The estimated cost, as published in respect of

must be prepared to modify their Scheme at the Local

Inquiry by dropping one of the Cottages proposed to be

erected in this Division. If this course be not adopted,

alteration in the estimate must be regarded as an amendment

of the Scheme, as made and published, and it would be necessary

The Plan complies with their requirements, but a specification

Dear Sir,

As the Local Govern[illegible] Board
Inquiry opens here on 20th inst, you will be good
enough to remind the Guardians of the necessity
of bringing forward evidence in support of the —
Representations on which the Scheme is based. - The
two points made by the Representations are 1st that
the number of existing houses is insufficient for the
accomodation of the Labourers of the district, and
2nd that the houses in the district occupied by
Labourers are in an unsanitary state = This latter
part of the Representation will in general be best supported
by the Medical evidence, but the Guardians ought
themselves to be prepared to give evidence as to the
insufficiency of the present house accomodation. They should,
if possible, show the number of Labourers employed in the
Division and the number of houses for their use, and
particularly give instances of Labourers who have to
travel an unreasonable distance to their work,
or of farmers who cannot get sufficient labourers

Officer, or other Officers, were read,

Local Government Board
Dublin 15th October, 1886.

By the L.G. Board for Ireland to state,

of the Board of Guardians of New Ross Union,

ceived from their Inspector, Mr E. Bourke, his

of the Local Enquiry held by him into an Improvement

scheme made by the Guardians under the Labourers (Ireland) Act.

The Scheme proposed the erection of 241 cottages in 33 Electoral Divisions of the Union, but the Sanitary authority withdrew six of these at the Inquiry. Mr Bourke reports that in some cases the representations were not signed by the requisite number of rate=payers while others did not suggest localities for the new cottages, and that sufficient care does not appear to have been taken in selecting sites with regard to water supply. It also appears that there was a misapprehension on the part of signatories to representations as to the meaning of the term "insufficient accommodation" many houses having been proposed on that ground where unsanitary houses exist at present. Mr Bourke states that after a careful consideration of the evidence taken at the Inquiry, and an inspection of the several sites, he is enabled to recommend sanction to the erection of 159 cottages, = the remaining 76 being unsuitable or unnecessary for the reasons set forth in the Schedules to his report, copies of which are enclosed for the information of the Sanitary Authority. The result of the Inquiry may be summarised as follows:=

something less than one statute rood

labourers houses now stand. The position is stated by the
Land Commissioners and the Guardians' Engineer to be most
unsanitary unsuitable and in consequence of there being four
several interests to be provided for in fixing a fair rent
it is probable that such rent if fixed will not be less than
from £5 to £7, and possession cannot be obtained until the
present occupants are evicted. This seems a very high rent
considering that no land goes with the proposed sites, and
that the average rent of other sites with half an acre
attached is not expected to exceed 8/- or 10/- per site.

The Commissioners during the hearing of the case
strongly urged that this case ought to be adjourned,

I am directed by the [illegible] Board
for Ireland to acknowledge the receipt of your letter
of the 9th instant relating to the taking of certain

under the Circumstances represented by you the

In reply I am to state that the

such Consents unless he has been expressly
authorised to do so by his appointment by his

such an Agent cannot be deemed to have the

8th January 84

I have already sent in my bill for fee of £2-2-0 for attendance at the Local Government Inquiry under Labourer's Act at New Ross. I have received £1-1-0 on account of that sum, & now request payment of balance due. The Local Government Board have sanctioned the above amount in Carlow & other Unions, so that I see no reason why I should not receive what others have been paid for similar loss of time & trouble.

£1-1-0 would scarcely pay my necessary expenses.

Faithfully Yours

Richd B. Carey

Medl Officer St. Mullins District.

Resolved — Dr. Carey, having appeared before the Vice-Guardians and explained the Circumstances under which he demands the extra fee which were that he had only three Houses to inspect and had the same trouble in Attendance as the other Medical Officers who inspected a much larger number of Cottages, and had to come a Distance of 13 miles — that he be paid such extra fee, subject to the sanction of the Local Govt Board.

Sir,

I am directed by the Local Govern
to acknowledge the receipt of the Minute of the
the New Ross Union of the 8th instant with respect to the
remuneration claimed by Dr Cardiff, Medical Officer of the
Carrigbyrne Dispensary District, for inspecting and certifying
as to the Sanitary condition of Labourers' dwellings for the purposes
of the Labourers (Ireland) Acts.

In reference thereto, I am to state that the Local
Government Board were advised that the terms of the fifth section
of the Labourers (Ireland) Act, 1883, imposed on the Sanitary Officer
the duty of giving the certificate in proper cases without any previous
agreement or stipulation as to payment, and the Vice-Guardians will
observe by reference to the Labourers (Ireland) Act, 1886, that the
duty in question is definitively cast upon the Sanitary Officer by Section 7,
sub-section 3 of that Act; while, as regards the remuneration,
Section 8, Sub-section 2, prescribes that a Sanitary Officer shall be
entitled to be remunerated for any duty performed by him according
to a scale to be fixed by the Sanitary Authority with the approval
of the Local Government Board.

Local Government Board, as required by that Section, and that he

Dear Sir,

I think it a...
of the Vice-Guardians the present positio...
Scheme - The orders fixing the fair ... plots
taken for the purpose of the Scheme, were made by the Sub-Commission
on 30th Nov: last. It was necessary that the month allowed for
appeal should elapse before any further step should be taken.

This brought the time up to the 30th Dec: and on the opening
of the Land Commission Court last week I prepared and forwarded
pursuant to rule, a draft order for approval of the Commissioners,
When this draft has been approved of, it must be engrossed on
parchment in duplicate and Signed by the Commissioners. -
I expect to have such engrossments signed by end of next
week, when my part of the work will be completed, and the
Vice-Guardians will be in a position to apply for the Loan

Local Gov. Board
Dublin 19 March 1887

Sir

I am directed by the Local Gov. Board to acknowledge the receipt herewith for amendment of the Scheme of the Vice-Guardians of New Ross Union for Sanction to Loans required to carry into execution Improvement Schemes under the Labourers (Ireland) Acts.

The reply to Query III in each Case includes a Sum in respect of "acquisition of Lands" but this would appear to be a mistake as the Guardians are taking the lands on lease for 99 years and not by absolute purchase.

The Board will be glad to be furnished with Certified Copies of the plans. Specifications and estimate of the proposed Cottages

Dear Sir

With reference to the letter of the Local. Gov: Board of 19th inst. returning Loan application for amendment, I would wish to direct the attention of the Board to the fact that Amend III mentions "acquisition of Lands" which I construe to include acquiring land by lease as well as by purchase.

I asked for the full Sum mentioned in the estimate for acquisition of land because in no other way can the actual expenses of the Scheme be paid.— The Local Gov. Board instructions prescribe that the Loan shall not exceed the original estimate for each house, and the applications as they stand are confined to that estimate. but if the item of legal expenses is to be cut down from the gross estimate for each Division in proportion to the number of houses actually built, the estimate becomes

If however this item be questioned, then the legal item is insufficient, and I fail to see how any proper estimate of this item could be given at the Commencement of a Scheme. I think before amending the applications it would be better to put my views before the Local Govt Board.

Yours Very truly
