Nov 19th

The usual weekly meeting of the Board was held this day.

Present.

C. A. Walker Esq. Chairman;
John Nunn, Colonel Colms, Wm S. Armstrong, Thomas Boley, Wm Cooney, Walter Cahill, Michael Furlong, J. R. Hawkshaw, C. Murphy, Clement Raice, Peter Pimmott, Wm Foale, Doctor Waddy, William Wadding.

R. M. Muggeridge Esq. Assistant Commissioner, was also present.

The minutes of the last meeting held on the 12th Instant, were confirmed.

The following letter from the Auditor was read:

"To the Chairman & Members of the Board of Guardians of the Wexford Union.

Gentlemen,

I am sorry to be under the necessity of calling your special attention to the very irregular & unsatisfactory state of the accounts of your Union, which have this week been brought under my Notice as Auditor. So far from the Books being kept in the manner and order directed by the regulations of the Poor Law Commissioners, whereby I would have been enabled to ascertain the expenses of each Electoral Division of your Union; the probable amount of Rate that would be required from each Division for the current half year, & the various particulars connected with the general expenditure of the Union, which has been

been already incurred; information alike essential, that both you and the Rate-payers, should be put in possession of; I am utterly unable from the grossly neglected manner in which the Books have been kept to inform you either what has been the expenditure of any one Electoral Division, or what are its existing liabilities.

The Books entitled the Provision Check account, and the Provision Receipt and consumption account, would if properly & regularly kept have shewn at once the most minute particulars of every penny expended weekly in the Cost & maintenance of the Pauper Inmates of the Establishment, instead of which I found on calling for these Books on Tuesday, that they did not contain a single entry.

I cannot estimate the difficulties & the embarrassment which this neglect may occasion; nor is it easy to find out a course now, whereby such arrears could be efficiently and promptly made up. The Regulations of the Commissioners, as regards these very important Checks of your expenditure are thus laid down in the Instructions with which both you & your Master & Clerks are furnished. (see section 10. page 24 Blue Book Regt.) It is due to your Clerk here to state that he says in explanation, he was well aware of this part of his Duty, and that he repeatedly urged the Master

Master to get these Books into the order required by the regulations.

The Clothing material Book, the Clothing Receipt Book & the Clothing Appropriation Book, which should furnish the fullest particulars of every matter connected with the Clothing of the Paupers, are, from not being balanced weekly as required, of no information whatever.

With these various obstacles and difficulties before me, I can make you no satisfactory Report, or afford you further information at present than that your total Expenditure to the 29th September appears to have been £1417.11.4 by Drafts on the Treasurer, and your credit by lodgments made by the Collectors to the same period £1256.2.7, leaving a Balance against the Union of £131.6.9.

The total amount of the Rate made was £2356.3.10 & it is therefore obvious that a new Rate will be forthwith required, and under existing circumstances I fear it must be made uniform in amount on the respective Electoral Divisions.

I am sure that your just sense of the responsibility of the office you hold as Guardians of the Union, and your duty to the Rate Payers whose interests you are elected to maintain & uphold, without fear, favor, or affection, will induce you to take such immediate measures as you may deem requisite to relieve the Union

Union from its present embarrassing position.

I have to remain,
Gentlemen,
Your faithful Sert.
Richard H. Meyrick,
Assistant Coun.r & Auditor.

Belmont 11th Nov 1842".

When it was resolved, upon the motion of Mr Raine, seconded by Mr Hawkshaw, "That, on account of the importance of the above communication, a meeting of Guardians shall be specially summoned for next Saturday to take into consideration devising measures relative to the Master".

The Clerk produced his accounts, which were examined, the Vouchers on the Treasurer being compared with the Vouchers & found to agree.

The Collectors' Books were examined & found correct.

The Treasurer's Cash Book was examined & there appears a Balance of £214 " 2 " 5 due to the Wexford Union.

produce his Books, which he did; and stated that they were all complete up to last Saturday. He was then asked if they were given in by him as correct; he replied that they were perfectly so. On being asked how he accounted for the error in the Article of Coal, the Master then stated that he had spontaneously considered, he had made an error the Coal, but could not account, why he had notwithstanding stated that the Books were correct, or why he had not corrected such error; but said he had no fraudulent motive in it.

The following are Copies of both;

The Chairman's letter to the Commissioners.

"Board Room Wexford Union
29th March 1843.

Gentlemen

At a full meeting, on last Saturday, the Guardians of this Union unanimously requested me to express to you, their regret that you have declined, by your letter of the 24th Instant, to sanction the appointment of Mr Hawkshaw as Reviser of the valuation of this Union & to hope, that as perhaps all the circumstances may not have been fully laid before you when to you, that you will now see there is good ground upon a re-consideration of the case to give your approval to the present appointment.

This Union is at present in Debt to its Treasurer the National Bank about £950, and the Directors of it have given us notice, that they will not advance any more money.

The uncollected portion of our last [illegible], after deducting bad debts and unoccupied

unoccupied houses, will not do more than cover the above sum; so that until the collection of a new Rate shall take place, we are completely without any funds to carry on the establishment to pay the numerous bills at this moment due, to meet our current expenses.

