Clerk's Office,
Wexford Union,
11 May 1888

Dear Sir,

I do not think the houses could be properly built, without a Clerk of Works. We were very lucky in our selection, and I assure you a great deal will depend on that. A Clerk of Works should be prepared to visit a building at any time, and not have regular set visits - always coming when least expected. He ought to be a strict tectotaller - while at work at least - He should be honest, ~~and~~ straightforward, and a respectable man in every sense of the word - as in a great measure, on his vigilance will depend the success of the work. He should have a fair knowledge of the building trade be a good judge of all kinds of timber, slates, stones, lime and sand, and even nails. You could not make a better selection than a respectable reliable farmer who had a knowledge of building. It would be very foolish to leave [illegible] matter in the hands of [illegible] Ratepayers - but if a ra[illegible] saw anything wrong it wou[illegible] very useful if he drew [illegible] Guardian's attention [illegible] matter. None of the Guardians present opposed this, and some Guardians actually Suggested the changes of Sites already approved of by the Board. The duty of Clerk of works is the most
important in connection with those buildings,
unless you appoint honest and competent

I have to rep
of the Guardians that Cu

executed the Bond. The other Surety
Rol. called to day and after giving a
deal of impertinence to three of my clerks who
happened to be present, refused to sign the

I ventured to contradict some absurd

I await your further instructions on
