INTRODUCTION

Poor law union material is widely accessed by students, researchers and historians as one of the few primary sources extant for the famine period in Co. Wexford and for an indepth study into the social and economic state of the county through to independence. The minute books for Wexford Union (1840-1922) are a well-utilised resource in Wexford County Archive. Research topics can range from a statistical study of the number of admissions and deaths in the workhouse, to levels of hygiene employed in the hospital, to matters regarding education, to dietary requirements in the workhouse. Although the bureaucratic nature of the Poor Law Commissioners' work resulted in the creation of significant quantities of archives, only six distinct record series are extant for Wexford Union. These include the following:

Minute books
Rough minute books
Letters from the Poor Law Commissioners
Circulars from the Local Government Board to the Clerk of the Union
Minute book re contagious diseases (animals)
Register of children at nurse

Finding aids to all extant material for Wexford Union and the other three unions in the county – Enniscorthy, New Ross and Gorey – are available in Wexford County Archive, c/o Wexford Library HQ, Ardcavan, Co. Wexford.

The Petitioners &c Sheweth,
That Your Petitioners have experienced much difficulty when about to make a Rate in dealing with Premises unoccupied on the day of a Rate being made in consequence of the conflicting legal opinions given in Courts of Justice as to the liability of such premises to be rated to the Relief of the Poor,
That with the view of obviating the difficulties which must necessarily arise so long as the Law remains in its present unsatisfactory and undefined state. Your Petitioners request that a Bill may be introduced into Your Honble House which will settle a matter so replete with disadvantage and inconvenience,
That Your Petitioners conceive it unfair to rate premises from which the immediate owner derives no benefit whatever, and would suggest that the mode of rating premises unoccupied at the time of making a Rate set forth in the Bill brought into Parliament last Session to amend the Laws for the Relief of the Destitute Poor in Ireland be adopted, which is to charge premises with Rate for whatever portion of the term for which a Rate may be made such premises may be occupied,
That Your Petitioners however desire to remark that there appears to be no provision whatever made whereby a Premises let by Lease which may at time unoccupied for years and by consequence exempt from Poor Rate, can be rated to the Landlord who of course receives rent annually from the Lessee of said premises,

That Your Petitioners think that this great defect in the existing Laws can be remedied by making the owners of premises thus circumstanced contribute rate in the same manner as Proprietors receiving rent out of Public Buildings are at present under the 10th Section of the Act 12 & 13 Vic Cap 104 obliged to pay,
And Your Petitioners will ever pray &c

a

A Letter dated 28th April 1854 from Mr. James G. Adams stating that he was directed by the Board of Guardians of Ballinrobe Union to transmit to be laid before this Board Copies of Resolutions passed by the Ballinrobe Board of Guardians, relative to the removal of Scotch and Irish paupers for England,

Order made thereon by this Board.

A Letter dated this day from Mrs Catherine Furlong Matron of the Workhouse - stating that she was sorry to be under the necessity of asking the Board to redress her grievances. That on Sunday last the Master Mr Dyke called on her for the stock she had on hands on Saturday night last, which she gave him, such as sugar. Wine - Tea - Whiskey Porter &c, That on Sunday evening he came to the Bread Store and told her that he required all the Keys of the Stores that she had in her possession - that she accordingly gave him the Keys of the bread Store - Clothing Store - Bake House - Wine - Whiskey & Porter Stores, & that on Monday morning he called on her to say the Tea was not right - that she told him he had better weight it again - and that he did so and found it was correct - that she does not mean to say that it is not the Masters duty to have those keys but she requests of the Board to know why he has not taken those Keys from her at a Moments warning why he did not take them 12 Months since - Keys which were intrusted to her care for the Last [illegible] Months

months - that Mr Durkan the Masters Clerk is now giving out the Dietary in the Masters absence - and that she has been turned out of the Stores as if she had committed a theft - that this has lessened her in the eyes of the paupers very much - that Mr Durkan has taken the liberty of interfering with her business in other respects - and that he is rather stepping out of his own way - that since she made the report of that unfortunate woman Anne Sweeny the Master has treated her in the most unbecoming Manner - and that she requires from him an explanation,

