SPECIFICATION FOR KEEPING ROADS IN REPAIR, BY CONTRACT FOR YEARS.

IMMEDIATELY after the Contract shall have been perfected, the Contractor must proceed to render the drainage complete, so that no water lodge on or near the road, at any time, by scouring the drains, pipes, water tables, and outlets, &c. Should any additional bridges, or pipes, or any repairs on those existing, be required, the Contractor, after pointing out the necessity for such to the County Surveyor or his Assistant, and getting permission from him, may bring in an application for them at Presentment Sessions in the first year after entering into the contract.

The water tables and existing fences at each side are to be brought to, and permanently preserved at the same level; to be parallel to the centre line of the roadway, and the former to have an efficient fall. The road surface is to be made uniformly convex in its cross section, having a gradual smooth and unbroken slope, free from grass or weeds, from the centre to the water tables, of one inch and a quarter to the yard, and so preserved; and is by darning, &c., to be kept, in all parts and at all times smooth, hard, and free from ruts, large stones, and mud, which last must be scraped off and laid by, off the carriage way in heaps.

Should any part of the road be found, upon examination at any time, to have an insufficient depth of crust, the Contractor should coat such part with stone, broken so as to pass freely in every way through a two inch ring, to supply the deficiency. Upon getting permission, where good gravel can be readily procured, it may be used instead of stone, but in no case without the consent of the County Surveyor; no stone in such being larger than a medium-sized wall-nut.

The depths of crust that may usually be considered as requisite for the different classes of roads are as follows:—

FIRST CLASS, VIZ:

For all New Roads, Post Roads, and those on which there is a very heavy traffic.—An uniform depth of consolidated metalling, eight inches in the centre, and six at the sides.

SECOND CLASS, VIZ:

Leading Roads of minor importance, upon which the traffic is comparatively partial.—Six inches in the centre, and four at the sides.

THIRD CLASS, VIZ:

Important Branch Roads, viz.:—Four inches in the centre, and three at the sides.

These depths will not, however, be in all cases necessarily adhered to. The County Surveyor shall have the power to vary them as circumstances may require. But such depths must be invariably maintained as will be sufficiently strong to sustain the traffic and preserve a smooth good road.

The stones must be the best that can be procured within one mile of any part of the contract road, and further, if considered necessary. They should be spread during the winter and wet seasons, so as to obviate, as much as possible, the necessity for doing so in dry weather; when if it should become necessary to put them on, the surface should be loosened with a pick previously, to assist in consolidating and keeping them together. They must not be scattered loosely over the roads; they must be laid on closely, and in nearly squared patches, and none larger than the size specified should be allowed to remain in the surface; all such appearing must be picked out and replaced with small ones. Indiscriminate picking will not be permitted. In the cases of rough roads, certain distances to be prescribed and laid out by the County Surveyor, or his Assistant must be thoroughly picked in each half-year.

All pipes and arches, not exceeding three feet span, together with all parapets, range walls, and footpaths, are to be kept in repair. No nuisance of any description whatever to be permitted.

Should any change be made in the line contracted for, or any hill cut, or hollow filled, the Grand Jury shall have the power to discontinue the repairs of the old road, and apply them to the new at the contract price per perch, but the Contractor may apply at Presentment Sessions during the year after the certifying of the Presentment, for any additional amount that may be necessary to enable him to keep the new part in repair for the first year.

—cubical yards of the best stone to be procured in the quarries of— are to be spread on this road within each year, having been previously measured and approved of. They must be prepared, laid in depots, which should be filled, or in convenient places on the sides of the road, completely clear of the carriage way, and so as not to interfere with the water table, made up in regularly squared or oblong heaps of any convenient lengths, but having a width of 3 feet and height of 18 inches.

This quantity, so prepared and arranged, must be ready for measurement on or before the 1st day of August, and spread on the road by the 1st of March following; and it is to be annually, so expended in strengthening and improving the formation of the carriage way.

In addition to the specified annual quantity, such extra supply of stone must be provided as may be required to fulfil the conditions of this specification for maintaining the surface in good order continually during the whole term of the contract.

