February 1895

Mr Chairman & Gentlemen.

I beg to acknowledge the receipt of your resolution of the 14th inst. (in Re) Car and Fever hospital and the accomodation for contagious diseases other than small pox therein.

In copy states, that the Resolution was proposed by Mr. Daughton & and Seconded by Mr. William P. and were it not for the statement in the face of the document itself I would be inclined to doubt the fact that two gentlemen of ordinary intelligence could originate such a resolution.

I must decline to accept as final this order, and therefore request the guardians to reconsider the resolution, and they become to some more workable conclusion. I could not undertake to send patient suffering from Contagious disease 20 miles distant in the machine now at my disposal for this purpose.

Your early and urgent attention is requested for this matter, as I may be called on to attend a case at any moment and without your order I am powerless. I am Mr Chairman & Gentlemen

Sure Visits of Midwife
Low House

N. Furlong wrote

—With regard to the letter of the midwife, Mrs Donohoe, herewith enclosed, I beg to state that the matter does not appear to come within my sphere of action, and should not have been referred to me at all. The objection therein affects, the internal administration of the house, and has no medical bearing whatever. I understand that the rule objected to has existed since the appointment of n midwife, and to alter it would necessitate either the master or the matron being obliged to stop up any night an accouchment was expected. So far as I am personally concerned I consider whatever midwife be employed she would be expected to remain with the patient during the whole time of her illness, or at least one hour afterwards to guard against some possible contingencies that migbt arise.—

Agriculturist's Report.

Mr Whelan, R.O., wrote:—"As to Dr Kelly's letter, which was referred to me for an explanation, and in which he states that I will not grant out-door relief unless the people has a line from him, I beg to state that in cases of temporary relief I am not prepared to give it unless I am provided with a doctor's certificate as to the cause of the disablement, such as all the doctors of this union give. There is a heading in my application and report book at column 9, viz., if temporarily disabled state by what sickness or accident. How am I going to fill up this column unless I have a doctor's certificate as to the cause of illness. Surely the board of guardians do not expect me to decide or to be a judge of what a person is suffering from. If the auditor ask for a doctor's certificate I must produce it; if not run the risk of myself or the chairman, who makes the order, being surcharged. I will not run this risk. I will give such cases, as I have always done, provisional relief pending the meeting of the board, and if the chairman for the time being thinks well of making an order in such cases without a doctor's certificate, let the responsibility remain with him."

Conlan Estate

"That we the members of the Enniscorthy Board of Guardians protest against the unwarrantable and unjustifiable action of the Norwich Union Insurance Company in purchasing over their heads the homes and holdings of the Conlan tenants in Davidstown, and we pledge these tenants our individual support in the Campaign they have just entered upon. We believe that the Davidstown tenants are fighting in sustainment of a principle which it should be the bounden duty of every Irish tenant farmer in his own interest, to approve of and support by every practical and legitimate means at their disposal. We believe that a gross injustice has been inflicted on the tenants when it is taken into account that ths Company purchased for £11,900, and that the offer of the tenants, at 17 years' purchase, came to £12,865 0s 2d, being over £900 above the bid of the grabbing Company. The tillers of the soil have the first claim to the ownership of their holdings, and in assertion of that principle the Conlan tenants are entitled to every support and aid."

"Non Reception" of Patients in Fever Hospitals by Dr. Furlong

Tuke

X

Letter
dt 23 Feb
1753
95

Enclosing a "Communication" from Dr. Kelly & asking "for our observations"

Enreply to the Gen. Order made on Feb 28 - "that Dr. F. be asked to give, in writing, the notification he made to Dr Kelly

Dr. Furlong replied as follows 7th March

"You ask me to give in writing the notification I am alleged to have given Dr Kelly in refusing to receive fever patients into the Fever Hospital. There has evidently been some misunderstanding, as I did not give him any such notification. It seems to me that had I done so I would have exceeded my jurisdiction, and even if that were not the case, to have been effective I should have given a similar notification to all the other medical officers who sent patients to my hospital, In a casual conversation with Dr Kelly, I told him I would not any more receive persons into the Fever Hospital not sick, and I believe I added in a joking sort of way that as fever was not now prevalent, it would be wiser for him to attend any cases in their own houses till the small pox had disappeared."

X

THE DISPENSARY.

The following were read :—I am directed by the the Local Government Board for Ireland to forward to be laid before the board of guardians of Enniscorthy Union the accompanying communication which they have received from Dr Kelly, medical officer of health, relative to the accommodation for cases of contagious diseases other than small-pox which may occur in the union, and I am to request that the Board may be furnished with the guardians' observations on the subject.

The following is the communication referred to :—I enclose a copy of a resolution of the board of guardians of this union. The order was : If Dr Furlong declines to receive fever patients or other patients suffering from contagious diseases that they may be sent to Oulart or Newtownbarry fever hospital. Oulart and Newtownbarry are : one over 12 and the other over 20 miles from parts of my district, therefore the resolution means that I am deprived of accommodation for cases of contagious disease other than small-pox, and as to the mode of conveyance the guardians have not taken that into consideration. Will your Board say that proper hospital and ambulance be provided for the sick poor suffering from contagious diseases other than small-pox in this union.

Land
Mr. Morley's Land Bill

Prop J Bolger
Sec A O'Brien
adopted
nem con

"That this Board of Guardians wishes to express its favourable opinion of the Land Bill introduced by Mr Morley as it will secure to the tenants their improvements, and at the same time it will be just to the landlords, in giving them a fair rent for the land. We think the reduction of the term from 15 to 10 years an improvement. As it is most important that gentlemen appointed in sympathy with this Act should be fully acquainted with the condition of the farmers interested, we would respectfully suggest for your consideration that Mr Jonathan Haughton, J.P., of Rockspring, a farmer, be appointed as one of the Land Commissioners to carry out the Act if passed into law, as he is well qualified from his great experience in the land business."

