- 130— Resolved—That we the Grand Jury of the county of Wexford, assembled at the Spring Assizes, 1882, recommend the Commissioners of Her Majesty's Treasury to grant a superannuation to Catherine Furlong of Enniscorthy, widow of Michael Furlong, deceased, late Bridewell-keeper at Enniscorthy, in respect of an annual salary of £5 to which she was entitled as Matron for over twenty years in said Bridewell, at the time superannuation allowance was granted to her late husband, under the 41 and 42, Vic., cap. 63, sec. 1 and 2, and which annual salary was included in the emoluments of his office, upon which such allowance was computed, and we submit that the allowance made thereof should not die with him, but should be continued to his widow for her life, and we are desirous that presentments be from time to time made accordingly for payment of such sum as the Treasury shall sanction for the purpose.

- 131— Ordered—that we the Grand Jury of the county Wexford, assembled at Spring Assizes, consider it our first duty to tender to Her Most Gracious Majesty our heartfelt congratulation on her providential escape from the recent dastardly attempt on her life, and at the same time to assure her Majesty of our unalterable attachment to her throne and person.
- 132— Ordered—That the following sum payable to Patrick Kehoe, of Skahana, barony of Scarawalsh, be made payable to Stephen Kehoe, of Skahana—£3.

- 137— Ordered—That this Grand Jury desire to represent to the General Prisons' Board the serious inconvenience which would be imposed on the county by the proposed discontinuance of the Bridewell at New Ross, and recommend that it be put into such a condition as to be perfectly suitable for the detention of prisoners.
- 138— Ordered—That the sum of £297 6s 10d, repaid by the counties of Kildare and Carlow to the county of Wexford on account of Lunatic Asylums Repayment of Advances, be represented in aid on the County at Large.
- 139— On the report of Mr. LeHunte that a sum of £18 14s 7d was handed to him by the late Governor of the County Gaol as belonging to the late Board of Superintendence, and also that a quantity of cocoanut matting made up in the gaol was unsold, it was ordered that the money be handed to the County Treasurer, to be placed to the credit of the county, and that the Secretary be requested to dispose of the matting for the benefit of the county.
- 140— Referring to that part of the last Report of the Enniscorthy Lunatic Asylum which refers to the condition of part of the building and to the repairs executed under Dr. Edmundson's superintendence, the Grand Jury endorses the observations of the Board of Governors, which record their thanks to Dr. Edmundson for his constant and unvarying attention to the affairs of their house, and more especially for his having so fortunately found out the uncertain state of the roof. His timely notice will be the means of saving the county a very large sum of money. Again the Board expressed its satisfaction that the repairs have been executed in the best and most scientific manner.
- 141— Ordered—That the Secretary be requested to purchase ten boxes with locks and keys, to be called tender boxes, in which all tenders must be lodged within office hours on or before the day previous to the approaching sessions, in a closed envelope, and endorsed "tender," the name of the Barony outside, or sent by post in a regis-

tered envelope directed to the Secretary of the Grand Jury, and marked "tender," and the name of the Barony outside. That the Secretary keep the key in his own possession.

142—

Resolved—That we the Grand Jury urge on her Majesty's Government the advisability of re-enacting during the present Session of Parliament the provisions of section 39 of the Peace Preservation (Ireland) Act, 1870, by which compensation might be given for malicious injuries to the person, arising from agrarian outrages, as we believe that such an enactment would prevent many of the crimes which are now perpetrated in Ireland, and would be a measure of justice to the sufferers.

INDUSTRIAL SCHOOLS.

The Committee handed in the following report:—The discharges since the last report here have slightly exceeded the admissions, being 15 as compared to 13. The presentments amount to £324 4s 8½d as compared to £314 12s 4d in the summer of 1881, and to £323 4s 11d in spring, 1881. Such slight variations will always occur. Presentments are made on the collective number of days the children enumerated in the returns have resided. The building debt returned from St. Aidan's, New Ross, is £856 8s 9d as compared to £898 19s 11d in summer, 1880. The debt on St. Michael's is reduced. "Original debt," £944 16s 8½d as compared to £1153 12s 8d in summer, 1880. To this debt £400 are to be added, being the sum expended up to the time out of the £1000 allowed by the last Grand Jury. Returns from the several Petty Sessions, with the exception of New Ross, are appended.

Spring, 1875.

Ordered—That the Secretary be directed to advertise the previously passed resolution of the Grand Jury, that no applications will be entertained unless lodged in time to be printed in the schedule, after which it is desirable that the Grand Jury should adhere strictly to such rule, unless there should appear special and unavoidable reason for departing therefrom in any particular case.

Ordered—That inasmuch as we are informed that the number of Royal Irish Constabulary now in the County of Wexford is thirty-nine under the establishment to which the County is entitled, we hereby request the Under Secretary to direct that the cost of six men who are now charged to the county as extra be in future charged to the Consolidated Fund.

Ordered—That the Secretary be instructed to draw up a list of all the districts in which lists of jurors are made, with the amount which was passed at Spring Assizes for same. Also, that the Poor Rate Collectors be instructed to mention the name of their district in their applications for payment.

Ordered—That the solicitors of the grand jury take every necessary step with regard to the renewal of the lease of the County Gaol, and they having reported that there is no person who, under the provisions of "The Renewable Leasehold Commission Act," is entitled to call for or take out a renewal of grant in perpetuity of said lease.

Ordered—That the Secretary put himself into communication with the Chief Secretary with a view to having a short Act of Parliament introduced in the present Session to enable grants in perpetuity to be made of the sites of County Gaols in Ireland.

Ordered—We are of opinion that in any change affecting the Grand Jury Laws or County Officers, the office of High Constable and Collector of Grand Jury Cess should be made technically, as it has always been practically, permanent, during good behaviour, and the provisions of the 7th & 8th Vic., c 106, s 1, enabling the Baronial Collectors of Dublin to pass continuing bonds should be extended to the rest of Ireland.

Report of the Industrial Schools Committee:—

Your Committee since the last Assizes have used their best exertions to carry out the instructions of the last Grand Jury. They have found it impracticable to examine each individual case closely, but have come to the conclusion that in most of those cases where children have been committed to the Industrial Schools, whose parents or guardians were in a position to support them. This took place at the outset of the system, and, therefore that the term of detention of such children have either actually expired, or are so close to expiration that interference would not be of any practical use. Your Committee, however, recommend that the Secretary be directed to report to the Inspector of Industrial Schools the names of the following children, as being those whose parents are in a position to contribute towards their maintenance, and to take the necessary steps to have such parents compelled accordingly:—

In St. Aidan's Industrial School.