There will be but one measurement in each year, and that will be made during the first fortnight of August by the County Surveyor's assistant, who will do so accompanied by the Contractor, to whom he will give notice of inspection, and who must attend with him for the purpose, provided with a copy of this Specification, a pick and shovel. Should the Contractor fail to have the specified quantity prepared, or to attend as hereinbefore described, he will not be entitled to a certificate for payment, and the quantity he may have prepared shall become the property of the public, to be used for the benefit of this road in such manner as the County Surveyor shall direct.

Should any fraud in making up the heaps of stones for measurement be detected, or should any of the stones be removed to another road, or disposed of in any way other than for the repair of this road, not only will the certificate be refused, but the Contractor will be prosecuted, his contract forfeited, and all claim on his part to any part of the material that may have been prepared, or to any compensation whatsoever, shall cease.

No stones to be broken or laid on the road but for the purpose of being spread, and no heaps to remain on during the night. All mud scraped off to be taken away as soon as it shall have become dry enough for removal, and used for repairing fences, for filling gries, &c., according to the County Surveyor's directions. All loose and scattered stones should be removed from the road in dry weather. Cut weeds before they shed seeds; trees, &c, between 30th September and 31st March.

Where any contract passes through a street, the footpaths, channels, and paving must be preserved in good condition, and every particular care taken to prevent nuisance.

The County Surveyor shall have the power to alter any part of this Specification, to suit circumstances, as he may think desirable, but no deviation from it will be permitted without his consent.

No certificate will, in any case, be given where the Contractor has not complied with the terms of this Specification, nor will it be granted unless the road has been kept in repair from the time of entering into the contract up to the time of applying for payment. Should the certificate be at any time refused, the Grand Jury shall have the option to annul this contract, and make a fresh one with another contractor.

Should any misunderstanding arise as to the meaning of the foregoing, or any part of it, or as to whether the Contractor has performed his contract, the opinion of the County Surveyor shall be final.

JAMES B. FARRELL, County Surveyor for Wexford.

REPORT OF THE INDUSTRIAL SCHOOL COMMITTEE.

Your Committee since the last Assizes have used their best exertions to carry out the instructions of the last Grand Jury, they have found it impracticable to examine each individual case closely, but have come to the conclusion that in most of those cases where children have been committed to the Industrial Schools whose parents or guardians were in a position to support them, this took place at the outset of the system, and therefore that the term of detention of such children have either actually expired, or are so close to expiration that interference would not be of any practical use.

Your Committee, however, recommend that the Secretary be directed to report to the Inspector of Industrial Schools the names of the following children, as being those whose parents are in a position to contribute towards their maintenance, and to take the necessary steps to have such parents compelled accordingly:—

We believe that the adherence to the system laid down by the Grand Jury at Spring Assizes, 1874, and after renewed discussion, ratified by the Grand Jury at Summer Assizes, 1874, the only practicable method whereby the taxation on the County in this half year, £570 7s., being applied for, can be reduced within reasonable dimensions, while at the same time the County is not deprived of the undoubted advantages arising from the Industrial Schools Act, when used with discretion.

It appearing that the support of boys in Artane and the other schools for boys cannot be provided for without a subscription of 2s. 6d. per week by the Grand Jury, we recommend that they be allowed that sum for the limited number sanctioned by the Grand Jury.

We feel that notwithstanding the representations made in the letters to the Foreman from St. Michael's and St. Aidan's Schools, the circumstances of which have been fully considered by the two previous Grand Juries, we must again express our resolution to adhere to the system and scale laid down by those two Grand Juries.

It appearing that St. Aidan's school have charged for six children admitted during last year contrary to the regulations of the Grand Jury, which provides that only two should become chargeable on the cess till the limited number fixed by the Grand Jury should be reached, and that in like manner one child more than the proper number was charged for by St. Michael's, we recommend that no payment be made in respect of the said five children.

We recommend that in future the Grand Jury do not consider any applications for payment which are not made up according to the regulations of the Grand Jury, and the Secretary should notify this to the schools, and also particularly call their attention to the regulation of the Grand Jury that accounts are to be made up to July 1, and January 1.

