overcrowded State of the girls dormitories by providing more beds in the other female Dormitories.

The Master Reported the average cost this week to be 1-5² p^r head and stated that if we had bread at the same rate as stated in the letter received from the Clerk of Waterford Union our average cost would be down to 1² p^r head, according to his statement there would be a saving in our consumption last week of £5-17-0 equal to £301-12-0 p^r annum and if our numbers increase of course a corresponding increase of saving.

Ordered. Referred to the Public Committee who

Ordered: The Medical Officer reports he is acting on this suggestion since it has been submitted to him and of which the Board approve.

and it was postponed to Saturday the 21st Inst.

Resolved. that application be made to the Commissioners for a sealed order empowering the Guardians to give out door relief to destitute families where the father is in Hospital or the county Asylum.

The Chairman directed the Master to ascertain from his Provision Clerk agent — the quantity of bread consumed from 29th Sept. 1848 to 29th Sept. 1849, and to calculate what savings would be effected providing the cost of the 4 lbs loaf to have been 5¹/₂d and that 30 stone of flour at a cost of 95¹/₂d produced 380 lbs of bread. At some time the Master returned and reported there would have been a saving of £347-17-6 but that as during a portion of the year in question the contract was 6¹/₂d and 5¹/₂d per 4 lbs loaf the saving would have been considerably more.

The Master brought before the Board paupers St. George, & Mr. Kane, O'Callaghan and Mr. Graham charged with being accomplices in stealing a pair of Blankets and Shells from the Templebarrow Workhouse on Friday evening last.

After investigation the four being Adult Boys were ordered to be discharged.

the absolute necessity which exists for a revaluation of the Union,

A proposal was read from Thomas Simmott to purchase a Sailer and utensils lately in use at the Templehamm Store for the sum of £2-10-0 which was accepted.

The Clerk was directed to write to the Relieving officers requesting them to make enquiry respecting any Sailer which may not yet have been sent in from the late Relief Committee of the Union.

Mr. J. Redmond one of the sureties of J. Roche late rate collector appeared before the Board requesting they would receive the sum of £15 from him and allow him some time for payment of the Balance £5-14-6,

on consideration the Board ordered Mr. Johnson to stay proceedings, upon Mr. Redmond paying him £15-0-0 and costs already incurred.

The Chairman then signed the order and Cheques and the Board adjourned to Wednesday the 21st November 1849.

The Clerk was ordered to reply that it is not manufactured at present on the premises, that it is supplied from the Fellenre Charcoal Works (Limerick) by A. Newton Esq. and delivered at the Workhouse at a cost of £1-16-0 per ton that for further particulars he would consult with the Master.

X Rev. S. C. Archdale Chairman of the Newtown Barry Temp.
Sewer Hospital Committee and Doctor Carey Superintendent of

that Hospital attended and the letter from the Board of Health relative to the closing of the Hospital on the 30th Inst. was read for them.

They stated that as the Board of Health ^{had} ~~were~~ determined on closing the Hospital arrangements would be made to facilitate their order immediately but that as there were a considerable number of beds and bedding besides the other property in the Hospital requiring to be taken care of a Porter was necessary for the present.

Mr. Parker in congratulating the Board on the general state of the Union advised that the less they depended from the 1st section of the Relief Extension Act the better and that as the numbers now in the House approached within about 250 of the total accommodation it would be prudent to appoint a Committee to look out for further indoor accommodation soon as possible. On consideration the following Committee was appointed to look out for a store to be used as a temporary Auxiliary Ward and to report to the Board on Saturday next, viz Messrs Pender, White and Doyle.

In reference to the notice of Mr. Birch relative to a revaluation of the Union to be considered on Saturday next, Mr. Maher gave notice he will on this day week move that in any valuation which may be resolved upon — Mr. Griffith's valuation be adopted as the Basis.