15. Mary Anne Dane. 31. Margaret Byrne. 32. Mary Bolger. 36. Ellen Fanning. 37. Catherine Fanning. 45. Mary Cleary. 59. Eliza Kennedy. 61. Bridget Merrigan. 63. Mary Fortune. 64. Margaret Fortune. 65. Anne Fortune. 66. Elizabeth Reilly. 75. Mary Anne Breen. 76. Ellen Breen. 79. Margaret Tate. 80. Margaret Dalton.

In St. Michael's Industrial School, Wexford.

No. 27 Mary Furlong. 40. Mary Ellen Furlong.

It appearing that the support of boys in Artane and the other schools for boys cannot be provided for without a subscription of 2s. 6d. per week by the Grand Jury, we recommend that they be allowed that sum for the limited number sanctioned by the Grand Jury.

We feel that notwithstanding the representations made in the letters to the Foreman from St. Michael's and St. Aidan's Schools, the circumstances of which have been fully considered by the two previous Grand Juries, we must again express our resolution to adhere to the system and scale laid down by those two Grand Juries.

It appearing that St. Aidan's school have charged for six children admitted during last year contrary to the regulations of the Grand Jury, which provides that only two should become chargeable on the cess till the limited number fixed by the Grand Jury should be reached, and that in like manner one child more than the proper number was charged for by St. Michael's, we recommend that no payment be made in respect of the said five children. We recommend that in future the Grand Jury do not consider any applications for payment which are not made up according to the regulations of the Grand Jury, and the Secretary should notify this to the schools, and also particularly call their attention to the regulation of the Grand Jury—that accounts are to be made up January 1.

Spring Assizes, 1876.

The Industrial Schools Committee have endeavored to carry out the instructions of the Grand Jury by enquiring into the cases of children committed from the different Petty Sessions since the Summer Assizes 1875; and also obtaining a statement of debt due by each Industrial School.

The lists of children returned for Presentments were made up to December 31st, 1875. In future the Committee recommend they should be furnished to a later date, as nearly to ten days before each Assizes as possible. (If the Gaol accounts were made up to the same period, and the outstanding bills were paid previously, the real financial position of the Gaol would be more satisfactorily shown than at present).

There appear by the returns to have been five committals to Industrial Schools between the Summer Assizes and the end of 1875. The information furnished by the Petty Sessions Clerks is as follows:

Mary Connors sent to St. Michael's Industrial School from Killinick Sessions, as being "a child in imminent danger of moral contagion, having been found wandering and not having proper guardianship, its mother and grandmother having been twice committed to prison for vagrancy."

John Dempsey and *William Dempsey* sent to Artane Industrial School from Wexford, having been proved destitute and orphans.

Bridget and *Elisa O'Brien*, sent to St. Aidan's Industrial School from New Ross Petty Sessions, "having been found begging on the public street. The cases were adjourned for enquiry, and from the evidence produced by the Constabulary, the children were committed."

All these cases, if rightly represented, seem to come within the Act of Parliament.

These five committals do not represent an increased charge to that amount. Three cases chargeable to the County have ceased to be so since the Summer Assizes.

The several amounts of debt were—

St. Aidan's, ...	£1184 16 3
St. Martha's, ...	1000 0 0
St. Michael's, ...	1969 0 1½

The return from St. Martha's, County of Monaghan, states that there will be another £200 added to the above this year, owing to the requirements of the Inspector.

GEORGE LEHUNTE.

SAMUEL T. HARMAN.

I agree with the above report, except so far as altering the date to which the bills should be made up, as I am of opinion that a fixed date, such as December 31st, is less likely to lead to confusion than a varying one, dependent on the date of the Assizes. I am also of opinion that the Grand Jury should be asked to re-impose the limit to the number of admissions, adopted at Spring Assizes, 1874, and recommended by the Committee at the Spring Assizes, 1875, but rejected by a very narrow majority.

JOHN C. POUNDEN.

Report of the Committee on Industrial Schools.

The duty of the Committee being to check the charges falling upon the County for children in Industrial Schools, but not to throw any difficulty in the way of the wholesome intention of the law to cut off crime at its roots by the compulsory detention in these Schools of very young persons likely to become criminals, they now report that in the last half year thirteen children have been taken off the list of those chargeable to the county, some being discharged, and some placed on license; while ten children have been committed from the Petty Sessions Courts of Wexford, Enniscorthy, and New Ross. The Reports from the Clerks show that in the majority of cases the children were eligible for these schools, and for these only, as their parents were in gaol, or undergoing penal servitude. Three cases—*Mary Anne Barker*, from Enniscorthy; *Eliza* and *Christine Reilly*, from Wexford—are merely described as destitute orphans. It is quite clear that the law includes "destitute orphans," but following the expressed opinion of the Grand Jury, the Committee consider that such cases, unless attended by special circumstances, such as frequenting the company of reputed thieves, &c., ought not to be a charge on the County Cess. In these three cases such circumstances were not mentioned by the Clerk. It is, therefore, possible that they might, in the opinion of the Grand Jury, be sent to a workhouse. The building debt on St. Aidan's at the time of the last report was returned at £1184 16s 3d. It is now returned at £1078 18s 0d. The debt of St. Michael's in the last report was returned as £1969 0s 1½d; it is now returned as £1600.

GEORGE LEHUNTE,
C. M. DOYNE,
S. T. HARMAN.

Summer Assizes, 1878.

The Committee appointed to check the charge upon this county for children committed to Industrial schools have kept the object for which the committee was appointed in view—namely, to see that no improper committals were made, while the good intentions of the law were not interfered with. The endeavours of the Committee have been for the first time interfered with by the absence of any reports upon the cases sent from Petty Sessions. The Clerks of Petty Sessions have failed to answer the letters which asked for the circumstances attending each committal. At the Spring Assizes of 1874 the Grand Jury resolved—"That the various Clerks of Petty Sessions throughout the county be required to report from time to time the committals to Schools from their respective Sessions Courts." Having called the attention of the Grand Jury to this, the Committee report that the discharges since the last report appear to amount to 13. The number of admissions 7.

From Artane—1 discharged, 2 admitted.

" St. Michael's—6 discharged, 3 admitted.

" St. Aidan's—6 discharged, 3 admitted.

The debt on St. Michael's is returned at £1511 6s. 4d. The debt on St. Aidan's is returned at £1079 18s. 7d.

These differ little from the returns of the last half year. The Manager of St. Michael's wishes the Grand Jury to be informed that £1,000 have been expended in building a laundry and poultry house, and on farm buildings, which sum is not charged to the cesspayers. The new committals in the half-year were from New Ross, Enniscorthy, and Wexford Petty Sessions.

