DIRECTIONS FOR USING

THE

Pen Duplicate and Triplicate Books

MANUFACTURED BY

DOLLARD, Printinghouse, DUBLIN, Ltd.

Place a sheet of one-sided carbon paper, face downwards, between the first and second leaves, and then the sheet of black board after the Duplicate. Write upon the first leaf with a Duplicator or Manifold Slip Pen, and two copies will be the result.

In the case of a Triplicate Book, a sheet of two-sided carbon paper is placed between the 2nd and 3rd leaves, and then proceed as above.

A CARBO-PLATE can also be supplied to take the place of the black board. This is a plate which grips the carbon, and at the same time provides an extra hard plate, made of aluminium, which gives an extra clear copy, and enables the carbon paper and support to be placed in position for writing and withdrawn without touching the carbon with the hands.

It was proposed by Mr P Walsh - seconded by Lord Slofield and Carried
That we the Guardians of the Gory Union protest in the most emphatic manner against the arrangement to prevent the Cunard Steamers calling at Queenstown which we regard as nothing less than a national Disaster. We are convinced that the new arrangement would mean a delay of the Mails from Ireland of least 24 hours, and we cant regard as satisfactory as was expected the replies given by the Postmaster General to the Peoples Representatives in Parliament.
This is not a political or Sectarian question, but one in which all Ireland is concerned -

Transmits a copy of their annual report for the year 1912-13

Mr Boyan D.O. suggests that the meat safes under the stairs in the Infirmary is too small & inconvenient placed & without the necessary ventilation - this could be remedied by placing a proper safe in the meat yard where milk is most liable to take in any particles, conveying disease & so should be well placed -
In the yards the water channels are roughly placed and so retain matter that should be carried away. If these were concreted it would be a vast improvement She suggests too that the footpath of Concrete be made from the Infirmary to the chapel & body of the house. these would greatly to make the place clean & neat Inspected by Mr John Sinnott JP Mr White, VC & Dr Dwyer -- items Work to be done

Mr Webster reports that the lead rising main from the house requires to be renewed as it is worn out Order - T Stuart has seen to this
