The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:—

The following Letters from the Poor Law Commissioners, and others, were read by the Clerk and directions given to answer them respectively, to the following effect (or, Orders made on them respectively as follows):—

A letter dated 11th June 1863 from Commissioners of National Education forwarding for perusal of Board of Guardians the following observation of the Head Inspector who visited the Schools of this Workhouse on 29th and 30 April last,

It would be very advantageous if some time could be given for the Boys to prepare lessons so as to afford more time during School hours for arithmetic, which is in a backward state. It would not interfere in any way with the Industrial Training which is very creditably attended to, if the hour from 7 to 8 A.M. were appropriated to this purpose. The boys being on the farm from 9 to 11 and also from 3 to 6 the former hour can easily be spared.

It appears some very objectionable young infants of two years of age visit the School rooms as they are at present. These should be kept in the Nursery till 3 or 4 years of age, as they interfere seriously with the School discipline and take away the Teachers attention from her more immediate duties.

The Head Inspector further observes with reference to Geography and Grammar, that the girls know very little of these branches, which are taught mechanically rather than intellectually

Ordered that the Master Porter be allowed to the Schools in future to prepare their lessons as suggested by the Head Inspector of National Schools, that the Guardians are of opinion that no serious inconvenience would result from having a Night Porter in the Girls School and that the Assistant Master of the Boys School be directed to attend to the backward State of the Boys as far as regards Grammar & Geography, and will be interested to hear any further suggestions in the mode of imparting these branches to the children under their care.

Ordered that the Commissioners are requested to inform the Guardians whether their proposal is sanctioned before the 29th September next a new Form of Rate Book or Collecting Book,

Ordered that if no change on these Books is at present contemplated by the Commissioners, that the Clerk take the necessary measures for the Printing of a New Rate,

Ordered that the Clerk advertise in the usual manner for Workhouse Supplies, and Tenders be considered on 4th July next,

Resolved that the Tender of Mr James Grace to supply 10th April Cappagon at 2½d per yard and of Mr Tom Jeffries to supply Dowlas at 5½d per yard the same the samples of which are accepted,

Ordered that the Clerk write to the Meat Contractor to request that he will, during the unexpired period of his Contract, supply this Workhouse with the best Meat,

Ordered that Mary Sanderson an able bodied girl, who can obtain employment outside this House, be discharged by the Master on Monday next,

The cases of provisional relief, and applications for relief were considered and decided on, as set forth in the Application and Report Books.

The number of provisional admissions to the Workhouse confirmed was	15
Ditto, disallowed	—
The number of Applicants admitted to the Workhouse was	15
The number of cases of provisional Out-door Relief was	—
Ditto, ditto, in which Relief was continued by the Guardians	—

The Report of the Visiting Committee was read, and orders were made thereon as follows:—

The queries were all answered favourably excepting N°. 1, to which the following answer was given,

N°. 1. Yes. The House is in fair order, an closet in the Infirmary yard causes an offensive smell, and ought to be removed to another place,

N°. 6. Yes. The salaries are fairly taught,

The Committee visited the Dormitories on the Mens & Womens sides with a view of carrying out the Inspectors recommendation, that windows should be opened, as the windows so opened would be through outside walls, and as the position of this Workhouse is such a thorough draught passing through the present windows from West to East, we hope the Inspector will not consider the alterations absolutely necessary. The Committee also inspected the Privys which the Inspector recommends, This is in a very improper situation to a female ward - the wall being thin and the effluvia passing through. The Privy however much cared than is necessary, and by building a low wall, and discommissioning part of the Privy pan - the smell of the yard a perfect cure & the nuisance removed be effected to a very great degree. The water closets & other wooden articles require painting, & are recommended to - Thomas Supercompose paint be used, some Lavender is wanted, Novr. 1863 (Signed) George Le Hunte

Ordered that the Ashes preserved to be carried and placed at the back wall of the infirmary and Yard that the Guardians do not think that it would be necessary to have more windows opened in the Women's wards - that the alterations required on the Privy be made by the Master without delay - that the wooden articles advertised to be painted with the Paint Inspected, & that the requisite Lavender be done as early as convenient.