GEORGE LEHUNTE.

In addition to the foregoing, we would remark that the Manager of St. Aidan's Industrial Schools returns the debt due on that establishment £1 0s. 7d. of an increase on the amount due last half-year, but it appears that she was entitled to £67 6s. 1d., which was ordered at last Summer Assizes, but, through an error, was not paid, consequently the debt now may be estimated at £1012 12s. 6d.

It appears that certain girls who have been discharged have been returned as charged for the full half-year; but the Manager wrote to Mr. Wynne for the return, in order to correct it, but as it had been forwarded to Mr. LeHunte it could not be sent to her. We propose that the amount now claimed, £61 8s 0½d be paid, and if it should appear on further investigation that this is in excess of the amount she is entitled to receive, such excess should be deducted from the amount to be paid next Assizes.

We regret to find that the Petty Sessions Clerks have neglected to report the committals as required by the resolution of the Grand Jury, 1874; and we recommend that the Secretary be requested to direct them to comply with the order of the Grand Jury.

Summer Assizes, 1879.

REPORT OF INDUSTRIAL SCHOOLS.

That since the lists were furnished at the last Spring Assizes there appears to have been sixteen admissions and twelve charges. Letters from the Petty Sessions Clerks, explaining the different cases of admission, accompanied this report, from which it appears that seven were committed by the Wexford Bench, four by the Enniscorthy Bench, three by the New Ross Bench, and two by the Ferns Bench. The number of admissions and discharges fluctuate; but there seems to be a gradual decrease in the amount presented. Taking the abstract of presentments, the amount passed for Industrial Schools at our Assizes was

In 1876, ...	£289 4 5
In 1877 (one Assizes) ...	250 9 9
At Spring Assizes, 1879, ...	238 3 14
At the recent Assizes, ...	227 11 0

The building debt of the two Schools in this County was—

	1875	1878	1879
St Michael's, £1969 8s 1½d	£1511 6s 4d	£1343 19s 2d	
St. Aidan's, £1184 16s 3d	£1012 12s 6d	£951 4s 6d	

We have examined into the rate of decrease for the past four years and have ascertained that the decrease of the debt in both schools for the past year has exceeded the average of the decrease in the past four years. The total amount paid for

the maintenance of children in the Industrial Schools for the year ending June 30, 1879, is £465 15s. 2d.

NOTE—The number of children from County Wexford at present in the Industrial School is 74.

July, 1879.

The Committee appointed to report upon Industrial Schools have to state that since the lists furnished at last Spring Assizes, there appear to have been 16 admissions and 12 discharges: Reformatories not included. Letters from the Petty Sessions Clerks explaining the different cases of admission accompany this report. The number of admissions and of discharges fluctuate, but there seems to be a gradual decrease in the Presentments. Taking an abstract of Presentments passed at one Assizes in 1876, the amount for Industrial Schools was £289 4s. 5d. In 1878, £250 9s. 9d. At Spring Assizes, in this year, £238 3s. 10d. At the Assizes, £227 11s. 4d. This decrease occurs without checking the wise operation of the Law which transfers children who had before them no resource but crime, to Institutions admirably conducted, from whence they issue in course of time useful members of society.

The Building Debt of the two Schools in this County was—

Spring Assizes, 1879.

Resolved—That the Grand Jury of the Co. Wexford
 regret the wholesale destruction of sheep by dogs and
 respectfully suggest to the government the necessity of
 further legislation, with a view of checking this serious
 evil, by an increase of the dog tax, and that regularly
 established packs of hounds in Ireland should be com-
 pounded for as in the other parts of the United Kingdom.

Resolved—That the Grand Jury's solicitor be in-
 structed to take the necessary steps relative to obtaining
 payment from the Richmond Board of Superintendence
 for prisoners confined in Wexford gaol.

Ordered—That the number of children at each School,
 and cost per head per week, be printed in Schedule of
 Presentments at each Assizes.

The Committee on Industrial Schools have shortly to
 report that the admissions into St. Michael's Industrial
 School slightly exceeded the discharged during the half

year ending December 20, 1879. The discharged from St. Aidan's have slightly exceeded the admissions in the half year ending December 30, 1879. The building debt of St. Michael's last Assizes was £1343 19s 2d; this Assizes. £1253 12s 2d; of St. Aidan's last Assizes £951 4s 6d; this Assizes, £896 1s 2d.

Ordered—Resolved—That the Secretary be ordered to inform the Cesspayers and Magistrates at Presentment Sessions that all costs in cases of malicious injuries be included in the sum (if any) allowed.

Ordered—We, the Grand Jury of the County Wexford, assembled at the Spring Assizes, 1880, do hereby, in pursuance of the provisions of "The Public Health (Ireland) Amendment Act, 1879," section 6, make the following Bye Laws for regulating the use of Locomotives upon the Public Roads and Highways of the County of Wexford, and preventing such use upon every Bridge within such County where we are satisfied that such use would be attended with danger to the Public.

1. Every Locomotive propelled by Steam, or by other than animal power, traversing any County Road or Highway, under the control of the Grand Jury of the County of Wexford, during the period between sunset and sunrise, shall have conspicuously affixed thereto two efficient bright white lights in front, and a green light in the rear. In case Waggon are being drawn by the Locomotive, the green light is to be affixed to the hindmost Waggon.

2. No such Locomotive shall be propelled or drawn at a greater pace than the man with the flag, who is to precede it (as hereinafter provided by Bye Law No. 4) can conveniently walk.

3. The weight of every Locomotive shall be painted in legible characters on some conspicuous part thereof, and such Locomotive must have a black board on a conspicuous place, visible from each side of the Road, bearing the owner's name and address in large white letters, at least an inch in length.

4. Every Locomotive, while in motion, shall be preceded by a person who, during all periods when lights are required to be affixed thereto, shall carry and display an efficient red light at least 100 yards in advance of the Locomotive, and during all other periods shall, at like distance, carry and display a red flag.

5. No Locomotive shall be driven upon or pass over Wexford Bridge, Ferryarrig Bridge, Deeps Bridge, and Hodge's Mill Bridge, or over any Railway Bridges the arches of which are not constructed of stone.

We, the Committee, appointed by the Grand Jury to prepare Bye-Laws as to Locomotives under the Public Health (Ireland) Amendment Act 1879, beg to submit the foregoing Bye-Laws for approval and adoption of the Grand Jury.

RICHARD DONOVAN,
FRANCIS A. LEIGH,

JAMES B. FARRELL.

