The Clerk drew attention to the fact that the Cholera Ship was aground - half filled with water
There was a considerable deal of argument over the matter and it was finally agreed that a committee should visit her & have full power either to put her into repair if possible. If not to remove the superstructure erected by the guardians and dispose of her in whatever manner they thought best
The Committe believed that the vessel is in a bad state and is utterly unfit for a Cholera Ship. The superstructure when carefully removed can be easly transpered to the ground near the Hill of Bull Rossland and used there for an intercepting Cholera Hospital (Ireland) acts 1893
The Committee afterwards directed the Clerk that Advertisements be issued at once - to be considered on the 4th August for the careful removal of the Superstructure

The following Letters from the Local Government Board for Ireland or others were read, and directions given thereon as follows:

No 31974. 9th August 1894 - Refering to the Cholera ship and reminding the guardians that a the danger of a visitation of Cholera is by no means past and that if they abandon the vessel no time should be lost in securing either another ship or erecting a suitable Cholera Hospital for the port of Wexford.
The Local Government Board prefer Hospitals ashore and if the guardins decide to do this it will be necessary for them to acquire the site by agreement, because the Act of 1893 cannot come into operation untill after the Publication in the Dublin Gazette of an order declaring that Asiatic Cholera exist in Ireland
Ordered:- The guardians are compelled to abandon the vessel as she is now wholly unfit. They could not possibly get a piece of land for a site by agreement they only thing possibly for them to do (as they now look on a floating hospital as most objectionable) is to wait untill the Act of 1893 be put into operation, and in the maintime to take down the present superstructure on the Cholera Ship. to carefull number and store it with a view to erecting an hospital in the least possible time when the Act is put in force. The Guardians thinks the Act is most objectionable in not allowing suitable sites to be selected at once, and the think the President of the Local Government Board should be drawn to the matter with a view of further legislation.

Received from the Wexford Corporation the sum of £52-0-5 being the proportion allotted by the Local Government Board to paid by the Wexford Urban Sanitary Authority as its share of the expence of the Cholera Ship.

From the Tagoat & Kilrane Labour Federation Branch enclosing the following copy of a resolution passed at their meeting on Sunday August 18th 1894
That we urge on the guardians of the Wexford Union to consider the advisibility of at once taking steps towards the erection of the Cottages which have been authorized by the Local Government Board in the Electoial Divisions of Kilrane and St Helen's, and we think it an unjustice on the part of the Guardians if they allowed these labourers to live during the coming winter in the wretched houses which they at present occupy and which would not afford shelter for cattle. The following Letters from the Local Government Board for Ireland or others were read, and directions given thereon as follows:

No 37, 689 14th Sept 1894. Referring to recent occurences of Scarlatina in the Wexford District, and asking the Guardians to call on the Medical officer to furnish a report as the number of cases attended by him and what steps are taken to prevent the disease
The Clerk stated that on receving the letter he wrote to Dr Pierce who reported as follows.
Since the 1st August last I have met with 25 cases of Scarlatina. I had 14 of them removed to the Fever Hospital, as early as possible, and had the houses where to occupied disinfected by the Sanitary Sub officers. The persons having the care of the others refused to have them removed.
Four deaths have occurred, two been children under two years old. I find it impossible to isolate cases which occur in the Town of Wexford, as large numbers of the houses are over crowded, and many contain only two small rooms. I believe the disease is being spread by the practice of sending children to schol who suffer from a mild form of the disease. I have sent notice to the mangers of the schools, warning them against this danger. I believe the disease cannot be prevented from spreading, unless cases are removed to the Fever Hospital as the occur. I recommend that a ward be set apart in the Fever Hospital, to act as an observation ward, to which mild and undeveloped cases could be romoved, since during the present epidemic, manay slight cases occur which are as capable of spredding infection, as severe cases. I have five cases of the disease under my care all of which are mild
Three of the deaths mentioned occurred amongst the cases which were not removed, two being under two years old. The burials took place as soon as possible and the rooms furniture &c. were disinfected.
Where cases have been treated at their own homes, and have recovered, I had the houses disinficted, but disinfection could not be properly carried out, owing to smallness of houses, and the want of places to put the healthy inmates during disinfection. A disinfecting chamber is badly required as bedding clothing &c cannot be properly disinfected without one. Two cases which

Copyright: Wexford County Archive

occurred at Coolcots are now convalescent. I recommend that you direct the Sanitary Sub. to visit the house – which adjoins the Union Graveyard and have it properly cleaned and disinfected. The other cases which occurred in the Town of Wexford will be attended to by the Sanitary Sub officers of the Urban Sanitary Authority. I believe that many mild cases have occurred since the epidemic, which have either been overlooked or neglected, and that the disease has been spread by the careless admixture of these with healthy persons. The disease has been hovering round the town of Wexford for the past year, and is consequence of neglect of precautions on the part of the lower classes, show no sign of abating fresh cases occurring in different parts of the district, almost daily.

Ordered:- That the house at Coolcots be at once thoroughly disinfected by Sanitary Officer Doyle That the Docter consult as to the setting apart on an obsenenation Ward and that Dr Pierce attention be called to the section of the Act which enables him, where insufficient accomodation exest to have the patients compulsorily removed.

Cream per centage:—Mr. Cleary, 9 ; Mr. L. Hayes, 9 ; Mrs. Maddock, 10
Mr. Gill, ; Mr. ~~Malone~~ Hanahan 9 ; Mr. J. Hayes, 9

Owing to one of the Contractors not supplying the full quantity of milk during the week. I had to procure extra milk at 8.d per gallon to supply the deficeency. The extra cost will be deducted from the Bill of the Contractor who did not supply according to his contract.

Ordered :- Approved

The new Apartments of the Sisters are now been finished and I think the work on the whole has been well done It might be well if a committee would see it to-day

Ordered :- A Committee Messrs Codd J.P. Roche J.P. Furlong and the Chairman visited and reported that the work was well done.

Medical Officers Report :- Gentlemen. As the pipes from the Bath at Fever Hospital are now layed down might I kindly ask the Guardians to erect a Water Closet in Bath room it won't cost much and will be a great boom to the house.

On my visit to the Fever Hospital on yesterday the Matron called my attention to a reservoir at rear of one of the Water Closets It is in a fearful state and I consider it dangerous to health It was suggest that two of the Guardians visit the place and see what can be done

During the week I was called to see five little girls their ages ranging from 9 to 14 years at the Workhouse I was surprised to find them in an exceedingly dirty state

I recommend that all the hardy little girls get a tepid bath occasionally – say about once a fortnight and that the Board appoint an officer to see that it be done.

Ordered :- That advertisements be issued for a Water Closet to be erected as suggested. That Mr. Pacocke and the Mayor be appointed a committee to visit the Fever Hospital and report on the reservoir (Mrs. Irwin Schoolmistress denied that the children were dirty as reported) and a Committee was appointed for Wendesday next to investigate the matter