Ordered—That the Presenting Road Sessions, previous to Summer Assizes, 1875, be held at the following places and times:—

COUNTY OF WEXFORD.

A SCHEDULE
OF
APPLICATIONS
FOR
PRESENTMENTS,

LODGED WITH
THE SECRETARY TO THE GRAND JURY,
PREVIOUS TO
SUMMER ASSIZES, 1875.

Wexford:

PRINTED AT "THE INDEPENDENT" OFFICE

SUMMER ASSIZES, 1875.

A SCHEDULE OF APPLICATIONS FOR PRESENTMENTS ON THE COUNTY AT LARGE.

At a Special Presenting Road Sessions held at Wexford, for the County at Large, on the 19th of May, 1875, and adjourned to the 5th June, the undermentioned Magistrates and Cesspayers presided:—

E. S. FLOOD, Esq., Chairman.

Magistrates—J. H. Boxwell, and W. A. Caulfield, Esqrs.

Cesspayers—James E. Meyler, Charles Lett, J. S. Atkins, John Walsh.

At the Adjourned Sessions there presided—

Major HUSON, Chairman.

Cesspayer—John Walsh.

Resolved—"That we, the Magistrates and Cesspayers of County at Large Presenting Sessions, request the Grand Jury to inquire into the expenditure of our County Gaol, County Infirmary, and Lunatic Asylum. We have reason to believe persons are admitted to the County Lunatic Asylum who have means and yearly incomes, and, therefore should not be unjustly charged to the County Cess. We earnestly ask the Grand Jury at next Assizes to make all necessary inquiry into the general expenditure, salaries of officers, and otherwise, of those Institutions, with a view to lighten the increasing taxation on the Cesspayers of this County."

19th May, 1875.

E. S. FLOOD, Chairman.

Resolved—"That we, the Magistrates and Cesspayers of the County at Large Presenting Sessions consider the Industrial Schools of this County deserve all the support that can be extended to them. We believe the moral and industrial training of those Institutions are not only a preventative from vice—and the filling of our Gaols and Workhouses with profligate characters—but also effects a very considerable saving of County rates. We are, therefore, of opinion that there should be no limit to the number of admissions under this Act, except the discretion of the presiding Justices; and that the sum of 2s. 6d. per week for each child should be allowed by the Grand Jury to supplement the Government grant for that very laudable object."

19th May, 1875.

E. S. FLOOD, Chairman.

A SCHEDULE OF APPLICATIONS FOR PRESENTMENTS

ON THE

BARONY OF FORTH.

At a Special Presenting Road Sessions held at Wexford, for the Barony of Forth, on the 19th of May, 1875, and adjourned to the 5th May, 1875, the undermentioned Magistrates and Cesspayers presided:—

JOHN H. RICHARDS, Esq., Chairman.

Magistrate—William A. Caulfield, Esq.

Cesspayers—John Walsh (Co.), William Day, William Lambert, Wm.

Murphy, John Nowlan, Robert Rowe, Nicholas Roche,

Patrick Keating, and Robert Whitty.

At the Adjourned Sessions there presided—

Major HUSON, Chairman.

Cesspayers—John Walsh and William Day.

Resolved—"That we, the Magistrates and Cesspayers of the Barony of Forth Presenting Sessions consider the Industrial Schools of this County deserve all the support that can be extended to them. We believe the moral and industrial training of those Institutions are not only a preventative from vice—and the filling of our Workhouses and Gaols with profligate characters—but also effects a very considerable saving of County rates. We are, therefore, of opinion that there should be no limit to the number of young females eligible under the law for detention in those schools, and that the sum of 2s. 6d. per week for each child be allowed by the Grand Jury to supplement the Government grant for that very laudable object."

19th May, 1875.

H. BOXWELL, Chairman.

Resolved—"That we, the Magistrates and Cesspayers of Forth Presenting Sessions request the Grand Jury to inquire into the expenditure of our County Gaol, County Infirmary, and Lunatic Asylum. We have reason to believe persons are admitted to the County Asylum as sworn paupers, who have means and yearly incomes, and, consequently, should not be unjustly charged to the County Cess. We earnestly ask the Grand Jury at next Assizes to make all necessary inquiry into the general expenditure, salaries of officers, and otherwise, of those Institutions, with a view to lighten the increasing taxation on the Cesspayers of this County."