Ordered—That the application of the Waterford Harbour Commissioners for leave to alter the public road, to allow an entrance to new pier proposed to be made by them at Balyhack, according to plan submitted by them, be approved.

Ordered—That Copies of the Report on Industrial Schools be sent to the several managers.

INDUSTRIAL SCHOOLS REPORT.

The committee reports that between June 30 and December 31, 1880, there were, as shown by the lists, 8 discharges and 17 admissions—admissions being in excess of discharges. The money asked for now is somewhat in excess of that granted last assizes, being £323 4s. 10d. as compared to £295 10s. 11d. The presentments to the schools in this county are meant to extinguish original building debts, but the managers of the schools are a little slow in falling in with the intention of the Grand Jury. The debt upon St. Michael's, Wexford, was reported last assizes to be £1153 12s. 5d. It is returned now at £1161 2s. 5d., though the grant at the assizes was £128 8s. 7d. It will be seen in the report on Industrial Schools that a sum of £118 7s. 4d. was spent in 1879 upon "improvements in the buildings of the school." There is no fund for such expenditure except annual income and private benevolence. Still the committee recommend the Grand Jury to draw the attention of the Managers to the addition to the debt without the previous assent of the county. In the case of St. Aidan's, New Ross, error in the last return of the debt has been corrected, and the amount granted has been applied as intended. The detailed reports of the different Petty Sessions Clerks are appended. The law seems to have been strictly complied with in cases of committal.

GEORGE LEHUNTE,
JOHN C. FOUNDEN.
C. M. DOYNE.

Ordered—We, the Grand Jury of the County of Wexford, assembled at the Summer Assizes, 1881, do hereby, in pursuance of the provisions of "The Public Health (Ireland) Amendment Act, 1879," section 6, in addition to the bye-laws made by the Grand Jury assembled at the Spring Assizes, 1880, for regulating the use of locomotives upon the public roads and highways of the county of Wexford, and preventing such use upon every bridge within such county where the Grand Jury are satisfied that such use would be attended with danger to the public, make the following further bye-law:—"1. No locomotive shall be driven upon or pass over the bridge across the river Barrow, between the counties of Wexford and Kilkenny at New Ross, commonly called the New Ross bridge." The penalty for breach of the foregoing bye law is a fine not exceeding £5.

The Grand Jury taking into consideration the long and faithful services of Mr. Michael Cowman as County Surveyor's assistant, they recommend that whenever an opportunity may occur the claim of his son Nicholas should be favourably considered.

Ordered—That Lord Maurice Fitzgerald be appointed to fill the vacancy on the Board of Visiting Justices of the Wexford Prisons caused by the death of Major Harvey.

Ordered—That the circular from the General Prisons Board, relating to the superannuation allowance of Prison Officers, be referred to a committee of the fol

permission, where good gravel can be readily procured, it may be used instead of stone, but in no case without the consent of the County Surveyor; no stone in such being larger than a medium-sized wall-nut.

The depths of crust that may usually be considered as requisite for the different classes of roads are as follows:—

FIRST CLASS, VIZ:

For all New Roads, Post Roads, and those on which there is a very heavy traffic.—An uniform depth of consolidated metalling, eight inches in the centre, and six at the sides.

SECOND CLASS, VIZ:

Leading Roads of minor importance, upon which the traffic is comparatively partial.—Six inches in the centre, and four at the sides.

THIRD CLASS, VIZ:

Important Branch Roads, viz.:—Four inches in the centre, and three at the sides.

These depths will not, however, be in all cases necessarily adhered to. The County Surveyor shall have the power to vary them as circumstances may require. But such depths must be invariably maintained as will be sufficiently strong to sustain the traffic and preserve a smooth good road.

The stones must be the best that can be procured within one mile of any part of the contract road, and further, if considered necessary. They should be spread during the winter and wet seasons, so as to obviate, as much as possible, the necessity for doing so in dry weather; when if it should become necessary to put them on, the surface should be loosened with a pick previously, to assist in consolidating and keeping them together. They must not be scattered loosely over the roads; they must be laid on closely, and in nearly squared patches, and none larger than the size specified should be allowed to remain in the surface; all such appearing must be picked out and replaced with small ones. Indiscriminate picking will not be permitted. In the cases of rough roads, certain distances to be prescribed and laid out by the County Surveyor, or his Assistant must be thoroughly picked in each half-year.

All pipes and arches, not exceeding three feet span, together with all parapets, range walls, and footpaths, are to be kept in repair. No nuisance of any description whatever to be permitted.

Should any change be made in the line contracted for, or any hill cut, or hollow filled, the Grand Jury shall have the power to discontinue the repairs of the old road, and apply them to the new at the contract price per perch, but the Contractor may apply at Presentment Sessions during the year after the certifying of the Presentment, for any additional amount that may be necessary to enable him to keep the new part in repair for the first year.

—cubical yards of the best stone to be procured in the quarries of— are to be spread on this road within each year, having been previously measured and approved of. They must be prepared, laid in depots, which should be filled, or in convenient places on the sides of the road, completely clear of the carriage way, and so as not to interfere with the water tables, made up in regularly squared or oblong heaps of any convenient lengths, but having a width of 3 feet and height of 18 inches.

This quantity, so prepared and arranged, must be ready for measurement on or before the 1st day of August, and spread on the road by the 1st of March following; and it is to be annually, so expended in strengthening and improving the formation of the carriage way.

SPECIFICATION FOR KEEPING ROADS IN REPAIR BY CONTRACT FOR YEARS.

IMMEDIATELY after the Contract shall have been perfected, the Contractor must proceed to render the drainage complete, so that no water lodge on or near the road, at any time, by scouring the drains, pipes, water tables, and outlets, &c. Should any additional bridges, or pipes, or any repairs on those existing, be required, the Contractor, after pointing out the necessity for such to the County Surveyor or his Assistant, and getting permission from him, may bring in an application for them at Presentment Sessions in the first year after entering into the contract.

The water tables and existing fences at each side are to be brought to, and permanently preserved at the same level; to be parallel to the centre line of the roadway, and the former to have an efficient fall. The road surface is to be made uniformly convex in its cross section, having a gradual smooth and unbroken slope, free from grass or weeds, from the centre to the water tables, of one inch and a quarter to the yard, and so preserved; and is by darning, &c., to be kept, in all parts and at all times smooth, hard, and free from ruts, large stones, and mud, which last must be scraped off and laid by, off the carriage way in heaps.

