The Clerk's Report.

26th. October 1867. The Clerk begs to request that the Board will give him directions regarding the payment of a bill from Miss Hopkins, now much over due.

The circumstances under which the bill in question was presented are so peculiar, as to render it necessary that a Board order should be issued for its payment, as otherwise the Auditor would not sanction its being passed by the Clerk.

The Clerk has further to add that he believes the account to be correct, and that the difficulties attending its payment, are owing to some misunderstanding between the late Clerk and Master. The Bill has been before the Board on several occasions.
Collector Donohoe has not yet attended to have his books examined.

The other changes came under the head of extras (of which Bread and milk are made items) to suit each particular case.

The Reports of the Master and other Officers were read, and Orders made thereon as follows:

Master's Report.

Nov. 9th. 1867. The Master reports that he returned the sweetmilk supplied by contractor Mc. Daniel, on the 6th. inst: it being of an inferior quality. He supplied tea sugar and butter in its stead — Sanctioned.

With reference to the deficiency in the Stock of shoes the Master begs to state that there are 70 pair short of stock, and that deficiency existed before he took charge last March. when he compared the number in use, and what was in store with the Clothing Receipt Book, counting each pauper, as having a pair but on examination since then he found that about 70 paupers were wearing their own shoes wherein they were counted to him as wearing the Union shoes. He requests that the above number will be struck off the Books.

Ordered — See Clerk's report of this day on the matter.

He attended Petty Sessions on yesterday to prosecute Timothy Murphy for deserting his wife, whereby she became chargeable on the rates of the Union. He was ordered by the Magistrates to take his wife & children out of the Workhouse on the following day.

Thomas & Anne Hickey who were brought from New Ross, charged with breaking into the soiled clothes store, were yesterday brought before the Magistrates, and were discharged as they had none of the Inmates clothes on them, nor could they be prosecuted for the offence.

He also wishes to know will the Guardians allow him to get some old planks sawed for to repair some beds —

Sanctioned.

Clerk's Report.

Nov. 9th. 1867.

The Clerk reports in reference to the alleged deficiency in the Stock of Shoes that on half year ended 25th. March 1866. the late Master— Mr. Middleton took no credit to himself for shoes condemned. tho' he did for all other articles of clothing.

His making no such claim in the Clothing Receipt Book (tho he was bound to do so) left an over Stock on the Book, amounting to even more than the deficiency of 70 pair complained of. as can be ascertained by taking any number of consecutive half years. and striking an average from same.

For the two half years ended 25th. March '67. and 29th. September '67 the stock of condemned shoes was taken off by the Master together: and in consequence of the Return of the former half year having been mislaid the Master handed the Clerk a similar return received from the Shoemaker and this return the Clerk believes in the aggregate to be ample to cover any loss that might result from the fact that no credit was claimed for shoes on half year ended 25th. March 1867.

Ordered— The Auditor is requested to examine this matter and state whether he considers the explanation satisfactory.

Notice of Motion

Boardroom. Saturday
November 30th. 1867

On this day fortnight I will move that a Committee be appointed to take into consideration the Clerks Report of this date, regarding the expenses of the Union as set forth in the accounts; and to investigate the value of all property connected with the Union.

(Signed) Edward Foley

The Commissioners are requested to give their opinion on the following matter.

A man named Donohoe resided with his wife in Ballylarkin Electoral Division in this Union, for about 5 years. He then removed with his wife to the County Wicklow out of the Union, for a period exceeding 6 months immediately preceding his admission to the Workhouse

It is argued by the Guardian for Ballylarkin Elect: Division that the 6 months absence causes a break, and that therefore the man is properly a Union charge, while on the contrary a majority of the Board placed him on Ballylarkin Electoral Division.

November last on view of the Body of James Rodney I beg to transmit to the Board of Guardians through you a copy of the evidence and Verdict given at said Inquest, and I wish to add that it was not that the Jury had any reason to find fault with the administration of the Laws for the Relief of the Poor that influenced them in sending a copy of the Verdict to the Board, but in order that the Guardians might see that in consequence of the high price of provisions a man with a small family in receipt of £7/- a week may yet be in a state bordering on destitution, and with the hope that by giving publicity to the facts of this case something may be done by private individuals towards relieving the wants of the poor at the commencement of an inclement season.

