There are two boatloads of Limestones landed by by Daniel Cody the Contractor for the Commissioners

Inspectors Report not read at previous meeting

Shane Dollard that the last heavy rain have taken away a great deal of the Covering on high Hill footpath. It is in a very bad state at the present time, also at little Michael Street, the Covering is taken off by the heavy floods this week and is in a bad state at present.

I Called on this week 8 houses in South Street and Priory Street to Know if the pipe water did increase with them, and I was told that there was no increase of water at Mrs Kavelett and at Dr Kavanaghs — they got no water this week, and at B. Kennedys very little pipe water this week.

John Cannon of South Street gave me notice to have the water pipe Cut off from his house as he got no water for so long a time, and only got it a few months in the Year.

John Fitzgerald states that he has all the Clay removed from the Convent Yard and I went to Andrew Cullen and he told me that he took as much as was required and that Father Furlong is satisfied with what he removed from the yard and it would not be safe to take more from the wall of the Convent Yard.

Dear Sir

I beg to say that your letter of the 15th Inst. was Considered at a Meeting of the Directors held this day whereat the following order was passed in reference thereto — "We are sorry we Cannot give the light at the same price as last Year. The increase per lamp does not at all represent the increase in the price of Coal, and we doubt if the present price will pay the actual Cost. We need not point out the increase in the price of Coal, as the Commissioners are aware of it. Should the Commissioners accept our proposal we shall give as good light as last Year which gave general satisfaction."

At the Conclusion of the inspection, the following was agreed to as the result.

We have this day inspected the quarry at High Hill and recommend that the sewerage may pass down through the wall over the part of the rock where there is a vein passing down at the South side of the quarry. All the other arrangements previously pointed out to be Carried out as agreed on at previous visits.

We inspected the Irishtown pump-well. The pump had been removed by the Contractor and the well Covered up. We examined the old pump taken up. The Contractor is to examine and Clean the joints in order to see the number of defective joints to be replaced by new ones which will be required to be ordered as soon as possible.

We have inspected Mary street and have Come to the Conclusion that it would be well to fix a stench trap just above the upper side of Flood's Gate to help to Check the down-flow of water at that side of the street, and thereby help to prevent the overflowing of water into Michael Murphys house in Quay street. 19th Sept 1890.

The following was read.

Shallows Bank Sept 24th 1890.

Dear Sir,

I regret very much my inability to attend our Board Meeting tomorrow. I regret it the more because I wished once more to impress on my brother Commissioners the advisability of doing something towards the establishment of a Creamery in or near New Ross. There can scarcely be a doubt that the undertaking would be a profitable one, and and that it would greatly benefit the farming Community within

a

a Circuit of three or four miles round, and would Certainly be of great advantage to the Commercial interests of our town.

The district around is peculiarly well adapted to furnish rich and abundant supplies for a Creamery of Considerable Capacity. Though there is little or no land suitable for permanent pasture, nevertheless, with good tillage and judicious seeding Cattle fed on it will produce milk of a superior quality equal, perhaps to the most favoured districts in the Country.

It is true that within recent years the number of dairy Cattle has been greatly reduced, owing to the inability of the producers working on the old system to Compete successfully, either as to quantity, or quality of butter, with the scientific methods Carried out in such establishments, but I have no doubt that if a limited Company were formed for the erection of a Creamery, the increased profits per Cow, resulting from the new system of manufacture would very soon induce them to increase their dairy stock to the old figure if not to a still greater extent, and the Company would soon be called on to largely extend their plant.

I have the honour to enclose for their information the circular I had from Messrs - I Rawer & Co Dublin, to which I referred in my remarks on the subject at

David Murphy

Mr Murphy stated that he had spoken to Michael Cahill about the paving of the Channel; that Cahill was a man of whose Competency the County Surveyor's Assistant approved.

Mr Murphy stated that he had found that the Clerk had not noticed the Car owners to tender for drawing the stones from Mr Hawletts Yard, he directed him not to do so until the Committee would meet, as Cahill had suggested that it would be better for the stones to be drawn up as they would be required, and dropped at either side of the Channel as required. That this course would save time and prevent the stones from been taken away. That he (Mr Murphy) had been speaking to the street Inspector, and he stated that the horse Could be used after any Sweepings of the streets were Carried to the manure yard.

It was agreed that M. Cahill be employed at 2/4 per day to pave the Channel in Irishtown That Michael Curran, and more men be employed at the work if required. That the work be Commenced on Monday morning. That

A Copy of the Bye-Law to be Certified by the Clerk and Executive Sanitary Officer, was annexed. It was Signed by the Clerk &c as directed.

After a long Conversation respecting the proceedings against Madden, in which the members expressed themselves strongly on the fact that the Owners of Traction Engines had been allowed to frequently and notoriously drive their Engines over the Bridge and that they were Called on to act only in the Case of Madden

for,

for, it was stated ~~the~~ his first offence.

Also, that if they were Called upon to act similarly again they would Consider ~~the~~ desirability of withdrawing from their present position of being used merely to Carry out the Bye-Law in an unfair and partial manner, but they would be in the future as in the time passed, desirous of discharging their duty in having the Bridge protected, if the Grand Juries would discharge their part of the duty in the same manner.

That owing to the Circumstances attending the present, first Case, the Commissioners desire that the fine to be inflicted would be as minimised as possible, but in future if Cases be brought, that the highest penalty be sought for.

The Chairman brought under the notice of the meeting that buyers and others Coming from Dublin by the 6.15 P.M. Train to New Ross, on the eve of the Cattle Fair Cannot come on direct, but have their journey broken at Enniscorthy and Cannot Come until next day to the Fair when they are Comparitively late. That it would be an advantage and an inducement to the buyers to Come to the Fair if train arrangements were made which would allow the buyers and others to Come on direct to New Ross where they would arrive at 10 o'clock P.M. and be as early as other buyers in the morning and also be an advantage to the business people of the Town.

It was agreed that the Clerk write to W Rayne Traffic Manager stating that the Town Commissioners and Traders in the Town will feel obliged if he will kindly Cause a Train arrangement to be made which will enable buyers and others on the eve each Cattle Fair Coming from Dublin by the 6.15 train to arrive on Same evening in New Ross. That they believe such a Convenience to buyers would tend to bring a larger number to the Fairs, enliven Competition, and Cause, after some time an increase in the traffic.

The Clerk submitted a Civil Bill Ejectment served on him - Same as served on Mr Howlett by Thomas Mercer Cliffe Rogers, of Burgage County Carlow for the Recovery of the Manure yard

Dear Sir

Nuisances Solicitors instruction for Ms Of of Health

I observe in prosecutions under the Public Health Acts, it is Customary for the General Medical Officers of Health to state in their reports that a "nuisance exists" without giving any particulars to shew why the matter Complained of is a nuisance. Now I ask to impress on the Commissioners that a Doctors report is not in itself Conclusive evidence of the existence ~~of the existence~~ of a ~~Nuisance~~ nuisance, nor is his sworn statement that a nuisance exists sufficient, unless he supplements this statement by explaining in what way the thing in question is a nuisance.

In other words the nature of ~~of~~ the offence must be Conveyed to the minds of the Magistrates, and must not rest on the arbitrary pronouncement of any person. I desire to say that the above observations do not refer to any particular Case, but to the Cases generally which have cropped up since I became Solicitor to the Commissioners. I have no doubt the mere mention of the Matter to the Medical Officers of Health will effect the necessary improvement ~~in the~~ in the frame of these reports.

Yours very truly

John R. Colfer.

The Clerk reported that Sergt Rourke had Called ~~to the Office~~, and stated that the Head Constable had directed him to Call and state that on the evening of the fire in Johnst. When the hose of the Town Engine became defective ~~the~~ by injury the Constabulary Called to the Military Barrack and when getting the Engine they engaged to return the Engine in the same state as when receiving it. That the hose of the Engine required to be dubbed. That a handy labouring man could do the work in about two days

After some Conversation on the subject the Commissioners found they Could not pay the small Cost as they had not engaged or employed any person beyond their own men and that they could not pay for services they had not engaged. This decision was in accordance with an opinion given by their Solicitor Mr Boyd some year ago. in reference to an application for some expense to remunerate the Military for some damage done to Clothing &c Whilst engaged in extinguishing a fire in New Ross.

Ordered - That the Clerk write to Mr I C Thorpe the owner of the house where the fire Engine had been used at asking him to pay the small Cost of the dubbing & of the hose of the Military Engine. If he refuses that the matter be brought before next Meeting

Commissioners ordered that the Solicitor Mr Boyd be prepared by next Session

of making you the following proposition;- We regret to find that we are unable in the absence of available water-power as in the case of Carlow to make you an offer to undertake the public lighting of your town alone at anything like the rate at which your town is now being lighted by gas, but should you be able to procure for us a gaurentee of orders to light any public institutions, shops or private houses to an extent requiring the use of incandescent lamps producing on a sliding scale based on the hours of burning a revenue of not less than £250 per annum we shall be prepared to make you this offer. At present we under-stand you are lighting New Ross ~~New Ross~~ by 56 ga.- lamps of say 16 candle-power each or an equivalent of 900 candles at a cost of £180 per annum. We propose to substitute 12 arc-Lamps, each

You will understand that without some such provision as above it is impossible for us to invest the necessary capital in this plant; but we are willing as we have done in the case of Carlow to give your Board the option of purchasing the plant at any time not exceeding 6 months from the date at which we start the street lighting. Resolution rescinded

Passed on the 19th November ultimo expressing Confidence in Mr Parnell be rescinded

Amendment

Proposed by Mr Kennedy
Seconded by Mr Meehan –

That we deem it advisable in the present Critical position of the Irish National Party, and in Consequence of the deplorable divisions and dissentions existing therein with reference to the questions of leadership, and also in view of the arrival of Mr O'Brien in Paris at which City there is to be a Conference of both sections of the National Party, and that we, as Irish Nationalists, deem it of the utmost importance that there will be a satisfactory arrangement made when both parties are in Consultation in ~~Boulogne~~ Boulogne, and pending the decision arrived at thereon, we Consider it better, under the present Circumstances, to postpone the rescinding of the Vote of Confidence in Charles Steward Parnell now standing on the Minutes, and that we adjourn the Consideration of Mr Hutchinson's Notice of Motion on the Subject for one month from this date.

New Rop, January 22nd 1891.

Gentlemen,

We beg to apply for use of the Large Room Thalel, for the purpose holding our Annual Club-Dance on Sunday February 8th 1891, and such time previous to that date as may be necessary for decorating and suiting the Room to the occasion. We should also feel grateful for the use of Mr Robins' Office (Commissioners office) as a Cloak Room.

The Dance would be held as usual in the Club, but it is the wish of Dr Kavanagh P.P. to have it in the Thalel.

Trusting you will meet our request and thanking you in anticipation

Automatic delivery Machines, proposed to be placed in Close proximity to the Post Offices, Pillar and Wall boxes and other spots Convenient to the Public, We have the honour to apply to your Commissioners for permission to fix the same in the streets, Roads and highways and other suitable places within their jurisdiction for which Special permits may be necessary.

So long as the Machines do not form any part of the Post office letter box, the Postal Authorities will offer no objection to their being placed side by side every Pillar and Wall Box where practicable, and it is our intention to make a beginning to this extent — the exact Site of each Machine to be indicated by Your Surveyor. Afterwards, they will be fixed outside Post Offices, at Railway Stations, and in other public places. For these purposes, Several thousand Machines will be needed, and by means of them Stamps and Post Cards will be obtainable at all hours of the day and night, and at no greater Cost than from the Post Offices themselves. It is felt that a great Convenience will this be afforded to the public, and it is hoped that all local Authorities possessing jurisdiction will encourage an effort to promote this end by Conceding the necessary facilities. Should our Request, therefore, be favourably entertained, as early an intimation as possible would oblige.

Offices New Ross 3rd February 1891

Dear Sir,

Refering to the Prosecution against persons for selling fish at places other than the Fish house. I have to inform you that Several Weeks ago I Sent instructions to Counsel to prepare the Special Case which the Magistrates agreed to State on the question of the Defendants liability for Sale of fish in the Shop of Mr Michael Keeffe. Counsel is of opinion that such a Sale is not a breach of the Bye Law and therefore he advises that further proceedings in Reference to the Special Case shall be discontinued. I am by no means Certain that Counsels View is the Correct one but Mr Matheson Whose opinion I took is two Good Sound a lawyer for me to differ from, so I must advise the Commissioners to abandon the Special Case.

1891 — February 18th — Wednesday 18th February — Messrs Patrick Kennedy and John Meehan proceeded at 11 o'clock A.M. to inspect the houses of Mrs Elms and John Healy in William St.

The following is their report —

We the undersigned being appointed a Committee to inspect and report on the houses in William Street Occupied by Mrs Elms and John Healy, beg leave to make the following report to Your body thereon.

1st. Mrs Elms' house require some brick on the gable ends to act as barge Courses. We also find that the there is an old chimney attached to the western Gable of this house which require to be taken down about four feet. As it is quite loose and liable ~~to be taken down about four feet~~ to fall at any time. After Chimney being taken down, we recommend

Mrs Elms' Gable to be plastered and dashed and pinned up with Masonry if Required. There is a Garden attached to the premises which would make a first Class Site for building Seven or eight houses

2nd John Healy's house - requires to be stripped and slated newly, and Rafters in Roof that are bad Made good or replaced by new ones.