Should any part of the road be found, upon examination at any time, to have an insufficient depth of crust, the Contractor should coat such part with stone, broken so as to pass freely in every way through a two inch ring, to supply the deficiency. Upon getting

In addition to the specified annual quantity, such extra supply of stone must be provided as may be required to fulfil the conditions of this specification for maintaining the surface in good order continually during the whole term of the contract.

There will be but one measurement in each year, and that will be made during the first fortnight of August by the County Surveyor's assistant, who will do so accompanied by the Contractor, to whom he will give notice of inspection, and who must attend with him for the purpose, provided with a copy of this Specification, a pick and shovel. Should the Contractor fail to have the specified quantity prepared, or to attend as hereinbefore described, he will not be entitled to a certificate for payment, and the quantity he may have prepared shall become the property of the public, to be used for the benefit of this road in such manner as the County Surveyor shall direct.

Should any fraud in making up the heaps of stones for measurement be detected, or should any of the stones be removed to another road, or disposed of in any way other than for the repair of this road, not only will the certificate be refused, but the Contractor will be prosecuted, his contract forfeited, and all claim on his part to any part of the material that may have been prepared, or to any compensation whatsoever, shall cease.

No stones to be broken or laid on the road but for the purpose of being spread, and no heaps to remain on during the night. All mud scraped off to be taken away as soon as it shall have become dry enough for removal, and used for repairing fences, for filling gries, &c., according to the County Surveyor's directions. All loose and scattered stones should be removed from the road in dry weather. Cut weeds before they shed seeds; trees, &c, between 30th September and 31st March.

Where any contract passes through a street, the footpaths, channels, and paving must be preserved in good condition, and every particular care taken to prevent nuisance.

The County Surveyor shall have the power to alter any part of this Specification, to suit circumstances, as he may think desirable, but no deviation from it will be permitted without his consent.

No certificate will, in any case, be given where the Contractor has not complied with the terms of this Specification, nor will it be granted unless the road has been kept in repair from the time of entering into the contract up to the time of applying for payment. Should the certificate be at any time refused, the Grand Jury shall have the option to annul this contract, and make a fresh one with another contractor.

Should any misunderstanding arise as to the meaning of the foregoing, or any part of it, or as to whether the Contractor has performed his contract, the opinion of the County Surveyor shall be final.

Your Committee since the last Assizes have used their best exertions to carry out the instructions of the last Grand Jury. They have found it impracticable to examine each individual case closely, but have come to the conclusion that in most of those cases where children have been committed to the Industrial Schools, whose parents or guardians were in a position to support them. This took place at the outset of the system, and, therefore that the term of detention of such children have either actually expired, or are so close to expiration that interference would not be of any practical use. Your Committee, however, recommend that the Secretary be directed to report to the Inspector of Industrial Schools the names of the following children, as being those whose parents are in a position to contribute towards their maintenance, and to take the necessary steps to have such parents compelled accordingly:—

In St. Aidan's Industrial School.

15. Mary Anne Dane. 31. Margaret Byrne. 32. Mary Bolger. 36. Ellen Fanning. 37. Catherine Fanning. 45. Mary Cleary. 59. Eliza Kennedy. 61. Bridget Merrigan. 63. Mary Fortne. 64. Margaret Fortune. 65. Anne Fortune. 66. Elizabeth Reilly. 75. Mary Anne Breen. 76. Ellen Breen. 79. Margaret Tate. 80. Margaret Dalton.

In St. Michael's Industrial School, Wexford.

No. 27. Mary Furlong. 40. Mary Ellen Furlong.

It appearing that the support of boys in Artane and the other schools for boys cannot be provided for without a subscription of 2s. 6d. per week by the Grand Jury, we recommend that they be allowed that sum for the limited number sanctioned by the Grand Jury.

We feel that notwithstanding the representations made in the letters to the Foreman from St. Michael's and St. Aidan's Schools, the circumstances of which have been fully considered by the two previous Grand Juries, we must again express our resolution to adhere to the system and scale laid down by those two Grand Juries.

It appearing that St. Aidan's school have charged for six children admitted during last year contrary to the regulations of the Grand Jury, which provides that only two should become chargeable on the cess till the limited number fixed by the Grand Jury should be reached, and that in like manner one child more than the proper number was charged for by St. Michael's, we recommend that no payment be made in respect of the said five children. We recommend that in future the Grand Jury do not consider any applications for payment which are not made up according to the regulations of the Grand Jury, and the Secretary should notify this to the schools, and also particularly call their attention to the regulation of the Grand Jury—that accounts are to be made up January 1.

Spring Assizes, 1876.

The Industrial Schools Committee have endeavored to carry out the instructions of the Grand Jury by enquiring into the cases of children committed from the different Petty Sessions since the Summer Assizes, 1875; and also obtaining a statement of debt due by each Industrial School.

The lists of children returned for Presentments were made up to December 31st, 1875. In future the Committee recommend they should be furnished to a later date, as nearly to ten days before each Assizes as possible. (If the Gaol accounts were made up to the same period, and the outstanding bills were paid previously, the real financial position of the Gaol would be more satisfactorily shown than at present).

There appear by the returns to have been five committals to Industrial Schools between the Summer Assizes and the end of 1875. The several amounts of debt were—

St. Aidan's,	£1184 16 3
St. Martha's,	1000 0 0
St. Michael's,	1969 0 1½

The return from St. Martha's, County of Monaghan, states that there will be another £200 added to the above this year, owing to the requirements of the Inspector.

I agree with the above report, except so far as altering the date to which the bills should be made up, as I am of opinion that a fixed date, such as December 31st, is less likely to lead to confusion than a varying one, dependent on the date of the Assizes. I am also of opinion that the Grand Jury should be asked to re-impose the limit to the number of admissions, adopted at Spring Assizes, 1874, and recommended by the Committee at the Spring Assizes, 1875, but rejected by a very narrow majority.

JOHN C. POUNDEN.

Report of the Committee on Industrial Schools.

The duty of the Committee being to check the charges falling upon the County for children in Industrial Schools, but not to throw any difficulty in the way of the wholesome intention of the law to cut off crime at its roots by the compulsory detention in these Schools of very young persons likely to become criminals, they now report that in the last half year thirteen children have been taken off the list of those chargeable to the county, some being discharged, and some placed on license; while ten children have been committed from the Petty Sessions Courts of Wexford, Enniscorthy, and New Ross. The Reports from the Clerks show that in the majority of cases the children were eligible for these schools, and for these only, as their parents were in gaol, or undergoing penal servitude. Three cases—Mary Anne Barker, from Enniscorthy; Eliza and Christine Reilly, from Wexford—are merely described as destitute orphans. It is quite clear that the law includes "destitute orphans," but following the expressed opinion of the Grand Jury, the Committee consider that such cases, unless attended by special circumstances, such as frequenting the company of reputed thieves, &c., ought not to be a charge on the County Cess. In these three cases such circumstances were not mentioned by the Clerk. It is, therefore, possible that they might, in the opinion of the Grand Jury, be sent to a workhouse. The building debt on St. Aidan's at the time of the last report was returned at £1184 16s 3d. It is now returned at £1078 18s 0d. The debt of St. Michael's in the last report was returned as £1969 0s 1½d; it is now returned as £1600.