The Committee appointed on the 10th Inst. to take into consideration the advantage of erecting a Bakery and corn Mill or either for the sake of economy and employment in the Workhouse reported —

That the consumption of Bread from September 1848 to September 1849 was 258,685 lbs which at the present price 4¹/₂ p. 4 lb loaf amounts to £1279.19.0 — that on the fullest enquiry they learn that 14 lbs of Flour will produce about 20 lbs of Bread, which at the price of 22¹/₂ p. for 2¹/₂ cwt of wheat meal would make the Bread 3¹/₂ p. the 4 lb loaf and a consequent saving of upwards of 33 p. cent. besides the Bread being more wholesome food, and as a greater use of bread will in future be made with the vegetable soup adopted in the new Dietary with the recommendation of the medical officer. They suggest that a proportional reduction of expense will follow computing the number of the inmates to remain as high as it has been. They consider that the plan sent down by Mr. Nicholson for a Bakery and store at the rear of the Kitchen to be not an extravagant one — well suited to the purpose and not larger than necessary particularly as should it be hereafter desirable to erect a hand Mill to be worked by the paupers, the necessary accommodation will be found in this Building — but wishing to adopt with caution any new plan your Committee at present only recommend that the Guardians will proceed to the adoption of a Bakery for the Establishment.

Moved by Mr. Harmer

Seconded by Mr. Maher and Resolved.

That Mr. Nicholson's plan be adopted for building a Bakery and store and that advertisements issue for tenders with a view to bake the Bread for the Establishment.

Mr. Maher Reported, that he had an interview with Mr. Farrell respecting the piece of ground about six Acres which lies between the General Hospital and the Workhouse grounds, that she named £200 as the lowest price she would sell it for, it is subject to £4 an acre and is held at will, as Mr. Maher considers the acquisition of all pieces of Land to be very desirable not only as an

addition to the former but as opening an entrance between the Work-house and the Fever Hospital without passing thro the town.
He proposed that a Committee be appointed to recommend what sum shall be offered to Mrs Farrell provided the Agent Mr Ellis on the part of the Portsmouth Estate will sanction the transfer and promise to recommend a Lease to be given.

Mr. Maher also reported, that he had received a communication from Mr. Murphy who holds the House adjoining the Workhouse grounds with small Garden attached and he recommended that the same Committee should be empowered to treat and purchase subject to the approval of the Board.

Ordered, that the name of the Honble T. S. Carrow be added to the former Committee and that the Clerk be directed to open a separate sheet under the head of Establishment for the Debits and Credits of the Farm.

Moved by the Honble T. S. Carrow

Seconded by Mr. Rudd & Resolved.

That the Committee who have reported on the adoption of a Bakery - be employed to treat with Mrs Farrell for the piece of ground now in her occupation lying between the Workhouse and the Fever Hospital and containing about six acres also for the houses belonging to Mr. Murphy adjoining the Workhouse and to purchase the interests in the grounds subject to the approval of the Board.

Moved by Mr. Gorman

Seconded by Mr. Rudd & Resolved.

That the number of Relieving officers be reduced to five and that a Committee consisting of Messrs. Maher, Whelan, Rudd, Swatman, Lott and Whitty be appointed to consider and report to the Board on Saturday next the best mode of carrying this resolution into effect with due regard to the duties of each.

Orders for the following were opened and read and upon due consideration accepted viz.

The medical officer reported in Hospital this morning
 137 discharged cured 27 died none New boys were
 admitted this morning from the male School
 all labouring under Diarrhoea M. Burke at his
 last visit remarked the lightness of the boys clothing
 I would suggest that during the use of the Vegetable
 Soup particular care should be taken that no
 heated or damaged vegetables would be used in the
 preparation of the soup The medical officer does
 not state that damaged vegetables have been used
 In reference to the Poor Law Commissioners letter
 as to the use of tea for Breakfast in the hospital
 as I agree with Dr. Phelan as to the Superiority of
 milk it is only in use with the female infirm Ward
 which is now in the Auxiliary House in Castle Street
 and I think the arrangement is only temporary at least
 it was so understood by him He advised that a room
 adjoining the female idiot ward should be used as a
 Ward for land complaints there not being adequate
 accommodation for females labouring that disease
 No order made

The following Orders of the Poor Law Commissioners were laid before the Board and directions given thereon, as follows:

The Master reported, The Templestammon House to be in a bad state requiring to be repaired on the roof he had got D Connors to inspect it by sanction of the Board on Wednesday last and the Quayward also that the children as reported by the Schoolmaster to him could not sleep from the rain pouring in the roof. My Lord

At a meeting of the Hospital Committee held this day a letter was read from the Central Board of Health under date Decr 4th 1849. No 20239 relative to the closing of the Culart Fever Hospital upon which it was resolved. That Dr. Barton be requested to forward to the Board of Guardians of Ennisclorthy and Gorey with the opinion of this Committee that it would be most judicious to leave this large district without a fever Hospital at present.