Two new Window frames and Sashes in front and with Granite Window Sills to same - Also new door frame and door and good stock lock on same with thumb latch Also when slated new eave shoots and down pipe to be put up to Roof. New window frame and Sash for rear of house. Half loft in house to be floored with new 3/4 sheeting. (Also Outs a pig Cabin to be erected in Yard which Could be Covered with the old slates which will Come off the Dwelling house) There is a large breach of slating at rear of Dwelling house which require to be repaired at once until such time as the Commissioners may see fit to state Dwelling house which probably ought to be done in April or Mkay As this house stands at present it is totally unfit for Human habitation and we request it to be as soon as possible put in thorough repair Chimney on this house require some bricks on top

Government Board, dated 11th March 1891 No 7.325/91 — Miscellaneous Laying — ~~with the~~ view of simplifying the Laws in force respecting the dwellings of the working Classes, the Local Government Board for England during last session of Parliament introduced a measure consolidating the various statutory enactments bearing upon this important subject. "The Housing of the Working Classes Act 1890" consolidating and amending the Acts relating to Artizans and Labourers Dwellings and the housing of the working classes received the Royal assent on the 18th August last, and the provisions of that Act are dealt with and explained in the accompanying Memorandum, which, with some alterations and additions rendered necessary for its application to Ireland, is in substance the same as addressed by the English Local Government Board to local authorities throughout England.

The Local Government Board for Ireland think it desirable to direct the special attention of Urban Sanitary Authorities to the following points.

First — A great change has been made in the procedure for putting in force the Compulsory powers of purchase of unhealthy areas (part I.) especially in that no traverse is allowed if the sum awarded

1891 — Thursday 12th March — Minutes Continued

March 12th

awarded is under £1000.

Second — The Arbitrator's award of Compensation for the demolition or acquisition of unhealthy or obstructive houses under part II. is final.

Third — The limits of rating under any Act are removed for the purposes of Parts I and II.

Fourth — Government loans may be obtained for the purposes of the Act at very low rates of interest.

Fifth — in all lettings of dwellings to the working classes there shall be implied a Condition that the house is at the Commencement of the holding in all respects reasonably fit for human habitation.

The attention of Rural Sanitary Authorities is requested to the fact that they are responsible for the Carrying out of part II. in respect of any Town in their district if the Town is not an Urban Sanitary district although such Town may have Town Commissioners. Their attention is also directed to the second, fourth, and fifth points already referred to.

I am, Sir
Your obedient Servant
Thomas A. Mooney
Secretary

To The Executive Sanitary Officer
of each Sanitary District Urban
and Rural.

Dear Sir,

I have now the pleasure to enclose my Cheque for £9. 3. 6, the amt. due to the Commissioners by the Reps of the late Mr Calclough for rent and arrears of rent out of the Block house premises up to and ending 29th Sept: 1887

This is the precise sum demanded by you and as you will see, something more than was originally claimed. It is however quite Correct and there will of Course be no difficulty in getting payment of the sales which have accrued since 1887.

Please let me have a ~~Cheque~~ formal receipt in favour of Mr Kelsall as he has asked me to procure it for him

Yours truly

John Lobin — John R Calfer

Town Clerk New Brighton

The Clerk stated that the money was lodged by the Collector in the usual manner.

The Clerk was directed to produce the minutes against next meeting to see the entries as to negociations for transpening the part of the Block house property for another connected with the Gas house in 1868.

A Draft Scheme for the management of the Endowed School agreed to on the 9th day of March 1891, in pursuance of the Educational Endowments (Ireland) Act 1885, was received from Wm Edward Ellis Secretary to the Commission at their Office 23 Nassau street Dublin.

Messrs D. Murphy & B. Hennessy, Members of the Road Committee brought under notice of the meeting that the County Surveyors assistant had Consented to allow the Sewer at Boheen-aslawn to be removed, and to allow the paved Channel to be Continued up to the pump. It was only the breath of the Boheen-aslawn road. The Contrs Contract for the Water Channel extended only to the Corner of Boheenaslawn. That the Continuation of the Water Channel instead of the Sewer would be a protection to prevent the Water in the pump from pollution

Proposed by Mr Hennessy
seconded by the Chairman Mr Cheevers
— That the paved Water Channel be

Continued up from the termination of the Contract to the pumps, for the purpose of preventing the pollution of the water in the pump by the percolation of sewage matter through the present sewer. That the water Channel be made so secure as to prevent any fluid matter passing down through it to the pump.

Passed.

1891 March 26th — Thursday 26th March – A meeting of the Street Committee, to be held this day at 11 Oclock P.M. to try to ascertain the Cause of the flooding of the Houses at the Bridge and take steps to have it prevented.

Mr Hennessy was the only Member in attendance.

Mr Hennessy accompanied with the Clerk went to inspect the place at the Bridge where the water flowed over the traps, they being stopped in a recent heavy shower of rain, and the water having no other Outlet at the Bridge approach flowed into the houses. He also inspected the quarry at High Hill, where it was found that the water that flowed into the north and south side of the quarry passed down through loose Clay & Land &c and Carried it down to the Bridge approach, as there was no dam made at the quarry to stop the out-flow of Clay &c the Contractor had Spread Ashes at the lower part of the lane and this had been Carried down also with the rain water.

Mr Hennessy suggested that the Inspector get stone dams made immediately to Keep in the Land, Clay &c and allow the water to flow out. He, in examining the traps at the Bridge with Mr Kearns Solr. Considered the trap at Mr Powers too small.

The Committee visited the quarry at High Hill and found the water flowing down at the north side had flowed over Clay &c, to the South side and with the water entering at the South side had Carried down Clay &c as there had been no dam previous to Mr Kennedy inspection. An insufficient dam had been made, and the Committee directed that two sufficient high and strong dams be made & Keep in the Small Clay &c and let the water flow over the tops. The Committee directed the Clay &c at the North side to be cleared away, & allow the water that flowed down at the North side to pass down at that side to the Grating and so prevent it from flowing over the Clay surface.

The Committee when inspecting the traps at the Bridge that it would be well to get the trap at Mrs Powers enlarged and that it would be desirable to get W. J. Byrne to describe the

Mr Malloy stated that he had read the Lease of the portion of the Block house rented from the Town Commissioners by the Reps of J. J. R Colclough, and believed the Town Commissioners had been entitled to £2. per annum

under the lease instead of 18.5½ and 19.1
since the lease was made. He suggested
that some young Commissioners would wait
on Mr Colfer Solicitor, with the lease and Mr
Rawels letter and account to know the
reason why the Commissioners were only
entitled by his opanion to 18.5½ and since
the lease was made to 19.1 per annum.

It was agreed that Messrs B. Kennedy and
P. Molloy Could go on their own account
to ask Mr Colfer any questions they liked on
the matter, the Clerk to bring the Lease and
papers to Mr Colfer for the purpose, but
not on the Account of the Commissioners, as
Mr Colfer had been acting by Order and on

The Clerk submitted Copies of an advertisement issued by the Dublin Wicklow and Wexford Railway Company stating that a Special Train would leave Harcourt St. on Thursday 9th April, to Conney persons to view Pigs on the evening before the Fair to be held on the 10th Inst. The Advertisments were sent to the Town Commissioners for distribution or posting, by Mr Payne Traffic Manager, as the Commissioners had requested.

Some Members mentioned that there were many who had doubts that the Fair would be held on the 10th Inst, as it was so near Easter Monday.

The Posters used by the Town Commissioners Showing the Fairs to be held during the year in which the following Rule in reference to the Changable fairs was as follows —

When Easter Monday falls in April there will be no other fair in that Month, and when Whit Monday falls in June, there will be no other fair in that Month.

From this it appeared that as Easter Monday did not fall in April the fair will be held on the 10th Inst.

Wednesday 22nd April — A meeting of the Street Summoned to meet at 5 oclock this day to Consider a Communication from Mr Calfer Solicitor respecting the proposed depot at Creywell. The Notice was marked — Attendance very important=time short

Present — Mssrs -

Arthur S. Doyle

Bryan Kennedy Matthew Hutchinson

David Murphy

The following letter was read -

Offices New Rop 22nd April 1891

Dear Sir

Refering to my letter to you on the subject of a proposed depot at Creywell I think it ~~would~~ well to add that if the application is ~~to~~ be made, it ought to be at the Presenting Sessions for the County at large, as half the money for this Contract is levied off the County and half off Bantry Further ~~it~~ I ought to point out that an application to enclose the entire Space at Creywell is almost Certain to be refused as it is about fine times as large as the Ordinary Size of a depot. The last day for serving the application is Thursday so I should have positive instructions by 12 Oclock on that day if at all possible.

But I would advise the Commissioners to Consider my letter of ~~the~~ 15th Carefully before making any such application

If an application is made and is ~~Opposed~~

Opposed it would very likely be defeated on the ground that notice had not been served on the representatives of McCheny or Occupiers. If on the Contrary a notice is served on Messrs Cheny it will be an admission of their title as Occupiers.

I am bound to say that hitherto I have not been supplied with any facts from which I can fairly infer that Messrs Cheny are not entitled to this plot of Ground and if the Presentment Sessions Come to the Conclusion that the application is made for the purpose of depriving Messrs Cheny of their rights by a mere side wind it will very likely be refused

Subject to these observations I await the directions of the Commissioners.

I am truly
John R Colfer

I Robin Esqr
Town Clerk
new Rop.

The following was also read

Offices new Rop 15th April 1891

Dear Sir

With reference to the Space adjoining the Public Road about which You Consulted me Sometime ago, an application to have such Space made into a depot for Road material, Could not be successfully made to the Grand Jury. The application should in my opinion be brought forward by two Ceas payers to the Clonrock

Presentment

1891 ~~Thursday~~ Tuesday 22nd April Quarter Court
April 22nd

Presentment sessions in the same manner as applications for new works are made. A map of the place should be lodged with the application and an estimate of the cost inserted therein Notice of the application should be served on the occupiers of the land fifteen days before the sessions

In this case I understand there is no actual occupier but I think the person occupying the field of which the space originally formed part would be considered the occupier

It has been suggested to me that the space has been used for time immemorial as a depot. This may be so but in my opinion such user does not confer a right succeeding Contractor to use the place as a depot. At all events the Grand jury will not make a depot on any land which is in dispute

It would seem to me that the more prudent course for the Commissioners to take would be to rent the Space from the owner of the land and then enclose it for their own use

The Application to Presentment sessions will be more or less expensive and may not be successful.

Yours truly
John R Culpeer

J. Tobin Esqr
Town Clerk New Ross.

The Chairman wrote on the paper produced by Mr Malloy — That he (Mr Malloy) bring his suggestion before the Auditor When here at next Audit of the Commissioners Accounts

The following was read.

Offices, New Rop 16th April 1891

Gentlemen,

Mr Pierce Malloy a Member of Your Board Called to day and stated that he came to ask me on behalf of the Commissioners for an an explanation as to the Cheque for £9.3.6 which I had sent the Clerk for rent of Blockhouse premises payable to the Commissioners by the Reps of Calclough — I stated that I would prefer to make any explanation that might be necessary to the Commissioners by letter. He then said that the only points on which he required information were — 1st up to what date did the Cheque which I had sent discharge the rent of the Blockhouse and 2nd what was the rent properly payable to the Commissioners, under the Fee Farm Grant of 17th June 1868. I replied that the Cheque in question discharged all rents due to the 29th September 1887, and that the rent so payable to the Commissioners under the Fee Farm Grant is 19.1 per annum.

Mr Malloy then stated the over payments claimed by Mr Powell the former Agent of Mr Calclough

and allowed by the Commissioners had never in fact been made; that he would take steps & have proceedings instituted for the recovery of the rent under the Fee Farm Grant from its date up to the present time. and that he would prepare a statement of facts bearing on the subject and submit them to Mr Kinnon Solicitor.

I am not much Concerned with Mr Malloys intentions in the matter, but having regard to the above statement I would be glad to learn whether you intend to take any further proceedings in reference to this rent, and also whether you desire that such proceedings shall be taken by Mr Kinnon, as stated to me by Mr Malloy. I think it right to mention here that it would be a highly inconvenient practice for individual Members of Your Board to call upon me for verbal explanations of matters upon which I had already expressed my views in writing, and I would much prefer that I should be allowed to make such explanations to the Board by letter in the usual way manner.

A Communication was read from John Duffin — Tenant for the Scales on the Quay asking the Commissioners to prevent the Shop Keepers from weighing potatoes for the future on Market days. That the people selling potatoes takes them and get them weighed at the shops. I think this unfair When the Commissioners Scales is on the Quay. It ought to be looked after and the potatoes weighed there.

No order Made.

It was agreed that Mr Kennedy be requested to proceed to Wexford on Monday to act respecting the proposals for the Irish-Town Water Channels and be kindly Consented.

and from that to near the Gas Lamp at Newtown.

Members of the Committee found that in refilling in the material removed for the purpose of laying the pipes, a ridge, or rise had been made along the street to such a height in some places as to be dangerous or disagreeable for vehicles or pedestrians to pass. In general places it appeared that the Metalling had been thrown in and yellow clay left for the surface. In the latest part of the work done, the Metalling appeared to have been better kept for the surface. The Ridge as at present, will prevent the surface water from flowing from the roadway to the water Channel at the side as heretofore, and thereby keep the roadway sloppy and soft and the surface more easily worn down. The repaving of the water Channel, where the paving had been removed or disturbed, appeared to be imperfectly done.

Mr Colfer wrote the following on the statement —

In my opinion the Medical Officer of Health should be directed to make a further inspection of the Premises now that the Tenant has Complied with the terms of the Notice Served upon him by Cleaning the privy and Ash pit. Contains A. R. P. 4. 0. 3 Valuation £7.15.0 — present Rent £18.7.6, which with Rates added brings it up to over £5.0.0 per acre.

