The Bonds and other securities in force were laid before the Guardians by the Clerk, together with his Re... thereon, as follows: (this on the second Meeting after the Annual Election in every year).

Ordered that Bridget Thompson be removed off Kilbride Division and placed on the Division of Whitechurch,

---

The Committee, appointed to inquire into the cause of the increasing Expenditure of the Union House, find that the Articles which most swell the cost are Flour Milk and wine, The food of children in the House has been changed so as to increase the consumption of the two first Articles, while their Market price has risen, The Doctor cannot recommend any alteration, as the health of the children has very much benefitted by the change of diet, The Consumption of Wine depends on the nature of the diseases which come under the Medical Officer, The consumption of necessaries such as Coal & Gas seems very heavy, In the Fever Hospital the quantity consumed in the week ending May 11th was one Ton, while the average number of patients was 18, In the week ending May 18th it has fallen to 3/4 of a Ton; which is still too much,

The general average of the House has fallen from 2/8 per head in the week ending May the 4th, and 2/7 in the week ending May 11th to 2/5 3/4 in the week ending May 18th,

The Committee hope the reduction will go on, The Consumption of Coals in the House might be reduced by a change in the setting of the boilers in the Wash House, and by a better stove in the Laundry is as still to reduce the average,

The cost of gas has increased in an extraordinary degree, in the week ending 4th of January 1868 the cost of gas consumed was £2 8, In the corresponding week of

Next Meeting of the Guardians to be held on Saturday, the

Signed,

Clerk of the Union.

[Wexford—Printed at "The Independent" Office.]

1869 the cost was £2.3-9, exceeding even the old cost of Candles,

As gas was introduced as more economical than Candles, the increase in this expense deserves peculiar attention, The question was moved to the Committee that paid nurses would be economical and advantageous generally,

We recommend that the Matron of the Fever Hosp[t]. make a return of the quantity of Coals allowed for each fire in the Hospital,

of their number, who was then a Prisoner, on his way to the Petty Sessions at Taghmon who came here and took the Children with him; This explanation intended to given the Poor Law Commissioners, early upon, on the 8th Inst, and upon that my Statement on that day was not sufficiently intelligible.

The Clerk's Report of Vaccination was read—(this on the first Meeting in every month). Number of successful cases

The Report of the Visiting Committee was read, and orders were made thereon as follows:—

The Clerk laid before Finance Committee on this day, agreeably with an Order given him by the Guardians on the 12th Instant, the cost of Gas consumed in the Workhouse and Fever Hospital since its introduction into these Institutions,

Report of Committee

The Committee appointed to enquire into the increasing expenditure of the Workhouse, having met in consequence of a discrepancy which appeared in the Statement made by the Gas Contractors, as compared with the Masters Calculations, Mr Tyler the Agent of the Gas Company being in attendance – found that the Masters Calculations included the Gas consumed in the Fever Hospital as well as in the Workhouse, while the Contractors Statement referred to the Workhouse alone.

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

The Calculations were for periods which did not coincide, These appear to account for the discrepancy, The great increase in the expense of Gas consumed took place after January 1st 1866, when the Gas pipes were cleaned. To reduce the expenditure the Committee recommend that in the Summer months Candles be substituted for Gas in the Workhouse, That when Gas is used again the Porter of the Workhouse take charge of the Gas by checking the Quantity admitted to the House by the light in the Hall, and that his Salary be increased by One pound per year.

The Committee likewise recommend that the Master confer with the Matron of the Fever Hospital from time to time on the Consumption of Gas in that Establishment with a view to its economical use.

The Agent of the Gas Co has kindly undertaken to examine the Gas Meters, and to suggest any alterations likely
