RE MEDICAL OFFICERS' SALARIES.

Dr. Lawler, Newtownbarry wrote as follows:-

"I beg to bring under the notice of your Board a mistake which occurred in the recommendations of the Committee of Guardians as drawn up by your Clerk, Mr. Connolly."

"Considering the courtesy and kindness shown me by every Member of that Committee and the unanimous way in which they met the requests of their Medical Officers, I am sorry to be obliged to raise a point of Contention at this Stage."

"Unfortunately I did not see the Scale of Recommendations drawn up by Mr. Connolly till Five Days after it had passed your Board, nor was I present at the Board until Mr. Connolly Mr. Connolly had almost completed reading the Scale that day. That is why the matter escaped my notice and why the point had not been raised before."

"In Oulart and Newtownbarry there are two Fever Hospitals with Salaries of £25 and £30 respectively. They are distinct Offices with distinct Salaries. I told the Committee of Guardians at which I was present that the Medical Officers did not ask any Scale for them, though it had been asked for and granted in the Neighbouring Union of Carlow."

"After a geheral discussion, Mr. James Murphy, The Ballagh proposed taking Ferns Dispensary first. He suggested that the Scale for it be initial salary £120 with £10 increments every five years till a maximum of £160 be reached. That being agreed to, he suggested the same scale for the other Dispensary Districts excepting Enniscorthy, which was fixed at initial £150 same increments to maximum £190. The Workhouse Salarywas then fixed at £140 to £160 by £5 increments. This was all passed unanimously in a few minutes without discussion and no special scale was mentioned about Oulart and Newtownbarry."

"Now Mr. Connolly's interpretation is that a distinction was made between the salaries of the Medical Officers of Oulart and Newtownbarry on the one hand (because of Fever Hospitals) and Ferns, Clonroche and Killanne on the other hand where there are no Fever Hospitals."

"According to him the Fever Hospital Salaries for Oulart and Newtownbarry were either amalgamated and included as one with the Dispensary Salaries or the Fever Hospital Salaries were wiped out

Copyright. Wexford County Archive

altogether. I dont think any sane man would say the Committee wiped out the Fever Hospital Salaries altogether."

"Being/existent then let us analyse Mr. Connolly's Report. The initial salary for Newtownbarry Dispensary works out at £90 a year with £30 additional for Fever Hospital. Oulart initial £95 with £25 for Fever Hospital. The present day salary with increments would be Newtownbarry £120 for Dispensary and £40 for Fever Hospital, Oulart being £119 for Dispensary and £31 for Fever Hospital. Part of the Five Years increments goes to the Fever Hospital Salary in the proportion it bears to the whole. That was never asked for, nor I am sure was it ever intended by the Committee."

"Mr. Connolly in a letter to me on the 18th.- 4 days after the General Meeting of the Guardians- says "Some Members of the Board mentioned the matter particularly as they intend abolishing the outstanding Fever Hospitals." But why have included the salaries in the Scale if they intend to abolish them. Furthermore with Mr. Connolly's Scale what would abolition mean to the M.O's of Oulart and Newtownbarry? A reduction of their salaries to £119 and £120 respectively, whereas the Medical Officers of the other three Rural Districts would with the same years of service have £150 and £160 a year."

"The Medical Officer of Oulart has at present without any scale a total salary of £145 a year and the Medical Officer of Newtownbarry a total of £130 a year. If Mr. Connolly's graduated scale goes through& "the intended abolition of outstanding Fever Hospitals" takes place, the salary in Oulart will be reduced from £145 to £119 under the Graduated Scale, and Newtownbarry from £130 at present to £120 under the Graduated Scale. It strikes me that is graduating downwards not upwards!

"The recommendations of the Committee were that the Scale as applied to Ferns Dispensary applies to the Rural Dispensaries only and the Fever Hospital Salaries of Oulart and Newtownbarry were not considered in the Scale and were left untouched."

"I was too interested, watchful and conversant with facts to allow such a Scheme as drawn up by Mr. Connolly to pass the Committee without a strong protest on my part.&

"The working of Oulart and Newtownbarry Dispensary Districts involve as much labour and expense as any other two Rural Dispensaries

Copyright-Wexford County Archive

in your Union and all I ask is that the Medical Officers receive- as recommended by the Committee- the same consideration as is given in Ferns, Clonroche & Killanne."

"The outstanding Fever Hospitals can be dealt with afterwards as distinct Offices with distinct salaries. You can either try to abolish them or perhaps better still leave them alone."

"The mistake that has been made, I ask to have rectified."

CLERK'S REPLY:-

The Clerk replied as follows:-

"Before dealing with Dr. Lawler's letter relative to the Medical Officers' Salaries, I must first say that it was scarcely an Act of Courtesy to the Board of Guardians to have the contents of that letter communicated to the Public Press before it had been considered by the Board, more particularly as the Statements therein are at variance with the facts of the case."

"Now when the question of the Doctors' Salaries came before your Committee, I submitted to them a Statement showing the Salaries of the Medical Officers as Dispensary Officers only. A Member of the Committee asked whether Dr. Connolly was receiving any salary xx in respect of Oulart Fever Hospital, I answered in the affirmative and stated that the same thing was applicable to the Medical Officer of the Newtownbarry Dispensary District and also to the Medical Officer of the Workhouse, and that their salaries were made up as follows:-

Newtownbarry £100 for Dispensary plus £30 for Fever Hospital.
Oulart £120 for Dispensary plus £25 for Fever Hospital.
Workhouse £100 for Dispensary plus £40 for Fever Hospital.

"The Committee then instructed me to include the Fever Hospital Salaries with the Dispensary Salaries, and this having been done, I pointed out that by fixing these total sums as Dispensary Salaries, it would be easy to abolish Newtownbarry and Oulart Fever Hospitals."

"Proceeding to formulate a Graded Scale, your Committee, first of all considered the suggestions of the Medical Officers, these were rejected. Then taking the existing salaries as a basis, they selected £120 as a minimum for the Dispensary Districts of Clonroche, Ferns, Killanne, Newtownbarry and Oulart. The maximum was next fixed at £160 and was to be reached by increments of £10 every Five Years."

Copyright: Wexford County Archive

"For Enniscorthy Dispensary District,in which there are three Dispensaries and Five Dispensary Days in the week, the Minimum was fixed at £150 and the maximum at £190."

"The caseof the Workhouse Medical Officer was then taken up, and here Dr. Lawler has blundered, he states the salary was fixed at £140 to £160 by £5 increments, whereas the correct figures are a Minimum of £120 rising to £160 by increments of £10 quinquennially."

"That completed the work of your Committee, and the Scale recommended by them was then printed and circulated amongst the Members of the Board, and although each and every Member,including the Eleven Members of the Committee, received a Copy of that Statement, and although that self-same printed Statement showed the amount of Increase each Medical Officer would immediately receive; yet when it was read at the Meeting of the Board on the 14th. December, there was not a single item in it questioned; which would scarcely have been the case had the Report been incorrect as alleged by Dr. Lawler, and even he, although present at the Meeting, did not raise any objection. Thereupon the Board of Guardians not only unanimously adopted the Scale, but complimented their Committee on presenting such a satisfactory report."

"Further, Dr. Lawler, in his letter, states he did not see the Scale until five days after the Board's Meeting. That may be the case, but neverthless he was fully conversant with the contents of the Report, otherwise I could not have received a letter from him by the first Post (8-30 a.m.) on the morning of the 15th. December, the very day after the Guardians' Meeting, and which stated that the Scale submitted by me was wrong and that his total salary should be £190 instead of the £160 shown in the scale, or in other words that his increase should have been £60 instead of £30; and that Dr. Connolly's salary should be £175 instead of the £150 or an increase of £30 instead of £5."

"The Doctor, in his letter, goes on to analyse the salaries of Newtownbarry and Oulart Districts in accordance with his own deductions and endeavours to show by means of various figures, that the abolition of the Fever Hospitals in these Districts would mean a reduction in the Salaries of the Medical Officers concerned, but in this he is also mistaken, because the Scale as drafted guards against anything of this nature, which is more than can be claimed for the existing arrangements.'

"Taking the facts of the case into consideration I fail to see where any grievance exists. The only conclusion I can come to is that the Medical Officers of Newtownbarry and Oulart Districts are not satisfied with the New Scale, the former because his salary has not been raised from £130 per annum to £190 per annum instead ofthe £160 passed by the Board; the latter because his increase has not been from £145 to £175 instead of the £150 granted by the Board. But as matters now stand, the Scale submitted has been adopted and the question can only be re-openedon Notice of Motion."

After a discussion on ths matterthe following Notices of Motion were handed in:-

MASTER'S REPORT.

Cream per Centage.

Cosgrave 12 1/7. Ryan 11 1/3.

The Master reported as follows:-

"The Provisions that have been delivered are in the Boardroom for inspection."

Order. "Satisfactory."

"Please fix a price on the Potatoes."

Order. "Twenty-two Shillings per brl."

"On account of the Contractor failing to supply Sugar, I was compelled to cut down the allowance to one-half."

The Clerk stated that the Sugar Contractor had notified him that he would not be allowed to supply any more Sugar by the Royal Commission. Upon receipt of his communication, he had consulted the Board's Solicitor and acting on his advice had written to the Royal Commission. They had directed him to apply to the Contractor in 1915 asking him to supply 50% of the amount supplied in that year, and should he refuse, to apply to him in writing and in the event of his again refusing to transmit the correspondence to the Commission. He had done as directed, the Contractor had refused to supply on the Grounds that he had supplied the Union out of Sugar he had purchased in 1914.

No order made until the Royal Commission write again.

"On the 26th. January, a child named Joseph Furlong aged 5 years went into the Nursery, where his clothes accidentally caught fire. He died on the 28th. instant. I reported the matter to the Police and after investigating the matter they reported to the Coroner, who did not find it necessary to hold an Inquest."

"Mr, Mc. Carthy, L%G.B. Inspector visited the House on the 30th. instant."

Master's Report Contd.

"On the 10th. January a man named Patrick Ward aged 33 Years was refused admission to the House by the Board of Guardians. After the Board Dr. Furlong ordered him to be admitted to the Chronic Ward. I told him of the Board's Order refusing to admit him and I placed him in the Probation Ward. On the 11th. January I received a note from the Doctor to admit him to the Chronic Ward and if no bed there, to the Infirmary. I sent him to the Infirmary, but he was sent back and I again sent him to the Probation Ward. When the Doctor came he brought Ward up and put him in the Infirm Ward and ordered Joseph Bolger, an old man, to the Dormitory. I then informed him of the Board's Order again, and he told me not to interfere on my peril, as he would put him on his Book, as he had a Chronic Ulcer. Please say what to do?

Order. "Medical Officer to be asked for an explanation as to his action in this case, seeing that the Board had refused admission to Ward."

RE INCREASE OF SALARY.

The Tailor and Shoemaker wrote making application for an increase of Salary.

Notice of Motion.

"Take notice that I will move on this day fortnight, ~~Thursday~~ Wednesday, 14th. February, that the Board consider the question of granting a War Bonus to the Officials."

Signed. James Murphy.

Dr. N. Furlong, Medical Officer, wrote as follows:-

"Please inform the Board that there is no explanation whatever needed in this case, I have only to refer the Board to Article 5 of the General Poor Law Regulations and to request that they will try and induce the Master to understand this Article and to obey the instructions therein contained. Would they please also ask the Master to make an effort to tell the truth occasionally. It was in the Infirm or Chronic Ward that I ordered him to place this man and not at all as stated in his report. I presume the Board were not aware of Ward's Infirmities, for he has many, when they ordered him to leave the House; and as to the man Bolger, there was nothing whatever wrong with him, except that he was earning Eight Shillings a day in England up to a very short time before he entered the Workhouse here."

The Clerk read the Regulations with regard to the admission of Persons to the House and explained that once the man was admitted, it was the Medical Officer who should decide to what part of the House, he should be sent.

In reply to a query from the Chairman, the Clerk stated that if Ward had not been admitted to the House, the Medical Officer could not send him to any particular part of the House.

The Master stated that when Ward came to him, he told him that he had been refused admission by the Board and that consequently he could not admit him. He then went over to Dr. Furlong and brought him back a ticket to admit him to the Infirmary, he had sent him up there, but Ward was sent back and when he was going out he met Dr. Furlong, who took him up to the Chronic Ward.

The Solicitor atated that the Master could use his discretion and admit a Person on a recommendation from the Medical Officer.

The Porter's Admission Book was produced from which it appeared that Ward had been admitted on the evening of the 10th. January, by the Master on a Relieving Officer's Ticket.

Copyright: Wexford County Archive

The Master stated that he had discharged him on the morning of the 11th., but admitted he had not given him a Discharge Ticket.

In reply to a query as to whether he had admitted Ward on the 12th. January, the Master stated that he had refused to admit him on that date, but that Dr. Furlong had brought him up to the Chronic Ward, although he had informed him that the Board had refused the man admission.

The Porter was called before the Board and stated that on the date in question, the Master informed him that he had refused to admit Ward to the House. The latter was in the Hall when the Medical Officer came in and brought him up to the House.

The Solicitor stated that according to the information before the Board, the Medical Officer appeared to have acted wrongly.

In reply to a question from the Chairman, as to how Ward had conducted himself since he came into the House, the Master replied very bad, that he was always trying to get into the Kitchen after the Women and that the Matron had complained to him on several occasions. He was a regular nuisance, he would not stay in the Chronic Ward and had to be put out of the Kitchen on several occasions.

Asked as to what Order should be made, the Clerk stated that it would be better send a copy of the Minutes to Dr. Furlong, as the Master's written Report and Statement to-day were rather contradictory. In the former he apparently had admitted Ward, as he stated that he had sent him to the Infirmary and then to the Probation Ward, there would be no reason for doing this if he were not admitted. In his statement to-day, the Master declared positively that he had refused Ward Admission, and that it was the Medical Officer, who had brought him into the House. Hence it would be necessary to ask the Medical Officer, if Ward was already an Inmate, when he sent him to the Chronic.

Order. "Copy of Correspondence to be sent to Dr. Furlong."

At the request of the Board, the acting Medical Officer, Dr. Pierce, examined Ward and stated that he was suffering from a Chronic Ulcer in the leg and would be better if kept in Bed.

He thinks was directed to keep him in Bed.

MASTER'S REPORT.

T

Cream per Centage.

Cosgrave 12¾ Ryan 11 2/3.

The Master reported as follows:-

"I lodged in Bank to the credit of the Union, the sum of £8 : 5 : 10 made up as follows:-

Farm Produce Sold	£1 : 7 : 0
Flour Bags Returned	3 :14 : 0
Kane's Cottage Rent	1 : L : 0
Repayment of Relief	2 : 3 :10

"On the 8th instant, I informed the Contractor that unless he supplied the balance of his Order for Eggs and Butter. I would purchase same at his expense by 3 O'Clock, he did not supply the Eggs or Butter and I purchased 40lbs. Butter @ 2/2 and 30 doz Eggs at 3/3. I enclose Bill"

The Bill showed that the Goods had been purchased from Jordan Bros. The total cost being £9 : 1 : 8.

Mr. W. Armstrong (Contractor) appeared before the Meeting and complained that he had been rather badly treated over the matter, as he always did his best to keep up the Supplies. He had sent up some Eggs on Wednesday, which he thought would be sufficient until Friday. Thursday was their Half-holiday and just as they were closing, he got a letter from the Master to send up Butter and Eggs. Knowing what he had sent up on Wednesday, he believed there was enough until Friday and consequently he sent up none on Thursday evening. Even granting there was a necessity for purchasing the Goods, he complained that the Prices charged were far above the current rates. On the day in question Eggs were sold at from 2/2 to 2/4 and Butter from 1/7 to 1/10. The Person who supplied the Master charged 3/2 for the Eggs and 2/2 for the Butter.
Continuing Mr. Armstrong stated that a friend oh his purchased Eggs in the same House on the following day at the rate of 2/6 per doz.

"I enclose Query Sheet from St. Joseph's Asylum, Drumcondra for Thomas Murphy."

Order. "Referred to Local Government Board for ihstructions, as the yearly premium asked is £20, whereas the amount prescribed by the Poor Law Regulations is Five Shillings weekly."

"The Provisions that have been delivered are ready for inspection."

Order. "Alright."

AGRICULTURIST'S REPORT.

The Agriculturist asked to have the Farm Committee give instructions as to what was to be sown this years

The Committee having gone into the matter recommended 5 Acres Barley, 4 acres of Oats, 3½ acres Potatoes, 1 Acre of Cabbage, 3 Acres of Green Crop, 3½ acres of Tawny Oats."

Order. "Approved of."

MEDICAL OFFICER'S REPORT.

The Medical Officer reported as follows:-

"A woman named Mrs. Murphy has been medically attended for the last 5 Months without improvement. Benefit would be derived by the woman undergoing an Operation in Rotunda or Coombe Lying In Hospital, Dublin."

Order. "To be sent."

RE PATRICK WARD.

Dr. Furlong wrote as follows:-

"With reference to this case I have very little to add to the remarks you made to the Board on last Wednesday. In his original Report the Master states 'I brought him (Ward) up to the Infirmary, he was sent down from there and I put him in the Probation Ward" In other words I admitted him to the Infirmary and when he was sent down I

Copyright: Wexford County Archive

admitted him to the Probation Ward. Again from his statement before the Board on Wednesday last, it would appear, that though Ward was formally admitted to the Probation Ward on the evening of the 10th. January, he was not legally discharged on the 11th."

"Now as to Ward's character, I interviewed the Matron on Monday and she most indignantly repudiated the Master's statement 'That she had several times complained to him of Ward being in the Kitchen &c! She never did complain about Ward. nor never had occasion to do so."

"Ward is suffering from a tumour or some other Growth pressing on his Brain. Up to a short time ago he was continuously in Hospital, under treatment for this affection for about a year and a half During this long period the Sisters in the Hospital had ample opportunity of being able to form an idea of what sort of person Ward was. They all give him a very good character indeed."

Order. "Chairman ruled that Ward had been legally admitted."

RE REPAIRS TO WORKHOUSE ROOFS.

Mr. Monaghan wrote as follows:-

"The repairs to the Workhouse Roofs will be completed to-morrow (Thursday) evening with the exception of some repairs in the Valley over the Women's Dormitory, which would be about three days work This will have to remain over until the repairs to the chimney Stack in the Valley have been completed. The eave gutters and down-pipes require to be renewed in places. This would take about a week to do."

"The Engine and portion of the Pumping apparatus have been delivered. I expect the remainder in a day or two."

The Clerk statedhe would advise the Board to enter into Contracts for any future works they intended carrying out, as the present method of direct labour was ridiculous, Men were employed to do certain work and there was no one to supervise them, and when Materials were required, it was the Tradesmen who came and gave instructions instead of the Engineer. During the past Twelve Months, he would say that roughly about £500 had been spent in improving the Guardians' property, and if this work had not been properly carried out, the Money was badly spent.

Copyright. Wexford County Archive

The Engineer stated that the cost of completing the Eave Gutters and Down-pipes would be £6 : 8 : 0.

Order. "Enginner to have Gutters and Down-pipes completed at a cost not exceeding £6 : 8 : 0. Meeting of the Finance Committee to be called for Wednesday next to go into the details of the Works carried out for the past Twelve Months."

COSGRAVE'S HOUSE.

The Engineer reported that he would require the extra Carpenter for three days to complete Cosgrave's House.

Order. "Allowed."

WAR BONUS.

In accordance with Notice of Motion duly circulated, Mr. James Murphy moved "That the Tailor and Shoemaker be granted a War Bonus of 20%."
Mr. Lett Seconded.
In reply to a query the Clerk stated that the Men were in receipt of 18/- per week each.
The resolution was passed unanimously.

RE FEVER HOSPITALS.

In accordance with Notice of Motion duly circulated Mr. Cleary moved "That Newtownbarry and Oulart Fever Hospitals be abolished."

Mr. Rackard Seconded.

Mr. Redmond Proposed "That the Fever Hospitals be not abolished."

Mr. Fortune Seconded.

Mr. Milne moved "That the matter be adjourned for a month to ascertain how the Board stood legally with regard to Oulart Hospital and Medical Officer's Residence."

Mr. Binnions Seconded.

A Ltter was read from Rev. J. Maher P.P. Oulart protesting against the proposal to abolish the Hospital.

In reply to a query the Clerk stated that for the past Ten Years, the Cost of these Hospitals was £1021:19;9 of which £639:11:4 was for Newtownbarry and £382 ; 8 : 5 for Oulart. With regard to the patients dealt with, there were 3 in Newtownbarry some Six Years ago, the cost of Maintenance of these including Nursing was about £50 for a six weeks stay in Hospital. There were 2 Cases in Oulart 13 years ago, the cost of which amounted to £18. Had these cases been dealt with in Enniscorthy Fever Hospital, the cost would have been about £14 in the Newtownbarry cases and £2 in the Oulart Cases. The difference was occasioned by the fact that whilst in Enniscorthy there were permanent Nurses in the Fever Hospital and also a Contract for Supplies, when outbreaks occurred in the outlying Dispensaries, it was necessary to bring Nurses from Dublin and to purchase Supplies at Market Prices in the respective Districts. It should also be mentioned that Gorey Union were contributing £25 per annum to the upkeep of Oulart Fever Hospitals.

At the present time the expenses in connection with Newtownbarry Fever Hospital would be about £59 per annum and Oulart £50 less £25 Gorey Contribution.

On a Poll being taken Mr. Redmonds Proposition was carried by 27 Votes to 11 Votes.

Mr. Milne's Motion was then put against Mr. Redmond's, when the latter was again carried by 22 Votes to 19 Votes.

The Chairman declared "That it had been decided not to abolish the Fever

purpose? Was it in order that the Guardians should abolish the hospital? To ask that question is to answer it. The Board of Guardians got control of the hospital in order to carry it on for the purpose for which it was built.

The fact that there has been no serious epidemic of late years is no reason for thinking that such a happy state of things will continue always. In times of peace and prosperity people are apt to imagine that war and famine are things of the past. For years before 1914 a European war was thought by many to be an impossibility. The author of "The Great Illusion" and other writers succeeded in leading many into that belief. What are the facts? Here we are

Oulart, Gorey,
Jan. 23, 1917

The Chairman
Poor Law Guardians
Enniscorthy

Oulart Fever Hospital

Dear Sir,

With reference to the proposal to abolish the fever hospital at Oulart I beg leave to ask permission to make a few remarks before the motion is put from the chair.