The Island 13th Dec 1849

My Lord

I am requested by the Culart Fever Hospital Committee to state to the Ennisclorthy Board of Guardians their disappointment at closing the hospital now in complete working order. There are Eighteen or Twenty Patients in the House and what is to become of them if the Hospital be closed up. The Committee since its formation have used the greatest economy in which they were ably assisted by Doctor Barton by whose attention to his business we have had but very few deaths and a great curtailment in the expense of the institution. In my humble opinion the Board ought to consider well before they recommend so many of our suffering fellow creatures to the turned house and diseased on the world.

Doctor C. Rowke reported that Joanna May reported on Wednesday last died that evening after 15 hours illness, no new case but Diarrhoea very prevalent which unless checked quickly merges into Cholera. He visited several cases of Diarrhoea altho not within his duty to do so as the Board has not yet made any ultimate arrangement except for hospital attendance.

Visited this day the Shamrock auxiliary building the house not cleaned up at 12 noon in every other respect clean and orderly in their behaviour all at their several avocations also visited the Original Building found it in every respect correct clean and well ventilated inmates all clean and employed the quantity of Wool and flax in this house ought to be very considerable now and I should wish the master would report the quantity of material on hand. The hospital clean and well ventilated and not crowded. The Schoolmaster not in his place to day the master will explain. The business of the female school going on orderly and quiet. I would suggest to the Board the necessity of ordering top coats for the gangers on the lands for they complain bitterly of the cold. I cannot report very favourably of the draining. I must say that I consider the work executed in a very negligent manner. The great object is due training of the boys that great care should be paid by the Agriculturist in having the work all done and consequently should give his undecided attention to this.

Clerk of the Union.

Doctor O'Rourke reported that since Saturday last 20 cases of Cholera occurred 11 died and 6 remain under treatment 5 permitted themselves to be taken to Hospital of whom but 2 died and one of them immediately after admission. The Epidemic is settling in with more fatality now than in September and October some inconvenience has been experienced for want of proper conveyances to take to the patients to Hospital and interment. Another report was put in later in the day of two fresh cases having occurred

Ordered That Philip Mooney the overseer shall attend to the providing the necessary conveyance as required by the Cholera medical officers

Moved by Mr. Rudd seconded by Mr. Moran and Resolved That the salary of Doctor Goodisson be placed on a level with that of Doctor O'Rourke & Doctor Cranfield for attendance on Cholera patients both external and in hospital being 10/- per day for each during continuance of Cholera

Letters were read from the Hon J. R. Maxwell and Mr. Braddell on the subject of Newtown Barry Temporary Fever Hospital enclosing a Statement signed by most of the respectable ratepayers in that district of the Union which was ordered to be placed on the Union viz

We the undersigned being members of the Fever Hospital Committee of N. J. Barry and ratepayers have heard with regret and alarm the order of the Commissioners of Health to close the Fever hospital here and that in future all patients should be transferred to the Hospital at Ennisceorthy - that considering our distance from Ennisceorthy (the town 10 miles and portions of the district 14 miles) We are of opinion for the fears which are general in this

this neighbourhood that especially in the Electoral Division of Newtown-Barry comprising a densely populated town and mountain population peculiarly liable to the incursions of fever considerable risk to human life would increase if the order of the Commissioners of health be not rescinded. We therefore strongly urge upon ^{them} the reopening of our Fever Hospital. That the Ennisceorthy Board of Guardians be requested to transmit this our memorial to the Commissioners of Health thro the Poor Law Commissioners.

Signed J. R. Maxwell Chairman.

P. J. Several cases of Typhus fever have occurred since the Newtown-Barry Hospital was closed and notwithstanding our remonstrances to the contrary - in every case the patient positively refused to be taken to so great a distance.

Signed J. R. M.

Letters were also read from the same parties against altering the district of the present Relieving officer for Kilrush and A. J. Barry on the grounds that it was sufficiently large at present for any one officer to perform the duties efficiently.

Ordered That as the alterations contemplated by the boundary Commissioners may affect the arrangements as to the contemplated reduction in the number of relieving officers the consideration of that subject be postponed until such alterations may be agreed upon.