GEORGE LEHUNTE,
C. M. DOYNE,
S. T. HARMAN.

Summer Assizes, 1878.

The Committee appointed to check the charge upon this county for children committed to Industrial schools have kept the object for which the committee was appointed in view—namely, to see that no improper committals were made, while the good intentions of the law were not interfered with. The endeavours of the Committee have been for the first time interfered with by the absence of any reports upon the cases sent from Petty Sessions. The Clerks of Petty Sessions have failed to answer the letters which asked for the circumstances attending each committal. At the Spring Assizes

of 1874 the Grand Jury resolved—"That the various Clerks of Petty Sessions throughout the county be required to report from time to time the committals to Schools from their respective Sessions Courts." Having called the attention of the Grand Jury to this, the Committee report that the discharges since the last report appear to amount to 13. The number of admissions 7.

From Artane—1 discharged, 2 admitted.

St. Michael's—6 discharged, 3 admitted.

St. Aidan's—6 discharged, 3 admitted.

The debt on St. Michael's is returned at £1511 6s. 4d. The debt on St. Aidan's is returned at £1079 18s. 7d.

These differ little from the returns of the last half year. The Manager of St. Michael's wishes the Grand Jury to be informed that £1,000 have been expended in building a laundry and poultry house, and on farm buildings, which sum is not charged to the cesspayers. The new committals in the half-year were from New Ross, Enniscorthy, and Wexford Petty Sessions.

GEORGE LEHUNTE.

In addition to the foregoing, we would remark that the Manager of St. Aidan's Industrial Schools returns the debt due on that establishment £1 0s. 7d. of an increase on the amount due last half-year, but it appears that she was entitled to £67 6s. 1d., which was ordered at last Summer Assizes, but, through an error, was not paid, consequently the debt now may be estimated at £1012 12s. 6d.

It appears that certain girls who have been discharged have been returned as charged for the full half-year; but the Manager wrote to Mr. Wynne for the return, in order to correct it, but as it had been forwarded to Mr. LeHunte it could not be sent to her. We propose that the amount now claimed, £61 8s 0½d be paid, and if it should appear on further investigation that this is in excess of the amount she is entitled to receive, such excess should be deducted from the amount to be paid next Assizes.

We regret to find that the Petty Sessions Clerks have neglected to report the committals as required by the resolution of the Grand Jury, 1874; and we recommend that the Secretary be requested to direct them to comply with the order of the Grand Jury.

REPORT OF INDUSTRIAL SCHOOLS.

That since the lists were furnished at the last Spring Assizes there appears to have been sixteen admissions and twelve charges. Letters from the Petty Sessions Clerks, explaining the different cases of admission, accompanied this report, from which it appears that seven were committed by the Wexford Bench, four by the Enniscorthy Bench, three by the New Ross Bench, and two by the Ferns Bench. The number of admissions and discharges fluctuates; but there seems to be a gradual decrease in the amount presented. Taking the abstract of

presentments, the amount passed for Industrial Schools at our Assizes was

In 1876,	£289 4 5
In 1878 (one Assizes)	250 9 9
At Spring Assizes, 1879,	238 3 14
At the recent Assizes,	227 11 C

The building debt of the two Schools in this County was—

1875	1878	1879
St Michael's, £1969 8s 1½d	£1511 6s 4d	£1343 19s 2d
St. Aidan's, £1184 16s 3d	£1012 12s 6d	£951 4s 6d.

We have examined into the rate of decrease for the past four years and have ascertained that the decrease of the debt in both schools for the past year has exceeded the average of the decrease in the past four years. The total amount paid for the maintenance of children in the Industrial Schools for the year ending June 30, 1879, is £465 15s. 2d.

July, 1879.

The Committee appointed to report upon Industrial Schools have to state that since the lists furnished at last Spring Assizes, there appear to have been 16 admissions and 12 discharges: Reformatories not included. Letters from the Petty Sessions Clerks explaining the different cases of admission accompany this report. The number of admissions and

of discharges fluctuate, but there seems to be a gradual decrease in the Presentments. Taking an abstract of Presentments passed at one Assizes in 1876, the amount for Industrial Schools was £289 4s. 5d. In 1878, £250 9s 9d. At Spring Assizes, in this year, £238 3s 10d. At this Assizes, £227 11s 4d. This decrease occurs without checking the wise operation of the Law which transfers children who had before them no resource but crime, to Institutions admirably conducted, from whence they issue in course of time useful members of society.

Spring Assizes, 1879.

Resolved—That the Grand Jury of the Co. Wexford regret the wholesale destruction of sheep by dogs and respectfully suggest to the government the necessity of further legislation, with a view of checking this serious evil, by an increase of the dog tax, and that regularly established packs of hounds in Ireland should be compounded for as in the other parts of the United Kingdom. Ordered—That the number of children at each School, and cost per head per week, be printed in Schedule of Presentments at each Assizes.

The Committee on Industrial Schools have shortly to report that the admissions into St. Michael's Industrial School slightly exceeded the discharged during the half year ending December 20, 1879. The discharged from St. Aidan's have slightly exceeded the admissions in the half year ending December 30, 1879. The building debt of St. Michael's last Assizes was £1343 19s 2d; this Assizes, £1253 12s 21; of St. Aidan's last Assizes, £951 4s 6d; this Assizes, £896 1s 2d.

Ordered—We, the Grand Jury of the County Wexford, assembled at the Spring Assizes, 1880, do hereby, in pursuance of the provisions of "The Public Health (Ireland) Amendment Act, 1879," section 6, make the following Bye Laws for regulating the use of Locomotives upon the Public Roads and Highways of the County of Wexford, during the period between sunset and sunrise, shall have conspicuously affixed thereto two efficient bright white lights in front, and a green light in the rear. 1. Every Locomotive propelled by Steam, or by other than animal power, traversing any County Road or Highway, under the control of the Grand Jury of the County of Wexford, during the period between sunset and sunrise, shall have conspicuously affixed thereto two efficient bright white lights in front, and a green light in the rear. In case Waggon's are being drawn by the

Locomotive, the green light is to be affixed to the hind-most Waggon.