Let me say at the outset that I strongly object to the abolition of the hospital. I object in the name and on behalf of the ratepayers of this and the surrounding districts. The predecessors of these ratepayers built the hospital out of funds collected locally. The Committee in charge handed over control of the hospital in trust to the Board of Guardians. For what

the feelings of horror our self-respecting people have always had for the workhouses. Even still, notwithstanding recent improvements, the very word "Workhouse" stinks in the nostrils of many if not all of our people. And if the Guardians have to build new hospitals at enormous expense to replace the ones they abolished it will be poor consolation to remember that Oulart town hospital was abolished to afford a field-day to would-be economists. The best economy, I submit, is to keep in being the institutions you have in view of the probable needs of the future.

Then again, the abolition of the hospital would be a grave injustice to the Medical Officer. It would mean, in effect,

to-day in the midst of a war
the most awful in the history
of the world, a war waged
with unexampled destructiveness
in three Continents and on all the
Seas. Already, too, there are
disquieting rumours
impending famine not in this
country only but in other parts
of the world as well. If the
lessons of history count for
anything there is only too
much reason to fear that
Outbreaks of fever hospital and
Sanitary institutions will all
be needed in the coming years.
Should that necessity arise are
the people of these districts to be
told that the hospital their
forefathers built is abolished
and that there is nothing for them
but the Workhouse? You know

On the last occasion the late lamented pastor of Dulane, my venerable predecessor, Father Kenny P.P. took the field in opposition with decisive results, as will be recalled by many members including the proposer of the motion now before the Board. The reasons against abolition are if anything stronger now than at that celebrated occasion.

I am, Dear Sir,
Truly yours
J. Maher P.P.

cutting down his salary after 16 years of loyal and efficient service. No talk about New Scales or old scales can get over that. To attempt to abolish the hospital would be quite indefensible in normal times. The times we live in are far from normal. Only a few weeks ago the Board of Guardians agreed to increase the salaries of their Medical Officers in view of the high cost of living and working a rural dispensary district. And now, with light-hearted disregard of their own resolution, they are asked to turn round and stultify themselves by reducing a salary they have already acknowledged to be insufficient. This is not the first attempt to abolish Oulart fever hospital. It was tried before.

Hospitals at Newtownbarry and Oulart."

MEDICAL OFFICERS' SALARIES.

The Clerk stated that the next item on the Agenda was Mr. Cleary's Notice of Motion relative to the Medical Officers' Salaries.

Mr. Cleary said there was no use in his proceeding with it after the Division on the Fever Hospitals.

The Clerk pointed out that it would be necessary for him to move his motion, because as the Resolution at present on the Books in connection with this matter stood, there was no Salary cut out for Fever Hospitals, and as the Board had decided to retain these Institutions, it would be necessary to fix a salary for them.

Mr. Cleary then moved his motion to re-open the matter, it was seconded by Mr. Rackard and Passed Unanimously.

Mr. O'Brien then moved "That the Scale as drafted be read as applying to Dispensary Salaries only i.e. That the Medical Officers of Clonroche, Ferns, Killanne, Newtownbarry & Oulart be fixed at a Minimum of£120 rising by increments of £10 every Five Years to a maximum of £160. That the initial salary for the Enniscorthy District be £150 rising on the same terms to £190. That the salary of the Medical Officer of the Workhouse start at £120 and rise by £10 incrrments every Five Years to £160." That the old salaries of the Medical Officers of Newtownbarry and Oulart Fever Hospitals stand at the old Figure of £30 and £25 per annum respectively."

Mr. Bolger Seconded.

Passed Mr. Carstairs dissenting.

RE BALLAGHKEENE DISPENSARY.

Dr. Connolly wrote stating that the Ballagh Dispensary was not yet completed.

Mr. Monaghan wrote as follows:- "I am having the extra work ordered to be carried out to the Ballagh Dispensary carried out by Mr. D. Bolger at a Cost of Fifteen Shillings including Material."

Order. "Approved of."

RE CLONROCHE DISPENSARY RESIDENCE.

Mr. Monaghan wrote as follows:) "I have the necessary repairs to Dr. Delany's residence carried out at a cost of £16 by Mr. P. Hall of Enniscorthy."

Order. "Approved of."

VACCINATION DEFAULTERS.

Mr. O'Dempsey, Solicitor, wrote as follows:- "In reference to L.G.B? letter requiring the Guardians to proceed to prosecute Defaulters. I have a list of Defaulters whom I think there will be no legal difficulties in prosecuting. As regards the selection of a reasonable number of Defaulters to prosecute, I would suggest that all the names be taken together and say six in each Petty Sessions District chosen by lot, by me and the Clerk of the Union. I understand that the L.G.B. consider the matter urgent, and will penalise Members of the Board if steps are not taken."

Order. "That the Medical Officer of the Newtownbarry District, who has not yet supplied his List be again written to, to do so and that all the Defaulters be then prosecuted."

Notice of Motion.

"Take notice that I will move on this day fortnight, Thursday, 28th. February, that the application of Nurse Holohan for an increase of Salary be considered."

Signed. Joseph Williams.

RE MIDWIFERY CASE CLONROCHE?

Mr. N. Browne R.O. wrote as follows:-

"I beg to report having had to employ Nurse Cowman, qualified Midwife, to look after Katie Barron, Galbally after confinement at a cost of 30/- per week."

Copy of Dr. Delany's letter to Mr. Browne:-

"I was called last evening to Katie Barrons, Galbally, suffering from pregnancy (not in labour) and Kidney Disease. Having no one to mind her and with her Mother's wishes, I wired for car for this morning to remove her and recommended them to get Nurse Cowman (trained

midwifery nurse) to stay for the night. During the night Patient came in Labour and child was born; she also became unconscious and had fits and when I called to see her this morning, she was unfit to remove. Please apologise to Master for trouble, but I did what was right in wiring and in forbidding removal under altered circumstances. She requires a Nurse of some training and I have directed Nurse Cowman to stay in charge until I could let you know, when you must either confirm appointment or make other satisfactory arrangements (Nurse has to give injections every four Hours) She will remain on those terms. The Girl's Mother is absolutely useless. As regards payment 30/- per week has been paid here in similar cases."

Order. "Medical Officer to be asked to state where Dispensary Midwife was."

MIDWIFERY CASE CLONROCHE. DT. DL.

Bree, 20/2/17.

Dr. Delaney wrote as follows:-

"In reply to your letter received to-day (Tuesday), I beg to say that I went to see Katie Barron on the 9th. Feb., and found she had a bad change and was unconscious, in which condition she continued for days. Miss Cowman had been asked to come in, and as urgent and continuous treatment was required, and there was no one to go for the Dispensary Midwife who lived five miles away, I asked her to begin to carry it out immediately.

Further, as a nurse was required in continuous attendance for about a week I recommended that she be appointed, as if the Dispensary Midwife stayed in this house, another nurse should be appointed to do duty for the week, and I wrote to Mr. Browne to that effect.

The case was an exceptional one, continuous skilled treatment being necessary and I believe the Patient's life was saved by means of it.

Order. Referred to Local Government Board, with the request to sanction payment in the case.

The amount claimed on behalf of the Nurse was £1 Thirty Shillings per week, and the Clerk pointed out that it would be necessary to refer the matter to the Local Government Board, as the Dispensary Midwife was not engaged at the time of the occurrence, the proper course would have been to have sent for her and then if she had to stay with the Patient, another Midwife could have been procured for any other case that might have cropped up.

WORKHOUSE ROOFS.

The Clerk reported as follows:-

"As directed I have gone into the details of Cost in this matter and I find that the first question about the repair of the Workhouse Roofs was at the Board's Meeting on the 9th. December, 1915. At this period there was a Contract for keeping the roofs in repair at a yearly sum of £40. The Contractor was not giving satisfaction and there was a balance held back from him pending completion of the Work. At the Meeting referred to the Engineer was directed to report on the condition of the Roofs, and he stated, that in his opinion, the sum of £12 would put the roofs in a fair state of repair, but he would not advise that anything should be stopped off the Contractor, on the grounds that as the Contract was entered into before he was appointed Engineer, he did not know what condition the roofs were in at start of Contract. This matter was referred to Solicitor, who advised the Board, in view of Engineer's report, that they should pay the balance due less Twelve Pounds. This offer was made to the Contractor and he refused it, and processed the Board for the amt. due. The case was heard in March and the result was that after hearing the evidence of the Master and Engineer, the Contractor was granted a Decree by the County Court Judge.

In the meantime the Board had ordered the Engineer to get the Roofs repaired by Direct Labour, he employed a Slater and commenced work in February, 1916 and from that date to the present, the amount expended has been £100 : 8 : 10 made up as follows:-

Browne, Wexford.....	Slates.....	£6 : 4 ; 11
Conroy.....	Cement, Lead, Shoots &c.....	5 : 13 : 8
Codd.....	Shoots, Lead &c.	15 : 10 : 11
Donohoe Ltd...	Slates, Lead &c.....	26 : 18 : 1
Kehoe, Plasterer, 66¾ days.....		16 : 13 : 9
Nolan, Attendant, 59½ days.....		8 : 18 : 6
Doolan, Plasterer, 51½ days.....		12 : 17 : 6
Murphy, Attendant, 50½ days.....		7 : 11 : 6

That is the cost up to date, but it will be more, as there are still some Bills to come in, whilst in addition, the work is not yet completed.

RANGE AND WASH TUBS.

The Clerk reported as follows:-

"The erection of a New Range originated from a Report made by the Engineer on the 15th. November, 1915, he was directed to inspect a boiler that had gone out of repair in the Kitchen, having done so he reported that it would cost from £15 to £20 to put it in proper repair, he recommended that a new Cooking Apparatus should be procured instead of repairing the Boiler, as the saving that would be effected in the Consumption of Coal would pay for the original outlay in a short time. He was then directed to inspect the Ranges in Gorey and Wexford Unions and as a result of these inspections, he reported that a New Apparatus similar to the one in Gorey would be erected for about £100."

"At the same time the question of Wash Tubs for the Laundry came before the Board and on the recommendation of the Engineer, quotations to supply new Tubs at £3 : 3 : 0 each were accepted. He wasthen ordered to have Range connected with Laundry, so as to convey Hot Water to the latter Place. This work started in June last and is still unfinished, the cost up to the present has been:-

Cost of Range, Wash Tubs and Fittings.....	£189 : 16 : 3
J. Donohoe, Bricks. Lime &c.....	19 : 13 : 2
Co-operative Society, Boiler.....	6 : 17 : 0
Brennan, Mason, 82 days.....	20 : 10 : 0
Foley, Attendant, 54 days.....	8 : 2 : 0
Walsh, Attendant, 27½ days.....	4 : 2 : 6
Doyle, Plumber, 21 days.....	7 : 17 : 6
Murphy, Plumber, 12 days.....	4 ; 10 : 0
Goldie, do.....	5 : 0 : 0
L. Codd, Iron.....	1 : 1 : 9
Total Cost to date....	£267 ; 10 : 2

The Clerk reported as follows:-

"The question of repairs to Cosgrave's House started on 30th. March, 1916, when a letter was received from Mrs. Cosgrave stating that the roof was in a bad state of repair. The Engineer was ordered to inspect it and report as to the Cost of covering the House with Galv. Iron. He reported on the 31st. May, that the cost would be £45 : 10/-. he was then asked for particulars as to other methods of roofing; on the 28th. June he reported that the cost of covering the House with Slates would be £58 : 18/-, and if the work were done with Asbestos Slates it would be about £6 less. He was ordered to get the work done at once with Asbestos Slates and to have the Walls raised to the same height as the Walls of the adjoining House."

"This House was started in August last and, is, I understand still unfinished, the cost has been:-

Price of Materials.....£110 : 15 : 4

Wages of Men..... 52 : 19 : 0

Total £163 : 14 : 4

With regard to this House, the Engineer has issued a Certificate for an additional sum of £4 : 10/- for Windows, there was no authority given by the Board to have these made other than by the Carpenters employed. In addition a New Staircase has been made, which was not authorised. The Board recommended that the existing Staircase should be changed, the House Carpenter pointed out that it could not be done, I brought his statement under the notice of the Board, when the Engineer stated that the Staircase could be changed, this statement must not have been correct, else there would have been no necessity for a new Staircase.

The Clerk reported as follows:-

"In addition to the other works reported on, there were also repairs executed to the Workhouse Chimneys, the cost of which was £31 : 0 ; 7, being made up as follows:-

Wages.....£15 : 1 : 0

Materials..... 15 :19 : 7

"Apparently the chief cause of the delay in the execution of these works, was the fact that they were started and carried out without Plans and Specification being prepared in the first instance, and as a result of this, you had the Tradesmen waiting the arrival of the Engineer for instructions. Then again the Materials were not all at hand when the works were started, this caused further delay, and it was no unusual thing to have the Tradesmen come down to the Office to look for Materials, when they should have been ready for them."

"The Workhouse Pump is a most unsatisfactory condition and has been so for the past Twelve Months, in fact, it is only on rare occasions that it has been in order, and the Board would be well advised to have the New Pump properly erected, otherwise if it goes out of order, your costly Range will likely get burst up, as it will be necessary to have a continuous supply of Water to the Boiler in it."

ENGINEER'S REPORT ON ABOVE.

Mr. Monaghan, Engineer, wrote as follows:-

"With reference to repairs to Workhouse Roofs a considerable amount of the Money shown in Mr. Connolly's Return was expended in taking up and relaying the old Drains. Deducting the cost of making good the damage caused by the Storms, which occurred since Mr. Doyle's Contract expired, the saving effected on the previous year's expenses for the repairs to the roofs would be at least 10%."

"The cost of completing the range in the Kitchen would be about £1 : 5/-. This is included in the Contract for fitting New Pump and Engine."

Copyright: Wexford County Archive

"When I submitted my report and estimate for the repairs to Kane's House, the Board made an order that the House Carpenter should do the repairs to the windows and doors &c. He is at present making the new Sashes."

Order. "That a Meeting of the Visiting Committee be called for Wednesday, 21st. March, to inspect the work that has been done for the past Twelve Months and report as to their findings. Mr. J. Bolger to be added to Committee and Engineer also to attend."

RE NEW PUMP AND ENGINE.

The Clerk reported that in reply toadvertisement for Contractors for New Pump and Engine Erection, only one Tender had been received viz that of Mr. Mathew Holbrook, Enniscorthy, who tendered at the sum of £15 : 2 : 6 which was 7/6 less than Engineer's Estimate.

Order. "Accepted."

The Clerk asked Engineer if he had received all parts of the Pump, the latter replied in the affirmative, whereupon the following letter which was apparently in answer to one from the Engineer was read from Messrs:- Parkes & Sons, Dublin:- "The following is a copy from the Makers re Fast and Loose Pulleys, and if you would kindly advise us when you return the fly wheel, so that we can urge on the replacement "We are in receipt of your letter of the 25th. instant in reference to the Pump motion sent direct to Enniscorthy Union on the 6th, instant and note contents. As you will find on reference to our Invoice the Pulleys for this frame were duly dispatched and unless the consignment has been mixed with another sent on the same day they must be lost in transit. Will you please therefore request your friends to return the fly wheel to us at once and we will endeavour to trace the Pulleys. We are xxxxxxxx preparing replacement at once in case they cannot be found."

The Engineer in reply to Chairman then stated that the Pulleys had not yet arrived. But that he would have them in time for the Contractor.

The Clerk reported as follows:-

"In my Circular with reference to the Meeting to-day, I drew attention to the High Cost of running the Workhouse at present, and I mentioned some articles as appearing rather excessive, I have been going into this matter since and as a result of my investigations, I find that the Master's Provision Check Account is practically useless as a record, inasmuch as some of the items shown by him as "Consumed" appear to have been arrived at by mere Guesswork, instead of showing the actual quantities consumed."

"The first item dealt with was Soap and I took an average of the amount charged up as Consumed for the past 13 weeks and found the total to be 1960 lbs. or an average of 150 lbs. per week. The Matron, who distributes this article, states that the Maximum Weekly consumption is only 80 lbs, that would be 1040 lbs for the period mentioned. Hence the Provision Check Account shows an Overcharge of 920 lbs. For the Infirmary, which is included in above Totals, the Master shows an average consumption of 67 lbs. per week. The actual amount consumed is 24 lbs. per week."

"The next item was Paraffin Oil and for the period mentioned, the total shown as consumed is 540 Gallons or an average of over 41 Gallons per week. This may or may not be correct. But the amounts charged up against the Hospital, which average 22 Gallons per week, are flatly contradicted by the Sister in cnarge as being excessive She states the maximum amount received by her is 10 Gallons per week and that on some occasions, she does not even receive that amount."

"Item No. 3 is Coal, the amount shown as Consumed for the past 13 weeks is 81 Tons 17¾ cwt. an average of 6 Tons 6 Cwt. weekly Under this heading there is an average of 3 Tons weekly charged against Hospital, whilst the Sister in charge calculates the correct amount as a Shade over 2 Tons. And points out in addition that there is Coal charged up against the Infirmary at the time the Patients were complaining of the lack of Fires in the Wards."

"There is also a question as regards the amount of Candles used, the total for the period being shown at 396lbs. I did not deal with the entire Book, as it was not inked to-date

Copyright: Wexford County Archive

There may be other items, but they must await further investigation I would advise the Board to appoint a Committee to investigate these matters and also the House Management at the present time. Of course as regards the items mentioned above, it will be necessary to get instructions from the Local Government Board, as to how they are to be dealt with."

The Master in reply dealt with the Soap, he stated that the Matron had charge of that article and did not tell him what amount was consumed, it was locked in her Store and he had no access to it. He put down 112 lbs because it was handy to calculate, at other periods he would put down 561bs and at other times nothing, he was doing what the Masters before him did.

Order. "Master to put his reply in writing and the matter to be then investigated by same Committee as are inspecting the Work of Improvement on the 21st. March."

MASTER'S REPORT.

Cream per Centage.

Cosgrave 11 4/7. Ryan 11 1/6.

The Master reported as follows:-

"The Provisions that have been delivered are ready for inspection."

Messrs:- Rackard and Kavanagh inspected and the latter brought back some Eight or Nine Eggs, which he complained were small, ~~Mrxx Rackard exxied~~ some Members ofthe Board were in favour of returning the Eggs, eventually it transpired that the remainder of the Eggs were right.

Mr. Rackard Proposed "That the Eggs be passed."

Mr. Cleary Seconded.

Passed Unanimously.

AGRICULTURIST'S REPORT.

The Agriculturist reported as follows:-

"I beg to report having employed a man to-day for a few days, while we would be getting in the Potatoe Crop, we would want him for about four days."

Order. "Approved of."

MEDICAL OFFICER'S REPORT.

The Medical Officer reported as follows:-

"The Milk Supply is altogether insufficient, if we could have enough for the Children and Bad Patients, it would be a great matter."

Order. "Master empowered to purchase Milk at Contractor's Expense."

"A little patient Annie Bolger requires another special pair of Boots, Also a pair of Crutches.2

Order. "To be procured."

Mr. O'Dempsey, Solicitor, wrote as follows:-

"In further reference to yours of 11thinst., with Memoranda and correspondence annexed.

I am clearly of opinion that the Contractors, Messrs Armstrong, acted with reasonable diligence in this matter, and would not be held liable.

As regards the goods purchased by the Master form Messrs Jordan on 8th February:-

The Master exceed his authority in making this purchase. His direction form the Clerk of the Union reads "notify Contractor in writing that unless "he supplies eggs and butter ordered form him against a "specified time you will purchase them at his expense."

Whether or not the Master received the reply stated by the Contractor to have sent to his notification, the above direction was not sufficient to authorise the Master to make the purchase without further reference to the Clerk of the Union.

The Guardians are therefore under no liability to Messrs Jordan Bros., in respect of this transaction. The proper course for the Board to take now — in view of the goods having been used in the Workhouse — is to make out a Pay Order payable to the Master for the Contract price of the goods he purchased form Messrs Jordan Bros., and hand same to him on his undertaking in writing to indemnify the Board against any action taken by Messrs Jordan Bros.,

I return Memoranda and Correspondence.

Order. "Mr. James Murphy having stated that Messrs:-Jordan Bros. were awaiting a report from their Solicitors, the Board decided to let the matter stand pending further communications."

RE BRITISH BORN WIVES OF INTERNED ALIENS.

It was decided to allow Mrs. Lienau 13/- per week in accordance with the terms of Local Government Board Memorandum of 20th. March, 1917.

L. No. 13,935/1917. Dated. 19th. March, 1917.

Transmitting to be laid before the Board a letter which they had received from Mr. M. Ryan, Whiskey Contractor.

Copy

"I am going to bring before your notice that I have a Contract in the Enniscorthy Union for Whiskey, I took this Contract in last April and I was to supply Messrs:- J. Power's Whiskey 5 Year Old 18 U.P., Messrs:- Power and Sons have not got that Whiskey at present time and if I cannot get it or Messrs:- Power and Sons tell me they wont send out any Whiskey as the War prevents them from doing so. They tell me they have no Whiskey to give me only Whiskey 10 Years old 23 U.P. reduced by Messrs:- Power themselves, which the Board will not accept as I have supplied them with that Whiskey and they have returned it to me. Under those circumstances kindly instruct me what I am to do and if I am under any liability to the said Board for the supplying of this Whiskey, as I have no doubt but legal Proceedings will result. I only have 28/- per gallon for it and I am paying 32/- and still they are not satisfied with it."

Order. "Under the circumstances, it was decided to accept the Whiskey supplied."

Mr. Carstairs Proposed "That we request the Medical Officer to inform us if he could recommend the reduction of Stimulants supplied by one-half."

Mr. Harte Seconded.

Passed Unanimously.

RE TEA SUPPLY.

Mr. James Murphy, Enniscorthy stated that some Traders in Enniscorthy were complaining that Four Chests of Tea had been ordered last week whilst quotations had been invited for one only.

The Clerk stated that he had invited Quotations for Tea from several Contractors, the prices ranged from 3/- down to 2/4, one Contractor tendered at 2/5. The Average price was 2/7½ and 2/8. When he saw the difference between the quotations and the cheapness of the lowest

Tender, he asked that Person if he would supply more Chests than One and on receiving an answer in the Affirmative, he ordered four Chests.

RE PUMP&C.

The Clerk reported as follows:-

"I beg to report that the Contractor for the erection of the Pump and completion of Range has refused to sign his Bond on the grounds that as all the materials are not delivered, he could not bind himself to have the work completed within three weeks, as per terms of Contract."

The Engineer stated that all the parts, with the exception of the Pulleys, were on the spot, and also that the Contractor had started work.

In reply to a query the Engineer stated that the Contractor had started work on his own responsibility and that no one had directed him to do so.

The Clerk pointed out that the Board could not recognise him as a Contractor until his Bond was completed.

Order. "Contractor to be called on to complete his Bond xxxx."

Signed. T. Meehan P.P.

In reply to a query the Clerk stated that the Board of Guardians could not erect a House for the Midwife, it was proposed to do so by Public Subscriptions.