The following letter from Mr. Prentice, Agent, Bank of Ireland, Gorey—

Bank of Ireland Office, Gorey,
3 Jany. 1868.

Gentlemen,

I have your favour of the 19th Ulto. and having now before me the entire correspondence, which has taken place relative to the opening of the Gorey Union A/c. with this Bank as Treasurer and bearing in mind the conversation I had with the Deputation, who did me the honor of waiting upon me, and the fact of the overdraft you required being only £850— I again bring the subject of the Interest I have charged on the balances in excess of £1000 before your notice—

As to the legality of our claim, I dispose of that at once, you are perfectly justified in charging it against the sum of £32, already at credit of the Union for Interest allowed by your former Treasurer,

The terms required by your Board were, to allow an overdraft of £850, this sum I at once agreed to give free of all interest subsequently, when four of your Board waited on me I stated that I would not be very particular, even if the amount exceeded a larger sum and at the request of Mr. Nunn, I so addressed your Board, not in so particular or so guarded a manner as it appears I ought to have done, in naming the exact amount, but I never dreamt nor did your Board even imagine that I would be called on to support entirely the Union, as I have for months been doing, and not be allowed the just and fair charge for Interest over and above the sum of £1000— on which no Interest whatever has been charged,

Surely Gentlemen you could not bring yourselves to take advantage of an unguarded expression, in my letter, I totally disclaim the rendering you put upon it, and I appeal to Mr. Nunn, and the other members of the Deputation to state if I am not correct—

On the 10th. June 1864, I wrote to your Board (see copy enclosed) regarding the Rates, being

insufficient to meet our overdraft, and the current expenses, which proved to be quite correct. As I then stated, you are I conceive bound, to strike such a rate as you suppose will meet all expenses, if it should fall short, then I am bound, to make up any deficiency required, say up to £1000 free of Interest.

In conclusion, I must add that since I became the Treasurer, I have acted towards the Union with the greatest possible liberality, and could have charged a much larger amount for Interest, than I have done, and now expect that I will be treated in the same spirit. I am Gentlemen

Your very Obedient Servant
B. M. Prentice
Agent.

Ordered. The Board to be summoned for this day fortnight to consider the letter from the Treasurer.

Copy

10 June 1864.

I understand the Guardians are about striking a rate, and that the calculations you made for amount of rate required, have been altered, and the amount reduced. I think it right to send you the enclosed memorandum, for the information of the Board, and at the same time beg to say, that though I am prepared to make the necessary advances to the Union, the Guardians should on their part strike such a rate as would keep the Union out of debt, or at least keep the overdraft confined to a reasonable amount. I am Sir &c.

B. M. Prentice.

27. Lower Mount St. Dublin.
17 Jany 1868.

To the Board of Guardians Gorey Union.

Gentlemen,

I have read the letter of Mr. Prentice to your Board in the Gorey Correspondent of last Saturday, in which he appeals to my recollection of what occurred at the interview with the Deputation from your Board, of which I was a member, and as it will not be in my power to attend at the discussion of the subject on Saturday next, I feel it just towards Mr. Prentice to state for the information of the Board, that he is in my opinion quite accurate, in his relation of the conversation that was had between him and the Deputation, as detailed in his letter above alluded to.

I have the Honor to be &c.
Lorenzo N. Nunn.

A letter from Dr. Allen coroner was read with which was enclosed the following copy of the verdict of the Coroner's Jury, at an Inquest held on the body of Bridget Coleman.

"We find that the said Bridget Coleman died at the Fever Hospital Gorey in the County of Wexford on the 8th. Day of January 1868, from Fever, and we are of opinion that it is desirable that the Medical Officers, and the Relieving Officers of the Gorey Union should suggest some better mode of conveyance for Fever Patients to the Fever Hospital than that at present in existance for their different districts.

(Signed) Edward Foley for self and fellows

Copies to be sent to the parties in question.

The Board having been summoned to consider the Treasurer's application for Interest on over drafts, the amount claimed being £16:16:11. it was unanimously resolved, that the Amount claimed by the Treasurer, be paid him, but previously to such payment being made, the Opinion and Sanction of the Commissioners is requested.

The following Letters, from the Poor Law Commissioners and others, were read by the Clerk, and directions given to answer them respectively, to the following effect, (or Orders made on them respectively, as follows):

Commissioners' Letters.