Our Board possessing the foregoing necessity for taking immediate steps for making a New Rate, and being aware that there were some Errors in the existing valuation, some changes of occupiers, & some new tenements erected, came to the resolution about six weeks since of appointing a Revisor of the Rate, at the yearly of £25. Advertisements to this effect were inserted in the Public Papers, & upon the day appointed, Mr. Hawkshaw was elected by a large majority of the Guardians; his supporters were composed of Landlords, as well as tenants; & Ex-officio, as well as elected Guardians of Men different in Religion, and Politics.

The minority, including myself, voted for the other candidate, Mr Newell, considering among other reasons per the prepponence, that the law required the person holding this situation should be a professional valuator.

I feared however afterwards upon enquiry, that the [illegible] had

had given an opinion, that it was not necessary that the Revisor of Rates should be a professional valuator, & that the Commissioners acting upon such opinion, had on many occasions confirmed the appointments of non professional men; of which there has been a recent instance in one of our neighbouring Unions, as in Gorey a respectable farmer has been appointed & approved of by you for that purpose.

The minutes of our board informed you that we were about to make such an appointment; and you pending my that we were irregular in proceeding to do so, without first having your order for it, you considerately sent a letter, dated the 16th February last, stating that you had directed the enquiries to be perfected, to enable us legally to make the appointment, & then we should report to you the name of the person and amount of salary.

Accordingly your order under date the 18th of February last, was forwarded to us, we made the formal appointment of Mr. Hawkshaw & transmitted the particulars to you.

We subsequently gave public notice to the Rate payers that we were about at a given time, to revise the valuation for the correction of Errors preparatory to making a new Rate and we appointed a committee aforesaid, who, in connection with Mr Hawkshaw, took a great

a great deal of pains to investigate what alterations should be made, we neglected to entertain objections made as to formal value, & confined the revision to errors in names, and quantities, and the insertion of new or omitted tenements.

During all which time the Minutes detailing our proceedings have been duly transmitted to you; for more than one Month we never received the slightest intimation from you, of your disapproval of the appointment of Mr Hawkshaw; our natural conclusion was, and it could be no other, that his appointment was approved of.

Now the fact is, that Mr Hawkshaw has ever since his appointment, under this your permission, been diligently occupied with the duties of this office, the revision of the valuation by him is all but one as complete; and our rate Books are also nearly all filled in according

Should we after all this have to begin again anew, this Union will be put to unnecessary expense, and extreme inconvenience, and it, and Mr Hawkshaw will not have been well treated.

Since the Attorney General, & the Commissioners, have decided, that a non Professional person is qualified to act as a revisor, we are all satisfied that Mr. Hawkshaw is as capable of that task as any other non professional man could be; he has frequently called on me to settle by Landsdowne

premises.

premises in case of disputed value, or on new lettings, and has given satisfaction to both.

We do not imagine, that in either England, or Ireland, in the present day, any man can be found who is without political opinions, or few indeed who have not attended some political meeting; but we consider, Mr Hawkshaw a gentleman of much intelligence, and experience, who will do his duty efficiently, and is incapable of acting impartially, or of suffering his decisions to be influenced by any political bias.

Under all these circumstances we have and unanimously request that you will on reconsideration approve of this appointment.

We have strong claim to make this request, having one of the functions that have endeavoured, anxiously & zealously, to work out the Act of law in its true spirit, and intention; we have also endeavoured to avoid collisions between ourselves, & the Commissioners which can never occur without impairing the usefulness of both; and I have pleasure to admit, that we have been hitherto met by you in the same kindly spirit.

But setting aside this consideration, I fear a greater evil, which we should both deplore, but which the necessity of the present case may

upon us, if further delay should

obstruct

obstruct our collection of a new Rate, namely, that per want of funds, we may be compelled to discharge the Paupers, and to close the House.

I have the Honor to be,
Gentlemen,
Your faithfully
Chas. A. Walker Chairman
to the Poor law Commissioners."

Said letter further states:

"That Commissioners feel themselves called upon to state, in reference to this Notice of Motion, that in their opinion the Board room of the Guardians ought not to be made an arena for the discussion of Political Questions. The Chairman read a Tender for the situation of Nurse from Ellen Murphy of Wexford offering her services for £19 pounds per year with the Rations of the House.

It was moved by Captain Richards, seconded by Mr. Raine, "That Ellen Murphy's offer for the situation of Nurse be taken".

Mr. Raine brought forward his Motion, of which he had given Notice, moved, seconded by Mr. Roche, "That this Board do Petition Parliament for a Repeal of the Legislature Union between Great Britain & Ireland."

Mr. Patrick Cooney moved as an Amendment & Mr. James Walsh seconded it, "That the Board do now proceed to the orders of the day."

On a Division the Amendment was lost by a Majority of 3 votes; there being 12 for & 15 against it.

The following Amendment was moved by Captain Richards, seconded by Mr. Harvey, which had been first moved by Colonel Colthurst, but withdrawn.

"That as Guardians of the Poor Laws, we deem it our Duty when assembled in this Board Room, to give our undivided attention solely to the examination of subjects connected with the administration of the Laws, and that we would consider it

it a dereliction of our duty, a total departure from the spirit of the enactment, to introduce any irrelevant matter, especially politics; as the legislature never contemplated the conversion of the Irish Workhouses into arenas for the discussion of political topics".

On a Division this Amendment was lost, there being 6 for and 16 against it.

The original Motion was then put and carried, by a Majority of 10 votes, there being 10 for & 0 against it.