19th May, 1875.

H. BOXWELL, Chairman.

SPECIFICATION FOR KEEPING ROADS IN REPAIR, BY CONTRACT FOR YEARS.

IMMEDIATELY after the Contract shall have been perfected, the Contractor must proceed to render the drainage complete, so that no water lodge on or near the road, at any time, by scouring the drains, pipes, water tables, and outlets, &c. Should any additional bridges, or pipes, or any repairs on those existing, be required, the Contractor, after pointing out the necessity for such to the County Surveyor or his Assistant, and getting permission from him, may bring in an application for them at Presentment Sessions in the first year after entering into the contract.

The water tables and existing fences at each side are to be brought to, and permanently preserved at the same level; to be parallel to the centre line of the roadway, and the former to have an efficient fall. The road surface is to be made uniformly convex in its cross section, having a gradual smooth and unbroken slope, free from grass or weeds, from the centre to the water tables, of one inch and a quarter to the yard, and so preserved; and is by darning, &c., to be kept, in all parts and at all times smooth, hard, and free from ruts, large stones, and mud, which last must be scraped off and laid by, off the carriage way in heaps.

Should any part of the road be found, upon examination at any time, to have an insufficient depth of crust, the Contractor should coat such part with stone, broken so as to pass freely in every way through a two inch ring, to supply the deficiency. Upon getting permission, where good gravel can be readily procured, it may be used instead of stone, but in no case without the consent of the County Surveyor; no stone in such being larger than a medium-sized wall-nut.

The depths of crust that may usually be considered as requisite for the different classes of roads are as follows:—

FIRST CLASS, VIZ:

For all New Roads, Post Roads, and those on which there is a very heavy traffic.—An uniform depth of consolidated metalling, eight inches in the centre, and six at the sides.

SECOND CLASS, VIZ:

Leading Roads of minor importance, upon which the traffic is comparatively partial.—Six inches in the centre, and four at the sides.

THIRD CLASS, VIZ:

Important Branch Roads, viz.:—Four inches in the centre, and three at the sides.

These depths will not, however, be in all cases necessarily adhered to. The County Surveyor shall have the power to vary them as circumstances may require. But such depths must be invariably maintained as will be sufficiently strong to sustain the traffic and preserve a smooth good road.

The stones must be the best that can be procured within one mile of any part of the contract road, and further, if considered necessary. They should be spread during the winter and wet seasons, so as to obviate, as much as possible, the necessity for doing

so in dry weather; when if it should become necessary to put them on, the surface should be loosened with a pick previously, to assist in consolidating and keeping them together. They must not be scattered loosely over the roads; they must be laid on closely, and in nearly squared patches, and none larger than the size specified should be allowed to remain in the surface; all such appearing must be picked out and replaced with small ones. Indiscriminate picking will not be permitted. In the cases of rough roads, certain distances to be prescribed and laid out by the County Surveyor, or his Assistant must be thoroughly picked in each half-year.

All pipes and arches, not exceeding three feet span, together with all parapets, range walls, and footpaths, are to be kept in repair. No nuisance of any description whatever to be permitted.

Should any change be made in the line contracted for, or any hill cut, or hollow filled, the Grand Jury shall have the power to discontinue the repairs of the old road, and apply them to the new at the contract price per perch, but the Contractor may apply at Presentment Sessions during the year after the certifying of the Presentment, for any additional amount that may be necessary to enable him to keep the new part in repair for the first year.

—cubical yards of the best stone to be procured in the quarries of — are to be spread on this road within each year, having been previously measured and approved of. They must be prepared, laid in depots, which should be filled, or in convenient places on the sides of the road, completely clear of the carriage way, and so as not to interfere with the water tables, made up in regularly squared or oblong heaps of any convenient lengths, but having a width of 3 feet and height of 18 inches.

