## Masters Report Cont'd

I beg to report a sewer opposite the front building of the W House - running across the road - from which a very offensive smell arises -

The Board will please appoint a C. & give directions as to how to have it abated -

Ordered " The Master is authorized to cut off the connection of the branch sewer in question with the main sewer "

## Agriculturists Report

I have finished cutting the oats & barley at a cost of 32/9 - that is the cost of a mower for 13 1/2 days @ 2/6. A mowing machine with hands to attend it would cost 4 times that amount; allowing 3 days to cut 14 1/2 statute acres & 16 hands each day @ 2/6 would be £ 7. 10. 0. Whereas all the corn has been tied by a few old men & women, who would be in the way of a machine. My object has been, as ever, to avoid unnecessary expense to the Farm Account.

## DISINFECTION AND VACCINATION.

Local Government Board,  
Dublin, 14th August, 1878.

Sir,—I am directed by the Local Government Board to forward herewith, for the information of the Board of Guardians of Ennisecorby Union, a copy of observations made by the Medical Officer of the Oulart Dispensary District on his Return, Form L., for the quarter ended the 30th June last, in reference to the disinfecting of clothing, &c., and the notification of the arrangements as to vaccination and re-vaccination, together with a copy of a letter which the Local Government Board have addressed to him in reply.

By order of the Board,  
B. BANKS, Secretary.COPY OF OBSERVATIONS MADE BY THE MEDICAL OFFICER OF  
THE OULART DISPENSARY DISTRICT.

With regard to the cases of small-pox reported above, I beg to draw the attention of the Local Government Board to my letter on the subject addressed to the Guardians of the Ennisecorby Union. I should like to have an opinion of the Board as to the disinfecting clothes, etc., in such cases; also, any other directions they may think proper to give in the case, or for future guidance. Also, I should like that a circular would be issued calling the attention of the people to Vaccination and re-Vaccination, as they are rather in the dark on the subjects, particularly the latter, which has never been performed in this district, and on which subject, to my knowledge, the people have never been advised.

THOMAS J. KELLY, Medical Officer.

## Copy of reply to Dr. Kelly.

Local Government Board,  
Dublin, 14th August, 1878.

Sir,—I am directed by the Local Government Board for Ireland, to acknowledge the receipt of your Return, Form L., relating to the Oulart Dispensary District for the quarter ended the 30th June last, and with regard to your inquiry as to the mode of disinfecting clothes, etc., in cases of infectious diseases, I am to state that no rules have been laid down by this Board on the subject, but they think that you should yourself be able to advise in such case according to the circumstance.

As regards the notification of the vaccination defaulters in your District, I am to state that the Board of Guardians can publish any notice they may think advisable as regards vaccination or re-vaccination in the union.

By order of the Board,  
B. BANKS, Secretary.

## RE-VACCINATION.

Local Government Board,  
Dublin, 21st August, 1878.

Sir,—With reference to a minute of the Board of Guardians of Ennisecorby Union of the 11th ult., respecting the re-vaccination of adults, I am directed by the Local Government Board for Ireland to state that a Dispensary Medical Officer is bound to vaccinate or re-vaccinate any person who may come to him for that purpose, and is entitled to be remunerated in the case of persons residing within his district. There is no distinction made as regards payment for successful cases of vaccination and cases of re-vaccination.

By order of the Board,  
B. BANKS, Secretary.

## Agriculturist's Report

I have commenced to gather in the corn for the thrashing machine while the weather is fine (as I stated on former occasions) it is of great importance to have it thrashed in dry weather not for the benefit of the grain alone but also to have the straw put together in a dry state—the corn is dry and well seasoned having been in stooks for 10 days previous to stacking and now in field stack more than a week—

By the time the corn is winnowed and fit for sale the markets will be open and the price of grain fixed.

I have written to Mr. Sharpe and received a reply stating that you can have the machine early next week weather permitting.

“Ordered” Machine allowed.

The following Letters from the Local Government Board for Ireland and others were read by the Clerk, and directions given to answer them respectively, to the following effect (on orders made on them respectively, as follows):

## Kilnyschal Pump

The local Committee having failed to attend a Meeting summoned for Monday last, Mr Martin Redmond and I have carefully considered the matter and have agreed to recommend to the Board of Guardians as follows.

That it is not necessary or advisable to bring the London Machine to Kilnyschal as from the Circumstances of the locality it is highly probable that an ample supply of Water will be obtained without much difficulty and at no great depth,

And We recommend that if Curran will amend his tender as follows. that it be accepted. that is to say to add thereto the words. "And to supply and set three Stone posts each 4 feet long 1 foot in diameter & to be set two feet <sup>in</sup> ~~under~~ <sup>and two feet over</sup> the surface of the ground, and to supply and set a proper Chiselled Stone trough three feet long two feet wide and one foot in depth

Report of Visiting Comtee. - Aug. 28. 1878

We have this day visited the Workhouse  
Infirmary and the house generally and having  
closely examined the Infirmary we found it  
well ventilated the bed clothing clean & comfortable,  
the medicines and stimulants regularly given to the  
patients through the sisters and the patients contented  
in every way with the treatment they receive,  
after very careful and lengthened examination we  
can find no foundation for the reports that  
have been circulated outside the house of  
*irregularity* on the part of the Sisters & wardmaids  
in distributing the stimulants or any other comforts  
ordered by the Doctor =

We would suggest that Iron bedsteads and  
mattresses be procured for the accident wards,  
the present bedsteads can be made available  
for other purposes in the house, and that a  
Special ward be used for clothing and Bedding  
intended for hospital purposes - We also beg  
to suggest that a wardman be given as an  
Assistant to the male idiot ward as it is  
impossible for one man to give that ward the  
necessary attention it absolutely requires,  
on visiting the House generally we found every  
department clean & well ventilated. We recommend  
that the entrance hall-way be reflagged as it  
requires it very badly -