John and Mary Delaney having been paying the present rent for over twenty years having Considerably improved the field by tilling and top dressing, and being held for the same purposes as the land held by the Shanahans for which a judicial rent had been paid. Mary Delaney Cannot understand how the new Rep L.C. would not be satisfied with a fair rent particularly as some of the L.C's had advised her to put it in the Court, they being of opinion that none of the L.C's would object to having a fair rent fixed.

The only difference between Mary Delaney and the Shanahan's Case, the Land Commissioners said was, that Shanahan's Landlord was satisfied with a fair rent, whereas the new Rep L.C's were not, and gave instructions to their Solicitor to maintain every legal right they had in the Case. Mr Kane received 4/- to the pound off grass land held from Major Harman at £2.0.0 per acre and 4/- to the £ off the fields adjoining Bennetts Knock known as Portersland Unsolicited.

As Bennetts Knock is not worth the present Rent of £5.0.0 per acre I hope you will see your way to give a fair

reduction, or allow a fair rent to be fixed by the Land Commissioners, which rent all but exceptional land Lords would be too happy to get. Awaiting a favourable reply

yard. Large pipes will be required the laid down out under the shop to Carry all the water from all the yards to the main Sewer in the street.

Mr Whitney Came before the meeting and states that the piped drainage was being made at his premises by Mr Deane the Landlord. That there was a drain Conning the other yards at the south side of his yard into the drain that passes through his house. He asked the meeting if he Could stop the drain Conning into his yard from the rere of the other houses

As this was a legal question which had not been previously before a Meeting of the Sanitary Authority, the Members Considered their functions were, & Chane the requirements in the Sanitary Notices which had been issued in accordance with the Medical Officers report and the Order made thereon by the Sanitary Authority at their meeting held on the 29th May and 11th June last.

The Executive Sanitary Officer reported that he had shown the Solicitors instructions to the Medical Officer of Health Dr A.J. Meehan, and On receiving his second report Gave it to Mr Calfer Solicitor. That Mr Calfer had prepared a Summons and it was served on Mr Deane on Tuesday 23rd Inst. That Mr Deane had Called to the Office after receiving the Summons on

Tuesday and stated that he was proceeding with the work and asked if the proceedings would be stopped. That he (Executive Sanitary Officer) told Mr Deane, that he would report the interview to next meeting of the Sanitary Authority, who he believed would act as leniently as the law would allow them to act in the matter.

It was agreed that if Mr Deane pays the Costs incurred by the Sanitary Authority, and that the work required by the Sanitary notice to him be Completed, the proceedings in Court against him be discontinued or adjourned until the work is Completed Satisfactorily

A Constabulary Communication from Clonroche was read — referring to a Case of Swine Swine Fever — directed to the "Local Authority New Ross". The Communication was received at the Commissioners Office.

It was Considered that the Board of Guardians was the Authority that should have received it and the Executive Sanitary Officer was directed to send it to the New Ross Board of Guardians

My Dear Sir

Valedictory letter on Chairman after resigning

May I ask you to Kindly convey to the Chairman and members of the Municipal Body my most sincere thanks for the much too flattering resolution passed by them on the occasion of my resignation of membership. No words of mine, I assure you can adequately express the great pleasure it affords me to know that my poor efforts to promote the public good have been so highly appreciated by my esteemed friends and late Colleagues. This act of theirs is but in keeping with their bearing towards me since I became a member, and as it is to them more than to me

due the Credit of any good that may have been effected during my year of office, their Kindness and unselfishness becomes the more apparent, for had it not been for the loyal and intelligent support they invariably afforded me I fear my record would have been but little better than a blank.

Now Sir will also be good enough to accept my sincere gratitude for your own Kind expression of regard which I assure you I esteem most highly, and for the invaluable assistance you so freely rendered me on every Critical Subject — often I fear at great inconvenience and loss of Valuable time. I am Dear Sir

A Memorandum from the Collector stated that a new grate was required for the house of James Walsh Fair Gate.

That James Fitzhanis had asked him to again bring before the Comrs the matter of roofing the pig stye in his yard.

The Clerk stated that J. Stafford said he would paint the woodwork of his own house if he was supplied with paints and a brush.

Ordered – That a grate be procured for James Walsh's house and fixed up by one of the Commissioners men.

That the matter of the pig stye be referred to the Irishtown Contracts Committee when they are up seeing the work.

The Inspector was Called before the meeting respecting the streets not being watered on some very dusty days. He stated that tide should be near half in when the water could be got from the Pump in Bridge dock. That the time for getting the water on the days referred to was in the mornings. That by an Order passed recently the men were engaged at sweeping the streets before ten Oclock, which prevented them

Labourers Dwellings.

Dear Sir

With regard to the specification and Estimate for the two additional houses proposed to be built in Church Lane, I think this is necessary in Consequence of the houses being apparently on a different plan from the other six. I also think it would be well to ascertain from Mr Byrne whether he adopts the Estimates of Mr John Brien for the houses in William St. Bunnicen Lane, Church Lane and Folly House Lane, because the price of material or labour may have changed since these estimates were made. I greatly fear that the alteration in the extent of the scheme will necessitate a fresh application to the Local Government Board, but I dare say we aught first try whether the Board of Works will act on the sanction already obtained.

Letter H Martin

A Communication was read from Henry Martin Contractor for Keeping the Chimneys clean and free from Soot— saying I attended the houses and swept the Chimneys regularly during the quarter, but some of the houses had their doors Closed and I Could not get in. I cleaned the Chimneys upstairs in some of the houses that are Occupied by lodgers. There are people in Church Lane William Street and Pair Gate Can certify that I attended the house regularly. I leave it to the Kindness of the Commissioners to do as they please. How Could there be bricks and mortar stopping new Chimneys as the other Sweeps Laid.

It was agreed to defer the subject of H. Martin's letter to next Meeting in Order that the Collector should attend and State what he knows from the tenants respecting the State of the Chimneys.

~~In answer to yours of the past~~
Since I last wrote with reference to the suit of Bennetts Knock I have found that the Waterford Corporation allowed Judicial rents to be settled in a similar case to mine — viz — Mr Flynn a Waterford Victualler who holds land from them for the same purpose and as near to the City as Bennetts Knock is to the Town of New Rop. They allowed all the dealing men who held land from them to go into the land Court without instructing their Solicitor to oppose them in any form.

Yours respectfully
Patrick Delaney.

It was agreed that the letter be referred to next Weekly Meeting, the Clerk to ascertain the Orders made respecting R. Hoopes and Mr Delaneys Notices to have their rents brought before the Land Commissioners, and the Orders made by the Commissioners as to the instructions to be given to their ~~Commissioners~~ Solicitor in each Case, to be Carried out before the Land Commissioners.

My Dear Sir.

I am sorry to find that my letter did not reach you sooner and I suppose my second announcing the postponement of our meeting is still lying at the Town Clerks Office.

Our meeting has been postponed to Friday week 10th Inst. and it is expected that Mr T. M. Healy M.P. will be present upon that occasion. I hope you will be able to attend.

The deputation is to be received by the Postmaster General on the 27th Inst. I hope you will have a good representative upon it. We have secured free passes for all the members of the deputation, to include one each from New Ross & Enniscorthy. As it would not be well to say too much about this free pass matter I trust you will keep it rather quiet.

According to the figures you sent me you lose a Clear 24 hours with your English letters. We have some little chance of replying by return, but with you it is an impossibility and so you can make out a very strong case. Under the proposed arrangement you ought to get your letters by a train reaching New Ross at 10 oclock A.M. and the

Irishtown Contracts Letter & Answers

Dear Sir

Not only as a Rate payer but also as a passed Commissioner do I wish to make a few observations respecting the works now being Carried out in Irishtown by the Commissioners. As When a Member of your body I took a more or less active part in promoting these same Works, this must be my excuse, if any be required, for meddling at this stage in their execution.

The work done in that street last year was so excellently well performed that it won golden opinions in every quarter, and was no small factor in our success at the recent Presentment Sessions, and as similar claims will require to be made every year in the future in that Court it would be a pity to mar the Chances of winning a like Concession next Year by a Course of false economy or Cheese paring now.

This will inevitably be the Case if the Channel on the North side be not sunk to a depth, varying from 3 to 18 inches, according

according to the Surface Condition of the
roadway along by the Channell.

When Speaking on this Subject to
Mr Murphy he Seemed to think that the
Carrying out of the above Suggestion
though it might improve the roadway
and the General appearance of the
Works when Completed, would certainly
injure the footpath and endanger the
foundations of the buildings located thereon.
Now that is an erroneous view to take of the
matter. It would do neither the one
nor the other. The footpath would simply
assume a gradual slope from its present
level by the Kerbs to the Kerbstone of the
water tables and at no point would
the gradient be too steep for the purpose
for which it is intended.

It would Cost a little more of Course
than if the new Channel were left at
or near the level of the old one but it would
not Cost a tenth part of the filling or
levelling up system very properly Carried
out on a part of the Channel on the South
side last Year. If the Course I suggest
be not adopted in the execution of the
present works, believe me they will not when
Completed gain or merit such Universal
approval as did the work done there
last Year. Mr Murphy further added

that

the evil referred to would or could be afterwards remedied by levelling up the Roadway to an equal extent — viz — 3 to 18 inches. Now sir please that depth of Costly road metal along the whole breath and length of the street would Cost an enormous sum. I question if £1,000 would do it, and when we Consider the source from which this money is expected the idea becomes preposterous. Let then the Irish town Committee which I shall henceforth designate as the engineering department of the body look to their spurs on this occasion. They won golden opinions as I said from every quarter last year and let them not now loose their well merited reputation which reflects so much Credit on the Body generally by adopting a parsimonious Cheese paring Course on the present occasion.

I shall be glad Sir if You will ensure for this letter a thorough and impartial discussion at Your next Meeting. The debate on the question if so desired may go to the press, but it would be highly injudicious — possibly prejudicial for this letter or My name to appear in print.

Yours Sincerely

Sir.

I Chairs Letter

It may be within your recollection that in my valedictory address I took occasion with the permission of the Commissioners present to allude to our relations with the Grand Jury. In the course of my remarks I stated that so far as I could then ascertain, the County at large charges which are paid out of the Grand Jury rates amounted to about 37½ % of the total amount Collected. The Schedule of Presentments, which I now have the honour of presenting to to your Honourable Body proves that

I

then over estimated those Charges. It will be seen by a reference to the said Schedule that the County at large Charges for the ~~Borough~~ Barony of Bantry pre-sented previous to the Summer Assizes for 1891, do not exceed 34% of the total Collected for the half year, so that instead of £500 as I then stated you are entitled to the annual expenditure of £530. Our improvements within the urban Sanitary district of then £245 be the annual Cost of ordinary repairs of the streets and footpaths, there still remains to your credit in the Coffers of the Grand Jury no less a sum than £285. which has hitherto been treated by the Grand Jury as a sort of Rate in aid for the outlying portions of the Barony. It is to be hoped then that the Commissioners will not be slow ~~to~~ in claiming their right and that they will in due time make applications for presentments to the full amount of £285 each year, and if rejected their Course is clear.

If on the Contrary You are successful You will in a few years make Your streets and footpaths as neat and trim as in any City in the Kingdom. While at the same time You will be providing remu-nerative employment for the Willing workers of the Locus who ~~are~~ now- too often find a dearth of employment.

Dear Sir

Good Shepherd

With regard to the application
of the Superiores of the Good Shepherds Convent;
John R Colfer if the Commissioners are bonafide of opinion
that letting forward the building to the
extent proposed would improve
the line of the street, they may permit the
building to be set forward as required
but I think they should insist on a
Wall or other suitable boundary fence
being Continued from the end of the
building to the lane, so as to make the
entire a straight line. No deed or lease
is will be necessary, as the letting forward
of the building with the Consent of the
Commissioners gives the land thus acquired
to the owners of the remaining portion
of the building.

Yours truly
John R Colfer

Mr Chairman and Gentlemen

Yours respectfully in J. C.

The Sisters of the Convent of the Good Shepherd:

The following is the report of the Committee which was signed and read.

Your Committee had an interview in the Town Commissioners Office this day with Mr Calfer Solicitor to obtain his ~~opinion~~ advice as to the legality of acceding to the request received from the Superioress of the Good Shepherds Convent Irishtown for permission to extend the line of the property they hold into the street and thereby improve or straighten the street line there. Mr Calfer explained the Sections of the Towns Improvement (Ireland) Act 1854 and the portions of the Acts incorporated therewith on the subject and said he would study the subject fully and write his Opinion to the Commissioners.

Your Committee proceeded to inspect the proposed site of the new Chapel at Good Shepherds Convent and with Mr A Cullen the Contractor, examined the present frontage and a diagram or rough map of the proposed frontage

Resolution

That we the
New Rep Town Commissioners beg to convey
our Congratulations to the respected Parish Priest
of Tintern and through him to the people of
that historic district on the Complete Collapse
which the forces of Balfourism and Landlord-
-ism of the worst type, met with on yesterday
in the Court house at Arthurstown. We
desire to Convey to him our best Wishes
in the Ordeal through which the present
Government are endeavouring to force
him and his people, and we trust that
the day is not far distant When
the enemies of the people will meet
with What they so justly deserve. That

Dear Sir, In this Case I advise you that if the

the nuisance in Holden's premises was Caused by any structural defect, or the want of any structural Convenience in the premises, "the owner" was the person who should be summoned, and I Consider that Dr Hughes was "the owner" within the meaning of the "Public Health Act". If the Commissioners are satisfied that the nuisance arose from the Cause already mentioned then I will issue a summons against Dr Hughes for the 16th Inst., and for this purpose I will require the Doctors report which describes the nuisance. To the best of my recollection the report is very meagre, and I am rather inclined to think that the nuisance in this case is Caused by the mode in which the occupier uses the premises, rather than from any structural defect. If I am right in this surmise, then in my opinion the summons will fail as the proceedings ought to be taken against the occupier.