This quantity, so prepared and arranged, must be ready for measurement on or before the 1st day of August, and spread on the road by the 1st of March following; and it is to be annually, so expended in strengthening and improving the formation of the carriage way.

In addition to the specified annual quantity, such extra supply of stone must be provided as may be required to fulfil the conditions of this specification for maintaining the surface in good order continually during the whole term of the contract.

There will be but one measurement in each year, and that will be made during the first fortnight of August by the County Surveyor's assistant, who will do so accompanied by the Contractor, to whom he will give notice of inspection, and who must attend with him for the purpose, provided with a copy of this Specification, a pick and shovel. Should the Contractor fail to have the specified quantity prepared, or to attend as hereinbefore described, he will not be entitled to a certificate for payment, and the quantity he may have prepared shall become the property of the public, to be used for the benefit of this road in such manner as the County Surveyor shall direct.

Should any fraud in making up the heaps of stones for measurement be detected, or should any of the stones be removed to another road, or disposed of in any way other than for the repair of this road, not only will the certificate be refused, but the Contractor

will be prosecuted, his contract forfeited, and all claim on his part to any part of the material that may have been prepared, or to any compensation whatsoever, shall cease.

No stones to be broken or laid on the road but for the purpose of being spread, and no heaps to remain on during the night. All mud scraped off to be taken away as soon as it shall have become dry enough for removal, and used for repairing fences, for filling gries, &c., according to the County Surveyor's directions. All loose and scattered stones should be removed from the road in dry weather. Cut weeds before they shed seeds; trees, &c., between 30th September and 31st March.

Where any contract passes through a street, the footpaths, channels, and paving must be preserved in good condition, and every particular care taken to prevent nuisance.

The County Surveyor shall have the power to alter any part of this Specification, to suit circumstances, as he may think desirable, but no deviation from it will be permitted without his consent.

No certificate will, in any case, be given where the Contractor has not complied with the terms of this Specification, nor will it be granted unless the road has been kept in repair from the time of entering into the contract up to the time of applying for payment. Should the certificate be at any time refused, the Grand Jury shall have the option to annul this contract, and make a fresh one with another contractor.

Should any misunderstanding arise as to the meaning of the foregoing, or any part of it, or as to whether the Contractor has performed his contract, the opinion of the County Surveyor shall be final.

JAMES B. FARRELL, County Surveyor for Wexford.

Report of the Committee on Industrial Schools.

Your Committee report that the amount of the presentments for maintenance of children in Industrial schools at 2s 6d per week—(that being the sum allowed at present by the Grand Jury in addition to the 5s per week allowed by the Government) according to the annexed list, reached £238 19s. 11d. at the last, and £653 19s. 4d. at the present assizes, making a total in the past year of £952 13s. 4d., and that unless a change of system is made a considerably larger amount will be required for the coming year.

Summer Assizes, 1873.

St. Martha, Monaghan, £22 19s 4d; Artane, Co. Dublin, £16 2s 10d; St. Michael's, Wexford, £141 5s 9d; St. Aidan's, New Ross, £118 6s.—£298 13s 11d.

Spring Assizes, 1874.

St. Martha, Monaghan, £9 17s 2d; Artane, Co. Dublin, £32 7s 6d; St. Michael's, Wexford, £369 13s 11d; St. George, Limerick, £4 7s 6d; St. Aidan's, New Ross, £236 7s 0d; Cappoquin, Co. Waterford, £1 6s 3d.—£653 19s 4d.

We recommend the Grand Jury not to make the County responsible for any portion of the maintenance of children in Industrial schools beyond the numbers in schedule annexed and in the schools therein specified (with which agreements have already been entered into) viz—Artane, for Roman Catholic boys, 25; St. Michael's, Wexford, for Roman Catholic girls, 20; St. Aidan's, New Ross, for do., 15; Meath Industrial Schools for Protestant boys, 5; Heytesbury street, for Protestant girls, 5—Total 70.

We recommend that a sum of 1s 6d be granted from the Grand Jury cess for the maintenance of each child, which will reduce the total taxation possible to £273 per annum.

