(59) Proposed by Captain Rudgen and Seconded by Mr Buchan That the Harvest having been nearly over now that it must be expected that a large number of able bodied Labourers will immediately be demanding support and will be entitled under the new Act either in or out of the House and it appearing to Sheriff Mr to be unjust to the Rate payers unless the work House test can be applied to able bodied persons requiring assistance, it would be expedient that a Revision of the State of the Union House should be taken into consideration by a committee appointed for such purpose that means should be taken to support out of the House by Indigency or otherwise all persons Sane and Ob who under the new Act would be entitled to out door Relief, and that the body of the House would be made available as far as possible for the able bodied to whom as before it would be necessary to apply the Work House test, and that the following Committee be appointed viz Captain Rudgen Mr Robt Eyedale Thos Buchan Jas Galavan Victor a Faible Esqrs

and that they do meet this day week at 10 Clock The sub committee appointed at the last Board of Guardians to consider the propriety of sending a Memorial to Government with respect to the many rates about to be levied on the different districts of the New Rose Union The Committee met this 22nd of September 1847

Thos Buchan Esq Chairman
2 Present Mr Robt Barron
1 Captain Rudgen and
3 James Galavan Esq

The above members having before them a circular Number 39 Finance 16th Sept 47 are of Opinion that the substance of the Treasury Instruction contained therein are satisfactory in as much as the Rate to be collected is not required to be repaid to Government on account of the late Loan but is to be applied for the Maintenance of the destitute poor of the Union and expenses of the House and also as many Opinions that large funds will be required for the support of the Poor Chargable under the New Act they therefor think that notwithstanding the impoverished state of the different districts of the Union generally and the large outstanding debts and to near £4000 and the new Charge of the Company Fever Hospital having at present 166 Patients and at a weekly cost of about £40 - and in addition 7 other Great Fever Hospitals which will materially increase the difficulties under which we labour, yet that a Memorial would at the present be of no avail that the Finance Sub committee think it is expedient and recommend that the Rate now struck should be forthwith collected for the exigencies of the Union Workhouse

The committee are also bound to express their Opinion that the Rates now about to be levied will not be adequate to support of the Poor and the expenses of the House for the ensuing six months passed unanimously.

~~Wexford~~

Septem 29 1847 The Sub committee ~~appointed by the~~ Guardians New Ross union on Wednesday last, pursuant to a Resolution entered on the Minutes Book to take into consideration the state of the inmates of the union House, with a view to provide ~~support~~ out of the House as far ~~as for~~ as possible all old and infirm persons & widows not presently occupying the union House, and thereby by using the the application of the Workhouse ~~but~~ in all cases of application of able bodied paupers for relief belonging to the union, under the late Act

present Mr Galanon
Mr Farrell
Captain Rudgen

you Sub committee are strongly impressed with the onerous duties devolving on Board of guardians in carrying out the provisions of the late act both as regards the protection of the Rate payers from burdens too heavy to be born and at the same time to administer the Law entitling every destitute person to relief with charity and discretion and to those only actually in want and they are of opinion that as has been provided in various cases in other unions that the Workhouse test should be applied to able bodied persons seeing Relief as thereby the more efficient mens of detecting imposition and preventing a system of abuse instanced by the late various Relief committees which no Care on their part could wholy prevent

You committee are therefore of opinion that to carry out this principle it is expedient and necessary. That the union House should be immediately placed in a state as to as to

Copyright: Wexford County Archive

allow of the admission of all able Bodied applicants and to discourage all expectation that out door Relief will be afforded to any person able to work

And the means you Sub committee recommend for the application of this principle would appear to be obvious and not difficult to organization that by County a list to be prepared by the Master of all persons now in the House under age & infirmity to gain a living such persons to be excluded from the House and that extra accommodation by hiring a sufficient quantity of Lodging accommodation to be taken by the Board of Guardians for the classes contemplated under the old Impotent poor Laws and bye laws. Your committee are of opinion that unless this or some other means are adopted to carry out the principles of the Work House test to its fullest extent. That applicants for Relief to be generally throughout the Union only to an extent not less than obtained during the Relief Provisions of last year and that to avoid universal pauperage among the Rate payers no Relief to able Bodied except in the most extreme case should be allowed by the Guardians

Resolved That the foregoing Report be received and adopted That the Committee be requested to continue their services and to inquire as to report to this Board of a house to be used as an additional work to the Work House can be obtained in the town of New Ross and on what terms, the Committee to meet on Monday the 4th January at 12 o'clock precisely unanimously