No. 1717. 24th. Janv. '68

Has reference to the Inquest on the Body of Bridget Coleman, who died in the Fever Hospital on the 8th. Inst. and requests to be furnished with a copy of the Coroner's Letter, and of the evidence taken at the Inquest.

No. 1162. 22nd. January 1868.

Refers to Captain Hamilton's Report relating to the Union, in which he states that the several departments of the House, are in good order, the food bedding and clothing are of a good quality, and order discipline and cleanliness very fairly maintained particularly so in the Infirmary.

Fair progress is stated to have been made in both Schools, and the industrial training of the boys to have improved.

Mr. Hamilton reports that there are five male lunatics and idiots, and seven female lunatics idiots and epileptics, in the Workhouse, some of whom, are stated to be dangerous, and that it is therefore desirable that the provisions of the Act 30. and 31 Vic. Cap 118. should be put into operation as

speedily as possible.

The Commissioners desire to call the Guardians attention to their Circular Letter of the 7th. Instant relative to this subject.

Mr. Hamilton states that fenders are required in at least two of the wards in which children of tender years are treated, and that where there are fenders he fears they are not sufficiently attended to. He adds that there is only one visit recorded in the Visiting Committee Book.

The Commissioners call the attention of the Guardians to Article 39 of Workhouse Rules relating to the appointment and duties of a Visiting Committee.

As regards the Workhouse Buildings Mr. Hamilton remarks that broken glass should be more promptly replaced, and that sketch traps should be substituted for some of the traps now in use.

Read.

No. 1717. 24th. January 1868.

Comments on the Labour Committee Report on the changes recommended by the Poor Law Inspector, and in reference thereto the Commissioners desire to be informed, of the number of persons belonging to the aged and infirm class, who are now in the healthy department, and they desire to state that it is customary to provide the infirm with bedsteads, shelves, facilities for washing &c. The Commissioners doubt that the coldness of the Nurseries will be remedied effectually by the proposed remedy — It is requested that the Order made if any respecting the women's dormitory and the Fever Hospital chimneys referred to in Mr. Hamilton's Report to be furnished.

Ordered — The number of infirm men sleeping sleeping with the able-bodied men is 14, with respect to the women's dormitory and the Fever Hospital Chimneys the Labour Committee are ordered to be summoned by the Clerk.

C. Pelly Esq. Poor Law Auditor attended at 10 o'clock on yesterday the 24th. inst. to audit the a/cs. of the Union, the abstracts were today signed by the Chairman.

The Auditor pointed out by a note a few cases in Relieving Officer Green's Book, from which it appeared that the Relief afforded was illegal, the relief was accordingly struck off.

as being short in Stock and appearing charged against him in the Clothing Receipt Book. I wish to state that in accordance with the request of the Guardians, I enquired into the matter and find that for several years past, it was the practice to strike off half yearly a certain number of pairs of shoes, as being unfit for further use. It however appears that this course was not pursued in the half year ended 25th. March 1865 and consequently it is reasonable to assume, that a certain number of shoes, was at that time also in a fit state to be condemned but omitted to be struck off. Taking the average stock of shoes condemned for some half years past, I think the claim made by the Master to have 70 pairs struck off the Books is a reasonable and a proper one.

(Signed) C. Kelly Auditor

Ordered – That these 70 pairs of shoes be struck off the Books

The Reports of the Master and other Officers were read, and Orders made thereon as follows:

Master's Report.

1st day
" February 1868.

The Master reports that he attended Petty Sessions On yesterday to prosecute Patrick Mordaut for neglecting to maintain his two Children, who were admitted to the Workhouse on the 25th. Inst. A warrant was issued for his arrest. Also Pat. Malone for stealing a quantity of articles out of the Schoolmaster's room. He was sentenced to one months imprisonment with hard Labour.

Bridget Kavanagh and Rose Delaney swore informations against the putative fathers of their children.

Requires five barrels of seed oats for the farm.

Four Barrels ordered.

He requires a days leave of absence — Granted.

Medical Officer's Report.

1st. Febry. 1868.