And we recommend that payment at this rate be made on new committals, and for one year certain from this assizes; and we recommend that a committee of the following gentlemen be appointed to consider the question of whether the sum allowed by the Government of 5s a week is not sufficient for the maintenance of children of the classes usually committed in Industrial schools, and whether the Grand Jury ought to be called on to make any payment in respect of them—Committee: George LeHunte, Samuel T. Harman, and R. W. Hall-Dare, Esqrs.

That until the children chargeable to the cess have been reduced to the numbers allocated by us to the respective schools in which those numbers are exceeded, the annual number of admissions be limited as follows, viz—St. Michael's, 3; St. Aidan's, 2.

That after 1st July next 1s 6d per week be allowed by us for children now in Industrial schools, under an agreement with the Grand Jury for half-a-year certain, at the expiry of which time a new arrangement may be proposed on the report of the committee.

That all applications for payment be made up to the 1st January and 1st July in each year.

Directions to Secretary of Grand Jury.

First—The Secretary is requested to report to the various Clerks of Petty Sessions throughout the county, that they will be required to report to him from time to time the committals to Industrial schools from their respective Sessions Courts, stating the names of the committing Justices and the peculiar circumstances of each case.

Second—When the number of committals to any school reaches the limit, the Secretary of the Grand Jury is to apprise all the Clerks of Petty Sessions that the number of places to be paid for by the county has been filled up in that school.

Third—That notices of these resolutions be communicated by the Secretary to the Industrial schools which they affect.

Summer, 1874.

Ordered—That the attention of the Board of Superintendence be directed to the Report of the Government Inspector of Prisons, in order that they may take into their careful consideration whether they can reduce the number of turnkeys.

Ordered—That no application for payment will be entertained by the Grand Jury unless they be made in sufficient time for the amounts to be entered in the printed Schedule of Applications for Presentments.

Ordered—That the Grand Jury appoint Captain P. L. Harvey, of Lonsdale, to be a member of the Board of Superintendence of the County Gaol, in the room of Zachariah B. Cornock, Esq., deceased.

Ordered—On the application of the County Inspector of Royal Irish Constabulary, that stands for sub-standard small beams and scales be provided for each petty sessions district. Also, two new stamps and a hammer for Arthurstown petty sessions district.

Ordered—That we adhere to the decision of the Grand Jury at last Assizes on the Industrial schools question.

Your committee appointed at the last assizes to consider the question of whether the sum allowed by the Government of 5s. per week is not sufficient for the maintenance of children of the class usually committed in Industrial schools, and whether the Grand Jury ought to be called on to make any payment in respect of them, beg to make the following report:—

"We are of opinion that 5s. a week is quite sufficient for the maintenance of each child, but in consequence of the expense attending the first starting of the schools, we recommend that the payments up to June 30 last be made at the rate of 2s. 6d a week for each child. It has been decided at the last assizes that 1s 6d per week for each child should be paid from the above date till January 1, 1875. We recommend that 1s 6d a week should be paid from the 1st January, 1875, to January 1, 1876, by which time the Industrial schools will have received aid from the Grand Jury for a period of three years and a half, and that the Grand Jury should then re-consider whether the Government allowance of 5s. a-week ought not to be sufficient for the maintenance of each child, having regard to the principle that the Grand Jury allowance is made mainly in respect of building and other charges incurred at the outset of the schools. That in pursuance of the recommendation contained in the Lord Lieutenant's letter of 26th ult., a committee be appointed consisting of the following gentlemen, viz—Lieut.-Colonel Tottenham, Sir J. Esmonde, S. T. Harman, G. LeHunte, and R. W. Hall-Dare—to inquire into the cases of children now in the Industrial schools who are chargeable to the county, with a

view to a removal from the schools of any cases which do not appear to be within the Industrial Schools Act, and also to draw up a list of inmates for whom they consider part-payment ought to be made by their relatives, and also to make a careful supervision of future admissions, and to report to the next Grand Jury.—We recommend that the boys now in Artane be paid for at the rate of 2s 6d per week until January, 1875, as it appears impossible for this school to admit children at a less cost, and that the Secretary be requested to apply to other Industrial schools for Roman Catholic boys prepared to receive them on the terms offered by the Grand Jury from that date.