Forwarding Copy of Auditor's Report on his Audit of the Accounts for the half-year ended 30th. September, 1916.

Copy.

"I beg to report that I have audited the Accounts of the Enniscorthy Board of Guardians for the half-year ended the 30th. September, 1916. Duly certified Abstracts thereof are enclosed."

"As compared with the Stocktaker's Return, the Clothing Receiot Book shows numerous excesses and deficiencies."

"The Clerk performed his duties in connection with the Audit, in a creditable manner."

In reply to a query the Clerk stated that it would be hard to explain the second paragraph, as he was afraid the Stocktaker's return was not very reliable. They would be in a better position to compare matters this Half-year Audit, as he had given the Stocktaker, both verbal and written instructions, as to how he was to carry out his duties, and had obtained a promise from him to carry out these instructions, and also to have his report ready for next Meeting.

There were no tenders accepted for the following articles, as the Board considered the quotations were too high:-
Bacon, Butter, Candles, Eggs, Matches, Tobacco & Margarine, Tea.

The Clerk was directed to invite quotations for these articles and to submit them to the Board, in the case of Bacon it was decided to invite Tenders for one or three Boxes.
It was also decided to cut off the Egg Supply during the Winter Months, as they are too dear during that period. They are to be bought during the Summer while procurable.
Margarine was substituted for Butter and the Clerk was directed to invite Tenders.
Quotations to be also invited for Tobacco and Candles.
With regard to Soap it was directed that the quantity consumed should be reduced as much as possible.

RE CLONROCHE MIDWIFERY CASE.

L. No.12181/1917. Dated. 14th. March, 1917.

Adverting to Minutes of 28th. ultimo, containing an entry relative to the proposed payment of remuneration to Nurse Cowman for her recent services in attending a Dispensary maternity patient (Mrs. Barron) in the Clonroche Dispensary District; and, with reference thereto, the Board desire to state that, as the Dispensary Midwife was not engaged on any other duty at the time, her services should have been availed of in this case, The Board have to add that you appear to have stated the Law correctly in this matter at the Guardians' Meeting.

The Clerk stated that he had received a Bill from Nurse Cowman for £1 : 10/- being for one weeks attendance in this case.

Mr. Lett Proposed "That we request the Local Government Board to allow payment in this case, as it was of a very serious nature; whilst the distance from the Relieving Officer and Midwife's residence was so great that the only thing left for Dr. Delany to do was to employ Nurse Cowman, and we consider he acted in a proper manner and save his Patient's life."
Mr. O'Brien Seconded.
Passed Unanimously.

RE RED TICKET CASES.

Dr. Greene, Ferns wrote as follows:- "Kindly bring the following under the notice of your Board at their next Meeting. The number of Visiting Tickets issued in the Ferns Dispensary District is in excess of the Patient's requirements and out of all proportion to the population. For example from the 1st. January, 1917 to the present date 98 have been issued and I have no hestitation in saying that about 50% were quite unnecessary. This prevents patients who really need Medical Attendance from getting sufficient, while I am in consequence (from time to time) obliged to decline private patients. Sundays and Holidays would appear to be specially selected for indiscriminate Ticket issuing and I occasionally miss Divine Service owing to unnecessary Red Tickets. On a recent Sunday being presented with Five. Perhaps your Board would be good enough to instruct Ticket issuers to exercise some discretion in this matter, as even Patient's Residence is sometimes not filled in."

Order. "Wardens to be circularised to be more careful in issuing Tickets"

RE MEDICINE CONTRACTS.

The following Tenders were received, offering the percentages shown off the Local Government Board's Prescribed Lists for 1917-1918:-

Sumner & Co. Liverpool.....10%

Boileau & Boyd, Dublin.....8¾%

Order. "That the tender of Boileau & Boyd be accepted, as they were the Contractors for several years, during which time they gave general satisfaction, as well they are much more convenient that the Liverpool firm."

RE APPLIANCES CONTRACT.

The following tenders were received offering the percentages shown off the Prescribed Lists:-

Fieldings Pharmacy, Cork.....7¼%

Fannin & Co., Dublin.....12%

Boileau & Boyd, Dublin.....12½%

Sumner & Co., Liverpool..... .....15%

Order. "That Boileau & Boyd's tender be accepted for the same reasons as given above, and that we request the Local Government Board to sanction our action in these cases."

"I have received tenders for Rags from several Rag Merchants, which I produce."

Order. "Tender of J. Byrne, Dublin at 3/6 being the best offer was accepted."

MEDICAL OFFICER'S REPORT.

The Medical Officer reported as follows:-

7 "I believe the Pump is now working but there is no water coming to the Infirmary, owing to the Pipes and Cocks being out of order. This should be seen to at once, as it is too bad to have the Hospital without Water."

"The Patients go no Eggs last week and up to the present none this week, The Patients should not be deprived of this most important Diet."

"A matter of minor importance is that no Tobacco has been given to those on the books for the same length of time, those who smoke will know what a deprivation this is."

The Master stated that the Water was now going to the Infirmary, but that some Pipes and Cocks required to be repaired, which the Engineer was directed to see to.

With regard to Eggs and Tobacco, the Clerk stated that when he received the quotations the lowest price for Egss was 2/4 per dozen and Tobacco

was 8/3 per lb. These prices were 9d. per dozen, and 2/- per lb. respectively higher than the last quotations. In view of that increase, he had a consultation with the Chairman and they decided to order neither article until the Meeting of the Board.

Order. "That Quotations be invited from Messrs:- Tarrant, Quinn and others who are buying Eggs through the Country, to see if it would be possible to get Eggs at a reasonable rate."

Order. "That the Medical Officer's attention be called to the high price of Tobacco and that he be asked to cut down the list as low as possible, and that quotations be then invited."

Order. "Refused."

RE NURSES &C. SALARIES.

Mother Conception wrote as follows:-

"I beg to draw under your notice the small salaries the Sisters are in receipt of. They are the same as when the appointments were first made over 40 Years ago. As you are aware the cost of living has increased very much since then, so I trust the Board will favourably consider our application for an increase."

Notice of Motion.

"Take notice that I will move on this day fortnight, Wednesday, 23rd. May, 1917, that the application of the Sisters for an increase of Salary be considered."

Signed. Harold A. Lett.

Dated. 9th. May, 1917.

RE HEAD NURSE FEVER HOSPITAL.

The Clerk drew attention to the fact that it would be necessary that the Nurse appointed to take the place of the late Sr. M. X. Donor, should be a Trained Nurse. The salary paid to Sr. M. Donor was only £35 per year and it would be impossible to get a Trained Nurse for that sum.

Order. "That advertisements be issued for a Trained Nurse at £60 per annum. Preference to be given to a Sister of the Order of St. John of God."

Copy of Advertisement.

ENNISCORTHY UNION.

RE MASTER'S BOOKS.

L. No.19558/1917. Dated. 8th. May, 1917.

Referring to Minutes on the 25th. ultimo and stating that if the Contractors for the Supply of Milk to the Workhouse fail to supply a sufficient quantity of that article, the Medical Officer should be called on to frame an alternative dietary of equal nutritive value, irrespective of cost, as any extra expense thereby incurred must be borne by the defaulting Contractors.

Order. "Referred to Medical Officer."

J. Bolger & Co. Blay Calico 7½d½ per yd.
J. Dempsey & Co. Tweed 2/11 per yd.

For Twilled Cotton Sheeting, Dempsey's sample was marked at 1/2, whilst the Tender was marked at 1/9. It was decided to ask if a mistake had been made, and that if he agreed to give Goods at 1/2 his tender was to be accepted, otherwise Leacy's Tender at 1/8 was to be taken.

RE DIETARY SCALE.

The Clerk drew attention to the large amount of Bread that was being consumed in the House at the present time. For example on some of the Classes, they were receiving 2lbs. of Bread per day or 14lbs. per week, in others slightly less. This was much in advance of the Food Controller's Suggestions, and it would be well if the Scales were revised.

Order. "That we request the Local Government Board toask their Inspector to frame a Diet suitable for the needs of the Inmates during the duration of the War."

RE PROVISIONS AND CLOTHING ABSTRACTS.

Y

L. No. 24054/1917. Dated. 11th. May, 1917.

Referring to Abstracts recently furnished for the purpose of Audit and requesting to have forwarded the Abstracts of provisions and Clothing.

The Master stated that he would have these Abstracts ready on Saturday.

Order. "To be furnished when received from Master on Saturday."

RE BLIND INSTETUTION.

L. No. 22,596/1917. Dated. 5th. May, 1917.

Referring to Minutes on 25th. ultimo from which it appears that the Authorities of St. Joseph's Asylum for the Blind, Drumcondra, decline to admit Thomas Murphy to the Institution at the usual pension of £13 a year; and with reference to the Guardians' request in the matter, the Local Government Board desire to state that in certain cases now being maintained in the Asylum in question they have allowed Boards of Guardians to pay an additional sum of one shilling a week per person during the remaining period of the War, but it is doubtful if a fresh case would be accepted on these terms. The consideration of the question of sending the young man Murphy to St. Joseph's will probably have to be deferred until after the War, when, it is anticipated prices will fall to somewhere near their normal level.

Order. "That the Asylum Authorities be asked if they are willing to take in the Man on the terms mentioned in L.G. Board Letter."

RE DIETARY SCALE.

L. No. 25,500/1917. Dated. 15th. May, 1917.

Referring to Minutes on the 9th. instant and requesting to be furnished with two copies of the existing Dietary Scale for the Inmates of the Workhouse.

Order. "To be furnished."

L? No. 9630/1917. Dated. 15th. May, 1917.
Adverting to Minutes of 9th. instant and asking if their letter of the 8th. instant was laid before the Board of Guardians on that date and if so what order was made, as there was no entry on their Copy of Minutes.

The Clerk stated that the Letter referred to was not received until the day after the Meeting of the Board.

L. No.9630/1917. Dated. 8th. May, 1917.
Adverting to Minutes on the 14th. February last and requesting to be informed what action the Guardians have taken in regard to the rations of the Officers of the Workhouse. As the necessity for rigid economy in certain kinds of foodstuffs is increasing day by day, the Board consider that it is incumbent on them to do all in their power to limit the allowances of these articles, so that they shall approximate to the quantities laid down by the Food Controller, viz., bread 4 lbs, meat 2½ lbs sugar ½ lb per week. Also enclosing a sample scale of rations as an indication of what the Board consider would form a suitable and sufficient weekly dietary. The allowance of cheese, eggs and jam could however be omitted or diminished without reducing the nutritive value below the necessary standard, and requesting that this scale, or one of a similar kind, may be adopted by the Guardians in concurrence with their officials. Failing this, the Board must take the matter into their own hands and "regulate" the allowance, in pursuance of the powers vested in them by statute.

Order. "That a Copy of the Officer's rations be sent to L.G. Board, as their is very little difference between the Scales."

"There were two Illegitimate Children born during the week."

Order. "Referred to Finance Committee."

"By directions of the Board I took Tom Breen from the Gate on Wednesday last and sent him to the yard and put James Lacy on it, he is still sent down town on Messages, without my Authority. Please say what to."

RE TOBACCO.

The Master produced his Provision Checl Account for the week ended 12th. May, 1917, in which he had entered up Tobacco, which had been struck out by the Clerk when checking. This Tobacco had been on the Tobacco Book for the week ended 5th. May, but as none was received on that week, he gave it out to these persons on the 12th. May, when it was received.

The Clerk stated that the Medical Officer put no Persons on Tobacco for the week in question, the entry in Tobacco Book was "0", hence there was no authority to charge anything up in Provision Check Account for that week. With regard to the week ended 5th. May, it would be remembered that quotations received were much in excess of the previous Quotations and as a result the Medical Officer was requested

to revise the Tobacco List and none was purchased for that week.

The Master then stated that he had told the Medical Officer that he had given out the Tobacco for the week ended the 5th. on the 12th. and that the Medical Officer said he thought it was alright.

Order. "Referred to Medical Officer."

The Medical Officer reported as follows:-

"Nothing whatever has been done to the Water Taps yet and all water has still to be carried up to Infirmary."

RE NEW DIETARY SCALES.

L. No. 26496/1917. Dated. 21st. May, 1917.

Wit reference to the entry on the subject in the Minutes of Proceedings of the Enniscorthy Board of Guardians on the 9th. instant, I am direvted by the Local Government Board for Ireland to forward,herewith, scales of dietary for the healthy inmates of the Workhouse as revised by the Boards Inspector, Mr. F.J.Mc.Carthy, in compliance with the wishes of the Guardians, and I am to request that the Medical Officer may be asked what corresponding changes could, in his opinion, be made in the dietary of the Sick, with a view to economy in the consumption of Bread.

Order. "Consideration postponed for one week. Medical Officer to be furnished with New Scale and asked for his observations thereon, and also as to whether he would recommend any changes in the Sick Dietary Scale."

RE OFFICERS RATIONS.

L. No. 26850/1917. Dated. 22nd. May 1917.

Referring to Minutes on 16th. instant and to previous correspondence and stating that they are giving instructions for the issue of an Order under Seal regulating the Rations of the Officers of the Workhouse, so as to conform with the requirements of the Food Controller. It is to be regretted that the Guardians and their Officers did not see fit to arrange a scale or scales themselves on the lines suggested, as has been done in other Unions. Such scales would probably have been more in accordance with the individual tastes and requirements of the Officials concerned than any that the Local Government Board may make.

Order. "That the Local Government Board be asked not to finally decide this question until they have compared the Scale already in force here with their own, from which it will be seen that there is very little difference in the costs."

Donoho Ltd. to the Contractor, Mr. M. Ryan.

Copy.

"We have your letter of even date re Sugar Supply. We were notified by the Royal Commission that our quota would be increased by the quantity arranged as extra supply to you, but since then we have heard nothing further in the matter, nor have we received the Supply. As already advised, when same arrives it will be duly delivered to you."

Order. "Sugar Commission to be communicated with and asked to see that the House is kept supplied with Sugar."

The Engineer on being questioned, wrote a Report to the effect that he had employed them at the rate they Claimed.

Enclosing for the information of the Board of Guardians, an extract from the Return, Form L, furnished by the Medical Officer of the Oulart Dispensary District for the half-year ended the 31st. Cosgrave 10 5/7. Ryan 12.

The Master reported as follows:-

"A boy aged about 12 Years named Michael Murphy, who was out at service, came back to the House, he has been very incorrigible and is not fit to mix with other Children, owing to his conduct. Please say what to do."

Order. "Referred to Solicitor to have him committed to an Industrid School if possible."

"I lodged in Bank to the credit of the Union the sum of £18 : 4 : 11 being for the sale of two Pigs."

"A sample taken by the Food and Drugs Inspector from Milk Contractor Cosgrave proved on Analysis to contain 18% of added water, she was fined £2 at the Petty Sessions Court."

The Clerk stated that the sample was taken from a delivery of Nine Gallons on the morning of the 17th. April, in accordance with the Analyst's Certificate it would contain less than 7½ Gallons of Milk and more than 1½ Gallons of Water, or in other words the price instead of being 1/2 per gallon would be 1/5 per gallon.

Order. "Referred to Local Government Board for instructions as to what action the Board should take in connection with the matter."

"As directed by the Board I made inquiries concerning Laurence Cullen, he was not getting any insurance, at the time he met with his accident he was not insured. He is a native of Clane, C. Kildare."

The Medical Officer reported:- "Laurence Cullen is very lame and unable to work outside owing to spinal trouble. He is Night Man in the Hospital, where there should really be a paid man and the only extra he gets is a little Tobacco."

Order. "Master to find out further particulars and also the exact date on which accident occurred."

RE AGRICULTURIST'S REPORT.

The Agriculturist reported as follows:-

"I beg to report having sold two Pigs to Mr. Denny, Waterford for the sum of £18 : 4 : 11.?

RE COMMITTEE'S REPORT.

The Clerk reported that Messrs:- T. Hayes, J. Bolger, J. Hall had visited the House on the 23rd. May, they had inspected the Range and recommended that an expert be employed to see if it had been properly completed, as it was not drawing well. They also recommended that the Engine House be roofed with Corrugated Iron and that the Store on Women's Side of the House under Ground level be converted into a Potatoe House.

The Clerk stated that he had invited quotations for the Iron since, there was only one firm prepared to supply it viz Co-operative Society, the price would be 9/- per length for 8 Ten feet lengths and 27/- each for two lengths with skylights.

Order. "Committee's Report approved of. Co-operative Society's quotation accepted. Mason to be employed to convert Store into Potatoe House. "

With regard to the Range the Engineer stated that there were other flues opening into the Range flue and that the latter would draw alright when these were stopped up.

Order. "Flues to be stopped up and Range tried, then if it is not satisfactory Expert to be employed."

RE VISITING COMMITTEE'S REPORT.

Messrs:- Thomas Hayes, John Bolger, James Lynch, James Hall and Laurence Harte, Members of the Committee, who visited the Workhouse on Wednesday, 28th. March 1917, have reported as follows:-

"We beg to report having visited the Workhouse to inspect repairs that had been recently carried out under the supervision of Mr. Monaghan."

"We first inspected the Men's Yard, where a Chimney had been taken down and re-built, an old one removed, lead flashing put on two chimneys, twenty new ridge tiles put on a shed, the Baker's House and shed over limehouse repaired."

"In this yard, great lack of supervision was found, many very necessary repairs being left undone, especially the repairs necessary to the Valley over the Men's Dormitory. In this Valley a Chimney was taken down and rebuilt, and we consider that the leaks in the Valley should have been attended to, when the scaffolding was erected and thus avoid the extra expense attendant to re-scaffolding &c. This leak is causing damage to the internal walls."

"We next visited the Women's Infirmary Yard, here also an old Chimney was taken down and re-built in the Valley over Dormitory, another old Chimney removed. Some slates were put on the Chapel and Chimney repaired. The same remarks apply here, want of supervision and many things left undone, amongst which are repairs to the Roof of the Infirmary, Eave Runs on both sides of the Roof, Portion of Ridge Tiles needing attention, Slates off Roof of ~~Dining~~ Hall."

"We next visited the Nun's Apartments where a new chimney stack was built, and in the yard adjacent a new roof had been put on the Wash room and two towers repaired. Here too lack of supervision was seen and work left undone such as provision of Eave Shoots for Male Side of Infirmary and coping on wall of Male Closet."

"The front of the House was next inspected. The weather slating was stripped in many places; the eave runs broken and missing. It appeared that not many repairs were made on this part of the Building."

"On inspecting the Girl's School very slight repairs were visible on this part of the Building. There is nothing particular to mention, but the same complaint applies!- Slates off, eve runs broken, weather slating

Copyright. Wexford County Archive

missing."

"On the Male Idiot Ward, the slates were dangerously loose, and some windows required attention. The Church Door requires painting and repairs, as does also the window in the Shoemaker's shop."

"We consider that the amount spent on Cosgrave's House is much in excess of what it should have been, whilst some of the work was carried out in a careless manner, particularly the Stair-case. We also wish to call attention to the delay in repairing the adjoining House (Kane's), which is in a most dilapidated state. Nearly all the windows are rotten and broken. This work could have been carried out at half the cost while the Tradesmen were there."

"Regarding the New Range and Hot Water Apparatus, this being all purchased by the Board on best Trade Terms, wehave no comment to make; but the sum spent by Mr. Monaghan onthe erection of this Range and Boiler appears out of all proportion to the work."

"Considering the whole work carried out, we have come to the conclusion that a large amount of Public Money has been wasted principally for want of proper superwision, and also for not finishing repairs particularly to the Roofs and Eave Runs and down pipes, when the scaffolding was erected."

The Clerk stated that since the Report had been submitted he had received a letter from the Engineer tendering his resignation.

Order. "Resignation accepted."

The Clerk submitted a Bill from Nicholas Breen for the Hire of Scaffolding during the work of improvements, it amounted to £4 : 9 : 3 the matter was referred to the Finance Committee.

A Bill of £4 : 10/- received from Patrick Hall for making and fitting sashes and parting beads &c for Cosgrave's House was also referred to the Finance Committee.

RE OUTDOOR RELIEF.

Order. "That the attention of the Tuberculosis Officer be drawn to the cases of Mrs. Flynn, Monglass and Martin Kelly, Rathduff, who are recepients of Outdoor Relief and who are suffering from Tuberculosis."

VACCINATION DEFAULTERS.

L. No. 25,285/1917. Dated. 15th. May, 1917.

"The Local Government Board for Ireland desire to inform the Enniscorthy Board of Guardians that they have had vefore them the Medical Officer's Returns, Form L, relating to the several Dispensary Districts of the Union for the half-year ended 31st. March, last."

"The Numbers of Defaulters under the Vaccination Acts in the Union are now most excessive and it appears furthermore that only nine primary vaccinations were performed by the Medical Officers in the past half-year."

"The Board desire to draw attention to previous correspondence on this subject and to state that, unless the Guardians at their next Meeting take effective steps towards enforcing the Vaccination Acts in the Union, the Board will, without further notice, instruct their Solicitor to apply to Court of King's Bench for a Writ of Mandamus compelling them to carry out the Law."

"The Guardians who by their Votes oppose the adminstration of the Acts, would in any proceedings in the High Courts, be named as special defendants with the view to their being held personally liable for costs."

ORDER. "That a Special Meeting of the Board of Guardians be summoned for Wednesday, 30th. May, to discuss this letter from the Local Government Board, and that a Copy of this letter be sent to each Member."

With reference to above letter, copy of which had been sent to each Member of the Board, the following correspondence was also read:- Mr. A. Haughton, Rockspring, Ferns, wrote :- "As there are a great many people in this country, who have a Conscientious objection to have their Children Vaccinated (not to evade the Law) but purely on the grounds that they are of opinion that it would be injurious to the Health of their Children, so I think the way to settle this question would be, if the Enniscorthy Guardians take the lead and pass a resolution

Copyright: Wexford County Archive

to have the Conscientious Clause (Vaccination Act) extended to Ireland and calling on the Members of parliament to lay this before the Government, and also to send a Copy of the Resolution to every Board of Guardians in Ireland asking them to do the same thing."

Mr. M.J. Sheil Hon. Sec. Enniscorthy Anti-Vaccination League wrote as follows:-

"I am directed by the Enniscorthy Branch of the Anti-Vaccination League to forward to you the enclosed Resolution which passed unanimously."

Copy

Proposed by Mr. John Kavanagh P.L.G. Seconded by Mr. Peter Murphy "That this Meeting of Enniscorthy Branch of the Anti-vaccination League representing upward of one Thousand of the defaulters in this District protests in the strongest manner possible against any attempt to enforce prosecutions in Enniscorthy Union. That we highly appreciate the action of those Guardians who voted against the prosecutions and pledge ourselves to stand by them in their resistance of any imposition by the L.G.B. That we claim a right of Conscience such as parents in England enjoy."