Meeting of the visiting Committee 6 Oct 1847

The absence of a visiting Committee during some months caused by the alarming prevalence of fever among the inmates of the House were to such an extent as to de=prive the Guardians of the use of their own Board Room and the consequence absence of supervision on their part may perhaps be justly pleaded as some excuse by the Master & Matron for relax=ation of discipline The Master & Matron not being supplied by the presence and moral weight of the Governing Powers and left to themselves in a Junction of difficulty and personal risque with an overcrowded House ought to have some forbearance shown them altho insuf=ficient to exonerate them entirely from Mr Burke the Commissioners censure as to the state of the House

The reappointment of a visiting Committee under such circumstances armed with sufficient power to correct such abuses and irregularity as has crept in and to establish a more systema=tic organization has appeared advisable in the judgement of the Guardians and your visiting Committee so appointed on assuming their duties are aware that a serious task has been devolved upon them and that to create a permanent reform and to confirm a new perfect system in the management of the House and in the real profitable & industrial employment of the Inmates (so likely to be vastly increased by the influx of able bodied paupers during the coming winter) is of paramount importance and will require a devotion of much time and un remitting attention on their part

They are of Opinion that any reform to be permanent must be gradual and can only be carried out by a strict adherence by the Master and Matron to the Rules and Regulations of the House, and by their strict enforcement of discipline throughout each department & which they remark is more especially the duty of the Master who must remember that he possesses and ought to exercise a controlling power over all and without which he is incompetent to hold his situation

The Committee propose the following objects as within their power

1st The Establishment of regularity & system among the Officers of the House

2nd The enforcement of a strict discipline among the Inmates

3rd The moderate but constant industrial employment among the able bodied adults of both sexes within the House

4th The observance of better regulations and enforcement of habits of tidyness and cleanliness of clothes and person in the boys School, and the training them up to such useful works as are suited to their age and which may be advantageous to them in after life especially in instructing them in agriculture and more especially Gardening, and that if no person competent can be found in the house that a Gardener should be occasionally hired to afford the necessary instruction

The girls school being in a very satisfactory state and creditable to the Mistress need not be adverted to further at present.

Copyright: Wexford County Archive

Method of acting

To recommend that each member of the visiting committee be requested individually to inspect the house as often as his time and convenience will admit of

That a general meeting of the visiting committee shall take place fortnightly at the Board room on days to be fixed by themselves

To consult on the progress made in carrying out the desired reform and to address on the best methods of organization a more proper and systematic arrangement both in the house and in the profitable culture of its Grounds and all other matters coming within their province

Out door Accommodation

Your committee are also charged with the office of inspecting and reporting on such houses or Buildings as they deem fit to be had for the enlargement of Poor House accommodation

In the performance of this duty and after enquiry made they recommend (as the most eligible) to the consideration of the Board of Guardians the Market House at Ross now unoccupied

The Building affords several facilities is in a healthy detached situation is inclosed within a wall and Iron gates has a dwelling house attached capable of being appropriated to a Superintendant and officer

Copyright: Wexford County Archive

And your Committee are of opinion that the premises surrounding it are capable of being constructed into lodgings appartments from time to time as they may be wanted for the reception of several hundred persons and that this may be effected at a moderate cost

Should the Board of Guardians entertain this proposition your Committee recommend that the Medical Officer of the District be requested to visit the locality and report thereon to the Board and also that a Competent Surveyor or Builder be employed to make an estimate of the expense required to prepare from time to time and as wanted portions of the Building for the reception of this class of paupers now burdening the House and rendering the application of Workhouse test (on an extended scale as probably will be required) impracticable

It would also appear probable that as the premises are unoccupied and returning no profit that Mr. Tottenham the Landlord would be induced to lease them on reasonable terms in consideration of his own interest being concerned, and the increased value by the improvement contemplated

Copyright: Wexford County Archive

Should these propositions or any of them meet the assent of the Board of Guardians your Committee require their authority for carrying them out

It was proposed by the Right Honorable Mr Dight and seconded by Edward M Chapman Esq That the foregoing Report be received and adopted and entered on the Minutes and that the visiting Committee are authorised by the Board of Guardians to treat with Mr Tottenham for the hire of the Market House