Resolved that the proposal of Daniel Molan to sell his house and garden adjoining the Workhouse for the sum of Forty pounds be accepted and also that the proposal of Peter Murphy to sell two houses for Forty pounds be accepted those premises being subject to a head rent of Five pounds ten shillings per annum under the trustees of Earl Portsmouth and that on the sanction of the Commissioners.

the Building Committee take immediate steps to have saw houses fitted up for the reception of paupers for which they will be soon required and that the clerk be directed to forward to the Commissioners a tracing of the premises.

Mr Graham gave notice that on Saturday the 5th January next will move that Anne Molan and child now charged to Killaw be placed to account of Union at large.

Ordered That on investigation be found that James Martin How now charged to Killaw should have been placed on the Union at large and that the Master act accordingly.

The proposal of Thomas Sinnott to put up a weavers shop under the north end of the shed in the mens yard finding the materials was accepted for the sum of £5.9.6.

The tender of Anthony Doyle to supply 12 Box hand barrows at 7s each was accepted.

The Revisor reported that in obedience to the Boards order of last Saturday he waited on Mr Brouder and made him satisfied with regard to his appeal. That having examined into the complaint of Mr George Brouder he thought that there were no just grounds for appeal that the first valuation on his turbary was £100 - which has been since reduced to £200 that he had visited that property previous to the present rate being made and found a full crop of turf cut and selling thereon.

That he examined the valuations complained of by Mr Wallace viz Mountain No 816 and that he had no reason to complain that No 829 Mountain No 829 have been reduced from £104 to £10 and which is certainly a low valuation. No 865 formerly £100 has been divided between Mr Wallace and his brother Rev J James and the latter and £34 on Mr Wallace which he believed.

believed to be a fair apportionment No 1625 in the Ennisworthy Division consists of a House and land attached the complaint being that the House was unoccupied at the time of the Rate being made here Revisor could not alter being directed on that point of his duties by the Commissioners instructions

Signed

P. Keating Revisor

Mr. Maher reported that he had ordered two Boilers which had been the property of the Relief Committee to be sent in to the Board

John Doyle Relieving Officer reported that there was no Boiler out in his district those that were there had been sent in

Ordered That Mr. Burke Relieving Officer how the Boiler sent in now at Ryans of Ballaghetra

The Chairman then signed the orders and cheques and the Board adjourned to Wednesday the 26th day of December 1849

Duffey St. and Kinnery Road no case at Kinnery side this week It is to be regretted that those who were attacked will not immediately consent to be taken to Hospital and most who are sent there are merely removed to die but even in those extremes admission to Hospital counteracts the spreading of the disease that it was very desirable to compel those who refused going to Hospital and that if the Board did not consider they had the power the opinion of the Commissioners might be requested on that point that he had again to employ William Murphy to attend the dispensary and to other extra duties by night and that his own entire time was occupied in the discharge of the onerous duties now so much increased

attention of the Board has been called to the matter by Mr Bolton some time since and that the truth has been further established & by the verdict of a Jury held upon a fatal case yesterday that he urged upon the Board the taking of a temporary Hospital for the reception of future patients that the Gorey Board of Guardians had already appointed him to take charge of Cholera patients and if the Ennisceorthy Board of Guardians select him also he thought he had some claims in consideration of his individual exertions in case of Cholera patients since the 1st December last.

Ordered That a Communication be had with Mr Walsh relative to the temporary use of Boolahy School house for a Cholera Hospital and that a communication be then made on the subject to the Gorey Board of Guardians.

A letter was read from the Wexford Board of Guardians requesting a copy of the scale of diets used in the Workhouse here.

The visiting Committee reported, visited the auxiliary Asylum in Gattle. At this day, 31 inmates there found them very comfortable and clean, no complaints, went this the Lord, the men and adult boys employed at the manure heaps, and some at the Quarry, on the whole every thing going on satisfactory, gave directions to Hawkins as soon as the weather permitted to have the blacksmiths Women out for the subsiding and hope the Board will confirm the order, visited the house on Monday last & found it clean the boys schoolroom overcrowded, the Hospital crowded but no infectious disease, in the male idiot ward found some of the creatures had got inside the fire guard to warm themselves and the Wardmaster absent in the Schoolroom. I reprimanded him sharply and the Tutor also. The Master, Matron & Porter were out, visited the Shopman. Asylum

The Reports of the Master and other Officers were read, and Orders made thereon, as follows

Same day and found every thing going on satisfactory, I forgot to mention that in passing thro the men's yards I found a number of pans broken from the boys kicking foot ball out side and presume the Master will bring them before the Board for punishment.

