ascertained to be hands by the late Collector Mr. James Lambert in closing his Books — Mr. Lambert appeared before the Board, and admitted the accuracy of the amount so found to be against him, but as he believed some deductions would appear from a closer inspection of the arrears list, he requested that the account should not be finally settled until this day fortnight before which time he will have cleared up the Balances of the District of Castlebliss and Ballyrallon.

and make a satisfactory settlement

Ordered The time requested by Mr. J. Lambert is allowed. that all the Collectors get notice that they are expected to examine each Townland in their Books immediately after the delivery of the Warrants in order that if any errors exist they shall at once point them out to the Clerk, who shall report same to the Board, and that any Collector who does not attend to this order, shall be held responsible for the entire Amount in his Books

Mr. Goodall Auctioneer Reported, that having attended on the Farm to sell the crop this day he could not get more than £2.15.0 per Stack for the wheat at the Mr. Dobbin had at one time offered £3. and he valued the Barley Stacks at £1.5.0 each, that he had the sale postponed

Ordered That if Mr. Goodall can sell the wheat and Barley for £95, nett he may do so. any time before next Board day

Tenders for the following were considered and accepted

The Bonds and other Securities in force were laid before the Guardians by the Clerk, together with his Report thereon, as follows: (this on the second Meeting after the Annual Election in every year):—

The Tenders for Bread and Flour not having been considered satisfactory, the Chairman at same time referred to the frequent reports as to the inferior quality of the Bread supplied by the present Contractor on the Masters Book, and the great difficulty amounting almost to impossibility to supply himself elsewhere, when obliged to return insufficiently baked bread, Tenders to be again advertised for, and considered on this day week

Ordered That a specification be made out for the Masters office and the Clerks prep and advertisements be issued for Tenders to be considered on Thursday the 14th Oct. next