A long discussion ensued on the matter during which the Solicitor expressed the opinion that if the Guardians did not enforce the Acts, the Local Government Board would proceed against them and obtain a Mandamus, the cost of which might be anything from £25 to £300 and that the Guardians themselves would be made individually liable for the costs. He advised them to carry out the Law.

Mr. James Murphy Proposed "Thatwe, the Members of the Enniscorthy Board of Guardians, considering that the enforcement of the Vaccination Acts is against the wishes of the vast majority of our Constituents, and being required by the L.G. Board to enforce same, do hereby decide that if the L.G.B. persists in this requirement, we shall have no other course open to us but to resign our Membership of said Board."

Mr. Andrew Doyle Seconded.

Passed Unanimously.

Cosgrave 11. Ryan 12 1/6.

The Master reported as follows:-

"With reference to the Inmate Laurence Cullen, the accident happened seven years ago at Mr. Tim Foley's Monasootha, Camolin."

Order. "Mr. Foley to be written to for particulars."

"The Provisions that have been delivered are in the Boardroom for inspection."

Order. "Satisfactory. Calico which has been delivered is to be returned as it is not up to Standard."

"On Friday morning the 1st. I got an Invoice for Fish from Earle Bros. Grimbsy. I went for the Messenger, Thomas Grannel to go to the Station for it. He told me the Fish was in the Hospital Kitchen and that he brought it from the Station through the Fever Hospital with the Pass-key. He alleges that he got the Key from Sister Alphonsus, who told him on Thursday evening to go to him for the Pass-Key on Friday Morning and bring the Fish from the Station through the Fever Hospital way. This Fish I have never seen or weighed. The Invoice shows 34 lbs and the Consumption 32½ lbs. Friday 1st. Children's Cots came to the House, those I never heard of, nor was I asked if they were required. 2 cwt. of Carbolic Soap came 15th. May with no Invoice. The man told me there was 1 Ton ordered. This also I knew nothing of, there are also other things ordered without my knowledge. I lay these facts before you for your advice as they are contrary to the Rules laid down in Article 64 Nos. 22,23, 25 for my guidance."

"I have sent several times to Mr. Connolly for my Provision Check ending 31st. March and he refused to give it."

"With reference to the 4 lb. Tobacco which I received on 12th. May, I distributed 52 ozs in accordance with the Doctor's Tobacco Book for the 5th. May, as no Tobacco came on that date for the Inmates and Mr. Connolly struck it out of my Provision Check.

Copyright. Wexford County Archive

On the week ending 19th. May, he gave me credit for 24 Ounces of Tobacco, I did not give out and is marked on Tobacco Book as not given by Doctor, he carried a balance of 40 ozs forward that was given out for the 5th. May. I received 3lbs. of Tobacco on 2nd. June and I asked the Doctor on 3rd. Instant if I would give the Tobacco for the weeks He had marked down, he told me he had a letter from Mr. Connolly saying he had no authority to give Tobacco to Inmates not on Medical Weekly Return. He then said I would be safe in giving Tobacco to those on that Book. This I have given out. I would ask the Board for guidance in this matter which is in Article 19."

The Clerk reported as follows:-

"I beg to report that in dealing with the Provisions and Clothing Accounts recently I found irregularities of such a serious nature as to necessitate a Special Report to Local Government Board for instructions."

"As these irregularities may in all probability form the subject of legal proceedings, I would advise the Board to have a Special Meeting of the Visiting Committee called on Wednesday next, 13th. instant, to consider a detailed Report on the matter. I expect to have the Local Government Board's instructions on that date."

Order. "Special Meeting of the Visiting Committee to becalled for Wednesday to go fully into these matters."

"I received 120 dozen Eggs from Mr. Armstrong @ 1/8½ per dozen."

The Master stated he could have procured them cheaper. The Assistant Clerk explained how he had got the quotations and the lowest had been purchased.

Order. "Referred to Committee Meeting."

RE AGRICULTURIST'S REPORT.

The Agriculturist reported as follows:-

"I beg to ask the Board if the Potatoes are to be sprayed this Season, if so it would be well to have the Mixture purchased,"

Also adding that samples of the Milk supplied to the Institution should be sent frequently for analysis in future.

RE STOCKTAKER.

L. No. 28299/1917. Dated. 12th. June, 1917.

Letter
Adverting to ~~Minutes~~ on 29th. ultimo and to previous correspondence and stating that they have sanctioned the Proposed Payment of a sum of Five Pounds with Travelling Expenses to Oulart and Newtownbarry Fever Hospitals to Mr. A. J. Furlong for his services in taking and valuing Stock in the Workhouse and Hospitals of the Union for the half-year ended 31st. March last.

Order. "To be paid,"

RE OFFICERS' RATIONS.

L. No. 29231/1917. Dated. 12th. June, 1917.

Referring to Minutes on 30th. ultimo, respecting the rations of the Officers of the Workhouse and stating that the main object in view is to conserve the supply of the Articles of Food in ~~xxxxxxx~~ which there is a shortage, and the question of cost, which presumably is the Standard by which the Guardians wish the Board to compare their own and the Guardians' scale of rations, is a minor consideration, As a matter of fact however, there appears to be little or no difference in the cost of the respective scales. The Master is presumably aware that he will be held responsible by the Auditor for any Rations issued in excessof the Scale laid down in the Order of the 23rd. ultimo, which came into force on the date of receipt. Adding that the alteration in the rations is only a temporary emergency measure necessitated by the present condition of affairs and that it will not effect the value of an existing officer's emoluments in the event of his retirement on pension.

Order. "Scale to be enforced. Board do not consider Master should be held responsible up to present, as he was not instructed to enforce the new Scale."

RE DISCHARGED SOLDIERS &c.
666

L. No. 103/ M/1917. Dated. 8th. June, 1917.

Giving instructions as to the manner in which disabled Soldiers and Sailors were to be treated and pointing out that in consequence it

should not be necessary , in future, for any discharged disabled man to seek Poor Relief in a Workhouse or Infirmary &c.

Order. "Local Government Board directions to be carried out."

RE SOLDIER'S DEPENDANTS.

L. No. 101/M/L917. Dated. 11th. June, 1917.

Referring to Circular Letters of 26th. January and 24th. March, 1916 and stating that the War Office has intimated that in some Unions, in which it was expected that the number of Soldiers' Dependants admitted would be numerous, that few, if any notifications had been received, and that others had been unduly delayed, as a result of which great hardship had been inflicted.

Order. "Should any cases crop up here, they are to be immediately notified."

RE DIETARY SCALES.

The Medical Officer reported as follows:-

"I do not find it necessary to make any change in the Scale marked by the Inspector. I have marked off 4ozs. per day off the Men's full Diet Scale (No. 3). I do not see that we can reduce any of the others, as there are no Potatoes or other Vegetables.?

Order. "New Scale adopted."

RE BUTTER & EGGS.

666

Mr. O'Dempsey, Solicitor, wrote as follows:- "Having looked into this matter, the liability of the Guardians to Messrs:- Jordan depends largely on what knowledge Messrs:- Jordan had of the usual practice as to executing Orders from the Board. They were never Contractors, but one of the Firm was at one time employed by People who were Contractors. I am therefore of opinion that the Board should defend this Process. If they let it go by default, the Auditor would probably object. Whereas if they are decreed, there will be no great hardships on their paying subject to the Auditor's decision, as to who is liable for the extra expense incurred."

Order. "To be defended,"

Mrs. A.J. Donohoe, Midwife Enniscorthy Dispensary District, wrote as follows:- "Please allow me to ask you to consider my present salary, which is 11/6½ weekly, but owing to the price of food at present, it is not sufficient to support me, especially when taken into account that day and night my duties as Maternity Nurse demand my arduous attention and care, The records of my services for the past 24 years as Maternity Nurse to the Union are before you and speak for themselves. MASTER 'S REPORT.

Cream per Centage.

Cosgrave 10 6/7. Ryan 12.

The Master reported as follows:-

"Butter and Eggs purchased by me on 8th. Feby. last from Messrs:- Jordan Bros, which was advised not to be paid for only at Contract Price, there was a Decree given against the Guardians. Some Person, on behalf of the Board, signed a Consent for Decree for the full amount and costs. In the ordinary course the Contractor for Eggs was responsible, when he failed to supply the Goods after due notice. This admission shows I had a perfect justification in what I did."

Order. "Referred to Solicitor."

"On yesterday morning, 19th. instant, on finding that the Head Nurse elected some time ago, Sister Concilla. was on duty, I went to her and present her with a Book of Store Tickets Issue Dockets for the issue of Goods to the Infirmary for Sick Patients. This Book wassent back to me in the Evening without any explanation and without being filled up for the required goods, I would ask the Board to make an order that she fill up those Dockets in future."

Order. "Sister to fill up Dockets in future."

"The Provisions that have been delivered are in the ZBoardroom for inspection. I would askthe Board to price the Cabbage coming from the Farm."

Order. "Price 1/6 per dozen."

"I lodged in Bank the sum of £15 : 15 : 8 being for the sale of Two Pigs."

RE WAR-BONUS.
666

L. No.30840/1917. Dated. 19th. June, 1917.

Referring to Minutes on 6th. instant and stating that they have sanctioned the payment of remuneration of War-bonus at the rate of Four Shillings per week to Mr. Whitty, Assistant Clerk and to Relieving Officer Browne during the remaining period of the War.

RE BOY, MICHAEL MURPHY.

L. No. 29,231/1917. Dated. 13th. June, 1917.

Adverting to Minutes on 30th. ultimo and to Master's Report thereon, that a hired out Boy named Michael Murphy, aged Twelve Years, has returned to the Workhouse and requesting to be informed when this boy was placed at service and whether the matter was reported to the Guardians or the Local Government Board.

Order. "Referred to Master."

RE INCREASE OF SALARY.

L. No. 28,199/1917. Dated. 12th. June, 1917.

Stating that they have had before them the resolution of the 23rd. ultimo proposing to increase the salaries of the Schoolmistress, Nursing Sisters and Wardmistress of the Workhouse to £45 a year each. The Local Government Board desire to point out that the effect of the proposal means an increase of over 130 per cent in the case of one ofthese Officers, an increase of 50 per cent in another case and an average increase of over 30% in the other cases. The Local Government Board have however sanctioned the proposed increase on the understanding that the existing arrangement as regards the allowances of rations to some of these Officers is discontinued.

Order. "That the Local Government Board be informed that the only Rations allowed these Officers is Milk and that we respectfully request the Local Government Board to still allow us to give this Milk, as it would be impossible for the Sisters to obtain it otherwise."

Copyright: Wexford County Archive

The Superior, St. Joseph's Asylum, Drumcondra wrote as follows:-

"In reply to your favour of the 12th. inst. I beg to say that we would be prepared to admit the Boy Thomas Murphy on the following terms:- Annual Pension £13 and War-bonus of £7 per annum during the present War."

On the motion of Mr. Hayes Seconded by Mr. Harte, it was unanimously decided to ask the Local Government Board to approve of these terms, as it is costing more to keep him in the Workhouse, and unless he is sent to some Institution, he will always be a burden on the Rates."

RE PORTER'S RATIONS.

Patrick Boggan, Hall-Porter, wrote as follows:- "In reference to a New Dietary Scale in force this week. I think it very unfair to me considering that I had not full rations at any time. I had to buy Butter Eggs and Vegetables, and the present price of these takes nearly all my salary. I am only allowed 4lbs. of Bread a week and 3½ lbs. of Meat at present. And I would thank the Board to grant me something in lieu of what was taken from me."

The Letter from the Local Government Board No. 29,232 Dated. 11th. June, 1917, copy of which had been sent to each Member was read:- A resolution for the Enniscorthy Branch of the Anti-Vaccination League as follows was also read:-

"That we heartily approve of the manly action taken by the Enniscorthy Board of Guardians with regard to Vaccination at their Meeting of the 30th. May. We hereby pledge our unflinching support to the Guardians in any future action they may take in the prevention of the enforcement of the obnoxious and dangerous practice of inoculation. We trust they will not deviate one iota from the position they have now taken up, and that they will leave the prosecution of parents who value the Health of their Children to other hands. We hope all other Boards of Guardians in Ireland will adopt the same spirited attitude as Enniscorthy."

A long discussion took place in connection with the matter, during which the Clerk in reply to a query stated that on the last occasion the Local Government Board only obtained a Conditional Order, on the Guardians giving an undertaking to enforce the Acts, the L.G.B. did not apply to have the Order made Mandatory. The costs were about £26 and were paid out of the Rates. He was of the opinion that on the present occasion the Local Government Board would not be satisfied with a Conditional Order, but would have it made Mandatory, then the Costs would be much higher, and would have to be borne by the Members, who opposed the enforcement of the Acts. There was no use in speaking about fighting the case, as the Act stood the Guardians were bound to enforce the Law, and they would not have a leg to stand in if they went into Court.

Mr. James Murphy (Ballaghkeene) Proposed "That we adhere to our resolution of the 30th. May, and if the Local Government Board insist upon us enforcing the Vaccination Acts, we will refuse to take any further action in the Business of the Board until such time as the Vaccination Acts have been amended by the insertion of the Conscientious Clause."

Mr. James Murphy (Enniscorthy) Seconded.

The Chairman put the resolution, but as there were some "Noes", the Clerk

pointed out that it would be necessary to take a Poll on the question. Some Members objected to this.

The Chairman ruled that a Poll be taken, this was done with the following result:-

For the resolution.....19

Against.....5

The Chairman declared the Resolution carried by a Majority of 14 Votes.

At the time the Poll was taken Mr. T. O'Connor had left the Meeting, whilst Mr. J. Hall had left the Room.

RE TEMPORARY MEDICAL OFFICERS.

Dr. T. J. Kelly, Enniscorthy wrote as follows:-

"In view of the general increase in the cost of living and particularly in view of the cost of Petrol for Motor Travelling from 1/- per gallon to 2/11 and Tax. I have five Dispensaries each week. I beg that you will give me a reasonable increase in the Pay allowed me for the Enniscorthy Dispensary, say the addition of £2:2:0 a week to my Emoluments. I was not included in the late increments."

Local Government Board,

Dublin, 29th. June, 1917.

No. 33,141/1917.

Enniscorthy Union.

Sir,

With reference to previous correspondence and to the resolution of the Board of Guardians of Enniscorthy Union of the 20th. instant, on the subject, I am directed by the Local Government Board for Ireland to state that they cannot permit the Guardians to neglect any longer the enforcement of the Vaccination Acts in the Union. The Local Government Board, in accordance with the intimation conveyed in their letter of the 11th. instant, have instructed their Solicitor, Mr. Mecredy, to apply to the Court of King's Bench for a Writ of Mandamus compelling the Board of Guardians to carry out the Vaccination Law in the Union, and to name as special defendants in the legal proceedings the Guardians who by their votes have opposed the administration of the Acts.

I am, Sir,

Your obedient Servant,

A. R. Barlas,

Secretary.

The Clerk,

Enniscorthy Union.

The Clerk stated that on receipt of above letter, he had sent a Copy of it to each Member of the Board, and that he had also written to Messrs:- Mecredy and O'Dempsey, Solicitor asking them for any observations they might have to offer against the Guardians' Meeting. He had received replies from both as follows:-

Mr. Mecredy wrote:- "I am in receipt of your letter of the 30th. ult. I have nothing to say except that I have received instructions from the Local Government Board in the terms of their letter to you of the 29th. ult., and I am accordingly taking the necessary steps to obtain a Writ of Mandamus against the Enniscorthy Board of Guardians to compel them to carry out the Vaccination Acts and naming those

Members of the Guardians who oppose the putting in force of the Acts as Special Defendants with a view to their being made personally liable for the costs."

Mr. O'Dempsey, Solicitor, wrote as follows:- "I am in receipt of yours enclosing Copy of Letter of 29th. ult from L.C.B. As regards the legal position, I beg to refer you to my previous letters and attendances on the Guardians as recorded on the Minutes. The Guardians who, by their Votes, opposed the adminstration of the Acts, may legally be held liable for the costs, their resignation, even if accepted by L.G.B. would be no protection against this. Should the Guardians decide to adminster the Acts, I enclose for their consideration a Draft resolution."

Copy.

"That the Solicitor be instructed to institute proceedings against the Vaccination Defaulters in this Union in the manner already recommended by him."

In reply to a query as to what the result would be the Clerk stated that he believed the Local Government Board would first apply for a Conditional Order, copy of which would be served on the Board and the Members who opposed the carrying out of the Acts, they would be given a certain time within which to defend their action. Then should they still refuse to carry out the Acts, the Order would be made Mandatory. Mr. Lynch wished to know what the Local Government Board would do should the Guardians even then refuse to carry out the Acts.

The Clerk stated they would probably dissolve the Board and appoint Vice-Guardians.

Asked as to what request the Local Government Board letter of 29th. June contained, the Clerk stated there was no request in, simply an intimation that they had instructed their Solicitor to apply for a Writ of Mandamus.

Mr. P. Whelan asked to be taken as dissenting from the action of the Board in refusing to carry out the Acts.

After a further discussion it was decided to make no order on the Local Government Board Letter.

A discussion then took place as to what action the Board of Guardians should take when the Mandamus would be granted. Eventually it was

Copyright: Wexford County Archive

decided to call a Special Meeting of the Board on Wednesday, 18th. July, to consider what action would be taken when the Mandamus had been granted.

The Clerk was instructed to write to each Member and ask them to attend on that day, also to point out that a large number of the Members had decided that if the Local Government Board persisted in forcing the Guardians to carry out the Acts, they would take no further part in the business of the Board until such time the Vaccination Acts had been amended by the insertion of the Conscientious Clause. Members who could not at end to be asked to write their views in connection with the matter. Mr. J. Hall was not present for discussion.

RE WAR BONUS.

In accordance with Notice of Motion duly circulated Mr. T. Mc.Carthy moved "That Nurse Donhoe, Midwife Enniscorthy Dy. be granted a War-bonus of £5 per annum."

Mr. J. Murphy Seconded.

Passed Unanimously.

"Take notice that I will move on this day fortnight, Wednesday, 18th. July, 1917, that the application of Nurse Roche be considered."

L. No. 28,121/1917. Dated. 4th. July, 1917.

"With reference to letters on the subject received from the Clerk of the Enniscorthy Union on the 29th. May last, I am directed by the Local Government Board for Ireland to transmit, herewith, for the information of the Board of Guardians, a copy of a report which they have received from their Inspector, Mr. F.J.Mc,Carthy, consequent on an Inquiry which he has made into the matter of irregularities on the Master's part in the keeping of the Workhouse books. Pages from the "Industrial Return" explanatory thereof and also a copy of the statement forwarded by the Inspector from the Clerk of the Union in connection with the matter are enclosed; and I am to state that, in view of the very serious irregularities on the part of the Master, the Local Government Board consider he should no longer be allowed to retain his position, and I am to request that he may be called upon to tender his resignation."

Copy of Mr. Mc.Carthy's Report, dated 24th. June, 1917.

"I have inquired into this matter and I have ascertained that, while the Stocktaker's Return shows that there were 40 yards of blay calico on hands on the 30th. September, 1916, the quantity of this Article/ shown to be on hands according to the Clothing Material Receipt and Conversion Book on the same date was 130½ Yards. The Master informs me that he explained the discrepancy to the Auditor in March last when the Accounts for the half-year ended September 1916 were under Audit, by stating that there was a roll of this material containing about 100 Yards, in the Matron's Store, which had not been taken into account by the Stocktaker. The Master is positive that this Roll of Calico was in the Matron's store."

"The book kept by the Acting Matron, known as the"Industrial Return of Work done and Materials used," shows, in so far as the figures are in ink and in the Acting Matron's handwriting, that there was no blay Calico on hands at the end of September. The Sister who is acting as Matron informs me that such was the case- that she had used the last yard which was in Stock, for repairs. She further states that if there had been a roll of this material containing about 100 Yards in her

Copyright: Wexford County Archive

Store at the end of September she would have been aware of the fact.

"The Book kept by the Tailor shows that he had 40 yards of Blay Calico on hands on the 30th. September last, and this figure corresponds with the Entry in the Stocktaker's Return, bearing out the statement of the Acting Matron that she had none in her store."

"The figures in the 'Industrial Return' for which the Acting Matron accepts responsibility are:-

	On hands.	Used.	Remaining.
Week ended 7th. September, 1916.	34	33	1
" " 14th. " "	1	-	1
" " 21st. " "	1	1	-
" " 28th. " "	(blank)	-	-

The Master has entered in the Clothing Material Book, under the head of Blay Calico, 34 yards as used by the Matron in the month of September, corresponding with the Acting Matron's figures.

The "Industrial Return" has been altered by the Master in black lead pencil as follows:-

Week ended 7th. September1916 - 100 Yards of blay calico entered as received; 134 entered as total; quantity used changed to 43½ and quantity remaining changed to 90½.

Week ended 14th. September, 1916- 90½ entered opposite "white calico" as on hands and remaining.

Week ended 21st. September, 1916 ditto ditto

" " 28th. " " " "

"On the following page, week not stated, 90½ shown on hands opposite "white calico"; 65½ as used for "repairs, lining"; and 25 shown as remaining. On the next page, week not stated, 25 yards of blay calico shown as on hands and remaining."

"In order to explain the matter more fully. I annex some pages taken from the "Industrial Return" upon which I have copied the figures of the Acting Matron in ink and the Master's figures in lead pencil, as in original."

"Although there was a number of unused pages in this book, a new book was given to the Acting Matron for the March half-year."

"The Master was unable to produce any evidence in support of the entry showing 100 yards as received in the week ended 7th. September or to give any satisfactory explanation of the other alterations in the "Industrial Return" No invoice can be produced relating to the 100 yards in question, and no claim has been made by the Contractor in respect of it."

"The Clothing Material Book which has been prepared for audit for the half-year ended March,1917, contains under the head of Blay Calico, the following entries in ink made by the Master:-

65½ Yards converted for repairs in October, 1916.
25 " " " " " November,1916.

According to the "Industrial Return" no blay calico was on hands or used during these months, and the Acting Matron confirms the accuracy of this record.

The "Industrial Return"for week ended 26th. October last, in which the balanceson hands at the end of the week ended September 28th. are carried forward, shows that there was none of this material on hands. The Acting Matron informs me that no entries were made in the interval between the weeks above mentioned, because no work had been done on account of Stock-taking.

The Master cannot remember how he arrived at the figures 65½ and 25; he states that he had nothing to go upon except that the Clerk of the Union, whom he consulted, told him to account for the 100 yards which the Stocktaker is said to have omitted from his Return, by showing that it was used for repairs. The Clerk denies that the Master consulted him in the matter or that he gave any such advice.

