The Clerk's Report on the execution of Orders previously made by the Board was read, to the following effect:—

That after repeated notices to Henry Walsh to bring in his Books I finally gave notice on Saturday to deliver his Books on the 26th inst. I learned that he was in town with sheep at the fair on that day but he still detains the Books. Now this being a serious breach of one of the Conditions of his Bond he respectfully asks the Board to give instruction to the Solicitor to proceed as soon as possible against his sureties for a sum certain at the approaching quarter sessions such being absolutely necessary not only in his case but as a caution to other Collectors in future. The Rate Books for Ballyvaldon, Bolaboy, Castle Ellis and Castle Talbot cannot be completed in order to be signed on next Board day as advertised by reason of the arrears of 11s 4d. not being brought into the new Books and cannot be whilst he detains them.

Ordered, Clerk to write to the Sureties informing them that unless the Books are delivered on Wednesday next the Board will proceed for the recovery of the sum of £30— and the balance to be lodged.

That it is time for Mr. Cullen to come to some settlement with the Board—his debt for Cabbages is £26 3 10—out of which he has paid only £14—leaving £12 3 10 still due—the Sureties are Messrs. John Plummer and James Cullen of St. James in the sum of £100 each, but she ought to be looked to in the first instance.

The Ledger was produced by the Clerk, posted up to the last day of Meeting, with the proper Debits and Credits ordered on that day.

The Treasurer's Book of Receipts and Payments was produced, by which it appeared that there had been received during the week,

And that the Balance on the Account

With reference to the Resolution of the Guardians as to disposing with the services of Masters Clerk in consequence of the numbers being reduced. He begged to say that it is a mistake to think that by the numbers being reduced from 600 to 300 that the duties of Master are lessened. It might be so as regards the Schoolmaster or School-mistress as they would have only a few children to teach but not so as regards the Master who is accountable for the proper management of the House and his exertions are doubled trying to get the work of the House done with so few hands. The greater portion of whom are sick & infirm whereas if there were 500 or 600 in the House there would be plenty of hands in each department consequently the work of the House would be performed without much trouble. As to keeping the House it makes very little difference as the

 make to the present system. The above
 mentioned suits to be made upon the Work-

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

Masters Report

Begged to state that both the head Nurse and assistant Nurse took charge on Monday last. He had to request that the Board will define the duties of assistant Nurse from those of head Nurse as he has refrained from giving much instructions whilst he received directions from the Board on the matter.

The assistant Nurse will not sleep in any of the wards with the inmates which he believed was the intention of the Guardians. The Board will therefore please point out the apartments in which she is to stop.

The Nurses require the following articles. A Mattress, Bolster & Pillow, Sea Service, 1 Seaport, 6 Sea Spoons, 6 plates, 6 knives & forks, 1 set fire Irons, Basin, Taper, Censer & Basin, Looking Glass, small jug, 1 foot span, snuffers & tray.

table linen, towels & horsebrushes.

Captain Hamilton attended here on Wednesday last from 10 to 1 1/4 O'Clock and inspected the entire concerns and inmates. He recommended that the boards partition in the two Wards formerly used by the male & female children be taken down as by doing so it will afford much more air to the Wards and the timber will be useful for other purposes.

Some of the doors and door cases through the House require repairs - also some repairs are required on the weather slating. The latter work will be executed by the Contractor in a few days.

As straw is very badly wanted he would recommend that the corn be threshed as soon as possible.

He begged to lay before the Board samples of all provisions.

Ordered, A Committee consisting of Messrs. Gorman, Roberts, Brennan, Gore & Bolger to meet in the Board room on Monday Evening 3 O'Clock to take the whole report into consideration and report to the Board by this day week.

Agriculturist's Report.

That he had all the corn made into field stacks with the exception of a mere trifle. The Board will please to give directions as to having it collected together for the threshing Machine, as there is no man in the House able to pitch the stacks he will require two men for that purpose. The Plough and subsoil require repairs. 2 lbs of Iron & 3 lbs of steel and some Ash to make sets of swings.

Two boys appeared for admission who had got clothing to go out to service a fortnight ago - one consented to return - the other would not altho he could offer no just reason for leaving his master on which the Clerk was directed to write to Mr. Edward Kennedy of Corah stating that it is the wish of the Board that he summon the boy Michael Bolger for absenting himself from his service - that he Mr. Kennedy has hired and agreed to keep the boy for one year and that if he do not comply with the desire of the Board they will be compelled to force him to do it by Law.

After consideration Daniel Byrne was proposed by Mr. Bolger & seconded by Mr. Strinott.

John Cullen was proposed by Mr. Doyle and seconded by Mr. Sweetman - on which the Chairman took votes and there appeared to be

Messrs. Edward Doyle and John Duran took immediate charge of their Books to proceed with the Collection.

The List of Rates made with the areas carried into the new Books was submitted to the Board - also the sums necessary to be abated or struck off the Books by reason of Houses unoccupied at the making of last rate and of Houses thrown down or dilapidated before any rate could have been collected thereon viz.