The Reports of the Master and other Officers were read, and Orders made thereon as follows—:

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:—

The following Letters from the Poor Law Commissioners, and others, were read by the Clerk and directions given to answer them respectively, to the following effect (or, Orders made on them respectively as follows):—

No 17133/63 dated 17th August 1863 requesting to be furnished with a Copy of the Estimate of Rates laid before the Board and agreed to on the 8th Instant

No 17608/63 dated 21st August 1863 approving of the Change of diet proposed for the able bodied Inmates subject to the approval of the Medical Officer,

A letter dated this day from the Medical Officer stating that he cannot approve of the contemplated change in the Dinner of the able bodied Inmates as conveyed to him by the Communication from the Clerk on the 17th Instant,

Ordered that the Master is hereby empowered to purchase the quantity of potatoes that may be required for the Inmates for one week on the best terms for the Guardians,

Ordered that the Order of Mr Michael Byrne to Sweep the Chimneys of the Workhouse and Fever Hospl for one year for £4, is accepted,

Ordered that the Schoolmaster is permitted leave of absence from this evening till Tuesday Morning next,

A Letter dated this day from the Clerk of the Union stating in reply to the Inquiry contained in Commissioners Letter of 14th inst that whether it is the practice to have the Union Books at his residence, that such has been the practice and with the knowledge of the Guardians since he was appointed Clerk of the Union, now nearly 14 years, and that it was also the practice of his predecessor to have the Union Books at his residence during the Long period he filled the Office,

That during the time he has acted as Clerk the Rate Books have been at all times kept in the Workhouse and also the other Books at the times which the Law requires they should be open there for inspection. That it is doubtless a convenience to him to be permitted to discharge a portion of his duties at his house, whilst at the same time it is also an advantage to those ratepayers who require information from him, promptness to him on Poor Law matters—Officers of Contractors and others connected with the Union as he resides near, by which they thereby save the time and trouble of walking to the Workhouse a distance of nearly two miles,

That any injurious consequence could in his opinion possibly result by his transacting a part of the Union business at his house, by supposing the worst to happen, that a book was lost in going from there to his house (which is indeed very improbable) a Copy of it could be prepared, and the only loss would be the time occupied in making a Copy,

Moved by Alex. M Naughton and seconded by Alderman James Wheeler, and passed unanimously,

That the reply made by the Clerk is satisfactory to this Board, and that as during the 14 years in which he has acted as Clerk of the Union no book has been either lost or mislaid, and no inconvenience whatever resulted to the Board or Ratepayers by the mode in which the business has been conducted, we are of opinion that it would be undesirable to make any change,

The cases of provisional relief, and applications for relief were considered and decided on, as set forth in the Application and Report Books.

The number of Applicants admitted to the Workhouse was

The following Orders of the Poor Law Commissioners were laid before the Board, and directions given thereon, as follows:—

The following Letters from the Poor Law Commissioners, and others, were read by the Clerk and directions given to answer them respectively, to the following effect (or, Orders made on them respectively as follows):—

N° 169 M/63, dated 25th August 1863, subject "Poor Removal Act".

N° 1803 dated 28th August 1863 stating that they think it most objectionable that any of the Union Books should be removed from the Workhouse, that they are moreover of opinion that the Clerk should attend in his office daily from 10 to 4 as in other public Offices - and that they will hold the Clerk responsible for any departure from the usual practice of transacting the business of the Union in his Office at the Workhouse.

The Board made an order on this letter.

N° 1768/63. dated 22nd August 1863. transmitting questions for answers to be signed by the Clerk and the person who may be appointed Master Baker of the Workhouse.

A letter dated 25th August 1863 from Secretaries of Commissioners of National Education forwarded for information of the Board of Guardians the following observations of the Inspector who visited the Schools of Wexford Workhouse on 4th inst.

The course of training and instruction given in this School and the proficiency and skill attained by the pupils are fair - Both schools exhibit a decided improvement since my last visit, more especially marked however in the case of the female department. In Geography the course of instruction is rather too mechanical - in most instances confined to mere pointing out. In the boys School I found that about one half of the Junior Division of the second Class are not instructed in simple rules - the teacher stating that such children had been either lately committed or promoted. The Elements of these rules however should have been taught to the Junior division of the first Class.

Additional teaching power is required in the female department the average attendance under Miss Harpur, including Infants amounting to 170 for the last 12 months. I do not believe that such a large number could be adequately instructed in a sound elementary manner by any one unassisted Teacher.

Ordered that the Board are of opinion that the services of a second Female Teacher are not required.

Ordered that the Medals be awarded by the Master, but not to any Workhouse Officers on the best terms for the Guardians.

The cases of provisional relief, and applications for relief were considered and decided on, as set forth in the Application and Report Books.

The number of provisional admissions to the Workhouse confirmed was	14
Ditto, disallowed	
The number of Applicants admitted to the Workhouse was	11
The number of cases of provisional Out-door Relief was	
Ditto, ditto, in which Relief was continued by the Guardians	
The number of other Applicants in the Relieving Officers' Books relieved by order of the Guardians was	19
The number of Applicants for whom Relief was not ordered