Enniscorthy Fever Hospital
N. Furlong

Letter read 13th Mar. 1911

Mrs. Moore Nurse

Sanctioning payment of £5.1.0 to Mrs. Moore for acting as Nurse 10 days.

The following is Dr Kelly's reply :—

On this day week you had before you a communication from Dr N Furlong, Medical Officer of Enniscorthy Fever Hospital. A copy of that letter is now before me. It is to me a most extraordinary document, for in the first part Dr Furlong states that he "did not give him (Dr Kelly) any such notification," and in the end Dr Furlong states that "in casual conversation with Dr Kelly, I (Dr Furlong) told him (Dr Kelly) that I would not any more receive persons into the Fever Hospital *not sick*; and I believe I added, in a joking sort of way, that as fever was not now prevalent it would be wise for him to attend cases in their own houses." That statement, leaving out the *grim* joke, directly contradicts the first paragraph of Dr Furlong's letter, and when divested of the suttle qualification "not sick," admits my entire case. Dr Furlong and I were discussing the case of Collier of Tinnacross, and I think that your board will agree with me that the said case of Collier proves to the hilt my proposition. The man Collier, with his wife and children, was sent by my directions into the fever hospital while their house at Tinnacross was being disinfected, after they all had suffered from scarlatina. Meantime Doyle, of Lower Church street, contracted small pox, and was sent to the same fever hospital. The Colliers left the hospital, and in a few days the second youngest child (who had not been vaccinated) sickens with small pox, and as a result I was obliged to send the whole family into the fever hospital for isolation. Now, will any sane man say that the Colliers did not contract small pox in Enniscorthy fever hospital? Secondly, will they say that if the said Colliers had not come in contact direct or indirect with Doyle they would have contracted the disease? And third, will they point out to me how I could have prevented the spread of that disease (the small pox) except by sending them to the fever Hospital? Now, the fact of the family contracting the disease proves that there is not a proper isolation ward in the Enniscorthy fever hospital. The internal economy of that establishment is entirely unknown to me, but I venture to say that there is not one medical man in Ireland who would say that it would be proper to mix indiscriminately patients suffering from scarlatina, fever, and small pox, and to nurse them with the same staff of nurses and ward attendants, with the results that happened so unfortunately to Collier and his family. If such be the case, is my proposition proved on its own merits, not to speak of the grim joke of Dr Furlong, at which I will be prepared to laugh at when that gentleman points out to me the wit thereof. I want no support for my proposition but the facts of the situation, but if I did I might request your Clerk to fish out of his records the former reports of Dr Furlong, and several medical inspectors of the Local Government Board and Dr Stafford, all bearing out my contention. I trust that reason will prevail at your deliberations, and that without further sophistry or shilly-shally, you will grasp the facts of the situation, and take precautions that the case of the Colliers will not be repeated.

The Bonds and other securities in force were laid before the Guardians by the Clerk, together with his Report thereon as follows: (this on the second Meeting after the Annual Election in every year).

CLONROCHE DISPENSARY.

A special meeting of the Clonroche Dispensary Committee was held on March 25th, for the purpose of appointing a Medical Office for the district during the illness of Dr Keating. Present—Messrs H. H. O'Neill, and Thomas Dunne. A medical certificate from Dr Kelly was laid before the meeting stating that Dr Keating would be unable to resume work for one month from date (25th March).

The following resolution were passed :—That as a few members of the committee expressed themselves dissatisfied with paying a substitute for Dr Keating. that out of thirteen members summoned for the purpose of discussing the matter, only two attended the meeting. That Dr Keating be allowed leave of absence for one month, and that Dr Edmondson, Templeshannon, Enniscorthy, who has done duty heretofore, both for Dr Keating and Dr Murphy, be appointed to take charge of the district until the 25th of April next, at the usual remuneration. That if Dr Keating be unable to resume duty at the expiration of the leave of absence granted to him to-day, that he himself, after that date, pay his substitute for whatever length of time he may consider necessary.

Infectious Diseases Isolation & Small Pox &c

The Co. appointed on April 4th. reported as follows -

"Re disinfecting chamber and the isolation of suspected parties suffering from infectious diseases. Report of the committee appointed—

"Disinfection—The committee have carefully considered the most effective and economical system of disinfecting, and beg to recommend to the board 'Dr Scott's patent hot-air chamber,' the larger but more useful, as per tender of Messrs Maguire & Sons, Dublin, erected complete for the sum of £138. The smaller size chamber of Dr Scott's, although less expensive, would not be useful for all required purposes.

"Isolation—The committee recommend the erection of a shed close beside the hospital for the purposes of isolation, with an entrance from Hospital-lane, and have invited tenders to be submitted to the board of guardians for the erection of such shed in the position and to the size and requirements as pointed out by Dr Furlong. These tenders the committee have requested to be laid before the board on Thursday next. They also recommended an immediate erection of these sheds, as promptness in their erection will tend to counteract the spread of the disease, and thereby lessen an increase of the danger to the public health. The committee also endorse a resolution of the Enniscorthy dispensary committee to the board of guardians for the purpose of providing a responsible nurse or assistant for disinfecting purposes, said duties to be carried out under the instructions and to the satisfaction of the medical-officers of health and their sanitary officers.—Signed by J Donohoe, chairman of the committee; Albert S Davis, Jas Doyle, T M Roberts, Thomas Hayes, N Furlong, M D; and John Bolger, secretary to the committee."