Subsequent to my inquiries at the Workhouse, the Master called at the Offices of the Local Government Board and informed me that his Solicitor had certain documents in reference to this matter with the view of taking proceedings against the Clerk of the Union. In the absence of these documents the Master stated that he was unable to furnish any explanation.

Notwithstanding this statement, I can come to no other conclusion than that the entries in the "Industrial Return" for the week ended 7th. September of 100 yards as received and 43½ as consumed (33 being the correct figure) are false entries, and that the figures 65½ and 25, number of yards entered in the Clothing Material Book as used in the months of October and November last, are equally false, the object which the Master had in view being, as he admitted, to account for the discrepancy of 90½ Yards between the figures in the Stocktaker's Return and the balance shown in the Clothing Material Book for the half-year ended September last.

I have no reason to doubt the Acting Matron's statement that there

Copyright: Wexford County Archive

was no blay calico in the Matron's Store at the end of September, and I think it is a ridiculous defence for the Master to put forward, to say that the Clerk told him to show that the quantity of calico which was unaccounted for, had been used for repairs.

I attach type-written statement which the Clerk handed ~~he~~ me as regards this matter, and also in reference to the consumption of turnips in the Workhouse.

The Clerk states that on examining the Provision Check Account on the 27th. March last he found the following entries in reference to turnips:-

Week ended.	Amount received.	s. d.	Amount consumed.	s. d.
4th. November, 1916	560 lbs.	5 : 0	194 lbs.	2 : 0
11th. " "	560 "	5 : 0	108 lbs.	5 : 0

and asked the Master to explain why 5/0 was charged for the quantity received as well as the quantity consumed. He got no explanation, and the next time he saw the Provision Check Account 560 was erased and the quantity consumed entered instead,

The Master admits that alterations were made- It is quite evident from the book that there have been erasures,- but he states that the alterations were made at the time the book was written up.

The Master's explanation ~~xxx~~ is that he received 5 cwt of turnips each week for a number of weeks from the Agriculturist but that he only entered as received the quantity which was fit for consumption, the balance being returned to the Agriculturist for pig feeding. He understood from a discussion which he had with the Clerk and Assistant Clerk that he should only enter as received the quantity of turnips fit for food.

The Clerk states that his instructions were that only the correct amount of any good received should be entered in the books. The Assistant Clerk states that he gave no instructions on the subject.

The Agriculturist informs me that peels of turnips and also split turnips were returned to him. He could not say what proportion was returned, but he doubts whether he got back as much as half of what he sent.

For the 19 weeks from the 29th. October to the 10th. March last, 94 cwts or 10528 lbs. of turnips were supplied from the farm of which 2755¼ are shown as consumed on the Provision Check Account."

CLERK'S REASONS FOR NOT CERTIFYING ABSTRACT FOR MARCH HALF-YEAR, 1917.

"I cannot certify the Clothing Abstract for the half-year ended 31st. March, 1917 for the following reason.

On the 30th. September, 1916, the Master's Clothing Materials Receipt and Conversion Book showed a balance of 130½ yards of Blay Calico on hands. The Stocktaker's Return for the same period showed only 40 yards on hands. When asked for an explanation as to the deficiency the Master stated that there was a roll of 100 yards of this material in the Store, which the Stocktaker had not taken into account. No further observations were then made as the Material would have to be accounted for in the March half-year.

On checking the Clothing Books for the March half-year I found that the Books, in so far as this material was concerned, had been tampered with in the following manner:-

Taking the Matron's Industrial Return for the September half-year, the Master entered up as received for the week ending 7th. September (Folio 104) 100 Yards of the material. He then changed the amount shown as consumed from 33 yards to 43½ yards, he also changed the balance on hands that week from 1 yard to 90½ yards. Proceeding on the following week he transferred the balance as 90½ yards of white calico and he has entered up this amount as being on hands at the close of the half-year, although there was not a yard of White Calico then on hands.

Commencing the March half-year, he gave the Matron a new Industrial Return, but retained possession of the Old Book himself, and on the first week of the half-year, he entered as consumed 65½ yards of White Calico leaving on hands a balance of 25. Turning over the following week he changed this into 25 yards of blay calico and consumed the lot.

Turning to the Clothing Materials Receipt and Conversion Book, he entered up both lots as Blay Calico.

The Matron knows nothing about these entries in her books, nor did she authorise them to be made.

In connection with this I have to add that up to and including the 21st. April, I made no less than seven applications for the Clothing Materials Receipt and Conversion Book, so that I could check it, but on each occasion I had to return it, the entries not having been inked

Copyright: Wexford County Archive

on the last couple of occasions the only items uninked were the faked entries.

PROVISION CHECK ACCOUNT.

With reference to this account which up to the close of the March half-year had always been checked by the Assistant Clerk, I have to report that on looking over the Book on the 27th. March I found the following entries:-

ARTICLE IN QUESTION- TURNIPS.

Week ended.	Amount received.	£.s.d.	Amount consumed.	£.s.d.
4th. November, 1916.	560	5:0	194	5:0
11th. " "	560	5:0	108	5:0

In these two cases the amounts received were inked. From that date up to and including the 10th. March, the receipts were only shown in Pencil, and in a few cases the amount of the Article was not entered, but the money value was given at 5/- in each case. These turnips were sent in by the Agriculturist from the Workhouse Farm and on looking up his accounts I found that the total amount sent in by him to the Master during the half-year was 10528 lbs. The amount consumed as shown on the Provision Check Account was 2755¼ lbs. This should leave a balance on hands of 7772¾ lbs. or 3 Tons 9 cwt. 1 qr. 16¾ lbs.

Having gone into the question as above stated, I then wrote to the Master as follows, 27th. March, 1917:-

"I beg to draw your attention to the fact that you have charged up as consumed in your Provision Check Account more than the value of the Turnips actually used. In accordance with the amount received by you and the actual figures shown as consumed, you should have on hands a balance of over three and a half tons. Kindly explain." I received no reply to this letter, but when I received the Provision Check Account again, I found that the "Received" entries on the 4th. and 11th. November had been tampered with in the following manner:-

The entry of 560 lbs of turnips on 4th. November had been erased and 194 lbs entered instead, the entry of 560 lbs on the 11th. November had been similarly erased and 108 lbs. substituted.

With regard to the remainder of the half-year the pencilled figures of the amount received were erased and the amounts entered as received were actually those consumed, so that there would be no balance on hands at the

Copyright: Wexford County Archive

end of each week. Reference to the Provision Abstract will show that although ~~xxxx~~ the amount shown as received every week varied greatly, the value charged up was always the same.

Up to the 23rd. May I received no reply from the Master, so on that date I wrote to him as follows:- "I wrote you on the 27th. March drawing attention to some inaccuracies in the writing up and entering of your Provision Check Account and asked you to explain. Since then I have not heard from you on the subject, but I find on further examination of the Account that you have falsified the Book in question by entering therein as received a lesser quantity of goods than you actually received. As I have had no explanation the only course left open is to draw the attention of the Local Government Board to the matter."

Having written the foregoing letter I waited until the 28th. May, then as I had not received any reply or explanation I drew the attention of the Local Government Board to the matter in a Report accompanying the Provision Abstract.

There was a further development on the 2nd. June, when I received at my private address a registered from the Master acknowledging"

The Clerk stated that at the time of the Inspector's visit he had not completed his statement, but that he was doing so for the Audit of Accounts.

Order. "Referred to Master for reply."

RE BUTTER AND EGGS.

Mr. O'Dempsey, Solicitor, wrote as follows:-

"Re Jordan Bros. v Guardians. At Gorey Quarter Sessions on 19th. instant, having satisfied myself, on consulting all the precedents bearing on the case and that the law was directly against the Guardians and that a Decree was inevitable, I consented, on behalf of the Guardians to a Decree, this saved Guardians further expense of Witnesses on both sides."

Order. "That Mr. ODempsey be asked for a full report on the matter."

Copyright: Wexford County Archive

Messrs:- T. Hayes, L. Harte, T. O'Connor, J. Hall, M. Brien reported as follows:-

"On 13th. June, 1917 we enquired especially into the statement alleged to have been made to the Master by Thos. Grannell, as to the latter having received a Key from Sister Alphonsus with a direction from her to bring the Fish in via Fever Hospital Gate. Grannell examined stated he went for the Fish on Friday week by the front gate, returned with Fish by Fever Hospital Gate, opened latter with a Key. Did not get Key from Sister Alphonsus or from any of the Nuns. Cannot remember from whom he got the Key. Gave it back to the Master's Son.

Sister Alphonsus on the statement having been read replied 'That is a lie as far as the Key is concerned! On Thursday I sent for Tommy and asked him whether the Fish had arrived, he said 'No' and I then told him to go down for it the next morning. According to the Fish Invoice received, there would seem to have been 30 lbs. of Fish received for the Institution and 4 lbs. for the Nuns, the latter is a private arrangement.

The Provision Check Account Book shows that on the particular date 32½ lbs of Fish were consumed, though as a matter of fact only 30 lbs. were actually received- the figures according to the Clerk are based on the Dietary Scale and not on the actual consumption. Explanation would seem to be required.

Sister Alphonsus stated that on Saturday night last (9 June), in the Infirmary, Tea was to a large extent substituted for Milk. Investigation showed that there were shown to be on hands that night 99 Gallons. Mr. Power denied but stated that about 2 ozs Tea were supplied because of Special Patients, and that 17½ Gallons of Milk were supplied to the Infirmary on the date in question. Sister Agatha corroborated the statement of the other Nun- more Tea than milk was supplied, but the Tea was indeed very weak- only about 2 Ozs, being supplied 101 patients in the Infirmary.

Sister Alphonsus states that she often saw the Meat come from the Contractor and go straight to the Infirmary without having been weighed by the Master. The latter denied. On the

Copyright. Wexford County Archive

13th. June we took the Master's Milk Stock and found it 80 Gallons short on that date.

We resumed the investigation to-day (11th. July). Sister Ignatius (Acting Matron) stated that on the 26th. May last, the Master being away I was in charge. I had on that date to give the Patients in the Infirmary a Supper composed largely of tea in substitution for milk, as I had only three Gallons of Milk on hands. Provision Check "Receipt and Consumption Account" shows a balance of 436½ Quarts as being on hands on the date inquestion.

We found on examination of the Provision Receipt and Consumption Account that for the weeks ending:-

12th. May.....	976	quart	of	Milk	were	received
	840	"	"	"	"	consumed
19th. May.....	1036	"	"	"	"	received
	826¾	"	"	"	"	consumed
26th. May.....	944	"	"	"	"	received
	852	"	"	"	"	consumed

Showing a consumption of 2519¼ quarts leaving balance on hands of 436½ Quarts.

Week Ending.	Milk received.	Milk consumed.
16TH. June	798 Quarts	835 Quarts
23rd. June	792 "	830 "
30th. June	772 "	811¼ "
7th. July	760 "	794 "

Total quantity of Milk received was 3122 Quarts and the consumption is shown to have been 3270¼ quarts, thus apparently 148¼ quarts of Milk were consumed in excess of the amount actually received.

On Saturday night last, July 7th. the Books show as on hands 246¾ quarts of Milk. Matron says as a matter of fact there were about 3 Gallons or 12 Quarts.

Our investigation goes to show that there is a necessity for an Inspection by a Local Government Board's Official and we request that one may be sent down for that purpose."

Committee's report was unanimously adopted on the motion of Mr. Lett Seconded by Mr. Lynch.

The Master reported as follows:-

"An Inmate named Maggie Franey would thank the Board for Clothes to go out for her Child aged 1½ Months."

Order. "7/6 worth of clothes allowed."

"An Inmate named Mary Wafer would thank the Board for Clothes for her Child, Michael Wafer, aged about 9 years to go out."

Order. "20/- worth of clothes allowed."

"I employed 5 Men on Monday to put in and trim Coal at a cost of 13/6, on Tuesday 5 Men at a cost of 13/-, to-day I have employed 7 Men at 4/- per day and I will require them until the Coal is all in. I would ask the Board for permission to give a Couple of ozs of Tobacco to each of the Inmates working at the Coal."

Order. "Approved of."

AGRICULTURIST'S REPORT.

The Agriculturist reported as follows:-

"I beg toreport that on Monday last 200 Tons of Coal came to the Station, the Stationmaster informed me that after 48 Hours the Waggons would be charged for. I employed Mr. M.J. Whelan and P. Kavanagh to cart it up at 1/6 per ton and also two men to follow our own horses at 4/- per day½"

Order. "Approved of."

The Master wrote as follows:-

"With reference to the Report of the Local Government Board Inspector and of the Guardians' Committee. I explain that as to the Calico, I have now had an opportunity of going through the Books. I have always been confident that none of this Calico ~~was~~ misapplied and that there must have been some explanation of the shortage."

"I was under the impression that the explanation given to me by the Stock-keeper was the correct one, but now having had an opportunity of going back on the books, I find that in the month of May according to the Matron's Book, 10 Yards of Calico were given by her to the Tailor. Assuming that this was not debited in the Matron's Book as occurred in November 1915, this would account for 10 Yards. Further in the month of June, 1916, the Tailor received 25 Yards from the Matron which was returned by him, the Tailor duly debiting himself with this amount, in the return for that month, the Tailor is returned as consuming 19 Yards only of Calico, whereas in point of fact he consumed 44 Yards, that is 19 Yards out of his own Stock and 25 Yards he had received from the Matron. This would account for a further 25 Yards and assuming that a corresponding error occurs in the Matron's Book, it would make double this amount viz:- 50 Yards. Further Mr. Connolly, the Clerk, in the Industrial Books for that half-year has a note to show that the Matron ommitted to account for 30 Yards used and this with the 50 Yards and the 10 yds. already mentioned makes 90 Yards, which accounts for the shortage."

"I further explain that I knew that the entries made by me were not correct and I went to Mr. Connolly and told him my difficulty alleging that I was confident that the stuff had been used. In the course of conversation with Mr. Connolly, it was suggested that it must have been used as repairs and I accepted this view and made the two entries, one of 65½ & 25 yds. for repairs."

"There were apparently 500 Yards received from the Contractor and the entire of this 500 Yards has been accounted for. In the system of Stock-keeping I charges myself with all Stock

Copyright: Wexford County Archive

received and only accounts for it on the Return of the Officers to whom it is handed out and who direct the using of it up."

"As to Turnips, on one day each week I got a quantity of Turnips from the Agriculturist, which were charged to him at the Gross Weight, Clay shanks bad and all included. I first had to get these Turnips picked and the bad ones put aside. The good ones were cleaned and cooked and what was edible was measured at a stipulated quantity for each Inmate according to the Dietary Scale and a sufficient quantity set aside for those in the Hospital as ingredients and then the Refuse was sent up for consumption by the Pigs. I entered the gross amount received by me and then I put down as consumed an amount calculated on the stipulated quantity allowed a Number of Inmates adding thereto the quantity sent up to the Hospital for Ingredients and no explanation was offered for the difference between the gross weight and that actually consumed. There is no Provision in the Book to show how this should be dealt with. I made these entries in my Provision Check Book as same can be seen and they passed the Auditor. Then Mr. Connolly suggested I should change this system and accordingly I did change it by entering as received only what was consumed and then entering the same amount as having been consumed. I of course calculated what was edible and consumed by the number of Inmates according to the Dietary Scale. Mr. Connolly then thought that this was not a satisfactory way and he again suggested a change back to the old system of entering the gross received and then showing what was actually consumed according to the number of Inmates. I made two entries on the latter system in April, but as Mr. Connolly took exception, I admit I went over the Figures and altered the figures as to the consumption. I positively state that the quantities consumed are correctly entered and that the balance was dyly sent out by me for the purpose of feeding Pigs &c. This system has been in existence for a very long time and the existence of it was well known to the Clerk and the Clerk was quite well aware that the amount of Turnips on hand at the time he made his report was entirely fictitious."

"As to the Fish, on the 10th. June, it would appear that 34lbs. of Fish was ordered by Mr. Connolly and that

34

Copyright: Wexford County Archive

34 lbs supplied and the Bill for this came to me unknown to me, there was some arrangements betwe n Mr. Connolly and the Nuns whereby Mr. Connolly included in the amount ordered 4 lbs for the Nuns this making it 30 lbs of 34 lbs for the Union & 4 lb for the Nuns. According to the No. of Inmates, there should have been 32½ lbs consumed by the Inmates by the Food Scale at the time this would be 1½ lbs out of 34 lbs I accordingly entered 32½ lbs as consumed and charged myself with 34lbs. and brought forward the 1½lbs. Mr. Connolly altered my Entries as to this by striking out 34 lbs and making it 30lbs. The confusion as to the 4lbs. is the cause for any surplus or deficiency that has occurred with reference to the Fish and it altogether arose through I not being aware or informed as to the getting of the Fish for the Nuns."

"As to the Meat I say that at all times the Meat came in, it was weighed by me, on occasions I would be absent on its arrival, sometimes away in Dublin with Hospital Patients and some times out on Union business. On these occasions Sister Alphonsus would get the Meat and she would send it where she liked without afterwards informing me thereof. It was rarely that I missed the weighing of the Meat and I have letters from the two Butchers who supplied the Workhouse certifying that I invariably weighed the Meat when I was in the House and those letters are attached hereto."

"As to the Milk I say that I entered down as received the number of quarts of Milk that actually came up to me from the Contractors at all times, all the Milk that is received cannot be consumed as sometimes it sours and turns particularly in the very Warm Summer Months if it has to be kept over any time."

"On such occasions, I use what is actually fit for use and what is unfit is sent up with offal for Consumption by the Pigs, there is no column provided in the Accounts to show what is unfit for human use and consequently what is so unfit remains as debited against me and is so carried in Stock Book, as to the 3270 Quarts referred to in the Guardians Report this shown to have been received for 4 weeks ending 23rd. June and for the same 4 weeks 3386 are shown to have been used and the Guardians allege that this excess in use is an error on the part of me, the figures are set out viz:-

Copyright: Wexford County Archive

Received....	864	Used....	840
"	816	"	881½
"	798	"	835
"	792	"	830
	3270		3386

"The Milk charged as consumed is estimated on the Dietary Scale by the number of Inmates. When Milk is plentiful I, by greater economy, in distributing it amongst the patients worked down the balance that had accumulated against me by the Sour Milk &c. in the supplies for the previous part of the year. The 246¾ quarts of Milk balance shown to be on hands by my Books would be a fictitious balance for the reason mentioned for as already stated part of the Milk supplied could not be ~~xxxxxxx~~ consumed by the Inmates. There is no col. to show this and is always brought forward as against me. I absolutely denies that there was anything approaching dishonesty on my part. I have endeavoured always to fulfil my duties faithfully and honestly to the Board and I submit to the Board for their consideration that the House is now in much better discipline than it was at the time I came. I have done my best to effect econmies as may be seen by a comparison of my Book with those of previous Masters and I state that the entries made in the Books were not deliberately falsified and that the whole question of these Irregularities is due rather to the fault of the system in vogue than to the fault of me. Some of the items which are now questioned have been checked by the Officials in the past, and the value of the total amount in question is almost negligible. I would point out also that according to the Stock Book on the 7th. July, 1917, all the Tea had been used up, whereas in point of fact the Committee found 1lb 1b in the Store in addition to a three days supply that had already been used, and which was not entered in the Stock Book. I submit that if I were in any way inclined to be dishonest that was an opportunity that I could have easily availed myself of and the value of this Tea would be almost as much as the value of all the other items now brought against me."

"I would further point out that it was only late yesterday evening I was furnished with the Report of the L.G.Board

Inspector and also the Report of the Committee by the Clerk and this left very little time for the preparation of my Statement. I also asked the Clerk for an Inspection of the Matron's Book which was not afforded me."

Order. "Referred to Local Government Board."

RE TEMPORARY MIDWIFE.

Mr. N. Browne R.C. wrote as follows:-

"I beg to report that owing to the death of Nurse Dundon's Son, I engaged Nurse Pierse, Court Street, Enniscorthy to do duty for Killanne Dy. Dt. as temporary Midwife for three days, at a remuneration of £1 per week."

Order. "Approved of subject to sanction of Local Government Board."

The Clerk reported that he had been served with Copy of the Conditional Order obtained by the Local Government Board against the Board of Guardians. It stated that in the event of the Order being made absolute application would be made to have the Costs paid by:- James Murphy, George Carty, John Quinn, Thomas Furlong, Joseph Williams Nicholas Whitty, Stephen Mc.Guinness, John Culloh, Peter O'Brien, Robert Rackard, Michael Kennedy, Albert Slye, Peter Kehoe, Joseph Shea, Laurence O'Brien, James Lynch, John Kavanagh, James Murphy & Thomas Mc.Carthy.

All above members, with the exception of Mr. Kennedy, were present and had been served with a Copy of the Order.

Mr. Peter Cooney wrote as follows:- "I am in receipt of yours re Vaccination QQuestion, as I cannot be at the Meeting to-morrow, I beg to say I would be in favour of the Guardians adhering to the resolution adopted by a large majority number of Members on May 30th. viz:- To resign in a body."

Mr. John Bolger wrote as follows:- "I am very sorry I cannot attend the Meeting to-morrow, as I have had a Telegram this evening from Mr. Gill, Secretary of the Department of Agriculture to say he is coming to see me to-morrow. I shall be willing to agree to the majority of the Board in whatever action they may take regarding the Vaccination Question. It is a matter for serious consideration which course to adopt. My great objection is and has been, why we in Ireland should not have the same privilage as the English People in this important matter."

Mr. C. Dempsey, Solicitor, wrote as follows:- "Referring to my interview with you to-day and to Messrs:- Mecredy's letter of the 13th. Upon service of the Conditional Order, the Board of Guardians will have ten days thereafter to enter an appearance should they intend to do so. But any steps on their part will be futile, as the Law upon the matter was fully discussed and the liability of Boards of Guardians definitely laid down in a recent contested case in the High Court. As regards individual Members of the Board named as Special Defendants, it is open to them to enter individual appearance as they may themselves be

advised. Members not so named will not be liable for costs of these proceedings as at present instituted. Whether or not the Guardians resign as proposed it will be open to the Local Government Board on confirmation of the Conditional Order, to have an Officer appointed to carry out the Vaccination Acts."

The Clerk stated that since the Meeting commenced, he had received a further letter from Mr. J. Bolger as follows:- "I received a letter this morning from Sir Thos Esmonde, who is at present in London in reply to a Letter I wrote him a few days ago, pointing out the serious position we are in, in this County re the enforcement of the Vaccination Acts. I asked him to take some steps in the matter at once. He states in his letter to-day that he had an interview with Mr. Duke, Chief Secretary, who promised him that he will consider the question of giving a Conscience Clause, if substantial proof of Irish opinion is in favour of it. Sir Thomas is asking him to order the suspension of legal proceedings. Under these circumstances it might be well to postpone any decision of the Board to-day on the matter. Sir Thomas also recommends all the Councils to pass a strong resolution to this effect and have them forwarded to Mr. Duke."