The Board have investigated the Complaint of Mrs Furlong the Matron against the Master Mr Dyke for having on Sunday the 4th Inst. taken up from her the Keys of the Bread-stone - bakery - Wine and Spirits and Clothes Stores - which Keys she has hitherto held for a period of more than 13 Years and which she considers implies an imputation upon her honesty - and lowers her in the estimation of the Inmates -

Mr Dyke in his explanation stated that he took the Keys out of her Custody, because by the Commissioners Rules he is the person who should have the Custody of them - he admitted that he found all the Articles in the Store correct, but added as his Character was not safe in her hands neither was his pocket,

The Board feel bound to remark that this last expression of the Master in reference to the Matrons character was uncalled for and unwarrantable - But that it does not lessen the high opinion the Board has invariably entertained of Mrs Furlong after its experience of her honesty and truthfulness throughout the long period she has been Matron of this Workhouse, The Board is fully of opinion she should again have the Custody of the Keys so as

The Report of the Visiting Committee was read, and orders were made thereon, as follows :—

The Queries were all answered favorably with the exception of No. 1 to which the following Answer was given, No. 1 Yes Generally. The eight Buckets of Women's Ward are not well cleaned. No. 6. They are making progress and appear much improved,

I recommend that the Boys be allowed to bathe with Doctor Deane's permission. I beg to call the attention of the Guardians to the change of Infants School room and enlargement of Clerks Office which I disapprove of as unnecessary and which cannot be done without considerable expence and trouble and I think that the Clerks Office can be rendered very convenient in the ward I have pointed out. I do not like the Master and in this ward Messrs Redmond and Dunhan can have sufficient accommodation

25th June 1856 (Signed) F. LeStrange,

Ordered that the Boys be allowed to bathe subject to the approval of the Medical Officer. The Master to take care that when the Boys are going to bathe they be accompanied by one of the Officers of the House,

Ordered that the Clerk write to Sir Griffith and state that the Guardians feel they cannot comply with his request for the reason that if it be came necessary for them to institute Legal Proceedings for the recovery of a Rate assessed on the last Valuation lists the Court would require those lists to be produced and if the demand could not be complied with the Guardians in their opinion dismiss any case that might be brought before it.

best arrangements to be made in furtherance of the Vote of this Board sanctioned by the Commissioners to make an Office for use of the Clerk are of opinion that the Probationary Ward, at present used as an Infant School can most advantageously be appropriated to that use at a very small expense by opening a door of communication into the Boardroom,

We consider that to make a useful Office and Store for the records of this Establishment, the entire of that Ward will be required. The Infant School can without any trouble or expense be removed to the Male Probationary Ward at present occupied by the Agriculturist and Masters Clerk; By this arrangement it will be necessary to put these Officers into another part of the House, and we are of opinion that a portion of the Male Dayroom can be partitioned off for that purpose still leaving ample room in the remainder of the Ward as a Dayroom for this Class. And we recommend one of the Galleries in the Girls Dormitories to be taken down which will give a supply of Timber for the Woodwork required by these changes. We also recommend a door to be opened from the Male dayroom into the Passage leading to the Dormitories but outside the door of Communication thereto by which the Boys will be kept from these

Dormitories while the Women are cleaning them each day. We also recommend that a Contract be entered into to make these Changes.

To The Guardians &c, (Signed) James M. Vicary
James Browne
Phelim Cowman.

Ordered that this Report is approved, and the recommendations contained therein adopted. subject to the approval of the Poor Law Commissioners - that the Partition proposed to be made in the Mens day room be of Timber in order that if it becomes necessary at a future time to remove it, it may be effected without expense, and that the Master lay before the Board at this day fortnight a specification of the Work which will be required to be done to carry out the contemplated changes.

The Clerk agreeably with an Order given him by the Board of Guardians at the 14th Instant laid before them at this day an estimate of the Poundage Rate which it will be necessary to strike on each Electoral Division of the Union to produce the Amount of Rate which will be required to defray the Union expenses from 29th September 1856 to 29th Sept. 1857.