Dear Sir,

Licence on Salesmans house Inistiogue

In to Your query Concerning the license lately held by Mrs Mary Salesman I am of opinion that the Town Commissioners being merely Ground landlords and not being in receipt of the rent payable by the occupier of the premises ~~Caused~~ cannot be Considered "Owners" within the meaning of the Licensing Act 1872, and therefore Cannot take any steps in Connection with the Licence in question.

The only person who Could take any such step would be the person in actual receipt of the rent of the premises, and who I understand are represented by Mr Edward Sheill. But even ~~if~~ for these parties the remedy now is very

doubtful.

In October 1890 an Order was made by the Magistrates disqualifying the premises for a period of one year and destroying the License, so far as the holder was Concerned. The Petty Sessions Clerk informs me that he learned upon Mr Perrill the Notice prescribed by the 56th Section of the Licensing act and that Mr Perrill took no action on receipt of the Notice under these Circumstances it is now too late to apply to have the disqualification removed from the premises and his only remedy would be to apply to Quarter Sessions for a new License in the Ordinary way. The granting or refusing this License would be entirely in the discretion of the Magistrates at Quarter Sessions, and although they are usually favourably disposed towards an application made bonafide for the purpose of preserving the value of property, I hardly think Mr Perrill would, in his present position, and having regard to the fact that the old tenant is still in Occupation, have any very strong Claim to the Consideration of the Licencing Bench.

Auditors Notice

In pursuance of the provisions of the Local Government, Ireland, Act, 24 & 25 Vic. Cap. 109, I hereby give notice that I shall attend at the Town Hall New Ross On Friday the 23rd day of October at the hour of nine o'clock in the forenoon, for the purpose of Auditing the Accounts of the New Ross Town Commissioners for the year ended 31st December last; and I hereby require you to cause notice of the time and place of Audit to be published in some one or more of the public newspapers Circulated in such Town in accordance with the requirements of the 17th Section of the above mentioned Act.

I have also to request that you will ~~Continued~~ Communicate this appointment to the Collector and to the Treasurer and other accounting Officers; and that you will forward to me, at the above

Audit Notice

The Clerk stated that as there was no meeting on the first inst. when he received the Notice he sent the Advertisement as usual to the New Rep Standard & he published in time Approved.

Limestones breaking

A proposal was read from Roger Tobin Michael Street Offering to break fine boatloads of limestones at 2/- per load.

R Tobins proposal accepted

Ordered - That R Tobins proposal for breaking 6 boatloads of Limestones be accepted, on the Condition that he breaks the stones to the Satisfaction of the Street Inspector and break them in such time as they may be required.

A Communication was read from John Fitzgerald Cockpit Lane - saying - You are aware that in my original application for the drawing of the Stones for the paving of the street in the Brightown, I tendered for the Contract at 1/- per ton. I did so believing at the time I Could not fulfil if

it for anything less. I afterwards got the Contract for 10 per ton, and when the men were working at the lower end of the Stud I Could easily do the work for that price. Now they have advanced Considerably towards the upper end of it, Consequently the journey is much longer and the quantity of stones that Can be delivered daily is much less.

I am therefore Compelled to ask you to give me an additional 2nd per ton for whatever quantity may be required from this till the work is Completed.

If I could possibly do the work for the present price without injury to my horses and a Considerable loss to myself, I would most willingly do so and would not now trouble Your Board.

I find now by pressing the horses I Cannot deliver more than eleven or twelve loads per day, and to make a Comparison — Andrew Cullen (and any member of Your Board Can find the truth of the Statement from Himself) Can only deliver in or about ten loads per day at the Good Shepherds from the same quarry. Trusting to the Sense of justice which always actuated Your Board to give My Case a favourable hearing — I am

Sanitary Sub Officers Report — Served on Mr Meehan with a Sanitary Notice Calling his attention to the back yard of the house Occupied by Johanna Mc Namara of Mary Street where a Nuisance is Caused for want of an Ashpit and Privy in the yard.

I Visited the Lodging Houses in Mary street and Bewley street, and High Hill. I found the Yards Clean, except the yard of Edward Power's house in Mary street, and he told me he Could not get anyone to remove the manure. He asked me if I could get it taken away by the Commissioners' Car. He would give it free. I think it would be well to be allowed to remove it.

The Main Sewer in Rochercon got stopped on the South side at the old road leading to the Police barrack. The Water flowed out on the Surface. I got it opened on this day and found it full of Sand and Mud. I got it opened for about

four yards, and it is stopped same as where I opened.

Letter McCarfer

Dear Sir

Since my last letter to you on this subject I have had interviews with the occupiers, and with Dr Meehan, and I am by no means satisfied that the nuisance in question arises from default of the owner. The information I have got, is of a very vague character, and Dr Meehan states that if the nuisance is abated in the manner specified in the notice – namely – by giving the drain an outlet to the Public thoroughfare, a worse nuisance will then be created, than that which now exists. If the Commissioners desire to proceed with a very doubtful Case, I will on hearing from you issue the necessary summons, but I think the safe Course would be to have a notice served on the occupiers, similar to that which has been served on the owner, and if not complied with

The Sanitary Sub Officer and Mr. Scanlan were Called before the meeting, and in reply Scanlan alleged that his Constitution would not allow him to do the work.

Nuisance Holdens Yard — report of Committee

The following was read.

Report of the Sanitary Committee, 29th October 1891

1 We inspected the Urinal on the new Quay. We found the little Grating for allowing the fluid to pass down to a Sewer, supposed to be stopped, and as there is some doubt about the effectiveness of the drain for Carrying away the fluid We recommend that a small drain be Made from the Urinal to the Quay direct, and that a hole be Cut between the stones at the slip to allow the fluid to pass out. There are portions of the lower part of the Urinal broken away, and we recommend that they be repaired with strong sheet Iron, being fixed on to the broken parts, and that the Urinal be Cleaned and painted.

2 We inspected Rosbercon Sewer, and was shown by the Inspector about Eighteen feet of the Sewer which had been opened at the Corner, at the junction of the old Road with Rosbercon. The Inspector stated that the Sewer was full up to the Corner covering with Gravel and stones, and as full where the men stopped opening it, at eighteen feet from the inlet.

We Considered that it is work that should be done by the grand jury of the County

of Kilkenny and we directed the Executive Sanitary Officer to write to Mr Burtchael, County Surveyor for the County of Kilkenny informing him of the facts of the Case, and state that the Commissioners, though willing to do any little temporary work, to save the residents from annoyance, believed it was the duty of the Contractor to clear the Sewer and keep it in proper Condition. Also, to ask the County Surveyor if the Contractor was bound to do the work at the sewer, and if so, request him to get the Contractor to do it.

3. We inspected Holdens premises, at Lawn Wall, and the adjoining premises, occupied by Mr Quigley, and from the statements in our Solicitor's letter we think it would be best for the owner and occupier to Mutually agree to do the work required, to Convey the sewage out through Mr Quigleys Yard, and across the street, to empty into the Sewer passing down from Wexford street to William street. If the parties Concerned do not agree to do the work We think the next best Course, is to act on the Solicitor's advice - To serve notice on the Occupier, and let proceedings be instituted against both parties and let the Magistrates decide Who is the party responsible for the Completion of the work and the abatement of the Nuisance.

Dr Colfers letter

Dear Sir

If you have not already served the Notice on Holden, as suggested in my last letter on this subject, I would prefer that you ~~would~~ made it the same as the Notice served on Mr Hughes. Part of the requirements of the Notice would not fall to Holden's lot to perform, but that is a matter which can be settled by the Magistrates at the hearing of the Summons.

St Thos R Runs wall fell

The Clerk states that on Wednesday night 11th. Inst. Const. Hannifford Called to the Office, 8 Oclock and stated that part of the gable of the St. Thomas' Institute had fallen, and that it was apprehended that more of it would fall. That he (Clerk) went and saw the Wall which looked very dangerous to persons who might be near it. That subsequently the Chairman Came to the office, and after due Consideration of the circumstances, instructed the Clerk to direct the Street Inspector to Call on the Very Rev Dr Kavanagh and request that as the Chapel Committee were the Owners of the dangerous premises, that they Cause hoardings to be fixed up to prevent people passing there. That the Inspector had Called on the Very Rev. Dr Kavanagh P.P. and made the request, and the hoarding referred to by Dr Boyd, was immediately fixed up to prevent danger to life.

Ordered - That Messrs — Mr Hutchinson Mr. Finn and the Chairman be appointed a Committee to inspect the hoarded passage, and try to urge that the place be cleared, and made safe for the passage of the people and Dr Boyds Cars, to pass in and out — The

of rent due up to September 1887, but Mr Molloy was of the opinion that the amount appearing as due on the Rental sheet should have been paid. I found however on inquiry that in former years (up to 1866) the Town Commissioners had been receiving £1.16.0 annually, the Correct rent being 18/5½, the error was not discovered for many years and now, giving Credit to the reps. of Colclough for the amount over-paid to the Town Commissioners the Cheque for £9.6.7 pays all arrears due up to Sept. 1887; Mr Molloy appeared dissatisfied with the Conclusion I had arrived at and stated he would take further action in the matter.

In two Cases the Town Commissioners desired to make abatements in respect of arrears of Pipe Water Rent, and the Matter was referred to me; On enquiry I found that the Town Commissioners had taken proceedings in one of the Cases for the recovery of the amount due before the County Court Judge, and obtained a decree, the other case being exactly similar, I declined to pass any abatement and I directed the Collector to at once press for payment in full.

Payments amounting £170 were made on account of the Gas Company, but no proper bill or statement of Account was submitted to me, therefore I cannot say whether the sum paid is Correct

Owing to the long illness of the late Collector which resulted in his death, some of the Corporate Tenants Rents both Monthly and Yearly have fallen into arrear with

with them rents to a considerable extent, and it is most desirable that the present Collector should be called on to proceed energetically with the Collection, and where necessary, he should be empowered to take legal proceedings for the recovery of the amounts due.

I am, Sir,
Your obedient Servant
Courtenay Crosbie.

The Secretary
Local Government Board

Auditors Report

Clerks explanation Gas Coy. payments

The Clerk explained to the Gas Company, that the payments on account had at Meetings been hurriedly ordered to be made, due regard not having been observed to have some of the payments made only for balances due on some of the bills. As the accounts were under Columned headings, and in Order to preserve regularity, When a payment is made on account of a Bill, the next payment should be for the balance due on that Bill instead of for an amount that would pay the the balance and an amount on ac- of another bill in the one Cheque. The account will be satisfactorily formulated against next Audit.

The Meeting was adjourned to Thursday 19th November 1891.

Chairman.

Offices, New Rop 10th December 1891

Dear Sir

In Reply to your ~~enquiry~~ query as to the liability to repair the sewers at Rosherville, it appears that these sewers are within the jurisdiction of the Commissioners as the urban Sanitary Authority, and such are not included or referred to in the Contract or Specification under which the Road Contractor took his Contract.

Under these Circumstances I am of opinion that as these sewers are vested in the Commissioners by General Acts of parliament the liability to maintain and repair them rests upon the Commissioners and not upon the Road Contractor

Yours very truly

In Reference to Mr Cheny's Communication read at last Meeting — It was agreed that Mr Tierney Call on Mr Cheny to ascertain the particulars of his offer to let the quarry space at the side of Creywell road.

The Clerk was directed to ask Mr L. Byrne Assistant to the County surveyor to get the Contractor to replace a broken part of the Kerb at Mr Tierneys Corner.

The following report from the Inspector was not read at previous Meeting. 3rd Inst.

There are seventeen heaps of manure in the Commissioners Yard now redy for sale.

There are thirteen boatloads of limestones delivered

delivered by Mr Cody the Contractor - two boatloads more are to be delivered. There are four boatloads more in stock at present. I think more stones should be ordered as the roads are very soft at the present time. About ten boatloads more will be required.

Limestones Manure

The Clerk stated that as the report had not been read at the previous meeting he with the approval of the Chairman issued advertisments for the sale of twenty heaps of manure and inviting proposals for the supply of ten boatloads of Limestones

Approved.

Quarry Johnst.

Clerks Report - On Monday evening last the Rev Mr Green Called and stated that the Commissioners Could have the rubbish in part of the Endowed School quarry at 2 pence per ton or one penny per load. He stated that as Mr A. Cullen was obliged to quarry in the lower part of the quarry, the stones quarried by the Commissioners and the rubbish he would be required to be tightened up to allow Mr Cullen to work and remove the stones,

It is desirable that the Contracts Committee would inspect the place and direct as to whether the rubbish would be taken for use or not and as to the banking of the stones.

He also reported that Mr Patrick Kelly had

Dear Sir,

With reference to the question which you asked me at our last interview as to the recovery of the arrears of rent due to the Commissioners in respect of the upper News Room — I have at your request again considered the matter, and I see no reason to alter the opinion I gave you on the subject about a year ago.

As I understand the facts of the case, this room was let by the Commissioners verbally many years ago to a number of persons calling themselves the "The Chamber of Commerce".

It appears that the tenancy was not created with

Copyright: Wexford County Archive

any particular person or persons, but merely in the indefinite shape I have above mentioned.