A discussion took place in connection with the matter and eventually it was decided to take no notice of the Conditional Order,

Mr. T. Mc.Carthy Proposed "That we hereby re-iterate our demand for the extension of the Conscience Clause of the Vaccination Acts to Ireland. That we unanimously re-affirm our intention to abstain from further attendance at this Board if we are compelled to enforce by prosecution the Vaccination Laws as at present applied to this Country. That Copies of this resolution be sent to all Public Bodies in Ireland and that we direct their attention to the fact that Parliament has indirectly promised a Measure of Reform if demanded generally."

Mr. J. Murphy Seconded.

Passed Unanimously.

Copies were ordered to be sent to the Chief Secretary and County Members.

It was then decided that the Clerk should notify each Member if the Conditional Order was made mandatory and they would not attend after that date.

MINUTES of Proceedings of the Board of Guardians at a Meeting held on Wednesday the 25th. day of July 1917, in relation to the Boarding or Hiring Out of Children, and under the Infant Life Protection Act.

RE BOARDED OUT CHILDREN.
6666666666

L. No. 35917. Dated. 21st. July, 1917.

Forwarding, to be laid before the Board of Guardians, the substance of a Report which they had received from their Inspector, Miss Browne, regarding the Children boarded out or hired out in the Union, under the provisions of the Pauper Children (Ireland) Acts, 1898 and 1902; and requesting that the Guardians would give their careful consideration to the several matters adverted to in this report.

Copy.

"There are at present 41 children boarded out by the Guardians under the Provisions of the Pauper Children (Ireland) Acts 1898-1902.

The Boarding-out system is working very well in this Union. The foster homes are, on the whole, very good.

The Children are in all cases well cared for and kindly treated. Some of the Children, especially the girls, are a great credit to their foster-parents, and well repay them for the care and attention they have bestowed on them. The elder girls can all bake and sew and do general light house-work. They will therefore, in the future, be fitted for good situations, and be self-supporting.

The personal cleanliness of the children is good. Their clothing is very fair, but the foster parents have great difficulty in keeping up an adequate supply, especially for the elder children. The present sum allowed i.e. from 3o/- to £2 annually, is quite inadequate under the present war conditions and increased prices of materials. The price of boots and woollen goods is now so high that it is impossible to clothe the children as they should be, for the sum allowed at present, especially so in the winter months. I would suggest that the Guardians should increase the amount to £3 annually for Children over ten years of

Copyright: Wexford County Archive

of age and allow £2 annually for children under 10 years.

At present the foster-parents are supplementing the allowance out of their own pockets rather than see the children go without the necessary clothing. This is not fair to the Foster-parents, especially as some of them are no in very good circumstances and have to work hard for the money for their own needs. Very often indeed they have to deny themselves things, in order to buy the necessaries for the Children.

The Children's health is on the whole satisfactory.

Seven Children have been removed from the boarded-out Register since my previous inspection. These Children are hired out. They appear to be in good situations and to be doing well. Post Office Savings Bank Books should be procured for these children and their wages should be lodged regularly to their credit.

Nellie Neill has improved greatly in health since having been boarded out.

Statia Murphy has recently had a severe attack of Measles. Her throat still seems to be inflamed and her tonsils much enlarged. I would recommend that she should be medically examined.

Thomas Tobin, recently boarded out, appears to be a delicate child and to suffer from rickets.

Mary Russell would appear to have enlarged tonsils and adenoid I would recommend that she should be medically examined.

Bridget Kelly has imporved greatly in health since my previou inspection, and is a credit to her foster-mother's care.

Eliza Brien has very much enlarged tonsils. I would recommend that she should be medically examined. She suffers from very frequent and severe colds.

Anne O'Neill aged 13½ years, does not appear to be very robust. I would recommend that she should be kept on the boarded-out Register for another year. She would not be strong enough to be hired out for some time, and would not be fit for any kind of hard work.

Maggie Doran has some badly decayed teeth and would require to have dental attention

George Reilly's school attendance is very irregular; his foster-mx

parent should be warned to have him sent regularly to School in future.

Part 1 of the Children Act, 1908, is not enforced in this Union. There is very great need for its enforcement.

Order. "Foster-parent of George Reilly to be written to, to send him to School more regularly. No action taken with regard to remainder of Report."

Relieving Officer Browne submitted his Report for the month of July, which was ordered to be forwarded to L. B. Board with Minutes.

MASTER'S REPORT.

CREAM PER CENTAGE.

Cosgrave 10½ Ryan 10 4/5.

The Master reported as follows:-

"With reference to Dr. Furlong's Report referred to me for explanation. About 25 Minutes past 12 o'Clock on Wednesday, 15th. instant, the day of the Meeting a Tap came to the Boardroom Door. I heard the tap and opened the door. An inmate named Margaret Murphy was outside and handed me the Book, whimh I knew to be the Doctor's and I immediately brought it up without opening it and placed it on the Table opposite the Chairman. It is not therefore correct to say that the Messenger was intercepted by me or that I had anything to do with keeping the Report from the Board. As a matter of fact at the time I had no reason whatever to anticipate any hostile Report. There is no regular rule applies with regard to haning over the Book, sometimes the Book is handed by the Servant whom the Doctor sends to the Clerk or the Assistant Clerk or sometimes to me and occasionally left at my Office and at other times left in the Boardroom. I cannot clearly recollect what happened as to the 29th. May, the 6th. and 12th. June but I emphatically state that I never on any one occasion intercepted the Doctor(s Book and deliberately withheld it from the Board. With regard to the 6th. July, it is quite evident that the Medical Officer's Report was before the Board as the Medical Officer states that the latter part of the Report was not definite. With regard to the days referred to in the Medical Officer's Report as to the shortage ~~of milk~~ of milk, on one of those days I was away in Dublin with a Patient, on another day I was in Wexford with my Solicitor, and on the 3rd. day I was here an no complaints were made of any shortgge."

Order. "The Board considered the Master's explanation with regard to the Medical Officer's Book satisfactory."

"I have to inform the Board that most valuable Books are about to be removed from the Workhouse for instance, Indoor Registers, which have very often to be referred to for Old Age Pensioners even these Indoor Registers with some of the present Inmates names in so

that when an Inmate is Dead, I would not be able to get the date of Admission. They are packed up and I ask your immediate difection."

The Clerk stated that these Books had been packed up in accordance with the directions of the Board on receipt of a Circular Letter from the L.G.Board to the effect that old Books could be disposed of. They had given instructions what Books were to be retained and these instructions had been carried out. The Books had been packed by the Assistant Clerk and consequently were in order. It would be easy to ascertain the ages of the very few Inmates that were in the House for any lengthened period before the Books were sent away. The Board were doing well, as they were getting £10 per Ton for their Waste.

Order. "Local Government Board to be asked if it is permissable to dispose of these Books."

"I lodged in Bank to-day the sume of £88 : 4/- being for Hay sold.W

"I would thank the Board for one Month's Holidays. One week to be taken next week."

Order. "Leave granted. Mr. A.J. Furlong to do duty at the usual remuneration of £1 : 10/- per week."

"A woman named Mrs. Hamilton and her four Children are seeking admission to the House."

It having transpired that this woman's Husband was working in the neighbourhood, it was decided to admit the Woman and Children provisionally for one week, the Clerk to write to the Husband and inform him that if he did not take them out, the Board would proceed against him.

RE OATEN STRAW.

Order. "That the Oaten Straw be sold by auction."

The Medical Officer reported as follows:- "Annie Trayner, who was up in Dublin before for an Operation, has lost all her teeth. Would the Board either send her up to a Dental Hospital, or give an order to the Dentist here to give her a set of Teeth."

Order. "Cost to be ascertained."

RE IRREGULARITIES MASTER'S ACCOUNTS.

The Clerk reported as follows:-

"In checking off the usual weekly Returns for Local Government Board last week, I came across an Entry in Medical Weekly Return, which had not been classified by the Medical Officer, whereas it had been classified by the Master in the Diet Class Book, I made inquiries from the Medical Officer as to the cause and he informed me that the Person had not been admitted to Hospital at all."

"I asked the Porter for the Admission Ticket, as the name also appeared in his Book, but he told me he had not got one, and further that he had neither seen the Patient go in or out of the House, but that he had been instructed by the Master to make the Entry in his Book."

"The name in question was "Ellen Kelly". She had been admitted to the Hospital on the 11th. July and on the same date, on the recommendation of the Medical Officer, the Board decided to send her to Dublin for Special Treatment. She took her discharge from the Workhouse on the 12th. July and did not return."

"She was brought to Dublin by the Master on 20th. July, and as it is not legal to send any Patients to Dublin for treatment unless they are inmates of the Workhouse, it is obvious that the entries in the Books were made for the purpose of trying to legalise the matter."

"I asked the Local Government Board for instructions as to how I should deal with the matter and acting on the reply received, I have struck out the entries in connection with the case in the following Books:- Diet Class Book, Medical Weekly Return, Indoor Relief List, Indoor Register, Admission and Discharge Book and also in the Porter's Admission Book and his Discharge Book."

"The Board of Guardians will, of course, be responsible for the maintenance of the Patient in Hospital, asshe was brought there by one of their Officers, but in all probability the payment will be questioned by the Auditor."

L. No. 39163/1917. Dated. 27th. July, 1917.
Acknowledging receipt of Clerk's Letter of 26th. instant respecting irregularities in the Master's Books in the case of Ellen Kelly, recently admitted to, and discharged from, the Workhouse of Enniscorthy Union and stating in reply that the course suggested by the Clerk i.e. striking out the false entries, and correcting the totals in the admission and discharge Book, would appear to be the proper one to adopt in dealing with the case. Also stating that would address a further letter with regard to the payment for this woman's maintenance whilst in exterm Hospital.

L. No. 39,163/1917. Dated. 27th. July, 1917.
Adverting to letter of 26th. instant and stating that they are advised that on the facts as reported, the Board of Guardians of Enniscorthy Union are liable for the cost of the maintenance of the woman Ellen Kelly, referred to in your letter, in the Extern Hospital. The Master's conduct in the case was grossly irregular, and you should report the circumstances to the Guardians so that they may deal with the matter at their next Meeting, when the Board's letter of the 28th. instant calling for the Master's resignation forthwith will be before them.

Note by Master on his Report Book:-

"A patient named Ellen Kelly was admitted by me on 19th. July and after admission was given a pass to see her mother to get Clothes for Operation. This Patient was struck off my Register by the Clerk. Please say has he authority to do so."

In reply to a query from a Member the Master stated that he admitted the Girl and gave her a discharge to allow her to go home to her Mother to get Clothes and meet him at the Train the following morning.
Mr. Lett remarked that the Master had then apparently discharged her.
The Master stated that he did not discharge her, he only gave her a pass out and that she met him the next morning when he was going to the Railway Station.

Order. "Referred to Master to give explanation in writing."

L. No. 38,194/1917. Dated. 28th. July, 1917.

"The Local Government Board for Ireland desire to inform the Board of Guardians of Enniscorthy Union that they have had before them a letter received from the Clerk of the Union on the 23rd. instant enclosing the explanation received from the Master of the Workhouse with reference to recent complaints made as to irregularities in his Accounts together with a copy of the Clerk's reply to the Master's statements."

"In reference thereto the Local Government Board have to point out that in the report of their Inspector of the 24th. ultimo as regards Blay Calico he stated 'I can come to no other conclusion than that the entries in the Industrial Return for the week ended the 7th. September of 100 Yards as received and 43½ as consumed (33 being the correct figure) are false entries, and that the figures 65½ and 25, number of yards entered in the Clothing Material Book as used in the months of October and November last, are equally false.'

"In the explanation now furnished by the Master he states 'I knew the entries made by me were not correct.'"

"When the Inspector was inquiring into this matter the Master informed him that he was positive there was a roll of Blay Calico containing about 100 Yards in the Matron's store which the Stocktaker omitted to include in his return when taking Stock for the half-year ended September 1916, and this is the explanation which he gave to the Auditor. The Master now recedes from this position and endeavours to show that the missing 90 yards was used but not accounted for during the half-year in question."

"The Master also admits that by greater economy in distributing milk amongst the Patients he worked down the balance of milk which had accumulated against him, and this is a confession that he entered in the Provision Check Account as consumed milk which had not been received or issued."

"It must be obvious to the Guardians that in view of the very serious nature of the admissions of the Master that he deliberately made false entries in the books in order to account for the deficiency in the quantity of Blay Calico on hands and also as to his manipulation of

the Provision Check Account in regard to the/Milk, he cannot be permitted to remain longer in Office, and the Board must request that they will call upon him to tender his resignation forthwith."

A discussion ensued in connection with the matter during which some of the Members expressed their opinion that an Inquiry should be held into these Irregularities.

Messrs:- Doyle & Lett contended that it was on account of the Master's own admissions with regard to the Accounts that the L.G.Board were calling for his resignation.

The Master stated he did not admit any falsification, it was only a clerical error.

Eventually after further discussion the following Order was made:-

"The Board consider that the Local Government Board should accede to their request asking them to send down an Official to publicly investigate these matters fully or else hold a Sworn Inquiry into them. The Master to be supplied with a Copy of L.G.Board Letter."

MASTER'S EXPLANATION.

I made the entries and although not strictly correct, I did not believe

that I was doing anything that was absolutely wrong in making the entries and I made them after consultation with the Clerk.

With regard to the Milk, the system is entirely responsible for the alleged irregularities. There is no way of showing what become of the Milk that goes wrong by becoming sour or otherwise and it must be returned as against me. This same thing has occurred time and ~~again~~ tine again.

As to the Girl, Ellen Kelly, what really happened was that this girl called to the Workhouse on a Board-day, she came in on Dr. Pierse's ticket, the Porter brought her to Hospital when the Doctor examined her and certified that she was suffering from Cataract and a case for Hospital in Dublin. The Doctor entered her in the Book as a Patient and marked her down for Hospital Diet, the Porter on her admission entered her down as admitted. I took the entry from the Porter's Book as if she was in Hospital patient. The girl in the meantime had gone out after been examined by the Doctor this was on 11th. and 12th. The Discharge been given by the Doctor on 12th. On this girl been certified for Dublin Hospital, I applied to and procured a ticket from the Royal Victoria Eye and Ear Hospital and the girl was sent for to go to Dublin, she came on 19th. about 3 o'Clock P.M. and came to my Office and remained until about 8 o'Clock, her Mistress sent for her in order to provide her with underclothing for Hospital and I thereupon gave a Pass Out from 8 P.M. until 6½30 a.m. next morning. The Porter did not see her coming in as he was out on business and I instructed him when he came back to enter her down as a Patient which he did, I met her next morning some little time before 7 o'Clock in the morning as she was coming to the Workhouse and brought her to the Train and to Dublin. No food charged for this date. On 11th. and 12th. there is food charged for Doctor's Order, though she got none. I did not know of her been out until the next morning when I was entering up the Discharges.

I contend that the pass out retained her as an Inmate and that the matter was legal and furthermore the Clerk has brought Patients himself to Dublin under similar circumstances meeting them at the train and bringing them away as I did in this case. I submit that those cases against me are not of a serious nature It is not as if I had converted any property to my own use and although the entries may not be strictly regular still no such thing as fraud can be alleged against me nor has it at any time been suggested. The Guardians or the Ratepayers have not suffered in any way, neither have the Poor and it is therefore submitted that the Punishment of dismissal is extremely heavy punishment to inflict on me for what are at best trivial irregularities and furthermore I would point out that during my time I have endeavoured to give the Guardians my best and most faithful services and the Guardians will admit that matters have considerably improved during the time I have been Master."

relucteantly to stay in the Workhouses as Inmates and Guardians and Officials know of the practice.

P.J.Mc.Carthy Esq., Local Government Inspector, visited the House on Thursday, 2nd. Instant and inquired into the matter and though the Porter said he did not see the Girl go in or out on 19th. Ellen Kelly, the girl told the Inspector when he called to her that what I said was truth.

I submit that these cases against me are not of a serious nature It is not as if I had converted any property to my own use and although the entries may not be strictly regular still no such thing as fraud can be alleged against me nor has it at any time been suggested. The Guardians or the Ratepayers have not suffered in any way, neither have the Poor and it is therefore submitted that the Punishment so dismissed is extremely heavy punishment to inflict on me for what are at best trivial irregularities and furthermore I would point out that during my time I have endeavoured to give the Guardians my best and most faithful services and the Guardians will admit that matters have considerably improved during the time I have been Master."

EVICTION NOTICE.

Christopher Fitzpatrick, Plaintiff against Mary Brown, Defendant, New Street, Enniscorthy.

RE OUTDOOR RELIEF.

Mr. M. Browne P.O. reported that the wife of Sergt. Darcy had been granted a sum of £10 by the War Office.

RE ADMISSIONS & DISCHARGES.

The Clerk reported as follows:-

"I have to report a further irregularity with regard to this matter.On the 23rd. July Entries appear in the Admission and Discharge Books showing (1) That Mary, Michael, Patrick & James Wafer were discharged (2) That Mary, Patrick & James Wafer were admitted."

"These Entries are not correct as only Mary & Michael Wafer were apparently discharged; whilst Mary Wafer herself returned."

"In connection with this case it will be remembered that some short time ago, an application was granted by the Board for Clothes for Michael Wafer, aged 9 years, the Board were then informed that this boy was going out to service. It was pointed out that a child of his Age could not be hired out by the Board. The Master was then instructed to discharge the whole family and let the Mother make arrangements outside with regard to the boy if she so wished."

"I beg to remind the Board of the fact that in this case it was first illegal to discharge the woman without her Children; then the re-admission of the Woman herself was not reported to the Board for approval, as was necessary seeing that she was not admitted by an Order from the Board."

"With regard to this, I enclose a letter from the Acting Matron as follows:- It is dated 23rd. July, 1917.

"On this date Mary Wafer and her eldest Boy left here some time after 3-30 o'Clock (without acquainting me) and she returned at about 6-30 o'Clock without her boy, having had the House Clothes on her during her time out."

No order made in view of decision of L.G.Board to hold Sworn Inquiry.

RE TEETH FOR INMATE.

Miss O'Flaherty, Sunnyside, Enniscorthy wrote as follows:- "Thanks for your letter re set of Teeth for A.Traynor, I am interested in the case because I believe it to be a deserving and a necessary one. Her health has been much improved by the Operation which thanks to your Board, she was enabled to have performed some time ago. But her condition is still such that

having no Teeth is very injurious to her. As requested I have made inquiries as to the cost of a complete set of teeth upper and lower Mr. Taylor £2 : 10/- Mr. Cooper £5. I consider even this latter quotation very reasonable and sincerely hope the Guardians will kindly see their way to granting it."

Order. "The Guardians are prepared to allow the teeth obtainable from Mr. Cooper, he being a qualified Dentist, subject to sanction of Local Government Board."

RE BALLAGHKEENE DISPENSARY.

Mrs. Walsh, Midwife, Oulart Dy. Dt. wrote as follows:-

"Re yours duly received I am prepared to go to the Ballagh, when the Dispensary is made suitable to live in, meantime I want to know if I have any place to keep my donkey and car which I have solely for the use of the Poor. Kindly inform me if I may obtain the Key to get in my Coal or if I have any place to put it."

The Clerk stated that he had forwarded above letter to Dr. Connolly for his obervations and had received the following reply:-

"I am in receipt of your letter asking for my obdervations on the letter sent you by Mrs. Walsh, Dispensary Midwife. It may seem strange that Mrs. Walsh in her letter refers to the Dispensary, practically a new House, as one not suitable to live in, but I think her meaning will be quite clear to you when I inform you that the last tenant had to run out of it on account of the way, the kitchen chimney smoked. With regard to her reference to her donkey and car. Mrs. Walsh evidently wishes to get the use of the yard attached to the Dispensary for her own use. I have not the least objection to her getting it, if the Board wishes to give it to her."

Order. "Local Members and Engineer to be asked to meet there on Monday next at Six O'Clock."

RE OULART FEVER HOSPITAL.

Dr. Connolly wrote as follows:- "I would wish to point out to the Board of Guardians the urgent necessity of doing something to put the roof of the Oulart Fever Hospital in repair before the coming winter. If the roof or even the bad parts of the roof, were slated, it would prevent the rain coming in and rotting the whole house and I believe slate is one of the few things obtainable at a cheap rate at the present time: probably other repairs less pressing could wait for a more favourable time. Unless something is done the whole place will become a delapidated ruin after another winter. After full deliberation and discussion the Board quite recently decided to continue this Hospital and the considerations which impelled them to adopt this course will surely hold on the question of keeping it in repair.

L. No. 45709/1917. Dated. 2nd. October, 1917.

"The Local Government Board for Ireland desire to inform the Board of Guardians of Enniscorthy Union that they have received the report of their Inspector, Mr. Price, on the Inquiry recently held by him into certain charges preferred against Mr. William E. Power, Master of the Workhouse."

"The first three charges had reference to deficiencies in the Stores. The Master admitted that, being unable to account for a shortage in the quantity of Blay Calico on hands, he made false entries in the Clothing Bobks, and the evidence clearly established the fact that the figures in the Provision Receipt and Consumption Account shewing the quantities of milk on hands and consumed for several weeks were wholly fallacious, and that the entries as regards turnips received and remaining on hands were inaccurate."

"The next two charges related to the case of a woman named Ellen Kelly alleged to have been admitted to the Workhouse on the 19th. July last, and discharged on the following day, and to the cases of Patrick and James Wafer entered in the Books as discharged from the Workhouse on the 23rd. July, and readmitted on the same day."

"The Master swore that the woman Kelly came to his Office in the Workhouse at 3 p.m., on the 19th. July and remained there until 8 p.m. when he gave her a pass until 6-30 the next morning. Ellen Kelly's evidence was to the same effect, and during the course of her examination she produced the pass which she deposed was given to her by the Master at the time she left the Workhouse. Subsequently, on its being demonstrated that this pass could not have been taken from the Book in which corresponding entries were made on a Counterfoil, the Master admitted that he had sworn falsely and that the pass in question was not given by him to Ellen Kelly on the 19th. July. In the absence of other evidence the Board cannot accept the statements of either the Master or Ellen Kelly, and they must come to the conclusion that the latter was not an Inmate of the Workhouse at the time she was sent to Dublin for Special Treatment."

"As regards the cases of Patrick and James Wafer it was not denied that they had not left the Workhouse on the 23rd. July, although the

Master had entered their names in the Books as discharged and re-admitted on that date."

"There were two further charges against the Master of not regularly weighing the Meat, and of intercepting the Medical Officer's Report Book and preventing it from being considered by the Guardians. These two charges were not however substantiated."