Passed unanimously

Board by the outdoor relief system
the Board have been obliged to
sit for 14 hours viz. from 12 O'Clock
on the 8th. to 2 O'Clock on the 9th. Inst.
and during part of
concourse of persons who were clamorous
for relief many of them in the last stage
of exhaustion waiting all night at the
Workhouse doors they felt constrained
to adjourn their proceedings till eleven
O'Clock when many Guardians of the
Board had to travel a distance of 13
or 14 miles in torrents of rain that through
the Commissioners be requested to invite
applications in Slaney Committee
approved in the different electoral
Divisions and hear the claims of the
parties claiming relief there investigate
and thereby facilitate the proceedings of
this Board

~~The Report of the Visiting Committee was read, and Orders were made thereon~~ as follows:

The Master stated that the Market House is dangerous from the test coming through the wall and that a Shower would do outside the test on which he was desired to know what compensation the person would want in whose land it is to be done

2

The Reports of the Master and other Officers were read, and Orders made thereon, as follows: The Report of the Medical Officer stated that on this day there are 1500 persons in the Workhouse viz 128 in the Fever Hospital 92 in the College and 120 in the Market house having 1160 in the House itself being 260 beyond the Number which it is intended to accommodate

At a time when fever is so prevalent and when dysentery is again beginning to make its appearance the danger to the health and lives of the inmates from over crowding the House may be inferred from what has already occurred in other large Houses where a similar cause has been pursued

1 On the Masters Report Clothing was ordered 26 doz of Socks 300 pair of Blankets 600 yds of Shandrag 400 yds of Flannell 400 yards of Frize 300 Rugs 4300 yds of Linen 200 yds of Long cloth 2000 yds of Red ticken 300 doz of Cloth 20 Dozen of Shawls 200 yds of Barragon

3 The Master also stated that the House is over crowded that even with the accommodation of the Market House which would be useless if the House was properly thinned

Rev George Murphy for Dunbrody Fever Hospital £35 10 0

Rev Martin Doyle for Fever Hospital £ 0

The Reports of the Master and other Officers were read, and Orders made thereon as follows: The Medical Officers Report was read stating with reference to the proposed restriction of the number of inmates to be maintained in the Workhouse I beg leave to suggest the propriety of providing a larger day room for the infant children. There are at present about 70 infants in the House being double the number which the House is calculated to accommodate with safety. The overcrowded state of this apartment must tend to generate disease amongst the infant children and by slowly deteriorating their health render them liable to fall victims to any serious disease with which they may be attacked

The additional building taken by the Guardians and in course of being fitted up will accommodate safely 400 persons and the college another building in the possession of the Guardians and which has been for some time empty is capable of containing 60

The permanent Fever hospital affords space for 84 patients and the sheds erected in connection with it are capable of containing 52 the whole together affording accommodation for 136 Fever cases

It will thus be seen that the Workhouse with its

At an adjourned Meeting of the Board of Guardians of the North Dublin Union held 13th January 1848.

James Galavan Esqr. Chairman,
other Guardians present,
Laurence Galavan,
Henry Williams,

A communication from the Poor Law Commissioners of 4th Inst. was read stating that a report was read from the Medical officer of the Workhouse, from which it appears that the Guardians cannot with safety receive into the Workhouse and additional Buildings occupied by the Guardians - more than 1500 of those Several persons entitled to out door relief having left the House, thereby reducing the numbers, but still not to any great extent, and crowds of able bodied persons assembling at the Workhouse on board days that could not be admitted, The Guardians deem it requisite to apply to the Poor Law Commissioners for an order authorizing them to extend out door relief,

The number of applicants for out door Relief was disposed of from the 6th of Oct 1848 to Nov into Consideration

The number of applicants admitted into the Workhouse was 21,

The Bonds and other securities in force were laid before the Guardians by the Clerk, together with his Report thereon, as follows: (this on the second Meeting after the Annual Election in every year.)

It was Reported by Messrs Mich Breen & Thomas Doyle two Guardians that the Electoral Division of Ballinlig is more than six miles by the most direct road from the Workhouse and the Board of Guardians may apply to the P. Law Commissioners to alter them to form a Committee under the 21st Section of the Poor Law Extension Act to examine into the applications for Relief for that Division

A discussion having arisen as to the power invested in the Guardians as to decide upon the cases that may come before them when formed into districts Committees they beg to know if the persons on which they decide are obliged to appear before the Board or the next Board by & if so it will cause great inconvenience but the Relief Office to have them sanctioned by the Chairman