2. No such Locomotive shall be propelled or drawn at a greater pace than the man with the flag, who is to precede it (as hereinafter provided by Bye Law No. 4) can conveniently walk.

3. The weight of every Locomotive shall be painted in legible characters on some conspicuous part thereof, and such Locomotive must have a black board on a conspicuous place, visible from each side of the Road, bearing the owner's name and address in large white letters, at least an inch in length.

4. Every Locomotive, while in motion, shall be preceded by a person who, during all periods when lights are required to be affixed thereto, shall carry and display an efficient red light at least 100 yards in advance of the Locomotive, and during all other periods shall, at like distance, carry and display a red flag.

5. No Locomotive shall be driven upon or pass over Wexford Bridge, Ferrisrig Bridge, Deeps Bridge, and Hodge's Mill Bridge, or over any Railway Bridges the arches of which are not constructed of stone.

6. The penalty for breach of any of the foregoing Bye-Laws is a fine not exceeding £5.

We, the Committee, appointed by the Grand Jury to prepare Bye-Laws as to Locomotives under the Public Health (Ireland) Amendment Act 1879, beg to submit the foregoing Bye-Laws for approval and adoption of the Grand Jury.

Ordered, The committee appointed to report on Industrial Schools, state that since the lists furnished before last Spring Assizes, there appears to have been ten admissions, chargeable to the County, and eleven discharges. The amount presented in Spring was ... £296 0 7
The amount now to be presented is ... 290 6 4
The returns of committals from the different Petty Sessions Clerks have been furnished, and require no special comment.

The debt of St Michael's School, as returned by the Manager, was in

Debt of St. Aidan's, New Ross, in Spring
was ... 896 1 2
Present debt, ... 898 19 11

These amounts seem to require explanation.

The presentments are expected to reduce debt, as the five shillings a head contributed by Government is sufficient for the ordinary outlay.

Debts were necessarily incurred at first starting. If now any interference takes place in the application of the presentment to the extinguishing of these debts, and still more, if addition be made to the debts, it appears

right that the Managers should give explanation. At the last Assizes an order was made that the names of children, chargeable to the County, and the expense of their maintenance, should be printed. The lists in Summer Assizes are required to be made up to a date which makes their appearance in the printed list of applications impossible. They may appear in the Abstract of "Presentments granted."

The expenses of maintenance will be best gathered from the Annual Report upon Industrial Schools, which the Secretary to the Grand Jury can always obtain.

INDUSTRIAL SCHOOLS REPORT.

The committee reports that between June 30 and December 31, 1880, there were, as shown by the lists, 8 discharges and 17 admissions—admissions being in excess of discharges. The money asked for now is somewhat in excess of that granted last assizes, being £323 4s. 10½d. as compared to £295 10s. 11d. The presentments to the schools in this county are meant to extinguish original building debts, but the managers of the schools are a little slow in falling in with the intention of the Grand Jury. The debt upon St. Michael's, Wexford, was reported last assizes to be £1153 12s. 5d. It is returned now at £1161 2s. 5d., though the grant at the assizes was £123 8s. 7d. It will be seen in the report on Industrial Schools that a sum of £18 7s. 4d. was spent in 1879 upon "improvements in the buildings of the school." There is no fund for such expenditure except annual income and private benevolence. Still the committee recommend the Grand Jury to draw the attention of the Managers to the addition to the debt without the previous assent of the county. In the case of St. Aidan's, New Ross, error in the last return of the debt has been corrected, and the amount granted has been applied as intended. The detailed reports of the different Petty Sessions Clerks are appended. The law seems to have been strictly complied with in cases of committal.

GEORGE LEHUNTE,
JOHN C. POUNDEN.
C. M. DOYNE.

The Grand Jury taking into consideration the long and faithful services of Mr. Michael Cowman as County Surveyor's assistant, they recommend that whenever an opportunity may occur the claim of his son Nicholas should be favourably considered.

Ordered—The Committee on Industrial Schools report that the number of discharges exceeds that of admissions in the six months ending June 30th. Discharges, 28; admissions, 19. The total sum applied for by Industrial Schools at this Assizes is £314 12s 4d, as compared to £323 4s 10d at last Assizes. The Presentments to the two schools in this County have been applied to keep down the building debts, but in the accounts rendered interest is also claimed, which it will be for the Grand Jury to refuse or allow. In St. Aidan's account a sum of £50 8s 8d has been added to the building debt, without any previous reference to the Grand Jury, and without explanation.

At St. Michael's a new Infirmary has been recommended by the Inspector and Medical Officer, with other

improvements. The total cost will be close on £1,000. The Manager asks that this may be added to the debt, and liquidated gradually by presentments as before. When these improvements are effected, the establishment, it is asserted, will not require any further outlay in building.

Reports from the different Petty Sessions Clerks, with the exception of Enniscorthy, are appended.

Government brings before the Grand Jury a new Industrial school, "The Kilmore Probationary Industrial School," designed to meet a particular class of cases.

The Grand Jury is authorised by Act of Parliament to appoint and empower a Committee to enter into an agreement with the Managers of any Reformatory school for the reception of juvenile offenders.

We find from Mr. Ryan, R.M., that the cases which would be eligible to this Probationary School from this County would be very few, and the expense to the County probably insignificant.

GEORGE LEHUNTE.

JOHN C. POUNDEN.

C. M. DOYNE.

Ordered—That we consent to the request of the manager of St. Michael's Industrial School with regard to the Infirmary building.

Ordered—That the Grand Jury shall arrange with the Managers of the Kilmore Probationary Industrial School for the reception of children under 12 years of age convicted of offences punishable as misdemeanours, and will pay 2s 6d per week as required; and that the following be appointed to communicate with the promoters:—George LeHunte, Charles M. Doyme, and J. C. Pounden, Esqrs.

Spring, 1882.

Ordered—That the Secretary be requested to purchase ten boxes with locks and keys, to be called tender boxes, in which all tenders must be lodged within office hours on or before the day previous to the approaching sessions, in a closed envelope, and endorsed "tender," the name of the Barony outside, or sent by post in a registered envelope directed to the Secretary of the Grand Jury, and marked "tender," and the name of the Barony outside. That the Secretary keep the key in his own possession.

INDUSTRIAL SCHOOLS.