"It has been proved conclusively that the Master has been guilty of falsification of the books in several places so as to misrepresent the quantities of Stores received and consumed, in order to conceal losses for which he could not account. In this connection the Board would call attention to their letter of the 17th. July, 1912, No. 33686 where it was shown that Mr. Power had entered purely fictitious figures in the Workhouse Books in order to make the totals agree. His action on the present occasion was a repetition, only in a more serious form, of his conduct in 1912."

"The Master has also been shown to be guilty of making false statements both in his written explanations to the Guardians and in his sworn evidence at the Inquiry. In the incident as to the issue of the pass to the woman Ellen Kelly he displayed an absolute disregard for truth, for he not only swore falsely himself but also induced the woman to do likewise."

"The position of Master of a Workhouse involves great responsibility in the receiving of supplies from Contractors, and on the faithful discharge of this duty depends very largely the efficient and economical working of the Institution."

"In the matter of the Milk Supply at least it is clear that he did not display that faithfulness which the Guardians had a right to expect from him in dealing with Contractors."

"The Board have given very careful consideration to all the evidence given at the Inquiry and to the appeal on behalf of the Master made by his Solicitor, and they have come to the conclusion that Mr. Power should no longer be permitted to retain his position. If therefore he does not at once tender his resignation the Board will issue an Order under Seal dismissing him from Office."

"In the course of the Inquiry the Solicitor for the Master endeavoured to prove animus on the part of the Clerk in drawing attention to the irregularities which had been going on for years. It was clearly the Clerk's duty to report the irregularities and blame must be attached to him for not doing so sooner. The evidence exposed the fact that immediately before the Clerk first drew attention to the matter a dispute had taken place which changed the former friendly relation between these officials into one of open hostility whish culminated in an assault by the Clerk upon the Master. This assault was formally reported to the Guardians by the Master and the report was considered and dealt with at the Meeting on the 20th. June last but no reference to the matter appears on the Minutes. The Clerk, it appears, subsequently gave a written apology which satisfied the Master and the Guardians, but this is no excuse for the action of the Clerk in deliberately omitting all reference to the report from the Minutes. The Board consider that he is deserving of a severe reprimand in connection with the matter and they have made a note accordingly in the records of the Department."

"The Minutes of evidence taken at the Inquiry are enclosed for the Guardians information and should be returned when no longer required

On the motion of Mr. Harte Seconded by Mr. Lynch it was decided to furnish a copy of the Report to the Officers concerned.

RE INFIRMARY KITCHEN BOILER.

Arising out of the entry in last week's Minutes with reference to the erection of Boiler in Workhouse Infirmary Kitchen. In reply to a query from Mr. Fortune, the Engineer stated that he had got an estimate for the Work and had got it dome after inspecting the old Boiler.

The Chairman took exception to the manner in which the work had been ordered to be done and stated that it had not come before the Board. The Clerk stated that the Sister in charge of the Infirmary (Sr. Alphonsus) came down to the Boardroom on the 3rd. October and told him that the Boiler in the Infirmary Kitchen was leaking over the place and could not be used, the Engineer was in the Boardroom and he instructed him to examine it. When this had been done, the Engineer informed him that a new Boiler was required and submitted a list of the Materials required in connection with it. These materials were put on the Requirement Book and handed to the Chairman, by whom they had been signed.

The Chairman contended that the List of Goods on the Requirement Book had not been read and that although he had signed the Book he did not know what was on it.

Eventually it was decided that the Clerk read all items on the Requirement Books and Officers' Report Books in future.

Messrs:- T. O'Connor, J. Lynch & J. Sinnott, Members of the Farm Committee, reported as follows:-

"We recommend that no Wheat be sown this year. That the Barley be sold at the highest price obtainable."

Order. "Approved of."

RE TUBERCULOSIS TREATMENT.

It was ordered that a Copy of Local Government Letter No. 144 M bessent to each member of the Board.

Copyright. Wexford County Archive

The Clerk reported as follows:-

"In submitting Stocktaker's Report for half-year ended 30th. September last, I have to draw attention to the following matters:-

(1). In dealing with the Blankets, the Stocktaker advanced the value of each from 10/- in March last to 14/- now. This must be reduced to at least the formwer price, as it will be readily understood that articles of this class depreciate in value from half-year to half-year. The number returned as being in Stock is 1057.

(2). There is a large excess in the number of Bolsters found viz :- 52

(3). There is a serious deficiency in Bread, 899 lbs. being unaccounted for.

(4). There is some curious mix up in the writing of the Soap Accounts. Thus in March 1917, the Stocktaker reported that he found:-

1933 lbs on Hands. During the half-year ended 30th. September, 661 lbs appeared to have been used according to Provision Check a/c. 1272 lbs should therefore remain to be accounted for. The Stocktaker return is 560 lbs. This would show a deficiency of 712 lbs.

Turning to Carbolic Soap:-

In March last, the Stocktaker returned as on hands:-	327 lbs.
There were received during the half-year	2240 lbs.
Leaving to be accounted for	2567 lbs.
According to Prov. Check A/c. there were consumed	1843 lbs.
This should leave a balance on hands of	724 lbs.
In this case the Stocktaker returns	1176 lbs.
This would be an excess of	452 lbs.

Bulking the Soap there would be a deficiency of 260 lbs apparently.

(5). Accoding to the Stocktaker's a/c, the amount of Milk found on 30th. September was 8 Quarts. The Provision Check a/c showed 53¾ quarts on hands, but with regard to this a/c a balance of over 100 Gallons in June last has been worked down to 53¾ quarts in September, by the process of cutting the Inmates Rations and charging up the full amount as consumed."

Copyright: Wexford County Archive

Continuing the Clerk read the List of Excesses and Deficiencies between the Stocktaker's Return and the Clothing Receipt Book. The condemned list was as follows:-

54 Sheets, 6 Blankets, 9 Rugs, 6 Bolsters, 11 Bolster Slips, 7 Towels, 2 Rollers, 2 Table-cloths, 11 Habits, MEN'S CLOTHING:- 15 Coats, 1 Vest, 10 Trousers, 19 Shirts, 8 Shoes, 4 Flannel Vests, 4 Flannel Drawers, 24 Suspenders. WOMEN'S CLOTHING:- 10 Gowns, 6 Petticoats, 21 Shifts, 78 Aprons, 2 Handkerchiefs, 43 Shoes. BOY'S CLOTHING:- 8 Coats, 8 Trousers, 17 Shirts Shoes, 7 Stockings, 24 Suspenders, 9 Shirts. GIRLS CLOTHING:- 4 Frocks, 20 Bibs, 12 Shoes. FEVER HOSPITALS:- 1 Blanket, 7 Rugs, 4 Bolster Slips, 2 Rollers, 1 Table Cloth. WOMEN'S CLOTHING:- 6 Gowns, 2 Petticoats, 6 Aprons..

Order. "Consideration of Clerk's Report referred to Visiting Committee to meet at 11 o'Clock on Wednesday next."

RE WORKHOUSE RANGE.

The Clerk reported that he had called on Messrs:- Dockrell Ltd., Dublin, who had supplied the Central Range in the Workhouse Kitchen, and as a result of his interview, they had agreed to send down an Expert to examine the Range and see what was wrong with it.

In reply to a query the Clerk stated that the Range had not worked since it wss erected some twelve months ago.

Order. "That the Members of the Board resident in the town be notified when the Expert comes down."

RE OLD AGE PENSIONS.

Mrs. Margaret Codd, Milehouse wrote as follows:- "Margaret Codd wishes to bring a claim against the Master (Mr. Power) for 14/8, the amount due to her up to the 12th. October, 1917, the balance of Margaret Brien's Pension, who is at present a Patient in the Hospital. Would you kindly put this case before the Board."

Order. "Referred to Master."

Copyright: Wexford County Archive

The business of the Board having concluded, the Chairman drew attention to the findings of the Local Government Board with regard to the recent Inquiry into the Master's condust.

He handed in the following Memorial:-

1. The Enniscorthy Board of Guardians have had before them the report of your Inspector, Mr. A.D. Price, in reference to the charges brought against the Master of the Enniscorthy Union, Mr. Wm. E. Power, which were investigated by the Board's Inspector.

2. Whilst admitting the seriousness of the findings of the Inspector your Petitioners would point out that no actual dishonesty on the part of the Master was alleged or proved and the total amount of the money involved in the discrepancies in question was very slight. Your Petitioners are of opinion that in the point of Money the Ratepayers have lost nothing, that it was due to some irregularities in the Book-keeping that the discrepancies in the a/cs. arose.

3. The Master is a married man with a wife and six children and his position as Master of the Enniscorthy Union is his sole means of livelihood. Owing to the seriousness of the present time his dismissal will place him and his family in very great hardship and your Petitioners are convinced that the Inquiry and the Findings of the Inspector will have a very beneficial effect on the conduct of the Master in future and are confident that such irregularities as have occurred will not occur again. Your Petitioners would therefore earnestly request the Local Government Board to give the Master another chance and to place him on probation for a period of six months and at the end of that time the Board would have an opportunity of considering whether the Master gave complete satisfaction or not and of further considering their decision.

Mr. M. Fortune Proposed "That the above resolution be passed."

Mr. G. Carty Seconded.

The resolution was declared passed with Messrs:- James Lynch and Timothy O'Connor dissenting.

Order. "Approved of."

"With reference to Mrs. Codd's letter claiming 14/8 from me, I have received no Old Age Pension for Margaret Brien since the 20th. July, 1917. When her Pension was stopped I handed over to Mrs. Codd 9/6, the amount then due to her which I hold receipt signed by Mrs. Codd. I received no Pension Money for her since."

Order. "Copy to be sent to Mrs. Codd."

"The Provisions that have been delivered are in the Boardroom for inspection."

Order. "Up to Standard."

"The Carpenter, Thomas Moran, has been absent since the 19th. October, he has been sick in Bed since."

Order. "Leave granted."

RE AGRICULTURIST'S REPORT.

The Agriculturist wrote as follows:-

"I beg to report having taken a Sample of Barley to all the Buyers, the best offer I received is £1 : 10 : 6 per barrel."

Order. "To be sold."

RE ENGINEER'S REPORT.

Mr. Flood, Engineer reported as follows:-

"As arranged I met expert from Dockrell's in the Workhouse on the 18th. instant, Mr. Connolly and Messrs:- Hayes and Kavanagh being also present He undertook to make the Range work satisfactorily, but said he would not take it by contract as it was impossible to see exactly what was to be done with it, but would send a man down and charge his Wages and the cost of any materials supplied. The Committee recommended that the work start at once and accordingly Dockrell's man is working at it since Monday. I employed a Labourer to attend him and I had to employ M. Holbrook, Plumber, to disconnect the Water, and when he was here he repaired two taps that were out of orderin the Laundry and one in the Infirmary. It will be necessary to cut off the Flue for the new Range from that leading from the Old One, which will necessitate altering the new portion of Chimney recently built and providing a new pot for it. I understand the original intention was to dispense with the old Ranbge altogether when the new one would be erected, I think this would be a mistake, as if the new range required any repairs, or if anything went wrong with the Water Supply, it could not be lighted at all, and there would be no Fire in the Kitchen."

Order. "Approved of."

"There are a number of repair jobs necessary at the Fever Hospital Enniscorthy, including leakage around Tank, roof of Out-offices, door Floors &c. I would recommend that the House Committee inspect it when we could go into the several matters on the Spot."

Order. "Referred to Visiting Committee."

RE RANGE.

Messrs:- Dockrell wrote as follows:- "As requested we sent our

Copyright: Wexford County Archive

representative to examine Centtal Range at above Union, supplied by us a few years ago. We find this range has not been fixed in a very satisfactory manner. The Flues are not built properly consequently the Ovens and Boilers will not heat as they should, and when we examined them we found them completely choked with soot, there is no provision made for cleaning out the flues under this range, and we would recommend a cleaning door fixed in floor, so as the flues would be easily accessible for cleaning. The chimney shaft we find is in a very bad condition and the Cleaning doors at present fixed in same are of no use and would require to be replaced by proper double soot doors. The Chimney shaft itself shows very bad signs of leakage all along front in kitchen and will have to be carefully repaired. We find it will be necessary for you to add about another Six feet on Chimney Shaft as it is too low at present to ensure a proper draft on the Range. We also notice that the small Range alongside is working into the same flue as the Central Range, this will have to be stopped off and worked independently. We sent our man down on Monday to carry out the necessary alterations to this as requested."

Order. "Referred to Engineer."

RE COSGRAVE'S HOUSE.

Mr. Flood, Engineer, reported as follows:-

"The Stop end of the Eave Shoots of Mrs. Cosgrave's House has been broken for some time and considerable damage done to the Wall and Dashing by the rain falling against it as a result. Should I get this repaired."

Order. "Engineerto get the work done."

RE AUDITOR'S REPORT.

L. No.50,104/1917. Dated. 4th. October, 1917.

"I beg to report that I have audited the Accounts of the Board of Guardians of the above-named Union for the half-year ended 31st. March, 1917. Duly certified Abstracts thereof are transmitted herewith."

"Although thirty-two Deaths took place in the Workhouse during the Period under Audit, no charge was made in the Ledger in respect of Burials. The expenses were erroneously charged to the Clothing and

Copyright. Wexford County Archive

Establishment Accounts."

"The Provision Books are inaccurately kept, especially the Sick Diet Book. At the end of the half-year, the balances of certain articles on hand, as set forth in the Provision Check Account, showed considerable discrepancies, as compared with the Stocktaker's Return. On the whole, however, these were in the Master's favour."

"With reference to the Clothing Account, I was compelled to surcharge the Master with a sum of One Pound, Nine Shillings and three pence, representing the cost of Clothing Materials for which he failed to account. This amount was lodged to the Guardians' Credit before the conclusion of my Audit."

"The Coal Account appears to be entered up at haphazard and without regard to the quantities actually consumed."

"In several instances the Invoices were filled in by the Master. This practice is highly irregular and must cease."

Order. "Referred to Officers concerned."

RE OUTDOOR RELIEF.

L. No. 53,013/ 1917. Dated. 23rd. October, 1917.

Referring to Minutes on 17th. instant and stating that the Guardians can withhold Outdoor Relief in the case of the Woman, Flynn, mentioned in the Minutes, but they cannot compel her to enter the Workhouse Infirmary.

RE RECENT INQUIRY.

L. No. 53,013/1917. Dated. 23rd. October, 1917.

Stating that they have had underconsideration the resolution of the Board of Guardians of the 17th. Instant respecting the Inquiry on Oath recently held by the Board's Inspector, Mr. A. D. Price, into charges preferred against the Master of the Workhouse. In reply, the Local Government Board have to state that they are unable to alter their decision in this matter, and if the Master does not tender his resignation forthwith, they will be obliged to issue an Order under Seal dismissing him from Office without further notice.

No Order made.

RE STOCKTAKER'S REPORT.

Messers:- H. A. Lett, T. O'Connor, J. Hall, E. O'Connor, & Thomas Murphy reported as follows:-

"We beg to state that we have considered the Stocktaker's Report and found as follows:-

(1). We recommend that the value of the Blankets be reduced to last half-year's price.

(2). Master's Books to be more carefully written up in future and Inked when presented for checking.

(3). That the deficiency in Bread be referred to the Auditor

(4). We called the Stocktaker before us and ascertained that the amount of Soap returned by him was exactly what he found. The reason we sent for the Stocktaker was because the Master stated that there were three boxes of Soap which he did not take into account.

(5). With regard to the Milk Account we find that from the Week ended 16th. June to the 30th. September, the Master received 12360 quarts of Milk, we gave him credit for an additional 16½ gallons as being on hands. This would leave 12425 quarts to be accounted for. Yet the amount charged up as consumed by Master in Provision Check Account for same period is 12701½ Quarts or 69 Gallons more than his Stock. From this it is evident that the Account has been manipulated for the purpose of reducing the balance that had accrued."

In view of the letter from Local Government Board No. 53,013. No order was made.

RE OUTDOOR RELIEF.

The amount of Relief awarded to Mrs. Murphy, Clonroche, which had been reduced to Seven Shillings per week at last Meeting was again increased to Ten Shillins per week.

RE TANKS KILLANNE DY. RES.

Mr. Flood, Engineer, wrote as follows:-

"As instructed I wrote for quotations for lead, galvanized and cast Iron tanks, I have not been able to get a quotation for a lead one. The price of a galvanized one free on rail at Dublin, with cover, would be £5 : 15/6. Mr. Davis will make a cast iron one at £9, a galvanized cover for same would cost £1 and it would cost about 10/- to erect it, as it would be so heavy it would have to be put together on the Site. I estimate to erect a galvanized tank and do the other necessary repairs would cost £10 : 10 : 0, to erect a cast Iron Tank &c would cost £15 : 4/-. I would recommend the Cast Iron Tank as it would last six times as long as the Galvanized, whilst it can be procured locally."

Order. "Engineer to have Cast Iron Tank erected; cost not to exceed £15 : 4 : 0."

RE OULART DY. RESIDENCE.

Mr. Flood wrote as follows:-

"The lead valley for portion of the way on Dr. Connolly's House is leaking and doing considerable damage to the inside plastering &c. I would recommend that you authorise me to employ a Plumber to come out there and make a thorough examination of it, to see if we could locate the leak and if possible avoid the expense of re-leading. There is a large tree throwing down the wall of the W.C. in the yard and is in danger of doing harm to other houses. I would recommend that it be taken down."

Order. "Engineer empowered to employ Plumber to examine House, also to have Trees removed."

RE OULART FEVER HOSPITAL.

Mr. Flood wrote as follows:- "I inspected above on Monday 22nd. Inst. with Messrs:- M. Fortune & J. Quinn. A considerable amount of the roof has been off for a long time and the Timber that is exposed to the Weather is all decayed and rotten, and it would not be advisable to patch the roof over it, if it had been done in time, new laths and

slates would do, but it will have to be a whole new roof."

Order. "Postponed for three weeks."

Cosgrave 10½ Ryan 11 6/7.

The Master reported as follows:-

"There is a Parcel of Goods from J. Bolger that I know nothing of."

The Clerk stated that these were Clothing Goods for the inspection of the Board. These articles had been advertised for Tender on the previous Meeting, but as there was no quorum present, the tenders were not considered. As the Traders would only quote for the day, he had sent for the Matron and Tailor and they had selected the best samples. The Goods were then ordered.

The Board having examinedthe Goods with the samples accepted the Calico and rejected the Dimity.

MEDICAL OFFICER'S REPORT.

The Medical Officer reported:-

"There are two Patients requiring treatment in Dublin Hospitals."

Order. "To be sent without escort."

AGRICULTURIST'S REPORT.

The Agriculturist reported as follows:- "I have sold the Barley for 30/6. Would there be any kepy for grinding."

Order. "Six sacks to be kept."

"I would also like to know if I am to buy any Farmyard Manure this year. If so I would require a paid hand to follow one of the Mare Horses and also for the Barley."

Order. "Manure to be purchased. Man to be employed when necessary."

RE OUTDOOR RELIEF.

An applicatuon from a woman named Mary Cahill for Outdoor Relief was refused.

Rev. G. Murphy C.C., Caim, wrote as follows:- "In reference to your query re Mrs. Flynn, I do not think she will consent to go to a Sanatorium. If she does consent, will the Board continue paying the Husband. I am told they will not do so and hence the man would have to go to the Workhouse, as he should stop at home to mind the Children."

"When you answer that query I shall give you Mrs. Flynn's decision."

Order. "FatherMurphy to be informed that the Board will take the correct steps in this matter."

RE ENGINEER'S REPORTS.

£

Mr. Flood, Engineer wrote as follows:-

RE WORKHOUSE.

"There are several matters in connection with above in urgent need of repairs, I would suggest that the House Committee arrange to inspect it with me after Meeting to-day if possible."

Order. "Referred to HouseCommittee."

"Mesrs:- Boswell's man finished the erection of the Kitchen Range on Saturday. It is being used since and if properly looked after I am satisfied it will give satisfaction. The efficiency of a Range like this largely depends on the attention paid and keeping flues clean and proper firing. I would suggest that some responsible person be appointed in charge of it."

Order. "Matron to get chargeof it. Engineer to have instructions with regard to the working of the Range hung up in the Kitchen."

RE BOUNDARY WALL.

Mr. Flood reported:-

"The Agriculturist drew my attention to a breach in the Boundary

Wall adjoining what he says is Mr. Aidan O'Brien's property. To rebuild this and do some necessary repairs and coping would cost about £6."

Order. "Mr. O'Brien to be written to."

RE REMOVAL OF PAUPER.

Received Notification of the intention to remove John Hayes late of Rathnure from Burnhill Poorhouse, Glasgow to Enniscorthy Union.

RE DIETARY SCALES.

L. G. Board Letter No. 153/M/1917 of the 24th. October re above was referred to Medical Officer.

RE MASTER'S ACCOUNTS.

L. No. 56,984/1917. Dated. 13th. November, 1917.
Acknowledging receipt of letter of 10th. instant regarding inability to complete Abstracts for half-year ended September last owing to the refusal of the Master to give his Provision Check Account for that period and enclosing a copy of a letter which had been addressed to the Master on the subject.

Copy

"With reference to your letter of the 26th. ultimo on the subject I am directed by the Local Government Board for Ireland to state that it appears you have not yet tendered to the Board of Guardians of Enniscorthy Union your resignation of the office of Master of the Workhouse."

"The Local Government Board have received a communication from the Clerk of the Union, dated the 10th. instant, in which he states that he has not been able to complete his Abstracts of the Accounts of the Union for the half-year ended 30th. September last owing to your refusal to give him your Provision Check Account for that period.
The Clerk adds:- "There was a Meeting of the Visiting Committee held on the 24th. October, I drew their attention to the manner in which the Provision Check Account was being kept; it was not completed for some time and the totals for a period were only in pencil. The Master then promised the Committee to have it completed in Ink as soon as possible. I waited until the 6th. November and then asked for the

Account; I was refused it, the answer I received was that I would not receive it until after the Meeting of the Board of Guardians on the 7th. There was no Meeting on that date. I again applied on this date and the answer received was that I would not get it until after the Meeting of the Board of Guardians on the 7xhxxThexexnxs nexMeexingxexnxthatxdxte 14th. November."

"The Local Government Board regret that they cannot allow your resignation of the Office of Master of the Workhouse to be further postponed especially as you appear not to be performing the duties of the position. If, therefore, there should be no Meeting of the Guardians to-morrow, the Board will direct that an Order dismissing you from Office be prepared and issued."

The Master wrote as follows:- "I enclose a letter I received from Local Government Board to-day with reference to complaints made by the Clerk against me refusing to give him the Provision Check. If the Clerk had to have checked the Provision Check each week from the 2nd. June instead of playing Ball and running up and down to the Matron's room, and the Matron to the Clerk's Office and interfering with the Management of the House. The Abstracts could have been finished within the prescribed time."