It further appears that the receipts for rent were given ~~to the~~ "The Chamber of Commerce" yet the person who actually paid it ~~was~~ but was not described therein as tenant. Finally, it appears that the Chamber of Commerce consisted of some forty or fifty members, but that the persons comprising this number varied more or less every year. Now, assuming that the foregoing are the true facts of the case, it would in my opinion be extremely difficult, if not absolutely impossible to recover the rent due. If all the persons who occupied the room during the period for which the rent is in arrear could be ascertained and all served with a or process, I think an action for rent or use and occupation could be sustained, but if the Commissioners pick out one or two of the entire body and sue them for the rent, such persons not having had the exclusive use of the premises for the period in question, in My opinion the action would fail. I am also of opinion that even if it could be discovered who were the acting Committee for the above period, or any part of it, an action would not succeed against them. It will be seen from these remarks that I am of opinion this rent Cannot be recovered. A result arising from the unbusiness-like practice of naming a non Corporate body as

tenant

tenant and dealing with that body as such.
All lettings should be made to some person

Mr Hennessy submitted the following Communication

Rig Byers Association, Ballybricken, Waterford

30th. 3. 92

Mr Bryan Hennessy.

Dear Sir,

As there is some misunderstanding about the date of the next Rig Fair in Newtop it would be as well to publish the date in your local papers of Saturday next. We think here that the Fair aught to be held in the usual manner, the 10th of the Month for Cattle, and the day previous for pigs, but as Sunday intervenes this time, the pig fair should be held on the Saturday before the 10th If ye Consider it right to hold the fair as usual on the days named above you aught to let us know

I am Sir
yours faithfully
Martin Arthur Jnr.

P. S. Of Course this would not interfere with your having Your Easter Saturday fair also. M. A. pmr

Ordered – That the Clerk send a Copy of the law regulating the holding of the Fairs in New Ros to Mr Arthur, and also inform him that the Commissioners cannot make any Change in the arrangements of the times for holding them; that Easter Monday, the 18th Instant is the only legal main fair that Can be held in this town in this month. Also, that the Clerk send a paragraph to the three Wexford and three Waterford papers, stating the substance of Mr Arthurs Communication, and the reply of the Commissioners thereto, for the information of byers and Sellers who may be misled by the entry of two fairs for this month in the Almanacs. That the paragraps be sent in time for the next issue of the papers in Wexford and Waterford

The Causederation of the Amnesty question was adjourned to next meeting, the members to be noticed to attend to Consider the subject.

The Chairman submitted a Communication which he had received from Mr Howlett, asking for the payment of a half years rent of the manure yard due 25th March 1892.

Ordered – That the Collector prepare a bill of

Offices, New Rds, 31st March 1892

Dear Sir

Mr T. Corcoran of Bally Sut. has sent me the enclosed mem. with a request that I should amend it where necessary, and then transmit it to your Commissioners. I have made two trifling amendments. the rest of the mem. conveying, according to my recollection, a substantially accurate idea of what occurred at the meeting. I am not in a position to give you the names of all the Gentlemen who attended the meeting on the 25th from New Rds. and mentioning those whom I recollect would be creating a distinction which ~~ought~~ might be invidious, but I think what the Rower men really require, is the active support and Co operation of the New Rds Ratepayers, and I dare say one of the practical methods of showing such Cooperation, ~~of the New Rds Rate payers~~ would be by having a Sub Committee of influential and business like Gentlemen appointed.

Yours truly

John R Colfer

Ballyfoyle Inistioge

26th March 1892

To

The Chairman

New Ross Town Commissioners.

Sir

I think it desirable that I should give you a brief minute of what took place at a public meeting, and at a subsequent Committee meeting in reference to Mount Garret Bridge at the Rower yesterday.

I would respectfully ask you to forward to Mr Colfer and to me the names of five Gentlemen from New Ross to whom you will entrust the interests of your town in this matter. I may state that it is the wish of representatives from both New Ross and the Rower as expressed at the meeting yesterday, that Mr Edly Graves, Rosbercon Castle shall be one of the five.

I am, Sir,

Yours very truly

Thos Corcoran, Sec.

Minutes

1 At the public meeting Mr Colfer explained the mode of proceeding which must be pursued in order to free Mount Garrett Bridge. He explained that the Bridge can be freed without the intervention of Parliament, but that if we go in for ~~a~~ putting any portion of the tax on the landlords an Act of Parliament will be necessary

2 Resolutions slightly differing from those printed were Carried unanimously.

1892 — Thursday 31st March — Minutes Continued —

March 31st

3 Names of the Mount Garret Free Bridge Committe were publicly read out.

The Public meeting at this stage formally Closed, and the Committe immediately sat.

Several Gentlemen from New Ross having expressed the opinion that our Committee should be sufficient for New Ross and the Rower, and the representatives from the Rower having agreed to this —

4 All the Gentlemen there present from New Ross, about twenty in number were unanimously elected Members of the Mount Garret Free Bridge Committe.

5 It was the feeling of the Committee that we should go in for a free bridge pure and simple, and not for a new Bridge

6 Taxation — The people of the Rower, in the event of the Landlords not coming to their aid would seem to be willing to pay the whole tax.

7 A discussion on the area of Charge, and the probable rate took place

8 Mr Colfer suggested that a Sub Committe Composed of five representatives from the Rower and five from New Ross should be appointed to Confer with him on a day which he will appoint early in April. This suggestion was unanimously agreed to.

Re Labourer's Dwellings

Dear Sir

I enclose you a form of Memorial to the Board of works for the necessary loan in this matter. You will observe there is a blank for the measurements which Can only be supplied by Mr Byrne, but possibly the Commissioners may approve of the rest of the Memorial, and authorise you to fill in the blank when you receive the particulars from Mr Byrne, and to forward the Memorial without waiting for another Board Meeting. I have put in the loan £109 odd for extras, not that they should reach that sum, but because I consider the builders estimate too low, having regard to the Cost of the houses built in 1880

Yours truly

John R. Colfer

J. W. McGibin

Town Clerk, New Ross.

The following list of items to be supplied by Mr Byrne were received from Mr Colfer. for the Completion of the Memorial.

1 The Measurement in front, and the depth from front to rere of each site

2 The square measure in feet or yards of each site.

Offices New Ross 7th May 1892

Dear Sir

In reference to the Application of Mr Redmond and yourself for a presentment for repairing the damaged flags and granite Curbings of the footpaths leading from Ellys Walks to Creywell, in my opinion this work is included in the present Contract for the repair of this portion of the Streets of New Ross which is held by Mr Bryan Kennedy. It is quite possible that such an Application be approved of as it sometimes happens that untenable applications are successful at Presentment Sessions, but in my opinion if this matter is discussed with any care the application must fail.

Yours very truly

adjourn this meeting, without transacting any other business, as a mark of our very deep regret Caused by the death of Edward Walsh, proprietor of the Wexford People, NewRop standard and other papers, and a mark of our deep and heartfelt sympathy and and Condolence with his afflicted Wife, son, and immediate relatives, in their Great bereavement.

Many of us have known Mr Walsh from the days of his Youth to his death, he being, we are proud to say, a native of our town. During his Youth in his native town, he stood high in the respect and esteem of his fellow townsmen. When, about thirty years ago, he decided on entering on his Career in journalism, by joining the staff of the Wexford People, his fellow townsmen made him their Guest at a public dinner, at which the large room of the Thalsel was filled to inconvenience with the respectable men at the time in our town.

During his years as a journalist, the prosecutions and imprisonments he underwent, under the Whig and Tory Governments, places him in a high niche in the local, and national history of his Country. His last imprisonment, so undermined his health, that it led to his death, and placed his name on the long Roll of the Martyrs for Ireland. Passed unanimously.

The Committee found a drain Coming out from the Good Shepherd's premises at the lane — the East side — and flowing out to the old water Channel.

The Committee Considered the best way to amend the matter would be to have sewage Conveyed to a Tank to be made at the East side of the Lane.

M^r Tierney was deputed to See the Rev Mother and explain to her the opinions arrived at that the sewage could not be allowed to flow out on the street, and that they believed the easiest way to remove the Cause of Complaint was to make a tank in the field and have the sewage Conveyed into it.

After Returning M^r Tierney related the result of the interview. The Rev Mother had stated that she was desirous of having the Cause of Complaint removed. That she would try to get permission to have the drainage Conveyed across the street and into one of the fields.

Resolution

Proposed by Thomas O'Neil Seconded by Nicholas Walsh

— Resolved – That we, the Maryborough Town Commissioners desire to express our sympathy with our respected Townsman, Mr John Hipwell, under the gross Legal Injustice of which he has been the victim; and we also reprobate in the strongest manner the action of his Landlord in his dealing with Mr Hipwell, and that a Copy of this Resolution be forwarded to each

Town commission in Ireland together with an explanation of the facts of the Case with a View of obtaining their assistance in procuring a Change in the unjust laws now existing regarding the relations between Landlords and Tenants in Cities and Towns in Ireland; and that we call upon them to press their Candidates at the approaching General Election, and to make this a test question with them". Passed unanimously.

Statement of Facts.

In 1871 Mr Hipwell purchased the Tenancy of House No 1 Church street Maryborough for the Sum of £190 at the yearly rent of £28 per annum.

Mr Hipwell reconstructed Shop and premises all which were in a ruinous Condition at an outlay of over £600 and built up a fine business.

In 1888 he was noticed by the Head Landlord Mr F. Cassan not to pay rent to Mr O'Brien, and in 1891 a suit for possession was instituted — the immediate owner Mr O'Brien not being aware of the transaction.

On the issue of the Writ for possession, Mr Cassan demanded from Mr Hipwell four Years' mesne rates at the increased rent of £50 per year (£200) with interest and Compound Interest on Same. He also demanded the legal Costs incurred in establishing his Claim* together

Copyright: Wexford County Archive

together with the Surrender of the Garden and larger portion of Yard, on which Mr Hipwell had built Stores and Stabling, leaving nothing more than the Dwelling-House and small Yard, which would be quite insufficient for Mr Hipwell, in Carrying on his large business.

Sooner than destroy his business, Mr Hipwell Consented to pay these most unjust demands, if if indemnified; also to Surrender the Garden, but Stated his House was useless to him without Out-Offices and yard.

As Mr Cassan would not agree to this, Mr Hipwell then Offered to pay him the above Sums and an additional £30 if left in possession for six Months, so as to Clear off his large Stock.

Mr Cassan also refused this, and the Sheriff was instructed to put him out, and possession was taken on the 11th June 1892. by the Sheriff.

Proposed by Mr Miskella (Chairman) Seconded by Mr Kennedy — That We approve of the Resolution passed by the Town Commissioners of Maryborough respecting the great injustice inflicted by Landlord power of Mr Hipwell. That We Call on our Parliamentary Members to to bring in a Bill at an early date dealing with the the relations of Landlord and Tenant in Towns in Ireland, in Order to prevent the exercise of the unjust power which at present can be used by landlords under the existing State

of the law which is clearly evidenced in the Case of Cassan v. Hipwell at Maryborough.

That a Copy of this Resolution be sent to our County Members — Mesrs — John Barry M.P. and Thomas I. Healy M.P. — Also — That a Copy be sent to the Maryborough Town Commissioners.

Passed unanimously.

A Proposal was read from Pat Bird for two heaps of Manure @ 2/- per heap.

Ordered — That Pat^K Birds proposal for two heaps of Manure @ 2/- per heap be accepted.

Ordered — That advertisments be issued inviting proposals for the supply of Twenty boatloads of best Limestones @ per Boatload, to be delivered as required by the Street Inspector — the proposal to state the number of Tons that will be in each load. The proposals to be Considered at next Meeting.

Rotobello Hotel, Dublin 4th July 1892

Dear Sir,

It is Contemplated Starting a limited Company for the purpose of building Steamers to Carry passengers, Cattle and goods on the rivers Shannon and Barrow, Laughs Rea and Derg. We have invented and patented a unique and novel steamer eminently fitted and suited for such a service. The passenger Boat will be second to none in Comfort and luxury while the Cattle boats will present a new feature, perfect in every detail for the Safe, Careful, and rapid transit of live stock of all Kinds.

Needless to say such a Company would be directly and indirectly the source of much revenue to your town. We would be glad to have the feeling of your Board on the subject, to what extent they would support and Cooperate in this undertaking. We have received the most encouraging replies from the various public bodies we have approached, and trust to be favoured with the same from Your Commissioners.

Yours Faithfully

No. 29,619/92.—MISCELLANEOUS.

# To the Coast-Guard and Officers of Customs in Ireland, To the Boards of Guardians of Unions, To the Town Councils, and To the Commissioners, severally acting as Sanitary Authorities on any part of the Coast of Ireland, to all Masters of Ships, to all Pilots, and to all other Persons whom it may concern:

WHEREAS We, the Local Government Board for Ireland, are empowered by Section 148 of the Public Health (Ireland) Act, 1878, from time to time to make, alter, and revoke such Regulations as to Us may seem fit, with a view to the treatment of persons affected with Cholera, and preventing the spread of Cholera, as well on the seas, rivers, and waters of the United Kingdom, and on the high seas within three miles of the coasts thereof, as on land; and may declare by what Authority or Authorities such Regulations shall be enforced and executed:

AND WHEREAS by Section 2 of the Public Health Act, 1889, it is enacted that Regulations of the Local Government Board for Ireland made in relation to Cholera and Choleraic Diarrhœa, in pursuance of Section 148 of the Public Health (Ireland) Act, 1878, may provide for such Regulations being enforced and executed by the officers of Customs, as well as by other authorities and officers, and, without prejudice to the generality of the powers conferred by the said Section, may provide for the detention of vessels and of persons on board vessels, and for the duties to be performed by pilots, masters of vessels, and other persons on board vessels; provided that the Regulations, so far as they apply to the officers of Customs, shall be subject to the consent of the Commissioners of Her Majesty's Customs:

AND WHEREAS by an Order under our Seal bearing date the Sixth day of December, 1890, We did make Rules and Regulations for the treatment of persons affected with Cholera, and for preventing the spread of the disease, and by a Definition in Article I of the said Order We did define the term "Sanitary Authority" therein to mean, with respect to the seas, rivers, and waters within the limits described in Column 1 of the Schedule thereunto annexed, the Guardians of the Poor of the Unions named in Column 2 of the said Schedule opposite to the descriptions of the said limits respectively:

Cholera Regulations.—(Rags from France.)