The Medical Officer relies on the good sense of the Board to support his authority in the discharge of his duties. As many of the Guardians are not aware, that the "unanimous" decision of the Board on last Saturday authorising the Pensioner Thomas Fitzgerald to wear his own clothes was in direct opposition to a written Order on the Medical Officers Books, he begs to bring the fact to their notice, and would observe that he has found the system of allowing any patient to wear his own clothes, in most cases to work very badly, it is the cause of trouble and annoyance to the Officers of the House, bickering between the privileged class and their attendants, and a constant and very natural source of jealousy amongst the patients themselves, in the Opinion of the Med. Officer the feelings of those who reduced to absolute poverty are compelled to wear the Union dress, should be equally if not more respected, and their hard lot rendered as easy as the necessary discipline of the Workhouse will allow.

Master's Report.

8th Febry 1868.

The Master reports that one of the outer doors of the Fever Hospital was blown down, and the hinges broke also a quantity of slates off the Laundry and Infirmary during the Storm of Saturday & Sunday.

The Reports of the Master and other Officers were read, and Orders made thereon as follows:

Ordered – That the Master have the door repaired at once, and call on the Contractor to repair the slating without delay.

On Monday last the Matron reported that an Assistant Nurse in the Infirmary named Cath. Doyle, cut the brands off her petticoats – She had been removed from her post.

Ordered – This case to be investigated when Cath. Fitzgerald is able to be brought before the Board.

Medical Officer's Report.

8th February 1868.

The Medical Officer reports for the information of the Board, that to satisfy himself as to the quality of the sweet-milk supplied to the Workhouse, he visited in company with the Master, two of the Dairy Farms during the week, while the Cows were being milked, and that each specimen of milk gave the same result, namely a specific gravity of 3¼ degrees warm, and 3½ ditto cold. The milk delivered at the House that morning from the same dairies, showed when cold a specific gravity of 2½ and 2 degrees respectively. It was not sour, and therefore not returned as similar milk brought to the notice of the Board on a previous occasion was not disapproved of. By adding water to known quantities of the above named specimen of milk the following results were arrived at, to reduce them to 2½ degrees, every 4 parts of milk required 2 parts of water or ½ and to bring them to 2 degrees, the lowest issued that morning, every 4 parts of milk required 5 parts of water or nearly one half.

It is no argument to say that milk of this description if sweet is not worse than that often in private use, the Inmates in the Workhouse have no option in the Matter, they are on a minimum scale of diet, and their food should be of the best quality. The Medical Officer has tested in the same way, specimens of milk obtained elsewhere, and has invariably found that at

Doctor's Report Continued.

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:

this season of the year pure sweetmilk will give a specific gravity of 3¼ degrees when warm and 2½ when cold, he would therefore recommend that in future all sweetmilk should be sent back that cannot stand this test, he is aware that other impurities may counteract this, but when detected they shall be fully reported on, Ordered — That the Doctors suggestion be carried out, and that the Master reject all milk of a less specific gravity than 3½ deg. when cold.

The following Letters, from the Poor Law Commissioners and others, were read by the Clerk, and directions given to answer them respectively, to the following effect, (or Orders made on them respectively, as follows):

The Reports of the Master and other Officers were read, and Orders made thereon as follows:

Medical Officer's Report.

29th Febry 1868.

The Medical Officer trusts that the report laid before the Board relative to the quality of the milk may not be looked upon as final.

The matter is too important to be passed over lightly, for tho the milk of a low specific gravity was obtained from one cow, it does not in his opinion as yet prove anything, as it might be argued that the accident alluded to would in itself be enough to disqualify the milk from being taken as a fair sample. But another reason for still further inquiry is imperative if a low specific gravity proves poverty of milk, then the worst cows were not brought forward, for the milk supplied by one of the Contractors and delivered in presence of the Committee at the Workhouse in the morning was many degrees below the sample obtained on the previous evening.— In justice to Naughten whose milk on both occasions was fully, and more than up to the standard laid down by the Board, the Medical Officer would recommend, that the Committee meet again, and instead of taking only a pint or half a pint of the first milk from the worst cow that the average yield of first milk from at least 4 of the worst cows belonging to each of the two other Contractors be examined and reported on.

To ensure accuracy in testing milk by the specific gravity it is necessary to float the Instruments first in water, this was not done in every instance and hence a slight discrepancy in some of the minute details of the Report.

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:

The following Letters, from the Poor Law Commissioners and others, were read by the Clerk, and directions given to answer them respectively, to the following effect, (or Orders made on them respectively, as follows):

Commissioners' Letters.

