Forwarding a Communication from Mr Greene relating to the insufficiency of water supply of the Workhouse and asking for the Guardians observations on the matter

Ordered " In reference to Mr Greene's letter the Guardians consider the matter is altogether overdrawn as he refers to the great danger from tramps being not bathed.

There is plenty of water for the bathing of tramps and for the greater portion of the inmates of the Institution, the only scarcity is in Hospital and this occurs only at a certain period of the year, and the pump from where the supply for this portion is being procured is now being disused.

A Committee of the Board was summoned in reference to this matter on several occasions & the Local Govt Board were informed of their recommendations,

The Clerk's Report of Vaccination was read—this in the first meeting in every month. Number of successful cases :—

The Report of the Visiting Committee was read, and orders were made thereon, as follows :—

At a meeting of the Visiting Committee it was reported as follows on the question of providing Additional day room accommodation for the female Infirm Inmates.

Several years ago ½ the Day Room for this class of Inmates was portioned off and since then used as a Infants school room.

It is suggested that this partition be taken down and the room converted into its original use, that the Infants be provided for, by portioning off a portion of the present school room for grown children (which is a spacious one) re erecting the gallery and other fittings at present used by the Infants in this new Room, providing a stove to heat it with, making some necessary change in doors etc; the probable cost would be £4 or £5.

Your Committee Approve of this and recommend Board to have changes carried out.

Passed by the Board the Master to have the work done and Mr M.A Ennis assist him in giving estimate etc.

The following is the Committee's Report on the Inspector's (Mr Richd Kelly) Report on the State of the W.K House at his last Rathyearly inspection.

Having gone carefully into the Report the Committee beg to make the following recommendations on the different subjects mentioned therein as undernoted.

I Re general want of water and scarcity of same for flushing purposes.

The question of providing a further supply of water is under consideration. There is no danger as apprehended by the Inspector owing to the scarcity for flushing the W.C.'s in Infirmary as when no water can be obtained the Closets are not used & the accommodation being boarded.

II Want of sanitary accommodation in Body of House—

We recommend that the master be directed to obtain estimates for the erection on the male side of 3 new Closets, that they be provided with a Cistern of 300 ℔s capacity that this Cistern be filled from the existing rain water tank in the Kitchen yard and that an expert opinion be obtained as to the Cost and Construction of this work

IV "Drainage"

That this matter be brought again under the notice of the Board when the other recommendations if adopted are carried out.

V Reports of Visiting Committee.

Referring to an earlier report of the Visiting Committee we recommend that the suggestions in that Report regarding providing 2 new windows in the men's apartments and also new windows for both the male & female Consumptive Wards be carried out and that the Master obtain Estimates for the work, the Medical officer being consulted as to the most suitable kind of windows for the Consumptive Wards.
