In reference to letter 6215 the Place of Myrse was filled temporarily and that the Miss as well as the Shoemaker have resumed their duties

In reference to letter 6763 the Board is of opinion that circumstances as the Islands separated from the Kilkenny and Carlow Parts by a large River preventing communication with the Wexford Part except by means of Ferries at the distance of 5 or 6 miles and that no arrangement providing a less number of Medical Districts with adequate assistance to the Poor and that no other distribution under the circumstances can be effected, with respect to Roes the Population and Valuation not being confined to them alone entitles it to be a Separate District. The Power also from its Position with respect to Rivers cannot well be attached to any other District

The Board proceed to the appointment of a Revising Valuator

The following Report on the Chaplain's Book was read viz"

Two Women named Mary & Leyer and Ellen Ryan who lately left the Church of Rome and became members of the United Church of England and Ireland were on Friday the 27th Ultimo engaged in the Laundry when the Revd Mr Walsh Roman Catholic Chaplain entered it and insisted that the two Hypocrites should be sent out of it unless they by Poverty were compelled before Sunday doing that there was no place fit for them but a dark Corner and that he would not allow what might be called Catholics to remain with them

Now such Conduct from such an Officer is well calculated to bring upon these Poor Women the Persecution and hostility of their fellow Paupers if not to endanger their lives. I respectfully call upon the Board to afford the most ample Protection to all Parties who may in Religious matters follow the dictates of their Consciences and not suffer them to be Hunted at or branded with offensive epithets by any

10th March 1859 According to the advertisement issued for the Printing and the supply of all the Books and forms for the Union and tenders to be received on this day and for that tenders should be lodged in the Tender Box before 11 O'clock on this day, it was found that the only tender in the Box was from Mr. Greene at 2½ per Cent under Mr. Thomas Price, the Guardians therefore accepted it. It was found afterwards that a sealed letter addressed to the Chairman of the Board of Guardians Rosslare was laid before the Board which on being opened was found to contain an offer from Mr. Thomas Chairman of Kilkenny with a tender at five per Cent under Mr. Thomas Price. The Clerk states that this letter was received before 11 O'clock this Morning and if the word Tender had been marked on the outside, it would have been placed in the Tender Box, in which case it would probably have been accepted in preference to Mr. Greene's under these circumstances the Board with a view to do justice to themselves and Mess Greene and Chairman might the Clerk to advertise for fresh tenders on this day fortnight in the same manner as before and reserving their acceptance of Mr Greene's tender.

31 March 1852 Board of Guardians of the Thomastown Union

Resolved that advertisements be issued for a Schoolmaster at thirty five Pounds p annum Election to take Place on this day fortnight

Proposed by Mr Wrenchman seconded by Mr Geoghegan

In reference to letter No 16688. That under Section 15 of the Clerk duties he appears to be only called on to assist in making out Rate Books that the sum of fifteen Pounds may be voted to him to provide the necessary assistance to enable him to make out the Rate Books in as short a time as possible to get the Union out of its present difficulty. the Guardians would therefore look on the matter as a breach of faith if not allowed to pay him and they therefore beg the Commissioners will assist the Board in their endeavours to get relief of their present embarrassments by having a Rate made at once and sanction the above sum to the Clerk either in the above shape or whatever way they may think fit

the State of the Union Funds are such being about £2500 in debt and no more of the last Rate till July to be collected that the most prompt measures are necessary to be taken and the Board therefore request with the least possible delay the Sanction

11 August 1852 of £63:16:1 — It has likewise appeared that Eight Gallons of Buttermilk per day has been stopped for four months from the Infant School and eight Gallons per day for seven months from the Male School amounting to £33. Shewing a loss in these Items of £130:12:1½

They have further to report that in order to detect and be thoroughly convinced of some of the existing abuses connected with their Inquiry. They visited the Infirmary and found a Girl Hannah Mary Tobin who was receiving extra Rations tho' not on the Doctors Diet Book and having inquired of the Matron or Nurse on what principle the extra Rations diet was ordered. She states that on her own responsibility altered the diet and extras at her pleasure. They next Questioned one of the Pauper Nurses who states that the Doctor on going through the several wards gave verbal instructions to the different Pauper Nurses for altering the diets and extras and that they the Nurses report the same to a Pauper Boy in the Medical Dispensary or Surgery and that he issued the orders to the Storekeeper accordingly. They then examined the Doctors Infirmary Diet Book and found that the following Persons were Charged for on that Book though dead for some days and that their extra Rations and Extras were drawn for them viz.

The following Statement of the Master was read

Workhouse 11 August 1852

In reference to the report of the Committee on the Stock of Provisions I beg to state that on Saturday the 31st July last Stock Stock and found there was a deficiency between the Stock of Provisions in Store and the quantity appearing by the Provision Check of 14 Cwt Oatmeal 301b White and 903b Brown Bread which deficiency occurred by giving out Extra food that was not Charged when there was a Passage on the House about 4 months back

I have also to state that a deduction was made for several weeks of the difference in weight between fresh and Stale Bread and the quantity of waste in Cutting up (about 20lb a day) together with the quantity destroyed by Mice This practice was discontinued as soon as the Board made an order to that effect

As to deductions on account of admissions and discharges I have to state that I made deductions in the Provision Check account each week which the Committee have overlooked. This together with the fact that for a long time the greater number of Paupers discharged and Many of those admitted got Full Rations and also taking into account the large quantity of Provisions given by order of the Board to Travelling Paupers &c &c to send them to their own Wards and which were not Charged while I am sure the Committee will allow ample deductions

I have also to state that I did not stop any Buttermilk from Children as stated in the Report but during the winter months it was found that many of the same Children could not use the quantity of Milk allowed them and sooner than have it go to waste it was either returned to the House or not

taken out and the deductions over 2900 pints have been made in the Provision Check for any that may be returned or not taken out

In Conclusion I hope the Board will consider from this explanation that the Union has sustained no actual loss through me

(signed) Martin J. Hogan
Master of Workhouse

The following Statement of the Medical Officer was read

With reference to the report of the Committee appointed to inquire into the general management of the House read before the Board on this day fortnight, Any whiskey Porter &c was without my direction and knowledge I generally give my orders to the Paid Nurses however in a few instances during her temporary absence I have to give them to Pauper Nurses

With regard to the names of some patients remaining on the sick Book after being discharged in the weekly returns, I cannot account for as I have been always careful to see that the Books were kept regularly however in looking over the Books I find I may have passed with severe sickness in the house at the time - If the Committee will give me some direction whereby a recurrence of such apparent irregularities may be avoided I will feel obliged