No. 4577. 21st. February 1868. Relates to a letter from Mr. O'Shaughnessy regarding the discharge of an alleged imbecile patient named Mary Jane Hamilton, and requesting the Guardians observations on the subject— the following is a copy of Mr. O'Shaughnessy's letter—

"Clonough, Inch. Gorey
17th. February 1868.

"Gentlemen, At the meeting of the Board of Guardians of the Gorey Union, on Saturday the 25th. Ultimo a girl named Mary Jane Hamilton, made application to the Board to be sent to Drogheda.

The motion was put and carried by a majority of the Guardians— I voted against the motion believing it absolutely wrong to send a young girl not of perfect mind such a distance without the protection of a friend, and also I voted against the motion believing it to be illegal (Through illness I was unable to attend at the Board from the 25th. Ultimo, till the 15th. Instant) They afterwards understood that the order they made was wrong.

and changed it, giving Mary Jane Hamilton 5/- worth of clothes on the 8th Instant — I enquired of the Master of Mary Jane Hamilton who told me he went to Dublin with her where she took epileptic fits and had to be conveyed to lodgings. She was attended by the Clergyman and Doctor. The Master came home leaving her at lodgings and has since heard she was sent to Drogheda. I called on the Master to make a written report of this, in order that the Commissioners be made acquainted with the case — The Chairman, Jas. A. Lobb Esq. objected to the Master making a written report — saying a verbal one was all that was necessary.

Now the Master may, or may not, have stated the truth, but I as a Guardian of the poor am not satisfied with his explanation.

I now lay the whole case before you, hoping you will institute an inquiry into it

I am &c.

"To The Poor Law Commissioners" "William O'Shaughnessy"

Ordered — That the Clerk be directed to write a full report of this case to the Commissioners.

Report of the Milk Committee.

The following is the Report of the Committee appointed to consider the quality of the Sweetmilk supplied to the Workhouse —

The Contractors having been duly warned to have their worst cows ready, the Committee met at the hour appointed, on Monday and proceeded to examine the first milk from each cow, at a fixed temperature of 65°, which represents warm milk as delivered at the Workhouse. To ascertain the accuracy of the Galactometer it was in each case corrected by the Ordinary Hydrometer, and the following result was obtained —

Naughten's milk which

364.

Stood at 3¼° gave a Specific gravity of 1032, Next morning at 3½° full it gave 1034,

Lacy's at 2¾° gave a Specific gravity of 1025 — next morning at nearly 3°. It gave 1026, The cow had calved four a half months previously, and shortly after had met with an accident, believed to have been a Strain on the back, to which a charge had been applied part of which was still remaining. She is again in calf in good condition, and did not appear to be suffering in the least from the accident.

McDaniel's at 3⅛° gave a Specific gravity of 1031, and next morning at 3½° gave 1033, The cow had calved three months previously, and is now three weeks in calf.

On comparing the milk delivered at the House on Tuesday morning with these samples, the Committee found that Naughter's milk at 60° registered 3½° equal to a Specific gravity of 1032, or fully up to the sample of the previous evening.

Lacy's at 53° registered the same as her sample of the previous evening, which of course makes it a still inferior quality of milk if the difference of temperature is to be taken into account.

McDaniels at 50° on delivery registered 2½° fully equal to 1023 specific gravity. In contrasting this with the specimen obtained last night, there is a difference, as recorded by the Hydrometer of 8°,

The cases of provisional relief, and applications for relief, were considered and decided on, as set forth in the Application and Report Books.

The number of provisional admissions to the Workhouse confirmed was - -

Ditto. disallowed - - - - - - -

The number of applicants admitted to the Workhouse was - - -

The number of cases of provisional Out-door relief was - - - -

the temperature being 15° lower or nearly cold, which makes nearly a degree of difference in the instrument in use.

Naughters milk being fully equal to the former standard laid down by the Board of 3½° cold according to the galactometer, it is found that by adding water in the proportion of one part to every three of his milk it was possible to reduce it to 2¾ without impairing the sweetness of the milk.

A petition from the Londonderry Board of Guardians was laid on the table.

The Commissioners are requested to inform the Board of Guardians, if they can legally place at nurse, a child named Fitzharris, aged nearly three years, whose father deserted her, without first taking steps for the apprehension of the father.

There being a vacancy for three Ex-Officio Guardians in this Union, Lord Granard and Colonel Guise are entitled by right of property in one case and residence in the other, to have their names placed on the list of Ex-Officio Guardians, pending a formal appointment on the 29th September next.
