"Report of Surveyor"

1st June 1920

I have had the roadway at Backway adjoining Low Level Reservoir filled up and sheeted with clinker and the water tables cleaned up —

The Street Gully at Saffery Gate was continually getting choked and unable to take the surface water, I had the place opened up, and removed a broken pipe, and connected the Gully to the large pipe that crosses the roadway, by a broken channel.

We have cleaned up and deepened the Shannon Water Course by roadway that runs along Reeky Road.

I interviewed the Mother Superior of the Recantation Convent. re Water overflow from Convent Premises and explained what would need be done to remedy the flooding of the house & roadway in Inch Street, i.e. excavate the water channel 6 inches deep, and build a man-hole 2 feet square, same to be covered.

with an iron grate to discharge into 8 inch pipe which is already in position — This matter the Rev. Mother will place in hands at once —

The tenant Edward Simmott who occupies the end house at Ross Road, nearest Duffry Hill, has complained to me of the manner in which his yard is being treated by boys, also the fastening of his yard gate has been broken, access to this place is obtained by the boys from vacant space adjoining. This vacant space should be properly enclosed with a boarding so as to prevent trespass from the Public Street.

Ordered: "Notice to be served on Owner"

The letting of Camp fields to Mr Patrick Kavanagh expired on the 22nd May, and same has been renewed to the 22nd June.

The water in High Level Reservoir is 9 ft. and Low Level 8' 4". I have made arrangements with Messrs E. Kavanagh & Co for covering boards for new footpaths, and will put same in hands as soon as the boards are available —

"Approved"

I explained to George Hawkins Caretaker of the reservoir that the Council ordered at a special meeting that no other member of his family be employed in or about either reservoirs; he told me he would employ his son whenever he required him —

Ordered: "Hawkins to do the work himself"

The horse which it was decided to purchase has not yet been procured

Ordered: "Mr O'neil to purchase horse on fair on Monday"

Changing Names of Streets

In accordance with notice given at last monthly meeting,

It was proposed by Mr Patrick John Seely M.P. and passed by John Bolger M.P. dissenting.

"That the name of Georges Street be changed to 'Rafter Street' and the name of New Street, to 'Waver Street' and the name plates to be changed accordingly"

Special Meeting of the Urban District Council

Held the 21st June 1920

Present Thomas McCarthy Esq. in the Chair
 Wm. Murphy, John Murphy, Patrick Tobin, Patrick O'Neil, Patrick Murphy,
 Michael Maher, Matthew Stordan, James O'Brien, Richard Doyle and
 Thomas D. Sinnott.

"War Loan Investment"

The Chairman explained the result of the interview with the manager of the National Bank Ltd. Ennis, with reference to the amount invested by the Council in War Loan 1927-49, and the prospect of the said stocks. The result of interview showed, that this stock had fallen several points since the first of the year and likely to go lower - without any prospect of an increase in the price in the near future.

The loss which the Council would sustain by the sale of the War Loan at the present time, would be about £600. and a loan would have to be raised to meet this loss and pay off the Bank.

After careful consideration, the Council in view of the fact that the loan in all probability would require to be realised within in a year, and with the prospect of further loss by the holding of the stock.

Mr. John Murphy handed in the following notice of motion —

I beg to give notice, that I will move at the next monthly meeting of the Council, that the War Loan held by the Council be sold."

"Report of Town Surveyor"

7th July 1920.

I beg to report that we have completed 80 lineal feet of the new concrete footpath in St. Patrick's Street.

I have been in communication with W. Treanor, Esq. Assistant Surveyor, about the necessary arrangements for procuring road material from Clonbuston Quarry.

The necessary work as recommended by the Street Committee in connection with the overflow of water from the ponds of the Presentation Convent has been completed and is working satisfactorily.

With reference to the erection of the hoarding to be erected at the vacant ground on Ross Road this has not yet been done, but the owner of the ground has promised to complete the necessary work as soon as possible.