R. W. HALL-DARE, Chairman.

Spring, 1875.

Ordered—That the Secretary be directed to advertise the previously passed resolution of the Grand Jury, that no applications will be entertained unless lodged in time to be printed in the schedule, after which it is desirable that the Grand Jury should adhere strictly to such rule, unless there should appear some special and unavoidable reason for departing therefrom in any particular case.

Ordered—That inasmuch as we are informed that the number of Royal Irish Constabulary now in the County of Wexford is thirty-nine under the establishment to which the County is entitled, we hereby request the Under Secretary to direct that the cost of six men who are now charged to the county as extra be in future charged to the Consolidated Fund.

Ordered—That the Secretary be instructed to draw up a list of all the districts in which lists of jurors are made, with the amount which was passed at Spring Assizes for same. Also, that the Poor Rate Collectors be instructed to mention the name of their district in their applications for payment.

Ordered—That the solicitors of the grand jury take every necessary step with regard to the renewal of the lease of the County Gaol, and they having reported that there is no person who, under the provisions of "The Renewable Leasehold Commission Act," is entitled to call for or take out a renewal of grant in perpetuity of said lease.

Ordered—That the Secretary put himself into communication with the Chief Secretary with a view to having a short Act of Parliament introduced in the present Session to enable grants in perpetuity to be made of the sites of County Gaols in Ireland.

Ordered—We are of opinion that in any change affecting the Grand Jury Laws or County Officers, the office of High Constable and Collector of Grand Jury Cess should be made technically, as it has always been practically, permanent, during good behaviour, and the provisions of the 7th & 8th Vic., c 106, s 11, enabling the Baronial Collectors of Dublin to pass continuing bonds should be extended to the rest of Ireland.

Report of the Industrial Schools Committee:—

Your Committee since the last Assizes have used their best exertions to carry out the instructions of the last Grand Jury. They have found it impracticable to examine each individual case closely, but have come to the conclusion that in most of those cases where children have been committed to the Industrial Schools, whose parents or guardians were in a position to support them. This took place at the outset of the system, and, therefore that the term of detention of such children have either actually expired, or are so close to expiration that interference would not be of any practical use. Your Committee, however, recommend that the Secretary be directed to report to the Inspector of Industrial Schools the names of the following children, as being those whose parents are in a position to contribute towards their maintenance, and to take the necessary steps to have such parents compelled accordingly:—

In St. Aidan's Industrial School.

In St. Michael's Industrial School, Wexford.

No. 27. Mary Furlong. 40. Mary Ellen Furlong.

We believe that the adherence to the system laid down by the Grand Jury at Spring Assizes, 1874, and after renewed discussion ratified by the Grand Jury at Summer Assizes, 1874, the only practicable method whereby the taxation on the County in this half-year, £570 7s., being applied for, can be reduced within reasonable dimensions, while at the same time the County is not deprived of the undoubted advantages arising from the Industrial Schools Act, when used with discretion.

It appearing that the support of boys in Artane and the other schools for boys cannot be provided for without a subscription of 2s. 6d. per week by the Grand Jury, we recommend that they be allowed that sum for the limited number sanctioned by the Grand Jury.

We feel that notwithstanding the representations made in the letters to the Foreman from St. Michael's and St. Aidan's Schools, the circumstances of which have been fully considered by the two previous Grand Juries, we must again express our resolution to adhere to the system and scale laid down by those two Grand Juries.

It appearing that St. Aidan's school have charged for six children admitted during last year contrary to the regulations of the Grand Jury, which provides that only two should become chargeable on the cess till the limited number fixed by the Grand Jury should be reached, and that in like manner one child more than the proper number was charged for by St. Michael's, we recommend that no payment be made in respect of the said five children. We recommend that in future the Grand Jury do not consider any applications for payment which are not made up according to the regulations of the Grand Jury, and the Secretary should notify this to the schools, and also particularly call their attention to the regulation of the Grand Jury—that accounts are to be made up to July 1, and January 1.