*GENERAL.*

**To all Coast-Guards and Officers of Customs in Ireland, To the Boards of Guardians of Unions**, severally acting as Sanitary Authorities on any part of the Coast of Ireland, to all Masters of Ships, and to all other Persons whom it may concern:

**Whereas**, by an Order under our Seal bearing date the Sixth day of December, 1890, We, the Local Government Board for Ireland, did make Regulations with a view to the treatment of persons affected with Cholera and for preventing the spread of the Disease:

AND WHEREAS in consequence of the existence of cases of an Infectious disease alleged to be Cholera in certain parts of France We, by an Order under our Seal bearing date the Fifteenth day of July, instant, did make Regulations with reference to Ships having on board bales of Rags from that Country.

AND WHEREAS, by an Order under our Seal bearing equal date herewith, We have amended our said Order of the Sixth day of December, 1890, in regard to the definition of the term "Sanitary Authority" in, and the Schedule annexed to, that Order:

AND WHEREAS cases of the said Infectious disease alleged to be Cholera still exist in certain parts of France, and it is expedient that further Regulations should be made as hereinafter mentioned with reference to Ships having on board bales of Rags from that Country:

AND WHEREAS the Commissioners of Her Majesty's Customs have signified their consent to the Regulations herein contained so far as the same apply to the Officers of Customs:

NOW THEREFORE, by this our Order, We, the Local Government Board for Ireland, do rescind our said Order of the Fifteenth day of July, instant, and, in exercise of the power conferred on Us by Section 148 of the Public Health (Ireland) Act, 1878, by the Public Health Act, 1889, and every other power enabling Us in this behalf, do make the following Regulations, and declare that they shall be enforced and executed by the several Authorities specified in the Schedule to our said Order bearing equal date herewith:

Article 1.—In this Order—

The term "Ship" includes vessel or boat:

The term "Coast Guard" includes any person belonging to the Coast-Guard having authority from the Lords Commissioners of the Admiralty:

The term "Officer of Customs" includes any person acting under the authority of the Commissioners of Her Majesty's Customs:

The term "Master" includes the officer, pilot, or other person for the time being in charge or command of a ship:

The term "Sanitary Authority" means with respect to the seas, rivers, and waters within the limits described in column 1 of the Schedule annexed to our said Order bearing equal date herewith, the Guardians of the Poor of the Unions named in column 2 of the said Schedule, opposite to the descriptions of the said limits respectively:

The term "Port" means a Port established for the purposes of the laws relating to the customs of the United Kingdom:

The term "Medical Officer of Health" includes any duly qualified Medical Practitioner appointed by a Sanitary Authority to act in the execution of our said Order of the Sixth day of December, 1890, as amended by our said Order bearing equal date herewith:

Article 2.—From and after the date of this Order, and until We shall, by Order, otherwise direct, no rags from France shall be delivered overside, except for the purpose of export, nor landed in any Port or place in Ireland.

Article 3.—If any rags shall be delivered overside or landed in contravention of this Order, they shall, unless forthwith exported, be destroyed by the person having control over the same, with such precautions as may be directed by the Medical Officer of Health of the Sanitary Authority within whose jurisdiction or district the same may be found.

Article 4.—All masters of ships, consignees, and other persons having control over any rags prohibited under this Order from being delivered overside, except for the purpose of export, or landed, are required to obey these regulations.

Article 5.—All Officers of Customs are empowered to prevent the delivery overside or landing of rags in contravention of this Order.

Article 6.—It shall be the duty of the Sanitary Authority to take proceedings against masters of ships, consignees, or other persons having control over any rags, who shall wilfully neglect or refuse to obey or carry out, or shall obstruct the execution of any of these regulations.

Given under our Hands and Seal of Office this Twenty-sixth day of July, in the year of Our Lord One Thousand Eight Hundred and Ninety-two.

(Signed),

F. Macleod

89 The Muckly Bill amounted to — £6.4.10

Inspector's Report — There are three boatloads of limestones landed and one large boat Containing twenty tons. I think it would be well to have them broken soon

I received the boatload of Gravel. I got one Cartload weighed, and it weighed fourteen hundred and one quarter net. I had nineteen Carts at that weight and one Cart at about twelve hundred. That makes 14 Tons 2½ hundred.

The Clerk reported that he Cashed the Cheque and paid 10/- to the Finn Brothers being for 3/4 of a boatload of 20 tons

Approved.

The Inspector was Called before the Meeting and in reply said he had only Mr Codys word for the amount of Limestones in the

large boat

Ordered — That the Inspector weigh a load or more of the large boatload of Limestones to ascertain the number of tons Contained in the load.

The Chairman stated that Mr McCaukey had Complained that the Fowl Market had been held near the bank, and as Mrs McCaukey was unwell he requested that the Market be Kept further over the quay, to the South.

The Inspector stated he had Kept the Market over to the South of the Quay but the buyers had brought the fowl over near to their residence after purchasing.

Ordered — That the Inspector do not allow the Fowl Market to be held in any part of the Town but in the place set apart on the Quay for that purpose.

Ordered — That advertisements be issued inviting proposals for breaking 20 boatloads of Limestones to the Satisfaction of the Inspector, the proposals to be received at next Meeting.

that he house got no water for the past six months, and of course will not Consent to pay the usual Charge. He have drawn the attention of Mr Redmond to the facts.

The Inspector stated that Mr Butler had Changed the Cock on his premises some time ago to a higher position than where it had been for the previous years during which time he had not Complained of a deficient supply.

The Inspector was directed to See Mr Butler and explain to him that in some Cases the junction of the branch and main pipe becomes stopped with rust and sediment, and that it would be well to have the junction examined. That the Commissioners men would open the ground at the junction to allow it to be examined.

The Collector sent in the names of Patrick ~~Daniel~~ Murphy, and Mary Anne Flaherty, who had applied to be accepted as tenants for the vacant house in William Street

# PRECAUTIONS AGAINST CHOLERA.

LOCAL GOVERNMENT BOARD, DUBLIN,

27*th August*, 1892.

SIR,

The presence of Cholera in Western Europe and the possibility of the extension of the disease to this country render it desirable that Sanitary Authorities in Ireland should be reminded of the precautions which may with advantage be adopted in their districts with a view to the protection of the public health. The Local Government Board for Ireland think it may also be well to point out what ought to be avoided, and to suggest such general considerations connected with the subject as may enable Sanitary Authorities, acting with the advice of their Medical Officers of Health, to instruct the public as to the mode of life which according to past experience affords the best security against the threatened danger.

Cholera spreads through a community in consequence of minute portions of the evacuations of a Cholera patient finding their way directly or indirectly into the system of persons who are in health. This occurs chiefly through such evacuations polluting the water supply. Hence the first duty of Sanitary Authorities when Cholera threatens is to

*Look to the Water Supply.*

If the local supply is from waterworks, see that the reservoirs are free from accidental sources of pollution from drains, manure heaps, foul ditches, &c.

See that the water mains and service pipes are not close to leaking main sewers, or leaking drain pipes.

Remember that a water main with leaky joints, although running full, may take in foul water from leaking sewers or drains, or from a polluted sub-soil.

If the water supply is on the intermittent system, the danger of taking in foul water or impure gases through leaky joints is still greater.

If the water supply is from wells or pumps, carefully examine the surroundings. Slop-waters, or solid or liquid filth of any kind lying on the surface, are sooner or later washed down into ordinary wells.

When Cholera prevails it is safest to boil all drinking water; it is necessary to do so when the source is from wells or pumps. Water thus boiled should not be kept over for use longer than 24 hours.

Do not trust to ordinary filters to purify doubtful water.

*As to Sewers and Drain Pipes.*

If sewers or drain pipes are blocked it will be necessary to clear them.

If not blocked, let sewers and drain pipes alone. Their contents ought not to be disturbed without absolute necessity when Cholera is present.

*As to Privies, Dung-heaps, &c.*

Do not empty privies or disturb dung-heaps when Cholera threatens. If privies must be emptied disinfectants ought to be used. Dung-heaps and collections of fœcal matter are best treated by spreading over them either

Copyright - Wexford County Archive

fresh earth or dry turf-mould to the depth of half a foot. If possible leave such collections alone until cold weather sets in.

*As to Houses let in tenements, or in lodgings, and Common Lodging Houses.*

The Sanitary Authority should see that strict cleanliness is observed.

That there is no overcrowding.

That drinking water supplies are not taken from cisterns which supply water-closets.

That overflow pipes from cisterns do not pass directly into drains.

That down pipes, and sink and waste water pipes, do not pass directly into drains. They should discharge over a trapped sink, or on to a surface water channel.

Houses which surround grave yards are dangerous habitations when Cholera prevails—hence such houses should if possible be detenanted at such times. If this cannot be done the Sanitary Authority ought to exercise special vigilance to see that they are not overcrowded, and that they are ventilated as far as possible from the side which does not overlook the grave yard.

*As to Persons affected with Cholera.*

Every Sanitary Authority ought to provide a hospital, or ward, or temporary receptacle of some kind for the admission of cases of Cholera, in order that such cases may be isolated as soon and as completely as may be practicable.

The evacuations of Cholera patients, that is the matters vomited or passed from the bowels, ought at once to be treated with disinfectants.*

The clothing of patients ought to be steeped in a disinfecting mixture before passing to a laundry.

The premises from which Cholera patients have been removed ought to be disinfected by burning sulphur in the room, by washing the timber and boards with disinfecting mixture, and afterwards by limewashing the walls and ceiling.

---

* A good disinfecting solution may be made with ½ oz. corrosive sublimate, 1 fluid ounce hydrochloric acid, and 5 grains of commercial aniline blue, in 3 gallons (a bucketful) of common water. It ought not to cost more than 3*d.* the bucketful, and should not be further diluted. The use of non-metallic vessels (wooden or earthenware house tubs or buckets) should be enjoined on those who receive it, and articles that have been soaked in it should be set to soak in common water for some hours before they go to the wash. Floors that have been wet with Cholera evacuations should be washed with the above solution and afterwards cleansed in the ordinary way. All Cholera evacuations should have some of the above solution added to them before being otherwise disposed of.

A substance generally available in the removal of filth from privies and ashpits, and for application to foul earth and the like, is sulphate of iron (green copperas), either in strong solution made by stirring crystals of the salt with five or ten times their bulk of hot water, or in the form of powder, to which form the crystals may be readily brought after desiccation (thorough drying in an oven or on a hearth). This agent should be used in quantity sufficient to destroy all odour, and in the removal of filth accumulations it should be well mixed with successive layers of the matter to be removed. The dry form of application is to be preferred where masses of wet or semi-solid filth have to be dealt with. After emptying privies, &c., the foul surfaces should be well sprinkled with the powder.

The following is also a good disinfecting mixture for domestic use:—Common sulphate of iron (green copperas), one ounce; carbolic acid, a quarter of an ounce; water, twenty fluid ounces, or one imperial pint.

*Precautions to be observed by all persons.*

In the event of a case of Cholera occurring in the district or in the neighbourhood, the Sanitary Authority would do well to have the following directions printed and posted up at the dispensaries or other public places, and, if they think fit, distributed by handbills.

*To avoid Cholera you are advised*

To be temperate. Drunken and dissipated persons are frequently the first attacked. It is a mistake to suppose that adding spirits to water counteracts any dangerous qualities the water may possess.

Boil water before drinking it. When cold pour it from one clean vessel into another several times to take off the flatness of boiled water. Do not store water in vessels for more than 24 hours.

Tea, coffee, and cocoa are perfectly safe drinks.

Boil all milk before you use it.

Do not take purgative medicines except under medical advice.

Do not eat any fish which is not perfectly fresh. Avoid shell-fish.

Do not eat unripe or overripe fruit.

Do not indulge in violent games or excessive exercise causing copious sweating.

When heated from work or exercise do not drink large quantities of cold fluids.

Avoid sea or river bathing when Cholera is in the district.

If you suffer from looseness of the bowels lose no time in seeking medical advice.

Do not be afraid to help anyone who may be attacked. Cholera is NOT directly infectious like small-pox, fever, or scarlatina.

Your obedient servant,

THOMAS A. MOONEY,

Secretary.

Dear Sir-

You will recollect that several months ago, you and Mr Murphy and Mr D. Doyle, as a Sub Committee of the Town Commissioners consulted me in reference to amending the bye laws, so as to place the Commissioners in a position to stop the purchase of Salmon, in their dwelling houses, by Michl Keeffe and other fish dealers of the town.- I drafted several amendments of the existing bye laws and submitted them to Counsel for revision, but his opinion was unfavourable, and as I understand from Mr Tobin that the Sub Committee desire to bring the matter to a definite conclusion I have endeavoured to give below the substance of Counsels opinions, and the line of Argument by which he supported them-

The portion of the bye law which purports to prohibit the sale of fish elsewhere than in the fish house is ultra vires and therefore void-

The power to make bye laws is given by the Local Government act 1891 in reference to the matters mentioned in the 42nd Section of the Markets and Fairs act 1874, and the only one of the matters referred to in that Section which could at all apply to the present case is the following:- "For regulating the use of the Market place or Fair and the buildings, Stalls, &c. therein"- Such bye laws in Counsels opinion, could only deal with the mode of using the market place, but could not affect the right to use other places than the market place-

It is a well known principle of law that when a Statute provides a specific penalty for a particular offence it will not give power to make bye laws which shall provide another penalty for the same offence -

The 13th Section of the markets and Fairs act above mentioned prescribes a penalty of £2. for selling in any place other than the market, any articles in respect of which Tolls are authorised to be taken, and the existence of this provision, in Counsels Opinion, renders any bye law passed for the same object an excess of power and therefore void -

Copyright Wexford County Archive

But the Town Commissioners of New Ross cannot avail themselves of the above section because, they are not authorised either by Act of Parliament or otherwise to take a toll for the sale of fish in their market, all rights of levying toll, having long since been abandoned by the Governing Bodies of new Ross.