The water in the High Level Reservoir is 7' 8" and in the Low Level 7' 0"

I have had pumping going on at High Level Reservoir during the past three weeks, as the water was falling rapidly at present. we are obtaining from the Artesian well 37 gallons per minute & a total during actual pumping hours of 18,870 gallons per day of 24 hours, this in addition to the supply from the surface well.

With reference to the application of the Ennisgothy Co-operative Society for an increase in the sizes of the service water pipes to their premises. These premises have five water closets, two draw-off taps in yard, two draw-off taps in wash house, one sink, and one supply for gas engine. I would recommend that

this matter be referred to the Water Committee —

The minutes of last meeting were read & signed

"Report of Town Surveyor"

6th Oct 1920

We have delivered and store in Abbey Square. 151 tons 12 Cwt. of Road Material from Parnell Quarries, the total quantity of road material at present in stock is 324 tons broken stones, 8 tons large stones, & 27 tons of screenings.

The new Concrete footpath at St Patrick's Well, Shannon Hill, and Cathedral have been completed, and now that cement is available I expect to complete the new Concrete footpath in Slaney Street within three weeks.

I notified all the parties concerned re necessary improvements at gateway adjoining Miss O'Brien and Mr O'Neill's premises in Inish Street, but nothing has been done. Nothing has been done to enclose the open space at Old Ross Road since notice has been served.

Ordered: "Proceedings to be taken unless work is done immediately"

In a number of places where goods are displayed on the footpaths and streets, and sufficient space is not allowed for the passage of water in the water tubs, the roadway is often impeded by the overflow of water. I would suggest that in every such case a Crutch should be provided to permit of the free flow of the water.

Ordered: "Notice to be served on the parties"

We have a horse sweep which has not been used for the past three years in consequence of the brush being worn out. I have received a quotation from the maker of the sweeping machine for a new set of brushes at £9—Carriage paid

Ordered: "To be purchased, quotations to be obtained from Varian's & Kennedy's Dublin"

Envelop Report contd

I have inspected the six houses in Mandlins Folly, and find that there is a sewer built sufficient to carry all water from the yards

Ordered "As proposed"

I have arranged with the Limerick Gas Co. for the erection of a new Pillar lamp in Redmond Street, at a point on east side of pathway which will light the street and also help to light the entrance to St Patrick Street.

I notified the Gas Company that the lamps at Irish Street & Island Street had not been lighted on Sunday night 3rd inst.

We have done some cleaning on the Moyne and Templeshannon Water Courses.

The water in High Level Reservoir is ~~4' 3"~~ 7' and Low Level 4' 3". Owing to continuous fall in the Low Level Reservoir I have had same shut off since Sept 5th from 9 oc at night until 7 oc each morning. The High Level has been shut off in similar manner since the 18th Sept.

Early this year the Caretaker of the Reservoir made a complaint of being constantly wet by the overflow from Pump at Pump House Low Level Reservoir. Since that time I have had new brickwork built at base of pump house, and a piped arrangement attached to the pump to convey the water from overflow to sewer, thus preventing any splashing of water whilst pumping & damage to brickwork. The Caretaker has removed this pipe on two occasions without authority, and it is at present unconnected.

Ordered: "That this pipe be re-connected"

I have had complaints from people having services from the Low Level Supply, of not having any water.

During week that the Caretaker was on holidays, and when one of our regular men was engaged at the pump house, these people notified me that they had a good supply.

Ordered "Referred to Committee consisting of Messrs J. A. Smartt, Richard Doyle, W. Murphy, John Murphy and the Chairman

to investigate, with power to suspend caretaker if same is justified³³
pending meeting of the Council³³.

We have put three new water services from High
Level Reservoir, viz. Messrs Dillons, Leary and McLaury
87 Johns Street.

All Fire Hose has been cleaned & oiled and
couplings attended to.

I submit Mr French's Time Sheet.