The Clerk stated that was a funny reply, as when he drew the attention of the Committee to the Account on the 24th. October, it was most incomplete. It was checked to the last date on which it was completely inked.

Mr. Lett, one of the Members of the Committee, stated that the Book was not complete when laid before the Committee.

"EXPLANATION" FROM THE MASTER.

The Master wrote as follows:- "With reference to the Committee's report regarding the Stock for the September half-year, the facts are that the Clerk has not checked the Provision Check Account since the 2nd. June although obliged to do so weekly, his excuse being that the totals were not inked. The Book was inked otherwise and I would respectfully draw the Board's attention to the fact that he did not check any of the Consume portion of the Book from the 23rd. June until

Copyright: Wexford County Archive

14th. September, when he only checked portions of it up to the 28th. July, since then he has only checked the Received portion of the Book. I submit that the Accounts were laid before the Committee without their being previously checked as to their accuracy. With reference to the Bread the Dietary Scale now in use with additionals was adopted by your Board and approved of by Local Government Board before I commenced the Dietary Scale on 10th. July, 1915. The additionals were allowed on the Scale from that date until the 19th. April, 1917, when the Clerk commenced striking out same. I would ask the Board to investigate on whose authority, the Clerk made the alterations in the Dietary Scale as approved of by L.G.B. I claim I have bread to my credit instead of a deficiency as prescribed by the Scale in force since 10 July, 1915. With reference to the Milk which Mr. Tim O'Connor in his report seeks to show that there was a discrepancy in Milk supplied to the Poor. I give a ratio of quarts of Milk received and consumed for the 11 weeks of the ½ years are as follows:-

Week Ending.)))	Received. Y	Consumed.
28th. July	856	803¾
4th. August	768	799¾
11th. August	784	791½
18th. August	784	780½
25th. August	764	773
1st. September	800	765¼
8th. September	762	767½
15th. September	744	769¼
22nd. September	692	726¼
29th. September	686	726¼
30th. September	92	91
Total	7732	7794

This shows a discrepancy of 62 quarts in 71 days or less than a quart per day, where there are an average of 193 Inmates supplied with Milk each day. With reference to the Soap the Provision Check shows no such shortage as alleged by the Clerk. I have gone to the trouble of comparing the amount of soap used used in 1916 & 1917 with the amount

Copyright: Wexford County Archive

used in 1909 and 1910 when Mr. Nolan was Master and with that consumed in 1911 & 1912 when Mr.Murphy was Master and I find in 1909-10 there were 6272 lbs consumed

1911-12 6048

1916-17 4704

From 1st. April to 30th. September, there were only 2667 lbs. of Soap used, which shows a further saving.

With reference to 52 ozs. Tobacco which the Clerk struck out of the Provision Check without authority on the week ending 12th. May, which the Doctor entered in his Tobacco Book for the previous week has not been allowed me, but the Clerk gave credit for 24 ozs. that was not given at all on the following week, I allege that the difference between the Stocktaker's Report and my Provision Check is entirely due to the Clerk's action. With reference to the Coal I compared the same ½ years as of Soap:-

Consumption in 1909-10 was 5564 Cwts.

1911-12 6019

1916-17 5167

Now Gentlemen, I will leave it toyyour kind consideration whether it is just to bring those charges against me or not."

No order made.

MASTER'S RESIGNATION.

The Master wrote as follows:- "I beg to tender my resignation as Master of the Enniscorthy Union. In doing so I wish to thank the Guardians for their kindness and courteous feelings towards me for the last 5½ years."

On the motion of Mr. Lett seconded by Mr. O'Connor the resignation was unanimously accepted.

On the motion of Mr. Lett seconded by Mr. Lynch, Mr. A.J. Furlong was appointed temporary Master at the usual remuneration of 30/- per week and rations.

On the motion of Mr. Lett seconded by Mr. O'Connor it was decided unanimously "That Mr. Power hand over the Stock to Mr. Furlong on Saturday next, 17th. instant at Three O'Clock in the presence of Messrs:- T. Hayes, H. A. Lett, J. Lynch, T. O'Connor & The Clerk."

The Clerk stated that the Members of the Ferns Dy. Dt. did not approve of the temporary arrangement, he had received the following Memorial signed by Messrs:-J? Bolger, P. O'Brien, T. Whelan, J. Walsh, J. Doyle, G. Milne & J. Browne:- "We beg to draw attention to the great hardship inflivted on the Sick Poor by the fact of the temporary Medical Officer not being resident in the Dispensary District At present there are no Doctors nearer than Enniscorthy, Gorey, Monamolin or Newtownbarry, the nearest being some seven Miles away Should any Sick Calls occur at night or rather we should say after Seven o'Clock P.M. at which hour the Telegraph Offices are closed; the Poor would have practically no means of obtaining the Medical Officer's services owing to the lack of mode of conveyance. Under the circumstances we should request the Board of Guardians to make arrangements to have the temporary Medical Officer reside in the Ferbs Dispensary District."
The Clerk stated that in response to a requisition signed by Messrs;) J. Bolger and J. Doyle, he had summoned an Extraordinary Meeting of the Board on the 13th. instant in the Courthouse to discuss the question.; the fol owi g Members attended that Meeting Messrs:- T. during the period for which he was appointed were similar to those presribed in the case of a permanent Medical Officer.

Dr. Pierse wrote:- "In reply to your Memo dated the 8th. instant, requiring what salary I would be prepared to acceot and reside in Ferns:- Taking into consideration the value of my practise in Enniscorthy, which I have worked up during the past twelve months, I could not consider changing to Ferns for such an indefinite period as the duration of the War, except for the following:-

(1). Salary £8 : 8 : 0 a week.

(2). Permission to attend at my Surgery, Castle Hill, Enniscorthy Between the hours of 2 P.M. & 6 p.m. daily.

RE OULART FEVER HOSPITAL.

Mr. Flood, Engineer reported having visited Oulart Fever Hospital on the 22nd October in company with Messrs:- Fortune & Quinn, he found it in a bad state and it would take £160 to re-roof and replace Ceiling.

Order. "Meeting of Local Dispensary Committee to be summonedfor Oulart on Tuesday next at Two O'Clock to inspect and consider Report."

RE OULART DISPENSARY RESIDENCE.

Mr. Flood wrote as follows:- "With M. Holbrook, I made a thorough examination of the leaded valley of above, we could find no hole in the lead. The fault lies in the lead not having sufficient covering with the slates and the water gets in between both. Apparently someone tried to remedy these before by pointing with Cement. The dome light over the stairs is also badly in need of repairs and to do this and re-lead the Valley with a sheet that would give sufficient covering would cost about £15 : 10/-."

Order. "Mr. Flood to make further enquiries and bring the matter under the notice of the Committee on Tuesday next, also to see Mr. Cooney with reference to tree on boundary ditch."

Rev. G. Murphy C.C. Caim wrote as follows:-

"With reference to the case of Mrs. Flynn, I have been told no Relief Money has been given to this woman for several weeks and as a result she and her family are in a Poor way. The facts of the case are as follows:- The Husband has 9/- per week but owing to his Wife's illness, he cannot work every day, as there is no one at home to do any work and hence hedoes not get more than 4/- or 5/- per week. One son is earning 5/- per week and that grand total of 10/- per week has to support the sick woman and six little Children. Certainly I think it is a shame to have the Relief money stopped and the Poor

People cast upon the charity of their neighbours. The Board seem anxious to get her into the Workhouse. If she would go the six Children would have to go also and that would cost the Guardians more. I hope you will bring the matter before the Board on Wednesday."

RE BOUNDARY WALL.

Mr. Flood reported as follows:- "I called on Mr. A. O'Brien re above and he could not give me a decided answer until he saw the Wall and considered the matter."

RE ARTIFICIAL APPLIAMCE.

Order. "Granted subject to sanction of L.G. Board."

attractive to stimulate him to a proper discharge of his duties, recommend that the salary to be attached to the position should commence at £75 with rations on the L.G. B. Prescribed Scale and Apartments, and be increased by Annual Increments of £5 until a Maximum of £100 be reached."

RE INQUIRY BILLS.

Huggard & Brennan, Solicitors, Wexford, wrote as follows:-

"We are instructed that an account was sent you by Mr. Power amounting to £15 . 15 : 0 for costs incurred by him. This account was returned by you on the 15th. instant. Be good enough to say if this account was referred to the meeting of the Board of Guardians and what their ruling on same was."

The Clerk stated that on the 15th. instant, he had received the Bill mentioned from Mr. Power, being for the costs incurred by him in having his Solicitor representing him at the Inquiry. He (the Clerk) had returned it to Mr. Power pointing out that it was a private Bill of Mr. Powers and had nothing to do with the Board of Guardians.

Order. "L. G. Board to be requested to state if the Guardians are liable for the costs incurred by the Master in having a Solicitor represent him at the Inquiry."

RE STOCK OF WORKHOUSE.

Messrs:- T. O'Connor & H. A. Lett wrote as follows:-

"We beg to report having attended at the Workhouse on Saturday last, 17th. instant, to superintend the handing over of the Keys and Stock of the Workhouse to Mr. A. J. Furlong. We were in the Boardroom at Three o'Clock the appointed time. We were informed that Mr. Hayes was in Bed suffering from a cold. We sent a Messenger for the remaining Member, Mr. Lynch, but he was not able to come."

"As Mr. Power, the late Master, did not turn up, we sent for him a ten Minutes to Four. We were informed that he had gone down the Town. We then tried if the Matron had the Keys but she informed us they had not been given to her, neither were they in the Master's Office. We then sent for the House Carpenter and ordered him to open the Doors of the Stores. This having beendone we prepared to take Stock. We had to get the Carpenter to unscrew the hasps to which the Locks were attached on the different Presses, when this had been done Mr. Power returned and was most insulting. We asked him to remain and witness the Stocktaking, but he refused and threatened to have us ejected by the Police. When he found his obstructions were of no avail, he left the House again. We proceeded with our work and attach a list of articles checked by us and handed over to Mr. Furlong We had new locks put on the doors and handed the Keys to Mr. Furlong. We also gave him possession of the Books. Before going we made arrangements for him to sleep in the Hospital pending instructions from Local Government Board to whom full particulars were sent."

The Clerk reported that he had received the following letter from the Master's Solicitors, Messrs:- Huggard & Brennan:-

"Mr. William E. Power has called on us to-day and has handed us your letter to him of the 15th. instant, according to which it was arranged by the Guardians that Mr. A. J. Furlong was to be appointed Temporary Master and was to take up duty on Saturday the 17th. instant at 30'Clock P.M., at which time our Client was to hand him over the Provisions and Necessaries of the Workhouse in the presence of Messrs:- T. Hayes, H. A. Lett, J. Lynch, & T. O'Connor. Our Client duly

attended at 2-55 to meet these gentlemen and carry out the arrangement contained in your letter. He waited till 3-30 and nobody appeared to take over from him. It was then necessary for him to go down Town to register the Death of a person named Byrne who had died in the Workhouse and he returned to the Workhouse at about 4-45 p.m. when it appeared that during this time his doors were broken into and the locks forced and so far as he has been able to gather only two of the Gentlemen mentioned in your letter were present. We would be glad if you would kindly bring this matter before your Board at their next Meeting and please let us know by whose authority this step was taken."

The Local Government Board wrote as follows:-

"The Local Government Board for Ireland have had before them the Minutes of Proceedings of the Board of Guardians of Enniscorthy Union on the 14th. instant when the Guardians received and accepted the resignation of Mr. W.E. Power as Master of the Workhouse."

"With reference to the Guardians resolution directing that Mr. Power should hand over the Workhouse Stores at 3 O'Clock on the 17th. instant to Mr. Furlong, who has been appointed to act as temporary Master, in the presence of the Clerk and Messrs:- O'Connor, Lett, Hayes and Lynch, Poor Law Guardians, the Board desire to inform the Guardians that they have received a letter from the Clerk of the Union from which it appears that Messrs:- O'Connor and Lett attended at the Workhouse at 3 O'Clock on the 17th. instant for the purpose of checking the Stores and handing them over to the Acting Master. After waiting some time to see if the other Guardians mentioned would turn up, Messrs O'Connor and Lett proceeded to check the stores ~~in the~~ when it was found that Mr. Power had left the Workhouse and locked the doors of the Stores. The Carpenter was then directed to remove the locks and when the Goods were being weighed and checked Mr Power returned [redacted] and was most insulting to the Guardians present and refused to remain while the Goods were being checked."

"The goods having been checked were handed over to Mr. Furlong as well as the Master's Books."

"The Clerk adds that Mr. Power does not appear to be disposed to give up possession of his Apartments in the Workhouse," and asks what steps should be taken in the matter."

"The Board have also received a communication from Mr. Power in which he states that he made arrangements to hand over the Stock at the appointed time to the four Guardians mentioned; that he waited from three O'Clock and left the Workhouse on business at 3½30 returning at 4-45 when he found that the Clerk and Messrs:- O'Connor and Lett had broken open the doors of the Stores."

"Mr. Power also states that he was not asked at any time for the Keys of the Stores, that he is placing the matter in his Solicitor hands and remaining in possession."

"In all the circumstances of the case the Guardians should at once deal with the matter with a view of the ~~xxxx~~ immediate departure of the late Master from the Workhouse premises."

Mr. Power wrote as follows:-

"I have to inform you that on Saturday last 17th. instant according to the Board's Order, I was in the Hall at the appointed time for to hand over the Stock to Mr. A. J. Furlong in the presence of Messrs:- T. Hayes, H. A. Lett, J. Lynch & T. O'Connor. I was willing and prepared to give over the Stock. At 3-30 half an hour after the appointed time I went out on business and returned at 4-45 when I found the Clerk, Mr. T. O'Connor & Mr. H. A. Lett was after breaking into the Stores. I was not asked for the Keys at any time. I have a Bond for £200 Sterling for those goods. I consider it very unfair to me and my securities. They have locked up the Stores again with new Locks and have retained some of my own property in them. I was prepared to legally hand over the Stock in a proper manner. My Books have also been taken, which does not give me an opportunity of writing them up."

After a long discussion it was unanimously decided on the motion of Mr. Leary Seconded by Mr. Williams "That Mr. Power be allowed until Saturday week, 1st. December to leave the House."

The Clerk reported as follows:-

"Since the last Meeting of the Board I have received the Provision Check Account for the half-year ended 30th. September, and to nail another lie I have retained possession of it, so that you can see for yourselves, it is not even yet completed."

"Dealing with the Book itself and with the same Book for the current half-year, I have to draw attention to further false entries that have been made since the recent Inquiry."

"On the 17th. October, I drew attention to a deficiency in Bread amounting to 899 lbs. Since that date false entries have been made in the Account withthe object of wiping out the deficiency, but the matter has been overdone in manner, which but for the seriousness of the offence, would be most ridiculous and laughable. Taking the Book as it now stands in its falsified condition the following entries are shown:-

Amount of Bread on hands 31st. March 1917.....		461½ lbs.
Amount of Bread received during ½ Year ended 30 Sep.		41945½ lbs.
Total amount to be accounted for.....		42407 lbs.
Total amount shown as consumed during half-year		42818 lbs.

Thus it will be seen that Mr. Power has had consumed 411 lbs more than he actually had available for Consumption, and yet after all this the Stocktaker found 477 lbs of Bread on hands on the 30th. September, or in other words with a total of 42407 lbs available for consumption, Mr. Power, according to his account distributed 42818 lbs and still had 477 lbs left."

"As a result of the manipulation of the Milk Account, the balance of over 100 Gallons which had accrued in June last has been completely wiped out at the expense of the Inmates, the method adopted being too cut/ the Inmates Rations and to enter in the Provision Check the full amount allowed by the Dietary Scale."

"I am giving you the following figures from the Provision Check Account for the current half-year, you will find them interesting:-

Week Ended.	Quarts Milk Received.	Quarts consumed.
6th. October	604	671½
13th. October	609	772

Copyright: Wexford County Archive

20th. October.	658	815
27th. October	700	782
3rd. November	634	787
Total.	3295	3807½

In other words with 823¾ Gallons available for consumption, Mr. Power, according to his Returns, has had consumed 951¾ Gallons or 128 Gallons more than he actually received.

"In dealing with the Crown Soap, I find that changes have also been made since I made my Report on the 17th. October, I give the entries as they appeared on that date and as they now appear:-

No. W66K.	17th. October.	Present Time.
9 June.	5 lbs. Consumed.	56 lbs. Consumed.
11 Augt.	5 lbs. Consumed.	56 lbs. Consumed.
18 Augts.	5 lbs. Consumed.	56 lbs. consumed.

Thus a total of 15 lbs on 17th. October has now been changed to a total of 168 lbs."

"In conclusion I have to say it is very unsatisfactory to have accounts kept in this fashion. The Provision Check Account for the September Half-year, is practically useless as a Record, and is only fit for disposal as Waste-Paper. It will be necessary for the Board to give instructions to have the Books properly completed by a reliable person."

Order. "That the attention of the Auditor be directed to the matter."

RE NATIONAL FOOD JOURNAL.

Recommending that copies of the "National Food Journal" should be procured and filed.

Order. "To be procured."

Mr. O'Dempsey's Bill of Costs for the recent Inquiry was laid before the Meeting the amount was £15 ; 2/-.
The Clerk stated this account was before the Finance Committee on the previous Wednesday, they rejected payment and recommended that the Bill be sent to the L.G. Board to see whether Members of the Board could act as suggested by the Solicitor.
Continuing the Clerk stated that the following items in the A/c gave rise to question:-
"August 20. Attg. Mr. Hayes, Chairman of the Board of Guardians to ascertain his views, when he suggested to meet a number of Members of the Board this evening"

"August 20 Attg. Messrs:- Hayes (Chairman), J. Kavanagh & T. Mc. Carthy, Members of the Board, going through the Minutes since 18th, July, when they represented their views to me, and suggested certain lines upon which the Inwuiry should be directed, and certain points which should be suggested to the Inspector."

Mr. O'Dempsey stated that he did not agree with the Circular of the Clerk in calling the Finance Meeting, wherein the Clerk stated that the action of the Members mentioned as Meeting him was highly irregular and most illegal. He contended he had a right to consult the Members.

The Clerk stated that as at the Finance Meeting, he disagreed with the views of the Solicitor on this matter, he (the Clerk) contended that the Solicitor had no right to meet three Members of the Board and take instructions from them as to the course of the Inquiry, if a Meeting were required, there was plenty of time from the 8th. August to the date of Inquiry to have an Extraordinary Meeting requisitioned. He held the action was most illegal and requested the Board to send the matter on to the Local Government Board for their observations.
A long discussion ensued during which some Members of the Board contended that the Solicitor did not represent the Views of the Board at the Inquiry and the latter contended he did, the Members left without making any order.

Mr. O'Dempsey, Solicitor, wrote as follows:-

"Dr. Browne, L. G. B. Inspector called to my Office on Thursday, 15th. instant and stated that it was the intention of the Local Government Board to put the Mandamus in above matter in force. I beg to urge upon the Board of Guardians, the necessity of their giving me at their next Meeting definite instructions to prosecute six Persons in each Petty Sessions District, selected by lot from the names of all the Defaulters liable to prosecution; as already several times explained by me to the Board."

"

Mr. O'Dempsey also wrote 2oth. November as follows:-

"Further to mine of 16th. instant. I now enclose resolution which I strongly advise the Board to pass without amendment or question. Dr. Browne, L.G. B. Inspector states that cases of Small-pox are reported from England. In view of this I think that if the Board raise any difficulty at their Meeting on 21st. instant. The Local Government Board will feel themselves bound to take immediate further action; and the result of such action will very possibly be to deprive the Ratepayers of the benefit of being represented by the Board of Guardians as at present constituted."

COPY OF RESOLUTION.

Resolved:- "That notice of the intention of the Guardians to prosecute all Defaulters who have not, on or before 10th. December, 1917, complied with the Law as to Vaccination be served by Registered Post by the Clerk of the Union."

"That after the said 10th. December, 1917, the Clerk supply the Solicitor with the names of all Persons then remaining Defaulters; that thereafter the Solicitor satisfy himself, with such assistance from the Officials of the Board, and from Counsel, as he may require, as to which of said Defaulters are clearly liable to prosecution by the Board of Guardians and that thereupon the Clerk, at the direction of the Solicitor and with such assistance as he may require select by lot from among said Defaulters six in each Petty Sessions District, and that thereupon the Solicitor take all necessary and advisable steps to prosecute such six in each

Petty Sessions District, with such assistance in preparing and proving such cases as he may require from the Clerk, Medical Officers and other Officials of the Board, and from Counsel if he thinks necessary."

The Solicitor explained the position the Board stood in with regard to the Vaccination Acts, and pointed out that as the Relievin Officers had not been satisfied to serve Notices at the remuneration allowed viz;- Sixpence for each successful case, he recommended that such Notices should be served by the Clerk by Registered Post.

The Clerk stated that Dr. Browne had also called upon him in connection with the matter and pointed out that the Local Government Board were determined to have the Vaccination Acts enforced. The manner in which they would judge whether the Guardians were doing their duty was by the number of Vaccinations that had taken place. They wished to know what number of Vaccinations had taken place since the Mandamus was made absolute, and as these were very few, the L.G. Board would hold that the Guardians were not complying with the terms of the Mandamus.

In reply to a query as to the position the Board of Guardians were in with regard to the matter the Clerk said the Board of Guardians were in a very serious position, they had returned the Writ of Mandamus after having endorsed thereon their intention of carrying out the Acts. If they persisted in not carrying out their undertaken he believed they would be all committed for Contempt.

The Resolution submitted by the Solicitor was then unanimously adopted on the motion of Mr. Thomas Hayes Seconded by Mr. Edward Kinsella.

RE OULART DY. RESIDENCE.

Mr. G. Flood, Engineer, wrote as follows:- "I have carefully considered the question of substituting Metal Valleys instead of Lead for above and I am satisfied that it would be very difficult if not impossible to make a good job with the Metal. It would be

almost impossible to make a watertight joint where the Valley meets the dome-light in the ventre of the House, and the joints of the metal would be so clumsy, it would be impossible to fit the slates over it properly. The outside woodwork of above needs painting badly."

Order. "Referred to Dispensary Committee to meet at Blackwater on Tuesday next at Three O'Clock."

RE TEMPORARY MEDICAL OFFICER FERNS DY. DT.

Order. "That the Relieving Officer in Ferns be hereby empowered to hire a Car for the purpose of conveying any Ticket Case that may require a mode of conveyance to Dr. Pierse's residence after the closing of the Telegraph Office at & o'Clock P.M."

FERNS DISPENSARY RESIDENCE.

Order. "That Dr. Greene's attention be directed to the fact that the Guardians have been informed that there is no Person residing in the Dispensary House at present, and that they insist upon Fires being kept lighted in it."
