The Clerk reported that Mr Hamilton Poor Law Inspector directed him to bring under the notice of the Guardians the great want of Steps in the Yards throughout the whole Establishment, that the floor in the female Lunatic Ward is much in want of Repair that the Entire Lunatic Wash House and Poor Hospital require Painting and that the Meat supplied for the use of the Inmates is of a very inferior Quality

The following Report was read

I am sorry to have to remark that no Systematic Course of Cropping of a Scientific Character seems to have yet been carried out in the Farm Attached to this Establishment and also that the Pupils are not sufficient in Agricultural Knowledge, as the Agriculturist however has been very recently appointed I would be slow to pronounce harshly towards him upon the blame rests in this State of affairs, I have now pointed out the Course of Cropping which I think will be most judicious to pursue and I shall expect on my next visit to find that the Crops are at least one half be made to Carry out this Operation, I shall also expect that the Proficiency of the Pupils in Agricultural Knowledge will be satisfactory

Report of the Committee appointed to Inquire into the Weaving department

Messrs Cherry Jeffares and Power attends at the Workhouse on Thursday August 30th and after some enquiries adjourned to Tuesday Sept 4th when the undersigned Members attended. It will be in the recollection of the Board that when an account of the work done in the Weavers Shop up to last May was produced there appeared to be a Loss to the Union of £19 The Master weaver states that in that account he was not allowed the value of the articles manufactured and also that a large quantity of the material given to him was not included

The Committee then demanded from him an account of the work done since 25 March last and the price that a weaver outside the house would charge for doing it Here is the account.

Ticken	203 yards	piece of weaving	3½ ₰ yard	£2 19 4½
Flannel	178 do	do	2½ "	1 6 8
Shawls	0	do	5 ₰ each	1 13 4
Chambray	123 yards	do	3 ₰ yard	1 10 9
Ticken loom to be finished Sept 5 next Friday	80 yards	do	3½ ₰ yard	1 3 4
		Value of work done		8 13 3½
Master Weavers wages	for time since 23 weeks	@ 12/6		14 7 6
		Apparent Loss		5 14 2½

The Master weaver states that a considerable profit could be made if he were supplied with proper materials the cloth may last he applies for a quantity of yarns of which a sample is enclosed that he was informed by the Master that the Board ordered these goods to be advertised for but that he has got none of them since. He states that on that occasion when handing in a list of the articles required to the Clerks that Officer told him the Guardians did not want any profit from the weaving the only wanted industry. He claims credit for two boys who left the Workhouse one Samuel Richardson on 1st April and the other Robert Dalton on 2nd June who are now earning their Bread by the trade of weaving. He also says that the boys he has now are all small the eldest under 14 years of age except one who is about to leave the House to work at the

Weaving trade

We handed your Committee a Statement shewing the profits that could be made on certain goods if he were supplied with right Materials which Statement accompanies this report

Your Committee are of opinion that in addition to learning the boys a trade the Weaving Shop should leave a profit and that it would do so if properly attended to The recommend the Board to purchase the articles required by the Weaver to appoint a Committee who will promise to visit the weavers Shop & see that the work is properly done and report on it from time to time to the Board