Therefore, before being empowered to use the 13.th section of the Markets and Fairs Clauses act, it would be necessary for the Commissioners to acquire the right of levying toll for the sale of fish in their market. The only statutory provision under which such powers can be obtained, is the 10.th section of the Local Government act 1871. which provides that the "Governing body" (meaning in this case "the Commissioners") may provide a market place and construct a market house and other conveniences for the purpose of holding markets" and "provide all things necessary for the use of such market," and may take stallages, rents and tolls for the use of such market place." such tolls to be approved of by the Chief Secretary – The question then arose whether the New Ross Commissioners could fix a toll in respect of fish, which would be approved of by the Chief Secretary, and thus acquire the right to prosecute parties for selling, elsewhere than in the market place, but Counsel was of opinion that the New Ross Commissioners were not in a position to establish any such toll, and, hence his opinion on the whole case, was that any bye laws by which the Commissioners would endeavour to prevent the sale of fish in private houses, would be ultra vires and therefore illegal – I shall be happy to submit these opinions for the consideration of your Committee if you think it desirable, but the reasoning is rather technical, and I therefore thought it more convenient to give, in the foregoing observations, the substance of these opinions stripped as far as possible, of technical language –

I may add that in a case very like the present and decided last January (Town Commissioners of Banbridge -v- Browne) Judgment was given against the Commissioners –

Yours very truly

John Roche

very small Meeting, and as it would be more in Keeping with the Sentiments of a full Board to leave the matter in the Hands of Our Parliamentary Representatives, and the Home Rule Government.

The Motion was Seconded by Mr I. E. Tobin and Passed – (One Guardian dissenting and one Guardian (not Voting.)

It was also proposed by Mr Stafford, and Seconded by Mr R. W. Callender, and

Resolved – That this Representative Board wish to state that only five Guardians attended the Meeting held on the 17th ultimo, that three Guardians then present were in a position to pass without previous notice the insidious resolution now rescinded.

This Board feel Called upon to record with deep pain the humiliation to which they have been subjected by having that Obnoxious resolution despatched, Ostensibly as the emanation of a full Board; they believe it was inspired by a Mischievous desire to embarrass the present Government rather than for the Welfare of the evicted tenants, whose interests the Board feel, are safe in the hands of Mr John Dillon, Mr Wm O'Brien and the other Members of the Irish Parliamentary Party, to whom the Board again renew the assurances of their fullest Confidence and devotion. That a Copy of this Resolution be forwarded to all those persons

harder than 6. They are not quite up to the standard of the best waters (see footnote) ~~and~~ but are tolerably good.

Charles St Abyssinian Pump — No 7 Charles street Pump — A hard water, but free from excess of organic matter and micro organisms. It is a good water.

Roscrea Pump — No 8 — Roscrea pump — Is moderately soft and is free from excess of organisms. It is a fairly good water and well suited for washing purposes

Roscrea Abyssinian Pump — No 9 — Roscrea Abyssinian Pump —
Priory Lane Abyssinian Pump — No 10 — Priory Lane Abyssinian Pump —

These waters are somewhat but not very hard. No 9 is slightly softer but contain a good many suspended particles, and No 10 a large amount of Nitrates, and a rather large quantity of Saline ammonia. 9 is better than 10. The former is on the whole a fairly good, the latter a middling water.

Burnicen Fountain — No 11 — Burnicen Fountain — This water is moderately hard. It is very free from organic matter and contains extremely few micro organisms. On the other hand it includes much Nitric acid, still

No 13 Chapel Lane Fountain —
No 14 Shambles Fountain — These waters are moderately hard. They are very free from organic matter and micro organisms, but Contain much nitric acid. They are at leat at present very safe waters to drink.

Conduit Lane Fountain

(Lane)
No 15 — Conduit Fountain — Is a moderately hard water with practically no Organic matter, or microbes. It is very free from suspended particles. It Contains much nitric acid, but it is a safe water to drink.

William St Pump

No 16 — William St pump — Is soft and free from organic matter save a trace and from excess of microbes. It Contains a large number of suspended brownish red particles which make the water slightly turbid on being Collected and analyzed. They may be solely composed of peroxide of Iron, probably derived from the Iron work of the pump.

No 17 — Brandon Well — This water is moderately hard. It is pretty clear and free from organisms. It Cantains a mere trace of Organic Matter. It is a very good water.

Of these 17 Waters only one is decidedly bad. The Greater number Cantain much nitric acid. I infer from this that the Sources of the Water are not very pure but by filtration through -out the Soil their Organic Matter has been Oxidized and Converted into Carbonic acid, Water and Nitric acid, and in that may have become purified. On the whole, I have rerely met with so many Waters so free from Organic matter, which is the really serious impurity of water.

Charles A. Cameron
Analyst for the Cty Wexford

The following is the note printed at foot of each of the Reports of the 17 Waters. —

In fresh sewage, the Nitrogen present is Chiefly in the form of Albuminoid Substances, but it speedily becomes, in part at least, Ammonia (a Compound of Nitrogen and Hydrogen). After some time the Ammonia Oxidizes successfully into Nitrous and Nitric acids. The presence of large quantities of Nitrous acids or Nitric

Acid

Copyright: Wexford County Archive

Acid in water is a suspicious circum-
-stance, as these substances are formed
from nitrogenious bodies; they are, however,
not noxious, and nitric acid in moderate
amounts often occurs in good water when
hard. When water contains more than
0.005 grain of Albuminoid Ammonia
per gallon, it is considered not to be
of the purest quality. 0.01 grain per
gallon is excessive, and the higher the
proportion beyond that point, the more
impure the water is. The most dangerous
ingredient of water is albuminoid matter
of animal origin. Dark-coloured,
peaty waters, often however contain
much Albuminoid nitrogen derived
from comparatively harmless vegetable
matters. Albuminoid Ammonia is
least objectionable in peaty waters.

Dear Sir

In reference to your query as to the Mode of procedure to be adopted by the Commissioners for the purpose of

having North Street widened under the provisions of the Grand jury Acts — In my opinion the proper way to proceed is for a printed application to be filled up, and signed by two Ceatpayers of the Barony, setting forth in Clear language the nature of the proposed work, and the estimated Cost of Same, and accompanied by a small map of the proposed alteration in the Street.

The Application will first Come on at Presentment Sessions and afterwards before the Grand jury.

I am, however, inclined to think that the Application would have only a small Chance of being successful first, because the probable expense, if Considered too much for the advantage to be gained, and Second, because the Grand jury may Consider that this work more properly Comes within the Scope of the Commissioners' own duty under the Towns Improvement Act.

However, if You supply me with a description of the work, and an Estimate I will prepare a form of Application and when signed, have it lodged and posted as directed by the Act of Parliament in Case the Commissioners decide to proceed with the matter.

Yours faithfully

The Clerk stated that McAlpin had informed him that the reps of the late A.M. Shanahan would be surrendering the Tenancy of the the ground opposite the Hotel on the 25th March next and that it might be more advantageous to delay any movement on the matter until after that date. At present it would be necessary to make an Estimate of 20 or 25 years purchase at £6 or £7. per annum as the value of the palace. After the 25th March that Claim Could not be so well put in for old walls. He also suggested that so long the County Surveyor would be in Town it would be well for some of the Commissioners to wait on him and explain the advantages the widening of the street would be to people from the Country as well as the people of the Town.

It was agreed to allow the matter to stand until after the 25th March 1893, when the matter will be Considered again

Proposals were read for the Tenancy of the Scales on the Quay for 12 months at £6 per week from
John Duffin Bewley street

— Dear Sir,

My Committee think the establishment of a Department of Agriculture absolutely necessary for the welfare of an Agricultural Country like Ireland in these days of pressing Competition and educational progress.

I am therefore instructed to ask you to bring before your body the annexed Resolution, in the hope that it may be endorsed by them, and published and forwarded to the authorities with a view to stimulating Government action on this most important matter.

Resolution

Proposed by Mr William Field M. P.;
Seconded by Mr William Radcliffe J. P., and resolved unanimously.

"That we the Committee of the Irish Cattle Traders and Stockowners Association, demand from the Government the appointment of an Irish Agricultural Department, to be worked by Irishmen who have a thorough Knowledge of the Agricultural necessities of their own Country; seeing that in England, where the agricultural interest is but 14 per per Cent of the industrial volume, there is an Agricultural department, with 82 Salaried officials. While in Ireland, where

where the overwhelming majority of the popu-
-lation have to depend for income on the products
of the Soil, there is no Agricultural Department
Whatever. That Copies of this resolution be
forwarded to the Premier, the Lord Lieutenant

Mr Patrick Redmond

Sub Sanitary Officer

Please have Harneys House Cleaned down and the Clothes disinfected and washed

November 22nd 1892 J. Meehan

The Executive Sanitary Officer reported — That after the limewashing and disinfection of the Clothing at Harneys house he visited the house and found the bedding &c out on the walls of the Yard, which is central between the houses on High Hill and Shaiden Lane, and their appearance to the people entering the Yards from the two rows of housed was such as to cause apprehension amongst the people of the Neighbouring Houses. There was no person in the house to do anything but the man Harney, the father, who had been unwell himself and then in destitution. There was no person to do anything for him but a neighbour, Margaret Keough, herself the mother of nine young children. She had been attending on the patients for days, and had taken Mrs Coals baby into her own family on the removal of the Mother to Hospital. I told her to get coals and have the Clothing properly washed. On going through the house I found Walls covered with paper which thought might retain germs of the Contagion and directed that they be removed and the bare walls limewashed. I directed

the Sanitary Sub Officer to get the second report from the Medical Officer of Health, to authorise the necessary additional Cleansing to be done. It was done and the clothing was washed and Some Cleansing of the wood work in the house. A good quantity of Chloride of lime was thrown over the manure in the yard as matter drained from it down through the other yards. Approved.

A Bill from Margaret Kough was handed in for 10/- for the work performed by her by the directions of the Executive Sanitary Officer.

Ordered - That Margaret Kough be paid 10/- for her work in washing the disinfected Clothing and the woodwork in Harneys house.

A Circular was read from the Local Government Board - No 45, 639 192 - Miscellaneous. Dated 21th November 1892 Saying - I am directed by the Local Government Board for Ireland to forward herewith to be laid before the Sanitary Authority, Copies of an Order made by them revoking their Order of the 19th ultimo Containing Regula-tions with reference to Ships from Denmark having on board bales of Rags, or bedding

Sanitary Sub Officers Report — I got the Service Water pipe Cut off from the main pipe in Mary Street Which Supplied the the House of Thomas Jeffares as ordered by him.

The house of Patrick Harney of the Bullawn has been limewashed and disinfected and the straw and chaff burned in the yard. His two daughters were removed to the Houghton Fever Hospital with Fever.

The Meeting was adjourned to Thursday 24th November 1892.

Mr Finn stated that a Man Complained to him that a Sewage from 11 Yards and the Manure of several heaps of manure flowed the surface in the place near which two Cows of Finn had accumulated on 13th Inst. Ordered that the Sanitary Committee be directed to visit and view the premises & the Sanitary Sub Officer to visit & the Cattle Keeper Bridge St

Dr Sir

I would kindly draw your early attention to the very unpleasant condition the road and passage opposite my shop at Rosherville are for some time past. Perpetually, & more particularly since we have been visited by the now long moist weather. I need not mention the many times I had need to get my own men to clear passages (foot) in different parts of the street. I take it that I have to bring such a matter before You for thought

The flags also outside my shop very badly wants resetting and a Curb stone added to them

I trust You will see Your way to have these little deficiencies put right at as early a date as ~~possible~~ practicable Yours truly

17th November 1892

Sir

I beg to inform you that at a Meeting of the Municipal Council of Dublin held on the 11th day of November 1892 the following Resolution was adopted Viz:—

"That we express the Satisfaction with which the Council as a representative body, has learned that the Board of National Education has at length endorsed by a decisive vote, the national demand for the removal of these unnecessary restrictions upon religious freedom by which the Schools of the Christian Brothers, notwithstanding their unquestioned excellence in every department of school work, have hitherto been excluded from all share in the public Grants for elementary education in Ireland.

That we also protest against the Move-ment now openly being Organized to induce His Excellency the Lord Lieutenant to frustrate by his Veto the Act of the National Board"

I am, Sir

County Surveyors Office, Kilkenny December 26th 1892

Sir,

I am in receipt of your two letters of the 23rd Inst. One received the 24th and the other this day. In Reply I have to say that nothing can be done to repair or improve the flagways in part of Rochevon without a Special presentment for their alteration and drainage which will not be very easy to do in Consequence of the low level of the Street. Any two Ca^s Payers Can make Application for a presentment for this purpose at the next Road Sessions which will not be held till May.

There is no Contract for Keeping in repair the Roadway and footpaths of the Bridge or approach thereto on the Kilkenny side of the River, in Consequence

of

of the non attendance of Magistrates at Road Sessions previous to last Summer Assizes, so that no Presentment Could be made then, but a presentment will be made at next Spring Assizes, so that I Cannot as You suggest make arrangements to hand over the work required to the Town Commissioners, not being a Mail Road. The Address of the New Ross Town Commissioners

To

The Right Honourable

The Countess of Aberdeen.

