erection of grates was made long since, the Hospital kitchen is also without a proper grate altho one was ordered months since - on the Farm everything is going on as well as can be expected, considering the few hands now available for working it, found 4 hired labourers shovelling wheat.

Commissioners Letters

Dated 26 Nov. 55
No. 30915 In reference to the default of James Lambert late Collector for Castlebliss District requesting to be informed of the amount due and what steps have been taken by the Board to enforce payment.

Ordered The sum due by J. Lambert, as far as it had been ascertained last month, amounted to £20.9.3. of which Lambert has paid on the 22nd Inst. £16.0.0 promising the balance on the 1st December. His friends have also come forward, undertaking to pay any other deficiency of his, as soon as the present Collector ascertains the amount, without loss of time.

Dated 28 Nov. 55
No. 32026 Enclosing copy of a communication received from the Rev. J. C. Archdale, Northampton, in reference to the Porter of the Fever Hospital there and copies of enclosures therewith.

Ordered The Guardians regret that the Rev. Archdale did not address his complaint to the Board instead of to the Commissioners, in the first instance. An offence of the 5th November had not been complained of until the 14th - and ~~that~~ the Hospital was allowed to be without a Porter from the former date until the 24th. The Guardians are now made aware by the Commissioners Letter, that a Committee had been summoned, but they have not yet received any report of its proceedings. Had an investigation been held, and the fact of drunkenness proved, the Guardians would not hesitate to punish with dismissal so flagrant a case, without the necessity of the Commissioners intervention.

Dated 28 Nov. 55 Stating that the Medical Officer of the Fever Hospital, No. 30915 was not justified in permitting one of the paid nurses to absent herself from her duties as reported on the 15th Inst.

Ordered That Doctor Goodfellow's attention be called to the subject matter of this Letter.

Tenders to supply Bread, Flour, Oatmeal and India Meal, were considered, and the following accepted.

Thomson, Leekhampton, Cornwall
Best White Bread 8th per 10 lb Loaf
First Flour 52th per Bag
Oatmeal 17th 6 per cwt
India meal 12th per cwt.

Agreeably to the request of the Agricultural Committee on Thursday the 22nd Inst. - the V. Chairman submitted to the Board the following report.

That he had in company with several Guardians, inspected the Workhouse Farms last week with a view to advise with the Board on the subject of the Confirmation appointment, whose three probationary months, and who on the Minutes of the 15th Inst. requested that the sanction of the Commissioners might be called for by the Board. He felt much pleasure in stating as the result of the inspection, that a very fair crop of Mangold had been nearly harvested in pits calculated to contain about 90 tons of good sound roots, from 2th 1/2th of Land, part of which had been interlined with Red Nottingham Carrots, the produce of which may be taken at 6 tons, there is also a good crop of Turnips at the down at rather a late season when the Flax had failed, and will perhaps produce 110 tons, with another piece on which

which the Turnips are of good size, but rather
thin on the whole. He would advise that
these roots should now be offered for sale
at the current market rate, in quantities of
not less than 1/20th ton - He regrets that
the growth of cabbage and onions has not been
successful in the hands of the present Agriculturist
at this anxiety and real was unquestionable
and he has been very successful in the sowing
of the Turnips and Rye grass - already so
advantageously sold, but the diminished quantity
of labour at his command and the dry season
may be pleaded in excuse to some degree,

Still the Vice Chairman must report that in managing the class now remaining some of whom are very young, a stricter discipline would be necessary, and that the present Agreement with Harris is much inferior to his predecessor, taking those circumstances in connection with the different position in which his marriage has placed him the Vice Chairman cannot recommend that his services should be continued permanently, and he would suggest that with a reasonable notice, it would best suit the interests of the Establishment that he should resign his situation - That consequent

on the diminished number of Paupers able to work on the land - the Agricultural Committee had deemed it advisable to recommend the employment of some horse labour, and the purchase of Seed for the growth of wheat, which will, no doubt yield a considerable profit and maybe succeeded by Flax to lay down the land for grass. leaving it for time to determine if it be necessary for the training of the School boys, to keep so many acres on the hands of the Guardians

41 An Immate named John Leary was prosecuted at Petty Sessions on Monday last for disobedience and insolence to the Agriculturalist and refusing to work as he directed him the punishment awarded was one month's imprisonment with hard labour.

42 Decd to bring before the Board the case of Eliza Evans and child admitted last Board day. Agriculturalist's Report. She herself is a Protestant, but states that the Religion of her child is Roman Catholic - hoped the Board will enquire into the matter and have the Religious denomination entered accordingly.

43 He beg'd to Submit a Letter sent to an Immate named Mary Cahill by her Son, empowering her to receive the sum of £5/- from a person named Pat. Whitty

Ordered A Meat dinner allowed. That Sir J. P. Fetherston, Messrs. Polyer, Roberts, O'Flaherty, and Winton be a Committee for that purpose the Portland Plaster allowed, the issue of clothing to the Fever

C. Chaplain, who baptized it as a R. Catholic - the mother wishes it to be registered as such, and the Register is now filled up as to its religious denomination accordingly. The Master is directed to apply for the money on behalf of Mary Cahill, and if got. to hand it to her with her discharge from the Workhouse.

The following Letters from the Poor Law Commissioners, and others, were read by the Clerk, and directions given to answer them respectively, to the following effect (or, Orders made on them respectively as follows):-

Visiting Committee Reported

Decr. 10th. Visited the House this day was much pleased with the progress of the children in the female School, saw children at dinner - everything seemed most comfortable.
Signed Thos. P. Fetherston

Decr. 19 Visited every department of the House to day from one to four o'clock and during that time the two new fire places in the old women's ward were smoking so much that the windows had to be kept open to allow it to escape. I think this defect can be remedied by building the flues up to the top of the chimney which he would strongly recommend the Board to have done at once - the Master's office is nearly completed, but I think the walls will require plastering to make it comfortable and clean looking - the Infants are looking very healthy.
Signed George C. Roberts.

Ordered That the Master get Mr. Murphy to improve the flues as recommended by the Visiting Com^{tee}.
