Gentlemen

I have you have a statement of a deficiency that appears in the stocks of Provisions on the 11th February 1843, which you will have to dispose of; by either charging it to the Establishment account or to the late Master.

If I were allowed to give an opinion, I would say that it should be charged to Establishment, as your not taking stock immediately on the resignation of the late Master, renders it impossible to say what amount of the defalcation occurred in his time.

The greatest deficiency is in Tea, and it appears that four Pounds and a quarter of this accrued from the 31st December to the time stock was taken.

I beg to lay before you the Balance sheet and Abstracts per the half year ending 29th Sept 1842.

I have the Honor to be
Gentlemen,
Your obt Servt

Wexford Union

Poor-law Commissioners
Office Dublin
20th March 1844.

Sir

I am directed by the Poor-law Commissioners to acknowledge the receipt of your letter of the 16th instant, enquiring with respect to the correctness of a statement which appeared in a northern newspaper, that the Solicitor General for Ireland has given an opinion that if rent be paid by occupiers of property such occupiers are not liable to the payment of poor rate in respect thereof.

In reply I am to state that the Commissioners are not aware that such an opinion as that referred to, has been given by the Solicitor General, nor are they aware of the grounds upon which such an opinion could be formed. The grounds alleged, namely, that in such cases the Columns in the Rate Book headed Landlords Rate, & Tenants rates, could not be filled up, is not tenable. The Columns referred to, are applicable of course only to cases where such rates were in existence, the omission to fill them up in cases where there was no particulars with which they could be properly filled, could not be held to invalidate the Rate.

The Commissioners are clearly of opinion that

that the parties referred to in your letter are rateable, and that the Rate is recoverable from them.

With regard to the collection of Christopher Jeffares, I am to state that the Commissioners consider that if the Board of Guardians are of opinion that he is competent to fulfil the duties of his office, they should not, without strong reason, accept his resignation until the collection shall have been completed.

The Guardians cannot proceed under the Collectors Bond against him, or his sureties for the amount of any arrears, which may hereafter be collected by him or his successor if he ever owed any rate should finally be lost, the bond may be put in suit for the amount so lost, but it would in that case be necessary to prove, that he had not used due diligence in collecting, and that the rate had been lost entirely through his default.

The Commissioners would recommend that he should be served with an Order to collect all the rates remaining due, or such part thereof, as the Board of Guardians shall determine, within a given time, and if after the service of such order he neglect or refuse to obey the legal and reasonable directions of the Board of Guardians contained therein, he should be dealt with in the manner authorized by the 105th section of the Irish Poor Relief Act.

A form of Order and Resolution adopting the same is enclosed for the Guardians' information.

The Clerk should be enabled to prove the

the service of the order, and shall to keep a
copy to produce to the Magistrates.

I have the honor to be