Ordered, the Master desired to be more circumspect in seeing that the officers are more attentive and if not to report them.

The Medical officer reported, that he had examined the external Morbidity, that the lights are close and badly ventilated the yard is small and inconvenient, there is a pressing in prospect of making but great necessity should cause this more to be occupied as a Dormitory during the prevalence of cholera in the town.

The number of Adults who should be allowed to sleep there

The following Orders of the Poor Law Commissioners were laid before the Board and directions given thereon, as follows:

during its prevalence ought not to exceed one Hundred and twenty. Sickneß is becoming more general in the Workhouse particularly in the infant class he had two cases of Cholera this week which were immediately sent to the Cholera Hospital, Nineteen were sent to the Fever and Dysentery sheds and two more sent there today, a general derangement of Stomach & bowels is prevalent amongst the nursery children and he could not accommodate in the Infirmary all the children who are so affected — In the Infirmary yesterday 162, the present Nursery was the former dayroom, this room is partly occupied by about 50 adult females as a Workroom having but half of the room for the accommodation of 43 nurses and but 43 Infants. In the second dayroom now used as a spinning room by 50 to 60 adult

The following Letters from the Poor Law Commissioners and others were read by the Clerk, and directions given to answer them respectively, to the following effect, (or Orders made on them respectively, as follows:)

females, there is no store or fire place and he was informed that the occupants are in the habit when night comes of crowding into the Nursery, did not learn this fact till yesterday,

on Thursday night a female was attacked with violent purging & vomiting, he was unable to attend and sent the messengers for Doctor Cheever who refused to see her, In such cases there was an order made last September for Doctor Cheever to attend on perhaps it may be necessary now to renew that order for his attendance on such cases on receiving a written Report from the Master.

He suggested the propriety of adhering as closely as possible to the numbers allowed by the Commissioners sealed order.

Ordered, That this store was taken under great difficulty no other being to be had and the Doctor is requested to report on the

Health of the occupants next week and how far the number may be increased. That in the absence of the Medical officer in any supposed case of Cholera in the Workhouse Doctor Cheever or Doctor Goodwin be applied to by the Master and they are requested to attend.

The Master Reported, That the new store taken has been fitted up and the school girls sent to sleep there, He and the Schoolmistress visited the House last night and they considered it will make a much better sleeping Ward than they at first supposed, the Board will please order whether any officer will sleep there as in the Day Ward there is no sleep in the House now so badly provided for, He found it impossible to clear out the Infirmary ward for these children as ordered by the Board last Saturday from the increase of Sickneß, the Gallies & Abode is now full as well as the Hospital. He has the Infant school children during the day in the Male Probation Ward taking care it is well washed and purified every morning before they are sent, the Medical officer saw them yesterday and was satisfied they were comfortable.

As the women's dayroom is used for a Nursery as well as dayroom, He thought the Mortality amongst the Infants is increased in consequence, two of these children, two last night who were lately considered very healthy & he heard several are bad, He observed that during the time the numbers were low the Health of these children was thriving, there have been two cases of Cholera since last Board day, He considered there were two Hundred in

The Cholera Medical Officer Reported, that there was a diminution of the Epidemic as compared with last week. In the number reported there were three from Templestanner and one from the Irish Street. Two were sent from the Workhouse only one proving to be Cholera. He was at a loss for a convalescent Ward having to keep the patients recovered in the Sick apartment until discharged, one there at present who cannot be discharged from want of beds. He respectfully called the attention of the Board to the reoccupation of the Dysentery Shed more or less in connexion with the Cholera Hospital — as the patients sent there are exposed to the epidemic should it continue longer, he had just ground for his conclusion

as a patient named St. Carroll from Kears in the Fever shed got a Relapse from Fever & got Dysentery contracted Cholera and died after two days attack, still who are attacked with Diarrhoea or Dysentery are predisposed to Cholera but how much more those who are in immediate contact with the Cholera Hospital, & he hoped the Board would give him credit for his suggestions being from a belief it was his imperative duty to do so in regard to the limit of those sent in to Hospital. This day he has been called to visit two bad cases in Duffry St. and Templestanner.