The Committee handed in the following report:—The discharges since the last report here have slightly exceeded the admissions, being 15 as compared to 13. The presentments amount to £321 4s 8½d as compared to £314 12s 4d in the summer of 1881, and to £323 4s 11d in spring, 1881. Such slight variations will always occur. Presentments are made on the collective number of days the children enumerated in the returns have resided. The building debt returned from St. Aidan's, New Ross, is £356 8s 9d as compared to £398 19s 11d in summer, 1880. The debt on St. Michael's is reduced. "Original debt," £944 16s 8½d as compared to £1153 12s 8d in summer, 1880. To this debt £10 are to be added, being the sum expended up to the time out of the £1000 allowed by the last Grand Jury. Returns from the several Petty Sessions, with the exception of New Ross, are appended.

SPECIFICATION FOR KEEPING ROADS IN REPAIR BY CONTRACT FOR YEARS.

IMMEDIATELY after the Contract shall have been perfected, the Contractor must proceed to render the drainage complete, so that no water lodge on or near the road, at any time, by scouring the drains, pipes, water tables, and outlets, &c. Should any additional bridges, or pipes, or any repairs on those existing, be required, the Contractor, after pointing out the necessity for such to the County Surveyor or his Assistant, and getting permission from him, may bring in an application for them at Presentment Sessions in the first year after entering into the contract.

The water tables and existing fences at each side are to be brought to, and permanently preserved at the same level; to be parallel to the centre line of the roadway, and the former to have an efficient fall. The road surface is to be made uniformly convex in its cross section, having a gradual smooth and unbroken slope, free from grass or weeds, from the centre to the water tables, of one inch and a quarter to the yard, and so preserved; and is by darning, &c., to be kept, in all parts and at all times smooth, hard, and free from ruts, large stones, and mud, which last must be scraped off and laid by, off the carriage way in heaps.

Should any part of the road be found, upon examination at any time, to have an insufficient depth of crust, the Contractor should coat such part with stone, broken so as to pass freely in every way through a two inch ring, to supply the deficiency. Upon getting

permission, where good gravel can be readily procured, it may be used instead of stone, but in no case without the consent of the County Surveyor; no stone in such being larger than a medium-sized wall-nut.

The depths of crust that may usually be considered as requisite for the different classes of roads are as follows:—

FIRST CLASS, VIZ:

For all New Roads, Post Roads, and those on which there is a very heavy traffic.—An uniform depth of consolidated metalling, eight inches in the centre, and six at the sides.

SECOND CLASS, VIZ:

Leading Roads of minor importance, upon which the traffic is comparatively partial.—Six inches in the centre, and four at the sides.

THIRD CLASS, VIZ:

Important Branch Roads, viz.:—Four inches in the centre, and three at the sides.

These depths will not, however, be in all cases necessarily adhered to. The County Surveyor shall have the power to vary them as circumstances may require. But such depths must be invariably maintained as will be sufficiently strong to sustain the traffic and preserve a smooth good road.

The stones must be the best that can be procured within one mile of any part of the contract road, and further, if considered necessary. They should be spread during the winter and wet seasons, so as to obviate, as much as possible, the necessity for doing so in dry weather; when if it should become necessary to put them on, the surface should be loosened with a pick previously, to assist in consolidating and keeping them together. They must not be scattered loosely over the roads; they must be laid on closely, and in nearly squared patches, and none larger than the size specified should be allowed to remain in the surface; all such appearing must be picked out and replaced with small ones. Indiscriminate picking will not be permitted. In the cases of rough roads, certain distances to be prescribed and laid out by the County Surveyor, or his Assistant must be thoroughly picked in each half-year.

All pipes and arches, not exceeding three feet span, together with all parapets, range walls, and footpaths, are to be kept in repair. No nuisance of any description whatever to be permitted.

Should any change be made in the line contracted for, or any hill cut, or hollow filled, the Grand Jury shall have the power to discontinue the repairs of the old road, and apply them to the new at the contract price per perch, but the Contractor may apply at Presentment Sessions during the year after the certifying of the Presentment, for any additional amount that may be necessary to enable him to keep the new part in repair for the first year.

—cubical yards of the best stone to be procured in the quarries of— are to be spread on this road within each year, having been previously measured and approved of. They must be prepared, laid in depots, which should be filled, or in convenient places on the sides of the road, completely clear of the carriage way, and so as not to interfere with the water tables, made up in regularly squared or oblong heaps of any convenient lengths, but having a width of 3 feet and height of 18 inches.

This quantity, so prepared and arranged, must be ready for measurement on or before the 1st day of August, and spread on the road by the 1st of March following; and it is to be annually, so expended in strengthening and improving the formation of the carriage way.

In addition to the specified annual quantity, such extra supply of stone must be provided as may be required to fulfil the conditions of this specification for maintaining the surface in good order continually during the whole term of the contract.

There will be but one measurement in each year, and that will be made during the first fortnight of August by the County Surveyor's assistant, who will do so accompanied by the Contractor, to whom he will give notice of inspection, and who must attend with him for the purpose, provided with a copy of this Specification, a pick and shovel. Should the Contractor fail to have the specified quantity prepared, or to attend as hereinbefore described, he will not be entitled to a certificate for payment, and the quantity he may have prepared shall become the property of the public, to be used for the benefit of this road in such manner as the County Surveyor shall direct.

Should any fraud in making up the heaps of stones for measurement be detected, or should any of the stones be removed to another road, or disposed of in any way other than for the repair of this road, not only will the certificate be refused, but the Contractor will be prosecuted, his contract forfeited, and all claim on his part to any part of the material that may have been prepared, or to any compensation whatsoever, shall cease.

No stones to be broken or laid on the road but for the purpose of being spread, and no heaps to remain on during the night. All mud scraped off to be taken away as soon as it shall have become dry enough for removal, and used for repairing fences, for filling gries, &c., according to the County Surveyor's directions. All loose and scattered stones should be removed from the road in dry weather. Cut weeds before they shed seeds; trees, &c, between 30th September and 31st March.

Where any contract passes through a street, the footpaths, channels, and paving must be preserved in good condition, and every particular care taken to prevent nuisance.

The County Surveyor shall have the power to alter any part of this Specification, to suit circumstances, as he may think desirable, but no deviation from it will be permitted without his consent.

No certificate will, in any case, be given where the Contractor has not complied with the terms of this Specification, nor will it be granted unless the road has been kept in repair from the time of entering into the contract up to the time of applying for payment. Should the certificate be at any time refused, the Grand Jury shall have the option to annul this contract, and make a fresh one with another contractor.

Should any misunderstanding arise as to the meaning of the foregoing, or any part of it, or as to whether the Contractor has performed his contract, the opinion of the County Surveyor shall be final.