Highly Esteemed Lady,

We, the Town Commissioners

of

1893 — Friday 10th February — Minutes Continued

of New Ross, representatives of the Inhabitants, beg to approach, and to offer You, on their and on our own behalf, our warm and heart-felt welcome to our town.

Your visit, and the object of it, should make Your presence amongst any Community of the Irish People, in any part of the world, one of pleasure and justifiable pride — pleasure, to see a Lady of Your exalted station, set such an example of goodness and Kindness of heart, and pride, that there was something amongst them to attract Your attention.

For many years, We have seen with grateful interest, Your untiring efforts to restore the Industries of Ireland, which unfortunately, have, by degrees, nearly vanished, except in some parts of Our Country, since the fostering and sustaining Care of our Native Legislature was taken away from us.

One of the industries of our Country — artistic needle-work — which in years long past, was flourishing, with many others, in this Town, has been Kept in existence here by the Care of the good Community of Mount Carmel, although they had many other very onerous duties to perform.

Amongst the principal friendly patrons ~~to Which~~ to which this good Community may feel indebted for encouragement, Your Ladyship stands very high, if not the highest, for Which the people of New Ross do feel very grateful.

Copyright: Wexford County Archive

When — as we learn with great satisfaction — Your Ladyship will cause to be exhibited at the ~~Great~~ Coming Great "World's Fair", samples of the existing remnants of our former flourishing industries, to the people of the future Great power of the world in the West, we hope — almost feel certain — that Great aid will thereby be derived for resuscitating our languishing industries at home, and particularly that of the artistic needle-work of the Mount Carmel Convent of New Ross.

If the titled and the wealthy Classes, who have been receiving vast incomes from the people who labaured at the land, for the past ninety years, had acted the truly noble part that Your Ladyship has acted for years, poor Ireland would not have been periodically visited with famine, or be so frequently compelled to be the disgrace of a Great Empire, by being from necessity, the recipient of the Charity of the surrounding Nations.

In the Year 1886, when Your noble partner, the Earl of Aberdeen, came to represent the Sovereign, as Lord Lieutenant of Ireland, the murky clouds seemed to be breaking, and gleams of the sunshine of hope, of prosperity, and gladness, flitted across the land, but the clouds closed again — he departed from us amidst the greatest outburst of popular regard ever shown by the Irish People to

any

any other representative of the Sovereign of this Realm.

We hope and pray, that the day may may not be far distant, When he will come again to receive the true fealty of a satisfied people, and that Your Ladyship may be also there to receive the grateful thanks of a nation for your truly benevolent and noble deeds.

Let the future of our nation be in gloom or in sunshine, one of the names written in light in the pages of its History will be — "Aberdeen".

That the Giver of all goodness may confer his Choicest blessings on Your Ladyship, Your Noble Husband the Earl of Aberdeen, and the other Members of Your Noble family; that your exemplary life may be long and happy, and that Your benevolent labours may terminate in a Glorious success, is the earnest Prayer of ourselves and our people.

Highly Esteemed Lady, We have the Honour to remain

Dear Sir,

I beg to acknowledge yours of yesterday. I am almost Certain I replied to yours of December 10th. I sent a list of names to the Lord Chancellor early in October, and was greatly disappointed to find it was ignored when the appointments in Wexford were made. It is my intention to Communicate with the Lord Chancellor immediately. When doing so I will keep the list of the new Rep Town Commissioners before me and hope soon to see some popular Magistrates appointed in Wexford.

Apologising for my "apparent want of Courtesey. I am Yours faithfully.

Imperial Parliament — Session 1893.

Petition

To the Honourable the Commons of the United Kingdom of Great Britain and Ireland, in Parliament Assembled.

The Humble Petition of the Blackrock Township Commissioners, under their Common Seal — Sheweth:

That the injury arising from the system of determinable Lettings in Towns is forcibly illustrated in almost every City, Town and Village in Ireland. It is caused by the unwillingness of Lessees or their representatives to expend any money on premises so let, during the last 10 Years of Tenure.

The result of this state of things is a Complete stagnation of improvements, and even repairs.

Premises let during the period referred to, are gradually falling into ruin, and consequently, all benefit derivable therefrom is lost to the State, the Municipality, and the Lessee.

Your Petitioners therefore humbly Pray, that Your Honourable House may make such legislative provision as will enable Tenants in Town Holdings, under Terminable Leases to Claim Compensation for all Permanent Improvements, within the meaning of the

been looking at the yards himself.

The Sanitary work has been done in the back yards of houses in Charles street occupied by Michael Gannon and Alfred Frost has been finished this week.

I visited the back Yards of houses Barrack Lane. I found the Yards except that of Mary Carney and she promised to have the manure removed next week. Twenty three houses visited.

The pump in Roskevon is out of repair for some time, and no water can be got. The Contractor told me there is a leak in the pump and he was making some bands of Iron to put on it to Close it on last week It is not done as yet to this time (1st March).

I visited the houses and back yards in Chapel Lane and found the sewer outside Thomas Walsh's yard and Richard Fitzhenery's yard leading out to Mary street to be stopped. Stephen Kenny is the Landlord. I Called his attention to it. He told me he would not get it opened. I will have to serve Notice on the Sanitary Doctor in the Matter.

Ordered — That the Sanitary Sub Officer serve Notice on the Medical Officer of Health to inspect and report on the state of the yards in Chapel Lane which he has reported to be in an unsanitary state.

7th March 1893.

Dear Dr Meehan

I am at present on my rounds and up to my eyes in Cholera work. I would be very much obliged to you, if you ~~would~~ saw the Clerk of the Commissioners and the Chairman of that body, and asked them to appoint a small Committee, five or six in number, with Whom I Could Consult as to the best means of preventing the Spread of Cholera Should it break out in New Ross, the provisions to be taken with a View of treating and isolating patients. There are a number of details, all matters of Organization which I should like to see arranged before-hand, so that we should be fully prepared in the event of the disease appearing, as it is feared it may during the Coming Spring

or Summer.

It would be well for the Commissioners to appoint their best business men, as it must be a working Committee. It would also be advisable for them to include on the Committee a Couple of Members of the Board of Guardians, as there should be a hearty Co-operation between the two Boards.

The Medical Officer of Health and the Executive Sanitary Officer to be Ex. Officio members of the Committee.

Please arrange this for me and let me Know when the Committee can meet me. I shall then arrange a visit

Yours Faithfully

J. F Stafford.

Mr Thomas Byrne was also present.
The Committee T. Byrne and the Clerk proceeded to Mr Colfers office.

Mr Colfer explained that some time back he went to inspect the Ground at the upper end of Bunnicen Lane, with Mr Carr Junior and his Clerk, who produced the lease under which the Ground is held, which

is situate between Bunnicen Lane and Ian Yard Lane. That by the Lease and a rough Map produced by Mr Cam, it appeared that for the houses proposed to be built at the upper end of Bunnicen Lane there would not be sufficient ground in the hands of the Town Commissioners to allow sufficient Yard-space for the houses.

Mr I Byrne produced the Ground plan of the houses and yards as originally drawn with a line drawn through the Yard space showing the very limits space that would be left for the yards of the houses.

It was agreed that Mr Colfer write to the Rev Elliott Cam asking if he would lett or sell his interest in the ground at the upper end of Cock pit-Lane, or Ian Yard Lane to the Town Commissioners.

The Renewable Lease under which Mr Cams family have held the place, had been granted by the old Corporation, and the Ground rent is now paid to the Town Commissioners.

It was agreed to proceed with the other houses unless a favourable reply might be received from the Rev E. Cam respecting the ground in Bunnicen Lane.

A Communication was read from Alex. Mc Carthy Town Clerk Cork, saying — Shep to explain my absence in London prevented me answering before now. The Corporation here manufac- -ture what is termed or known as "Ferumite" which is used for the pathways in lieu of shannon flags and made of the same material which is a species of Cement or Concrete, Kerbs are also manufactured. This is done under a licence granted by the patentees, and a Royalty is paid in respect of it by the Corporation, who can only manufacture for their own requirements. The Agent of the Patentees here is Mr R. Adams Rockmanage Anglesea Street, who will on applica tion supply you with the information you ask. Yours faithfully

Company in Belfast. The Dublin and Belfast Corporations getting it from us as very few Public bodies find it worth While to manufacture for themselves and it would not pay at all except on a small scale.

It is a Specially indurate Concrete made in flags by a patent process. We ship it in Cargoes to Various parts East and West as it is found to Compare with natural flags both in price and wear, and is easily and expeditiously laid and therefore Cheaply. We make the following Sizes 2·9" x 1·9", 2·7" x 1·9", 2·5" x 1·9" & half sizes to form break joints. flags are 2 inches thick & if You send us the Width of Your paths We Can Send Your flags to suit without further trouble Our Casting price would be 3/7d per Square Yard free on board @ Cost. 10 Square Yards Weigh one Ton.

Kerbs are 2 feet x 1·3" and sixteen of them Weigh one Ton — price 10d per ft. run. & they are made in same way as the flags and are equally well liked.

feel very much obliged if you would be so Kind as to approve of a motion at Your Board to be held at some subsequent meeting to the following effect – Viz – That Richard I. Thorpe be allowed an extension of time for payment of the arrears now due on said holding.

The Circumstances under which I make this request are these – because as You are aware there has been within the past two or three years a very Considerable depreciation in the value of farming stock. It is a well known fact Cattle have reduced 40 per Cent and on the other hand there has been no appreciable set off by any Landlords or in any form by reduction of rent or Taxes to meet this deficiency on the farmer's side. I merely want an opportunity to meet my obligations fairly provided always I am allowed breathing time for the purpose.

In addition to the sum of £27 which I paid last week I am prepared to pay a further sum of £30 before the 29th Sept. next.

I undertake to pay the Balance within a reasonable time to be approved by Your Body

Re. Labourers dwellings Scheme.

Dear Sir

In accordance with the instructions given me by a Committee of the Commissioners I wrote to the Rev. Elliott Carr inquiring whether he was desirous of selling his interest in that portion of his property at Cockpit Lane which is now waste. Mr Carr replied that he was quite willing to sell and referred me to his Solicitor Mr E. Carr for particulars of Title.

I have had some interviews with the latter Gentleman within the last week from which I conclude that for some time to come at all events, a purchase of this ground will not be practicable.

Under these Circumstances I would be glad to know whether the sites in Bunnicon Lane are to be excluded from, or retained in the existing Scheme. Indeed having regard to the alterations in the Scheme which have already taken place I would suggest that a Resolution should be passed specifying the exact sites which are to be proceeded with.

turn of the Lane appeared to be half Choked with loose Matters.

3 The Water Channel and Some of the Covered parts from Barnack Lane down by the School appeared to require Clearing & let the water pass freely.

4th That a Stench Trap instead of a Grate was desirable at the down pipe of Mr Hennessys.

5. The Committee inspected the upper end of Brennan's Lane. There appeared to be a very offensive effluvium in the place.

1 The Committee Caiisidered the Sewer at Mr Hennessys Corner should be properly Covered over to prevent Sewer gas from rising there.

2 That the Grate at the upper end of the passage raised and properly Cleaned out, and if Space at the entrance to the Sewer would allow, a Check-stone to be fixed so as to prevent loose Matters from going down into the Sewer to Cause obstruction.

3 The Water Channel and Covered parts from Barnack Lane down to the Grate to be Cleared so as to let the Water pass freely in the passage

Kilkenny May 5th 1893

To Wm Gobin Esq. Town Comrs. Office New Ross.

Dear Sir

I beg to thank you for your letter of the 12th Inst. As it will be more Convenient for me to go to Ross direct than on my way to or from Enniscorthy, I shall arrange to go on any day the Commissioners may

Lettle

As regards professional Charges I will make a thorough examination of the neighbourhood and report generally, as well as on such sources of supply as the Comrs may point out, for ten Guineas.

The above sum will include expenses and the report will contain approximate estimates &c

If the Comrs decide upon going on with any scheme, I will prepare detailed plans, Specifications and Estimates &c and Superintend the Carrying out of the Work for the usual 5% on expenditure.

If I was on the above terms I worked for the Enniscorthy Town Comrs. Of Curse if Your Comrs only require an Opinion or report on one source the fee would be less, but it is always well to Compare Sources and get the best obtainable at reasonable Cost.

For the report on the one source I would Charge £3.3.0 and expenses.

Kindly let me Know if the above meets with Your Commissioners' Views.

Yours faithfully

W. Fitzgerald Barry.

New Rop 10th May 1893.

Gentlemen

I understand that in planning the houses in Church Lane You are to Create an alley way or narrow passage ~~Lane~~ some 80 or 90 feet in length. This alley is to turn at Right angles at my gate and leading into the Rookery I am quite Certain this plan will be the greatest nuisance I ever saw

in any town. I would suggest that the passage be left by the Gable end of Mr Hawletts house leading from the Rookery to Church Lane direct. You could give me a passage at rere of new houses leading from passage by the Gable of Hawletts' houses, I Could put a Gate at the entrance to my passage and by this ~~Means~~ arrangement you will have your range of houses Continuous from the south or lower end and the Alley way will be done fifty feet shorter with scarcely any turns in it. I think there should be a good wide passage by Hawletts house Suppose You were to have a House less in the range. I am quite sure that if You leave the passage in the Centre leading up to my Gate and then turned at right angles leading on to Rookery it will be a bad job.

Yours &c

Andy Cullen

The Consideration of the letter was deferred until a Reply would be received from Mr Colfer as to the Closing of the Rookery Corner.