Moved by James M. Vicary J.P. and Seconded by James R. Corbie J.P. passed

That the following Poundage Rate set forth in the Estimate

as on this day by the Clerk be struck on the several Electoral Divisions of this Union to defray the expenses of the Union for 12 Months commencing 29th September next with the exception of the Poundage Rate - 2/11 - placed after the Electoral Division of Piercefort which the Board hereby unanimously resolve on reducing 2/6 in the £, believing that a Rate of 2/6 in the Pound will be sufficient to defray the expenses of that Division for the period herein mentioned, viz

a Minutes of Proceedings of the Board at this day.

26th August 1856

To The Guardians of Wexford Union,

Gentlemen, We have agreeably with your request minutely examined the list furnished by Mr Rossiter of the Rates and arrears of Rates at present due a the electoral Division of Wexford, On the examination which occupied a good deal of time There being nearly 900 Cases to be inquired into - we experienced some difficulty in ascertaining the premises unoccupied a the day the Rate was made - which according to the decision recently given by the Assistant Barrister are not liable to Poor Rates - but we did not without satisfactory proof of non-occupation set down the Rate against any Tenement as uncollectable, There are however several Cases in respect of which exemption from Rates was claimed a the Ground of non occupation but the evidence placed before us in support of the claims not being as satisfactory as we desired, we felt that before recommending the Rates upon those premises to be cancelled it would be satisfactory to obtain Declarations from the Proprietors or Agents that They were unoccupied a the 1st September, 1855 - the day a which the last rate was struck - The Clerk of the Union in Compliance with our request drew out the Declarations necessary which have been made by the proper parties before a Magistrate, and we have had therefore under the circumstances no hesitation in placing the Rates due a those premises amongst the Rates which we deem to be irrecoverable, With the view of knowing & relieving in future the Guardians of Wexford Division who must of necessity investigate each year the arrears which may be due a them Division - of the responsibility of remitting rates on premises a the ground of non-

non-occupation at the period of a Rate being made, satisfactory information respecting which may not in many Cases be obtainable - we beg to suggest for your consideration the advisableness of appointing a person to go through the Division a day or two before the Rate be made to ascertain the Houses which may be unoccupied, and to furnish you with a list of them, the correctness of which to be verified on oath by him before a Justice of the Peace. The Rates which we have recommended to be struck off are classified as under Viz Rates assessed on Unoccupied Premises £74 11 6

" D— D on Houses in Ruins 22 19 3½

" D— D on Paupers 10 0 3½

Total £307 11 1

By the last Class of Cases we naturally considered the circumstances connected with each - and satisfied ourselves of the impossibility of collecting the Rate before recommending them to be cancelled. There are arrears due a Houses at present occupied by persons quite unable to pay Rates which we have not taken off in the hope that they may be paid by subsequent occupiers. We think it necessary to remark also that there are arrears due a premises the Immediate Lessors of which are little better off than paupers - and arrears due a other premises which are not claimed by any person - which have been accumulating for years, but which we owned not feel ourselves justified in recommending to be remitted as the property may shortly change hands - and the arrears or at least a portion of them will then be recovered.

We have the honor to be Gentlemen Your obt Servants,

Richd Shelton, James O'Rourke,

Poor.

Resolved that Mr Thos. M. Carty. has been requested and has consented to act as Clerk to the Board on this day

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

On reference to the Matron's Letter to the Board of the 6th Instant in which Jane mentioned as not having attended to her reports of paupers & Sick & Sat that Shaw in compliance carefully examined into the reports of her and the other Officers of the Workhouse. tho she has refused to make them in a formal Manner and never in any case unless verbally under the excitement of the Moment from what she deems an irregularity in a pauper. And Regret to be obliged to add that Shaw too often found those Charges on inquiring into them against paupers & her and other Officers to be frivolous and sometimes of so grounded a Character that Guardians must feel it your duty to reprimand the Officers bringing them instead of the Pauper.

As directed by the Board Invalids in Attendance on the 7th Instant and got
